CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of directors of EDICO Holdings Limited ("EDICO" or the "Company"), I present the financial results of the Company and its subsidiaries (collectively the "Group") for the financial year ended 30th September 2021 (the "Year").

Under the COVID-19 pandemic, protracted social distancing restrictions and cautious Hong Kong IPO market sentiment amid the regulatory development in mainland China posted constant challenges to our business. Nevertheless, we have strengthened our operational capabilities and overall competitiveness throughout the years for customer retention. We believe the demand of the premium financial printing services will stay strong in long term and EDICO is well positioned to capitalize the opportunity. Meanwhile, we devoted substantial effort in integrating sustainability practices into our daily operations to create value for our stakeholders.

I would like to take this opportunity to express my heartfelt gratitude to my fellow directors, our management team, staff, business partners and shareholders for their devastating support over the Year.

Chan Tsang Tieh
Chairman and Executive Director
Hong Kong, 28th January 2022

CEO'S MESSAGE

As a dedicated and devoted financial printer, EDICO is obligated to offer 24x7 uninterrupted services to our customers in any circumstances. This is particularly challenging under the COVID-19 pandemic. In order to balance the well-beings of all our stakeholders, we have to ensure our offices fully functional, as well as protecting the health and safety of our colleagues, customers, business partners and the communities. We were doing all we can to keep everyone safe by following all the pandemic prevention measures advised by the Hong Kong government, and proactively implementing a range of precautionary measures, from stringent sanitation and cleaning protocols to workplace distancing, temperature checks, access controls and online meetings.

Despite the challenges faced, we continued to invest in our hardware and software over the past few years to strengthen our operational efficiency and overall competitiveness. Experienced business development personnel has also joined our sales team during the Year for expanding our customer base. These early investments have successfully mitigated the impact of the paperless listing and subscription regime introduced by the Hong Kong Stock Exchange. Moreover, EDICO has always proactively supported sustainable development for striking a proper balance among business growth, environmental and social values. During the Year, we launched the “No Plastic Fantastic” program to reduce plastic consumptions in our offices.

Looking forward, we are cautious but hopeful about the prospects for the macro-environment ahead. There are still considerable uncertainties for the duration of the COVID-19 outbreak and when the social distancing measures could be lifted. Expectation of returning to normal life largely depends on the severity of the new coronavirus variants.

We remain positive on the outlook of the Hong Kong IPO market in long term as the pipeline of IPO applicants stood at high level, in particular for biotech and health care companies, and that will foster the demand for premium financial printing services. We will endeavor to persevere the provision of the best financial printing services in the city and capitalize any market opportunities, not only for IPO-related documents but also other listing related documents such as annual/interim reports, and Environment Social and Governance (“ESG”) reports. Our missions are to provide premium, unique and tailor-made services and solutions to our customers, and create the long-term values of the shareholders.

Donati Chan Yi Mei Amy

Chief Executive Officer

MANAGEMENT DISCUSSION AND ANALYSIS

FOREIGN CURRENCY EXPOSURE

The Group's businesses are located in Hong Kong and most transactions are conducted in Hong Kong dollars ("HK\$"). Most of the Group's assets and liabilities are denominated in HK\$, except for certain trade receivables which were denominated in United States dollars ("USD") and cash on hand and bank deposits which were denominated in USD, Renminbi and Sterling Pound.

The Directors are of the view that the Group's operating cash flow and liquidity are not subject to significant foreign exchange rate risks and therefore, no hedging arrangements were made during the Year 2021. However, the Group will review and monitor the relevant foreign exchange risk from time to time based on its business development requirements and may enter into foreign exchange hedging arrangements when applicable.

PRINCIPAL RISKS AND UNCERTAINTIES

Our Group generally do not enter into long-term agreements with our customers and may not be able to retain existing customers or secure new customers. We engage our subcontractors on a project-by-project basis for some of our translation works and printing works to our subcontractors and their failure to meet our requirements may affect the quality of our services. However, customer satisfaction and quality services are the cornerstones of the Group's long-term sustainable growth. Thus, the Group will continue to invest in our facilities and our staff to further enhance our service standard and competitiveness.

LIQUIDITY, FINANCIAL RESOURCES, BORROWING AND GEARING RATIO

The Group's primary use of cash is to satisfy the working capital and capital expenditure needs. Historically, the Group's use of cash has mainly been financed through a combination of cash received from the provision of services and financial support from the shareholders.

As at 30th September 2021, the Group had cash and cash equivalents of approximately HK\$65.9 million (2020: HK\$69.7 million) and did not have any bank borrowings. Going forward, the Group believes that the liquidity requirements will be satisfied using a combination of cash generated from operating activities and net proceeds from the listing of the shares of the Company (the "Shares") in issue on GEM of the Stock Exchange (the "Listing"). Our Directors believe that in the long term, the Group's operation will be funded by internally generated cash flows and, if necessary, additional equity and/or debt financing.

As at 30th September 2021, the Group's current assets amounted to approximately HK\$84.4 million (2020: HK\$86.3 million (restated)) and current liabilities amounted to approximately HK\$22.4 million (2020: HK\$31.2 million (restated)). Current ratio was 3.8 times as at 30th September 2021 (2020: 2.8 times (restated)).

The gearing ratio was not applicable to the Group as at 30th September 2020 and 2021 as the Group did not have any outstanding debt.

MANAGEMENT DISCUSSION AND ANALYSIS

There was no change in the Company's capital structure during the Year 2021. Considering the current financial position of the Group and provided that there is no unforeseeable adverse circumstance, the management does not anticipate the need to change the capital structure. The Board believes that the Group is in a healthy financial position and has sufficient resources to support its operations and meet its foreseeable capital expenditures.

MANAGEMENT DISCUSSION AND ANALYSIS

COMPARISON OF BUSINESS OBJECTIVES WITH ACTUAL PROGRESS

The following is a comparison of the Group’s business objectives as set out in the Prospectus with actual progress for the Year.

Business objectives as set out in the Prospectus

Actual progress for the Year

— Upgrading the Central Office and setting up a new office ^(Note)	The renovation work of the Central Office had been completed by the end of December 2018 and a new office was relocated to a more spacious office located in New Kowloon Plaza, Hong Kong by the end of August 2020.
— Expanding the workforce ^(Note)	The Group has recruited additional staff to join the sales, services and operations departments.
— Upgrading and acquiring equipment and software ^(Note)	The Group has upgraded its computer, email system and existing server configuration, and acquired conference rooms’ facilities for serving its customers.

Note: Reference is made to the Prospectus under the section headed “Use of Proceeds”. It is disclosed that the Company planned to utilise a portion of the Net Proceeds for setting up a new office which (i) was to replace the office located at New Kowloon Plaza, West Kowloon, Hong Kong (the “**Kowloon Office**”) upon the lease expiration in August 2018 and (ii) would be in the proximity of the Central Office. At the time the Group designated its plan in the section headed “Use of Proceeds” and the time it was actively sourcing an appropriate office in the vicinity of Central and western districts in Hong Kong subsequent to the Listing, the Group found that rental had soared significantly during the intervening period. During the year ended 30th September 2018, the Group, therefore, resorted to extend the lease contract of the Kowloon Office for another year. The lease contract was further extended till August 2020. The Company announced on 7th August 2020 in relation to the selection of location of new office. In view of the social unrest in Hong Kong since mid-2019 and the outbreak of the COVID-19 worldwide, the economy and the market situation of Hong Kong have been severely hit. It is expected to have a continuous adverse impact on the economic outlook which remains uncertain. After careful considerations, the Group decided to keep two workstations in two separate districts to avoid intermittent disruption of our services for enhancement of risk management and contingency purpose. Besides, the office rents in Kowloon area are generally lower than that in Central and Western District, the Company finally decided to relocate the Kowloon Office to a more spacious office located in New Kowloon Plaza, having additional conference room facilities to our existing and potential customers. Having considered the increasing by competitive business environment and the uncertainties of the economic outlook, the Group did not fully utilise the Net Proceeds according to the planned time frame disclosed in the Prospectus and the Company’s annual report 2018/2019. We planned to delay the utilisation of the Net Proceeds from 31st March 2020 to 31st March 2021 and further from 31st March 2021 to 30th September 2022.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of EDICO Holdings Limited
(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of EDICO Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 60 to 104, which comprise the consolidated statement of financial position as at 30th September 2021; and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended; and notes to the consolidated financial statements, which include a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30th September 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

Key audit matters identified in our audit are summarised as follows:

- Revenue recognition
- Impairment assessment of contracts assets and trade receivable

Key Audit Matter

How our audit addressed the Key Audit Matter

Revenue recognition

Refer to Note 6(a) (significant accounting judgments and estimates) and Note 8 (revenue) to the consolidated financial statements.

The Group recognised revenue of HK\$57,532,000 from provision of financial printing services for the year ended 30th September 2021.

Revenue from provision of financial printing services is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation at reporting date using input method as the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs. We identified the recognition of revenue from provision of financial printing services as a key audit matter due to the financial significance of revenue in the consolidated financial statements and the significant judgements required in determining the earliest time at which the Group can reasonably measure the outcome of the performance obligation and estimation required for measuring the progress and variable consideration.

Our procedures in relation to revenue recognition mainly included:

- Obtaining an understanding of the processes and testing the Group's internal controls over the recognition of revenue;
- Reviewing signed fee proposals with customers to understand the terms of the provision of financial printing services to assess if the revenue recognition policy applied by the Group is in compliance with HKFRS 15 *Revenue from Contracts with Customers*;
- Assessing the reasonableness of management's revised judgement applied in determining the earliest time at which the Group can reasonably measure the outcome of the performance obligation and estimation required for measuring the progress and variable consideration; and
- Checking the mathematical accuracy of and examining the incurred costs to date by tracing to source documentation on a sample basis and evaluating their recoverability.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matter

How our audit addressed the Key Audit Matter

Impairment assessment of trade receivables and contract assets

Refer to Note 6(b) (significant accounting judgments and estimates) and Note 18 (trade receivables) and Note 19 (contract assets/contract liabilities) to the consolidated financial statements.

As at 30th September 2021, trade receivables and contract assets recognised by the Group amounted to HK\$20,908,000 and HK\$3,312,000 respectively. The related provision for expected credit losses for trade receivables and contract assets recognised by the Group amounted to HK\$6,550,000 and HK\$3,019,000 respectively.

Management judgement is involved in assessing the appropriateness of forward-looking information used for estimating expected credit losses. Management estimated the expected credit losses, based on historical credit loss experience by customers as adjusted for forward-looking information. The impact of economic factors, both current and future, is considered in assessing the likelihood of recovery from customer, where applicable.

We focus on the area due to the significant management's judgement and estimation involved in assessing the expected credit losses.

Our procedures in relation to impairment assessment of trade receivables and contract assets mainly included:

- Reviewing management's assessment of the overall policies and procedures in relation to expected credit losses model for estimating impairment provisions and assessing the appropriateness of the model applied by the management;
- Assessing the reasonableness of management's judgement and estimates for expected credit losses by examining the information used by management, including testing accuracy of the historical default data, evaluating whether the historical loss rates are appropriately adjusted based on current economic conditions and forward-looking information; and
- Checking the subsequent settlements made by customers to relevant bank records on a sample basis.

INDEPENDENT AUDITOR'S REPORT

OTHER MATTER

The consolidated financial statements of the Group for the year ended 30th September 2020 were audited by another auditor who expressed an unmodified opinion on those statements in their report on 15th December 2020.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with our agreed terms of agreement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Wan Tak Shing (Practising Certificate Number: P04844).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

EDICO Holdings Limited (the “Company”) was incorporated as an exempted company with limited liability in the Cayman Islands on 20th May 2016 under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands (the “Companies Law”). The shares of the Company are listed on the GEM (“Listing”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 2nd February 2018.

The Company’s registered office is at the offices of Conyers Trust Company (Cayman) Limited, Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The Company has established its principal place of business in Hong Kong at 8/F., Wheelock House, 20 Pedder Street, Central, Hong Kong.

The Company’s immediate and ultimate holding company is Achiever Choice Limited, a company incorporated in the British Virgin Islands (the “BVI”). The ultimate controlling shareholder of the Company is Mr. Chan Tsang Tieh (“Mr. Chan”), an executive director and the Chairman of the board of directors of the Company.

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 28.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”) which is also the functional currency of the Company and all values are rounded to the nearest thousand (“HK\$’000”) unless otherwise stated.

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), and accounting principles generally accepted in Hong Kong.

The consolidated financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on GEM of the Stock Exchange.

The consolidated financial statements have been prepared on a historical cost basis.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are accounted for in accordance with HKFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as value in use in HKAS 36 Impairment of Assets (“HKAS 36”).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. BASIS OF PREPARATION (Continued)

2.1 PRIOR YEAR ADJUSTMENTS

In prior years, the Group recognised revenue from the provision of financial printing services for IPO projects only to the extent of the recoverable costs incurred until the time when its customers submitted the application proofs with the Stock Exchange, at which the management previously determined that it was the earliest time that it could reasonably measure the outcome of the performance obligation. Thereafter the Group estimated the amount of consideration based on the historical gross margins and measured the progress using cost-to-cost input method. Apart from these, the Group presented the revenue net of the expected credit losses on contract assets.

During the year, the Company has carried out a reassessment on the Group's revenue recognition policy and has made a revised judgement that the earliest time at which the Group can reasonably measure the outcome of the performance obligation is at the time when its customers obtain approval-in-principle letters from the Stock Exchange. Variable considerations were also re-estimated with reference to the Group's efforts or inputs to satisfy the performance obligations according to the related contract terms during the course of reassessment. Further the Group has reclassified the expected credit losses as part of the administrative expenses.

The Company's directors consider that the most appropriate treatment to address the aforesaid is to make prior year adjustments with the comparative figures restated.

The effect of adjustments in the consolidated statement of profit or loss and other comprehensive income for the year ended 30th September 2020 is as follows:

	Notes	Year ended 30th September 2020 (previously report) HK\$'000	Prior year adjustments HK\$'000	Year ended 30th September 2020 HK\$'000 (Restated)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of the Company and its subsidiaries. A subsidiary is an entity, directly or indirectly, controlled by the Company. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control over the subsidiaries, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Group. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one of the elements of control described above.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

IMPAIRMENT OF NON-FINANCIAL ASSETS

Where an indication of impairment exists, or when annual impairment testing for an asset is required, the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IMPAIRMENT OF NON-FINANCIAL ASSETS (Continued)

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure is capitalised in the carrying amount of the asset as a replacement.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful lives. The principal annual rates used for this purpose are as follows:

Leasehold improvements	Shorter of lease terms or 20%
Furniture and fixtures	20%
Office equipment	20%
Computer equipment	20%

Residual values, useful lives and the depreciation method are reviewed, and adjusted prospectively if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss on disposal or retirement is recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets or financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

All recognised financial assets are required to be subsequently measured at amortised cost or fair value on the basis of the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Classification of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and effective interest rate

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss (“ECL”) model on trade and other receivables, bank balances and cash and contract assets which are subject to impairment assessment under HKFRS 9 Financial Instruments (“HKFRS 9”). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets without significant financing component. For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether the credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor’s ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor’s ability to meet its debt obligations.

FINANCIAL INSTRUMENTS (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default; (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of “investment grade” as per globally understood definitions.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;

FINANCIAL INSTRUMENTS (Continued)

Financial assets (Continued)

Credit-impaired financial assets (Continued)

- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;

or

- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exceptions of trade receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Where ECL is measured on a collective basis to cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

FINANCIAL INSTRUMENTS (Continued)

Financial assets (Continued)

Measurement and recognition of ECL (Continued)

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics. If the Group has measured loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12m ECL at the current reporting date.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the group entities are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

Financial liabilities including trade payables and accruals are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

CASH AND CASH EQUIVALENTS

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

LEASES

A contract is a lease if the contract transfers the right to control the use of an identified asset for a period of time in exchange for a consideration.

The Group as lessee

The Group recognises a right-of-use asset and a corresponding lease liability in which it is the lessee, except for a lease that has lease term of 12 months or less and does not contain a purchase option. For these leases, the Group recognises the lease payments as operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets

The right-of-use assets should be recognised at cost and comprise the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received and any initial direct costs incurred by the lessee. If the Group has an obligation for costs to dismantle, remove or restore the underlying asset to the condition required by the terms and conditions of the lease, provision is recognised and measured under HKAS 37 Provision, Contingent Liabilities and Contingent Assets. The costs should be included in the right-of-use asset.

Right-of-use assets are depreciated over the shorter of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease. The right-of-use assets are presented as a separate line in the consolidated statement of financial position. The Group applies HKAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the “Impairment of non-financial assets” policy.

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value.

Lease liabilities

Lease liability is initially measured at the present value of lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If the rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of lease liability comprise fixed lease payments, including in-substance fixed payments, less any lease incentives receivable.

Lease liability is presented as a separate line in the consolidated statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability, using the effective interest method, and by reducing the carrying amount to reflect the lease payments made.

REVENUE FROM CONTRACTS WITH CUSTOMERS

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Provision of financial printing services

The Group provides financial printing services under contracts with customers. Such contracts are entered into before the services begin. Revenue from provision of financial printing services is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation using cost-to-cost input method as the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs.

Contract assets arise when the Group has right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. They are assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration.

Contract liabilities arise when the Group has obligation to transfer goods and services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

The progress towards complete satisfaction of a performance obligation is measured based on cost-to-cost input method, which is to recognise revenue on the basis of the Group’s efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, that best depict the Group’s performance in transferring control of services.

GOVERNMENT GRANTS

Grants from government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the consolidated statement of profit or loss and other comprehensive income over the period necessary to match them with the costs they are intended to compensate.

EMPLOYEE BENEFITS

Salaries, annual bonuses, annual leave entitlements and the cost to the Group of non-monetary benefits are accrued in the year in which the associated services are rendered by employees of the Group.

The Group operates a defined contribution scheme, the Mandatory Provident Fund retirement benefits scheme (the “**MPF Scheme**”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees’ basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s contributions vest fully with the employees when contributed into the MPF Scheme, except for the Group’s voluntary contributions, which are refunded to the Group when the employee leaves employment prior to the contributions vesting fully, in accordance with the rules of the MPF Scheme.

INCOME TAX

Income tax comprises current and deferred tax and are recognised in profit or loss.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INCOME TAX (Continued)

Deferred tax liabilities are recognised on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except:

- (1) when the temporary difference arises from the initial recognition of goodwill or an asset or a liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (2) in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax losses can be utilised, except:

- (1) when the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (2) in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

FOREIGN CURRENCIES

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are translated into the functional currency at the rates of exchange prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

RELATED PARTIES

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person,
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

Or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or a joint venture of a member of a group of which the other entity is a member);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

RELATED PARTIES (Continued)

(b) (Continued)

- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

6. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group's accounting policies.

Estimates and judgements are continually evaluated and are based on historical experiences and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

(a) REVENUE RECOGNITION

The Group recognised revenue from provision of financial printing services only to the extent of the recoverable costs incurred until the Group can reasonably measure its progress towards complete satisfaction of the performance obligation. Thereafter the revenue is recognised over time by reference to the progress towards complete satisfaction of the performance obligation at the reporting date. Variable consideration is estimated based on the Group's efforts or inputs to the satisfaction of performance obligation according to the contract terms.

Significant judgement and estimates are required in determining whether the Group can measure reasonably the outcome of its performance obligation and the uncertainty associated with the estimation of the progress and variable consideration. Incorrect judgement and estimates would affect the Group's operating performance in future years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (Continued)

(b) IMPAIRMENT ASSESSMENT OF TRADE RECEIVABLES AND CONTRACT ASSETS

The Group makes allowances on trade receivables and contract assets based on assumptions about risk of default and expected loss rates. The allowance for trade receivables and contract assets reflects lifetime expected credit losses i.e. possible default events over the expected life of the trade receivables and contract assets, weighted by the probability of that default occurring. Judgement has been applied in determining the level of expected credit losses, taking into account the future cash flow for trade receivables and contract assets including a probability weighted amount determined by evaluating a range of possible outcomes based on the historical credit losses experience by customers, economic factors as well as forward looking estimates in assessing the likelihood of recovery from customer at the end of each reporting period. While the allowance is considered appropriate, changes in estimation basis or in economic conditions could lead to a change in the level of allowance recorded and consequently on the charge or credit to profit or loss.

7. OPERATING SEGMENT INFORMATION

From the perspective of the Group's senior management, it is considered that assessment of operating performance is focused on the Group as a whole for the purposes of resource allocation and performance assessment. Therefore, management considers the Group has one reporting segment i.e. provisions of financial printing services. Accordingly, only entity-wide disclosures, major customers and geographic information are presented.

GEOGRAPHICAL INFORMATION

The Group's operations are located in Hong Kong and no non-current assets of the Group are located outside Hong Kong.

INFORMATION ABOUT MAJOR CUSTOMERS

For the year ended 30th September 2021, there is no revenue from customers (2020: one) contributing over 10% of the total revenue of the Group. Revenue derived from a single customer contributing over 10% of the total revenue of the Group for prior period was HK\$8,259,000.

CONTRACT ASSETS

As at 1st October 2019, contract assets amounted to HK\$1,675,000 (restated).

Contract assets are initially recognised for revenue earned from the provision of financial printing services as the receipt of consideration is conditional on the Group's future performance. Upon the rights to consideration become unconditional, the amounts recognised as contract assets are reclassified to trade receivables. The increase in contract assets in 2021 and 2020 was the result of the increase in work completed but the rights to consideration are conditional at the end of the current year.

Typical payment terms which impact on the amount of contract assets recognised are as follows:

The Group's provision of financial printing service contracts include payment schedules which require stage payments over the service period once certain specified milestones are reached. The Group requires certain customers to provide upfront payment range from 10% to 20% of total contract sum as part of its credit risk management policies and this has resulted in a contract liability at early stage of the services.

Financial assets		
At amortised cost	83,883	85,516

32. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of the Group's financial instruments were reasonably approximate to their fair values as at 30th September 2021 and 2020.

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise trade and other receivables, rental and other deposits, cash and bank balance, short-term bank deposits, trade payables, accruals and lease liabilities.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The directors of the Company review policies for managing and monitoring each of these risks and they are summarised below.

INTEREST RATE RISK

The Group has no significant interest-bearing assets. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest bearing bank deposits with floating interest rates and lease liabilities. The Group has not used any interest rate swaps to hedge its interest rate risk.

The directors consider there is no expected significant exposure to interest rate risk and hence, no sensitivity analysis is presented.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

FOREIGN CURRENCY RISK

The Group's businesses are located in Hong Kong and all transactions are denominated in HK\$. Most of the Group's assets and liabilities are denominated in HK\$, except for certain trade receivables were denominated in US\$ and certain cash on hand and bank balances were denominated in US\$, Taiwan Dollar, Renminbi and Sterling Pound.

Since HK\$ is pegged to US\$ and bank balances denominated in other foreign currencies were insignificant, the directors consider there is no significant exposure expected on foreign currency transactions and balances and hence, no sensitivity analysis is presented.

CREDIT RISK

The Group's credit risk is primarily attributable to trade receivables, contract assets, rental and other deposits, other receivables, and cash and bank balances and short-term bank deposits. The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge a contractual obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position at the end of each of the reporting period.

The credit risk for cash and bank balances and short-term bank deposits is considered limited as such amounts are placed in reputable banks with high credit rating assigned by international credit rating agencies.

For other receivables and deposits, the amount receivables are insignificant and the rental deposits are available for netting off its leases payment in case of default by the counterparties. The Group assessed the ECL for other receivables and deposits are insignificant.

In order to minimise the credit risk on trade receivables and contract assets, the management of the Group has delegated a team responsible for determination of credit limits and assessing credit quality of the customers. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. The credit quality of the debtors is assessed based on their financial position, past experience and other factors. The Group has policies in place to ensure credit terms are granted to reliable debtors. In addition, the Group performs impairment assessment at the end of each of the reporting period to ensure that adequate impairment losses are made on trade receivables (on a collective basis) and contract assets (on an individual basis). Impairment of HK\$2,559,000 (2020: HK\$3,629,000) is recognised during the year.

Details of the quantitative disclosures are set out below in this note.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

TRADE RECEIVABLES AND CONTRACT ASSETS

An impairment analysis is performed at each reporting date using a provision matrix within lifetime ECL. The provision rates for the measurement of lifetime ECL of the contract assets are based on those of the trade receivables as the contract assets and the trade receivables are from the same customers base. The provision rates of trade receivables are based on days past due of trade receivables. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than two years.

Set out below is the information about the credit risk exposure on the Group's trade receivables and contract assets using a provision matrix.

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

34. CAPITAL MANAGEMENT

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value. The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, share buy-backs or issue new shares.

The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 30th September 2021 and 2020.
