BUSINESS REVIEW

During the Reporting Period, the Group's revenue slightly declined as compared to the prior period. Such decrease was mainly attributable to the completion of two major services contracts for the provision of street cleaning services in Sham Shui Po District (East) and Sham Shui Po District (West) in May 2021, representing a decrease of revenue amounting to approximately HK\$31,137,000 as compared to the prior period.

On the other hand, the management has continuously strove for more business opportunities and the Group has (i) been awarded two services contracts from bus and ferry cleaning solutions in January 2021 and April 2021 respectively; (ii) been granted a renewal of the contract in providing street cleaning services in Tsuen Wan District (West) since May 2021; (iii) been engaged in the provision of related handling services for public crematoria in the territory since May 2021; and (iv) an increase in engagements for other cleaning solutions from the private sector.

Cleaning Solution Services

The provision of cleaning solutions services remains the main business of the Group. The Group has engaged in this business for over 30 years and has been steadily growing since its inception. Our business covers a comprehensive portfolio of environmental cleaning solutions, including providing street cleaning solutions, building cleaning solutions, bus and ferry cleaning solutions, waste management services, external wall and window cleaning, confined space cleaning as well as pest control and fumigation services in Hong Kong.

Notwithstanding the fact that our major subsidiary was suspended by the Food and Environmental Hygiene Department of the Government of Hong Kong (the "FEHD") from bidding cleaning service contracts, the Group has successfully secured two service contracts from the FEHD during the Reporting Period through another subsidiary.

Furthermore, we have been awarded seven large scale services contracts from the government for a period of three years from October 2021 onwards. The award of such contracts by the government signifies their recognition of our quality service, which is able to meet their stringent requirements.

Property Management Services

Though the revenue contributed by our property management services remains limited, it provided a stable and steady revenue stream to our Group. We believe the property management services may pose a synergy effect on our existing cleaning solution services and become one of our main income streams in the future.

OUTLOOK

Moving forward, we remain confident about the prospects of the environmental cleaning services industry. The award of seven large scale services contracts from the government in the four quarter of 2021 strengthens our Group's business and financial status for further expansion.

We will continue to establish closer ties with our customers from both government and private sectors to secure various new projects in the industry and broaden our customer base. While striving to explore further business opportunities and maximize our market share in our business segments, we will continue to implement stringent internal control to enhance operational efficiency and to improve our financial position in order to maximize the return for our shareholders.
