MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

The revenue of the Group for the nine months ended 31 December 2021 decreased by 8.19% as compared with the same period in 2020. The reason for the decline in turnover was mainly due to the impact of the epidemic, which led to the indirect shutdown of infrastructure projects, which in turn led to a reduction in the demand for explosives and the demand for blasting services.

For the nine months ended 31 December 2021, selling and distribution expenses increased by 55.40% compared to the same period last year, mainly due to the increase of the mining business. In addition, the increase in diesel prices has also led to a sharp increase in transportation costs, this is, an increase in selling and distribution expenses.

BUSINESS REVIEW AND PROSPECTS

Business Review

During the period ended 31 December 2021, the Group's gross profit decreased by 19.81%. The main reason was that the increase in the price of raw material ammonium nitrate and diesel oil was greater than the increase in the Group's sales price, resulting in a decrease in gross profit. With the gradual stabilization of prices, the Group's gross profit will improve.

Anhui Jinding Mining Co., Ltd., which was acquired by the Group in October 2020, has gradually been on the right track, bringing stable income to the listed company.

Business Outlook

On 30 December 2021, a wholly-owned subsidiary of the Group completed the acquisition of a 27% equity interest in a mining company from an independent third party. The business scope of the Target Company includes the mining of molybdenum and copper ore, flotation processing and sales of non-ferrous metal products.

The Group will take this opportunity to expand the industrial chain of the Group, enrich the mineral resources of the Group, and together with the original business of selling civilian explosives and providing blasting operations, will create sustainable and stable income for the Group and create greater returns for the shareholders.
