Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged in the provision of IT infrastructure solutions whereby the Group assesses, designs and implements IT infrastructure solutions for the Group's customers by integrating different hardware and software sourced from third party suppliers to satisfy various IT requirements and needs of the Group's customers.

On 8 October 2021, the Group completed the acquisition (the "Acquisition") of 70% of the issued share capital of ServiceOne International Holdings Ltd ("S1IHL") which is principally engaged in the provision of IT infrastructure management services and it has become an indirect non-wholly-owned subsidiary of the Company. The financial results, assets and liabilities of S1IHL have been consolidated into the financial statements of the Company since 8 October 2021. Details of the Acquisition are set out in the Company's announcements dated 9 July 2021 and 8 October 2021 and the circular of the Company dated 17 September 2021.

BUSINESS REVIEW

For the three months ended 30 June 2022 (the "Reporting Period") as compared to the last corresponding period ended 30 June 2021 (the "Corresponding Period"), the Group's revenue increased by approximately 56.7% and our gross profit increased by approximately 84.3%.

OUTLOOK

Our Group considers that the current business environment for the short-to-medium term continues to be challenging with the new wave of COVID infection caused by the Omicron variant. The Group's performance is likely to be affected by the negative business sentiment due to the ongoing global outbreak of the coronavirus epidemic, the delay of customer projects due to COVID lockdown or customers' work from home policy, the uncertain global economy due to the continuing US-China tensions, the prolonged shipment schedules of various IT hardware due to global component shortage, the slowed global supply chain due to China's COVID-19 lockdowns, the contraction in China's economy, and the global economic pressure of increasing inflation. These factors might have a negative impact on our business volume, delay our products and services delivery, and exert pressure on our pricing terms and hence on our profit margin and profitability. Given the level of uncertainty on the duration of the economic crisis and the shape of recovery, there is a wide range of possible outcomes for the year.

Management Discussion and Analysis

Our Group dynamically adjusts our business prioritization plans for the short-to-medium term to reflect the shift in current customer demand and capture new business opportunities that help our customers navigate their challenges.

Regarding our IT infrastructure solutions business, we believe that enterprises and institutions will continue to adopt digital transformation to enhance operational efficiency and create digital business models by digitalizing or doing business online. Therefore, we continue to strengthen our product portfolio and support resources to provide our customers with the best-valued solutions and services. We remain focused on our long-term plan to drive strategic development and growth in three key business opportunities, namely:

- (i) Hybrid Cloud, Multi-Cloud & “as-a-Service”
- (ii) Container Technology & DevOps
- (iii) Cyber Security

These technologies enable us to provide higher value and more comprehensive total solutions and services to our customers through their digital transformation journey.

To capitalise on the opportunities mentioned above, we continue to strengthen our strategic relationship with our suppliers while enhancing our specialised technical expertise and domain know-how on the latest and proven infrastructure solutions to deliver larger-scale projects. We also strive to develop a more diversified customer base across private and public sectors.

The Group is pleased to announce that it has formed a joint venture company, Expert AI Enabling Limited, with Dr. Keith C C Chan. Expert AI Enabling Limited will develop and provide products, tools, solutions, services, and trainings to enable the use of artificial intelligence. Given the strong demand for artificial intelligence in the market, the establishment of Expert AI Enabling Limited aligns with the growth strategy of the Group.

Regarding our IT infrastructure management services, we believe enterprises and institutions will continue to demand high-quality services across the growing Asia-Pacific region, including outsourcing, helpdesk, workflow automation services, project management, and hardware maintenance. Our recent establishment of our second Service Desk Centre in Kuala Lumpur, Malaysia, in addition to the one in Guangzhou, China, has enhanced the geographical coverage and provided the resiliency of our services which enables us to better serve our customers in the uncertain global economy.

Management Discussion and Analysis

Therefore we continue to explore business opportunities to:

- (i) Expand our customer base to cover new industries across the Asia Pacific region.
- (ii) Create additional values for our customers by expanding our services portfolio to include consulting services and vertical retail solutions.

These initiatives enable us to provide higher value and more comprehensive services to more customers across more industries.

Further to the successful completion of the Acquisition, we will continue to explore any appropriate merger and acquisition opportunities to enhance our enterprise value. This will only be carried out in a cautious manner and has to be for the benefit of our Group and in the shareholders' best interest.

In view of the new normal business environment, the Group will continue to be cautious in managing the business risk; be well prepared to tackle the challenges in such an ever-changing economic and business environment; and monitor and execute the Group's strategy carefully to drive sustainable business growth. Furthermore, throughout the past two years' epidemic situation, we have taken prudent but decisive steps on cost optimization in line with the business model. We have further strengthened the Group to become a more resilient organization in dealing with the changing business environment in the post-COVID-19 local and global economy.

To conclude, we will continue to focus on our core businesses in providing innovative and integrated IT infrastructure solutions and IT infrastructure management services in both private and public sectors across the Asia-Pacific region in order to enable our customers to extract the maximum value from their IT investment and engagement.

Management Discussion and Analysis

FINANCIAL REVIEW

Revenue

The Group's revenue increased by approximately 56.7% from approximately HK\$115.8 million for the Corresponding Period to approximately HK\$181.5 million for the Reporting Period, which was primarily attributable to the net effect of the decrease in demand from our customers for the IT infrastructure solutions during the Reporting Period as compared to the Corresponding Period and the contribution from the IT infrastructure management services amounted to approximately HK\$68.2 million. Such business has been included in the consolidated results of the Group since the completion of the Acquisition in October 2021.

Gross profit and gross profit margin

For the Reporting Period, our gross profit amounted to approximately HK\$31.9 million, representing an increase of approximately HK\$14.6 million, or approximately 84.3%, as compared to that of the Corresponding Period of approximately HK\$17.3 million.

The Group's gross profit margin for the Reporting Period was approximately 17.5%, representing an increase of approximately 2.6 percentage points as compared to that of the Corresponding Period of approximately 14.9%. The increase in the Group's gross profit margin was mainly due to the higher gross profit margin generated from IT infrastructure management services.

Other income and gains

Other income and gains increased by approximately HK\$1.9 million, or approximately 188.9%, from approximately HK\$1.0 million for the Corresponding Period to approximately HK\$2.9 million for the Reporting Period. The increase was mainly due to the net effect of (i) government subsidy from the Employment Support Scheme under the Anti-Epidemic Fund to the Group of which HK\$2.4 million recognised during the Reporting Period and (ii) a decrease in write back of other payable under sundry income of HK\$0.6 million for Reporting Period.

Selling expenses

For the Reporting Period, the Group's selling expenses amounted to approximately HK\$10.5 million, representing an increase of approximately HK\$0.7 million (or approximately 7.5%) as compared to Corresponding Period of approximately HK\$9.8 million. Such increase was mainly attributed by the increase in our staff cost.

Management Discussion and Analysis

Administrative expenses

The Group's administrative expenses for the Reporting Period were approximately HK\$16.3 million, representing an increase of approximately HK\$12.7 million (or approximately 354.9%) from approximately HK\$3.6 million for the Corresponding Period. Such increase was mainly attributed by (i) decrease in staff cost by HK\$0.6 million; (ii) increase in amortization cost of intangible assets related to the Acquisition by HK\$0.9 million; and (iii) HK\$12.3 million of administrative expenses incurred by IT infrastructure management services.

Expected credit losses on financial assets

The Group has applied the simplified approach to financial assets to provide for expected credit losses prescribed by HKFRS 9 Financial Instruments. As a result, a reversal of impairment loss of less than HK\$0.1 million was made for the Reporting Period (2021: an impairment loss of less than HK\$0.1 million was recognised).

Finance costs

The Group's finance costs for the Reporting Period were approximately HK\$1.5 million, representing an increase of approximately HK\$1.4 million (or approximately 1,998.6%) from approximately HK\$0.1 million for the Corresponding Period.

Such increase was mainly caused by the recognition of interest expenses on convertible bonds issued on 8 October 2021, for the purpose of the partial settlement of the Acquisition.

Income tax expense

The Group's income tax expense for the Reporting Period was approximately HK\$0.9 million, representing an increase of approximately 8.5% from approximately HK\$0.8 million for the Corresponding Period. The effective tax rate for the Reporting Period was 16.1%, after excluding the non-deductible interest expenses on convertible bonds of HK\$1.4 million incurred for the Acquisition and the non-assessable government subsidy of HK\$2.4 million, which was comparable to that of 16.7% for the Corresponding Period.

Profit attributable to owners of the Company

The profit attributable to owners of the Company increased by approximately 16.0% from approximately HK\$4.0 million for the Corresponding Period to approximately HK\$4.7 million for the Reporting Period, which was primarily attributable to the above mentioned effects.

Basic earnings per share for profit attributable to owners of the Company for the period ended 30 June 2022 amounted to HK0.58 cent, as compared to HK0.50 cent in 2021.

The Company has adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. After making specific enquiry of all the Directors, the Company was not aware of any non-compliance with the required standard of dealings regarding securities transactions by the Directors during the Reporting Period.

CORPORATE GOVERNANCE PRACTICE

The Company has applied the principles and code provisions in the Corporate Governance Code (the "Code") as set out in Appendix 15 to the GEM Listing Rules. In the opinion of the Board, the Company has complied with the Code during the Reporting Period, save for the deviation from such code disclosed below.

Pursuant to code provision C.6.1 of the Code, the company secretary of the Company should be an employee of the Company and have day-to-day knowledge of the Company's affairs. Mr. Lau Siu Ki, being the Company's company secretary, is not an employee of the Company. The Company has assigned Ms. Wong Yuk Lam, the general manager, finance of the Group, as the contact person with Mr. Lau Siu Ki. Taking into account that Mr. Lau Siu Ki has substantial experience in the corporate secretarial field, providing professional corporate services to Hong Kong listed companies and it is more cost effective to engage an external service provider, the Directors consider that it is beneficial to appoint Mr. Lau Siu Ki as the company secretary of the Company.

The Directors believe that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture which would benefit the Company's stakeholders as a whole. The Directors will continue to review its corporate governance practices in order to enhance its corporate governance standard, to comply with the increasingly tightened regulatory requirements from time to time, and to meet the rising expectation of the shareholders and other stakeholders of the Company.
