Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

MANAGEMENT DISCUSSION AND ANALYSIS

Interim Dividend

The Board resolved not to declare any interim dividend for the nine months ended 31 December 2021 (corresponding period in 2020: nil).

Business Review

During the Period, the Group was met with the challenges stemming from the resultant impact of the COVID-19 outbreak. The slowdown of the business activities in the books publication, purchase and distribution industry had led to an adverse impact to the business development of the Group. In the circumstances, the Group shall closely monitor the development of the pandemic and continuously assess its impact on its operations. Nevertheless, the Group's environmental protection business remained exhibiting its growth potential during the Period.

Publication, purchase and distribution of books business

During the Period, the revenue contributed by such segment was approximately HK\$2.7 million (corresponding period in 2020: HK\$599.3 million) from publication, purchase and distribution of books in the PRC.

The significant period-to-period decrease in the revenue of the Group generated from the book publication purchase and distribution business segment was due to the resultant impact of the COVID-19 pandemic suffered by the industry participants. With the continued sporadic outbreak of COVID-19 confirmed cases in various regions in the PRC as a result of the evolvement of the COVID-19 variants, an overall slowdown of business activities along the industry chain led to a tightened cash flow and, in turn, a generalised delay in the settlement of payments and receivables among various industry participants. The Group, adopting its prudent capital management perspective, had to continue with its approach to temporarily ease the pace of its operations in this business segment. Meanwhile, the Group had been strengthening its effort to recoup the outstanding receivables from certain downstream distributors as its ongoing commitment to maintain its liquidity and financial position to facilitate its business operations and development.

Environmental protection business

During the Period, the revenue contributed by such segment was approximately HK\$27.3 million (corresponding period in 2020: nil)

The Group commenced recognizing the environmental protection business segment following the acquisition of Shanxi Jinxi Keyuan Environmental Protection Science and Technology Company Limited ("Jinxin Keyuan") in February 2021. Such business segment commenced its substantive operation in March 2021, and its operations have been developing in a progressive manner since then.

Financial Review

During the Period, the revenue of the Group was approximately HK\$30.0 million (2020: HK\$599.3 million), which HK\$2.7 million was generated from the publication, purchase and distribution of books (2020: HK\$599.3 million), and the revenue of HK\$27.3 million from the environmental protection business. The revenue decreased by approximately HK\$569.2 million or 95.0% as compared with the nine months ended 31 December 2020, principally attributable to the decrease in the revenue generated from the publication, purchase and distribution of books business. Please refer to the section headed “Business Review” above for details.

Loss attributable to owners of the Company for the nine months ended 31 December 2021 amounted to approximately HK\$40.5 million (2020: loss attributable to owners of the Company: HK\$8.1 million). The loss for the nine months ended 31 December 2021 was mainly attributable to a significant period-to-period decrease in the revenue of the Group generated from the books publication, purchase and distribution segment stemming from the impact of the COVID-19 pandemic, partially offset by the period-to-period decrease in its administrative expenses and finance costs due to its cost saving effort in light of the general business environment as well as the revenue recognised from the new business segment of the environmental protection business.

Outlook

The management of the Company will seize the opportunity to promote the development of various businesses according to the annual development plan determined by the Board.

In relation to the publication, purchase and distribution of books business, the Group will continue to actively advance its cooperation with well-known institutions, such as Shanghai Juvenile Children’s Publishing House Company Limited (上海少年儿童出版社有限公司) to expand its business scale in the cultural industry. Meanwhile, the Group will enhance its efforts to recover outstanding payments from downstream books distributors, thereby reducing the scale of receivables and strive to minimize the negative impact resulting by the pandemic.

The Group will continue to increase the investments in and business scale of environmental protection as well as its support for Jinxin Keyuan to expand the business scale and improve the revenue stream. Meanwhile, the Group will actively explore other environmental protection businesses, with an aim to achieve business breakthrough in the areas of solid disposal and green and ecological rehabilitation, so as to optimize the Group’s industrial layout.

During the financial year, the Group will actively cooperate with various investors to expand its financing channels, so as to improve the Group’s investment ability. The Group will also continue to integrate various resources and strive to achieve its operational goal for the whole year to bring better return to its shareholders.
