MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

As a well-known internet content developer and publisher in the PRC, the Group mainly engages in the development, production and distribution of products including mobile games, internet dramas and TV dramas, and strives to offer more quality productions to our users. In the second quarter of 2022, the Group has adopted the business strategy to increase investments in self-operated development in our two major business segments, namely game business and film business, in order to reserve more prime products for our long-term development.

For the game business of Linekong, “Dream Mansion (築夢公館)” has been launched, whereas the internal technical tests for several products such as “蠻荒紀元” and “Ys VIII (伊蘇VIII)” have commenced. In respect of publishing strategy, the Group will continue to explore overseas markets (i.e. Korea, Japan and North America, etc.), and at the same time enhance the development of female-oriented games, casual games and IP values of games.

The film business of Linekong has entered the phase of matrix product development. We will continue to enrich our potential IP reserves and promote quality drama productions. It is expected that one to two high-quality productions of the Group will be broadcasted in 2022. The filming of internet dramas “對你不止是喜歡” and “Mejaz Regulus in the World (摩耶人間玉)” have wrapped up successfully and are at an intense post-production stage to be scheduled for launch. In addition, we continue to create and refine the production scripts of different IPs, including “Ancient Music Records (古樂風華錄)”, “雲海傳” and “陷入我們的熱戀”.

The Group also attempted to develop food e-commerce business in the second quarter of 2022, with Douyin, Kuaishou, Tmall and other e-commerce platforms as the main sales channels. Such business is currently at the initial exploration stage.

Going forward, the Group will continue to proactively implement its corporate strategies, focus on and invest in self-operated game development on the one hand, and continuously acquire quality IPs on the other hand. Leverage on these high-quality content products, the Group aims to actively drive the industry development, promote cultural diffusion, as well as to establish a good reputation and create a strong branding effect.

Favorable research and development of new products of Linekong Games and accelerating expansion in overseas game markets

“Dream Mansion (築夢公館)”, a game product independently developed by the Group, is a female-oriented AVG mobile game based on a highly immersive suspense plot. Players act as the landlord of a mansion and interact with six tenants of different personalities to create a heartstring-tugging adventure. The product has been launched in the second quarter of 2022.

“蠻荒紀元” is the Group’s latest generation of MMORPG fairy tale mobile game which featured aesthetic realism graphics to provide players with a glimpse of the splendor and prosperity of ancient era and a glamorous fairy tale experience. The Group has contracted with local publisher in Thailand in relation to the product and the game is scheduled to be launched in Thailand within the year.

Based on our research and analysis of overseas markets, the Group further cultivates the market in South Korea and continues its stable operation of the game “大航海之路”. In addition, the Group has been exclusively licensed to adapt and globally distribute the mobile version of epic ARPG Japanese game “Ys VIII (伊蘇VIII)”. The entire adaptation of “Ys VIII Mobile (伊蘇VIII Mobile)” is supervised by Falcom and provides players impressive gaming experiences with its craftsman spirit. Apart from engaging well-known Japanese writers to refine and upgrade the plot of the game, a number of famous Japanese painters are gathered to create beautiful artworks.

“Ys VIII Mobile (伊蘇VIII Mobile)” participated in the Tokyo Game Show (TGS) in 2019 and 2020 consecutively and received overwhelming responses from the local market in Japan. The development of the game is at the final completion and optimization stage, and its quality has been favored and recognized by many overseas and domestic leading game publishers. The Group has officially authorized the distribution rights of the product in the PRC to Bilibili.

Linekong Pictures steadily develops its product matrix and diversify contents to gradually develop scale advantage of content development and production

The preliminary results of matrix product development of Linekong Pictures can be observed in 2022. By focusing on target audiences and developing diversified productions of different contents and after six years of experiences and brands building, Linekong Pictures has launched six quality dramas and accumulated multiple potential pieces of excellent contents.

Linekong Pictures has achieved satisfactory results in terms of the production and distribution of sweet youth romance dramas which are well received by young female audiences. A number of our premium online dramas, such as “Long For You (我與你的光年距離)”, “Unexpected (來到你的世界)”, “Long For You 2 (我與你的光年距離2)”, “Love The Way You Are (身為一個胖子)”, “Hello Mr. Gu (原來你是這樣的顧先生)” and “花好月又圓”, have appeared in the hot searches of various channels many times and have been unanimously recognized by the market and audiences.

“對你不止是喜歡”, an urban-setting romance drama jointly produced by Linekong Pictures and Mango TV, has wrapped up successfully in May. The drama tells the crush story between Tangyu, a cold-hands and warm-heart producer, and Tangxin, a mischievous and playful junior scriptwriter. The production is currently at an intense post-production process and is expected to be broadcasted in the fourth quarter of 2022.

“Mejaz Regulus in the World (摩耶人間玉)”, a fairy tale romance drama jointly produced by Linekong Pictures, has wrapped up in Chongqing in the end of January. The drama is about the protagonists struggle against their emotional feelings and social position arising from their rival relationship. The drama is currently at its post-production stage and is expected to be broadcasted in the fourth quarter of 2022.

In terms of IPs, Linekong Pictures has masterpieces such as “Ancient Music Records (古樂風華錄)” and “雲海傳” in reserve. “Ancient Music Records (古樂風華錄)”, a historical-style IP, is the first ancient costume fairy and devil drama with ancient music as its theme in the PRC. Through a beautiful love story with ups-and-downs, the drama reveals the legend of a forgotten ancient musical instrument and the beauty of stunning ancient music, showing the unique charm and inner nature of the nation and fostering new dynamics in traditional culture. The original IP was selected and ranked the first in the 2017 List of National Items for Reforms and Development (改革發展項目庫二零一七年入庫名額) of the State Administration of Press, Publication, Radio, Film and Television (國家新聞出版廣電總局). The comic on which the drama is based was selected for the 2016 Mobility Supporting Plan for Chinese Original Comic and Animation (二零一六年原動力中國原創動漫出版扶持計劃) by the National Radio and Television Administration (國家廣電總局).

“雲海傳” is the first ancient-setting youth adventure drama in the PRC produced by the Group, which is about a treasure hunt journey without a map and the revelation of the truth of a ten-thousand-year treasure. It is a courageous and enthusiastic story of three young men growing up together in adversity and making choices between right and wrong.

BUSINESS OUTLOOK

In the second half of 2022, the Group will continue to focus on the development of IP games, female-oriented games and casual games. The Group will also place great emphasis on the expansion of overseas market and matrix product development of filming projects. The Group will continue to adhere to its principles of practicality and customer-centricity in order to create high quality products and offer fascinating entertainment. As a participant of the domestic interactive cultural content platforms, the Group will fulfill its social responsibilities by promoting healthy culture visions and attaching great importance to traditional Chinese culture in the entire process of product production and distribution, so as to make contributions to the culture and entertainment industry of the PRC.

Non-IFRSs measure — adjusted net loss

To supplement our condensed consolidated financial statements presented in accordance with the International Financial Reporting Standards, we also adopted adjusted net loss as an additional financial measure to evaluate our financial performance by eliminating the impact of items that we do not consider indicative of the performance of our business. Our adjusted net loss was derived from our net loss for the period before fair value (losses)/gains from financial assets at fair value through profit or loss, share-based compensation expenses and one-off compensation for loss of office paid. The non-IFRSs measured adjusted net loss is an unaudited figure.

The following table sets out the reconciliation from loss for the period under IFRSs to the adjusted net loss for the six months ended June 30, 2022 and 2021:

Adjusted net loss	(22,274)	(14,832)	50.2

2. Basis of preparation

The Interim Financial Information has been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim financial reporting”. The Interim Financial Information does not include all the notes of the type normally included in an annual financial report. Accordingly, the Interim Financial Information should be read in conjunction with the annual consolidated financial statements of the Company for the year ended December 31, 2021 as set out in the 2021 annual report of the Company (the “**2021 Financial Statements**”), which have been prepared in accordance with all applicable International Financial Reporting Standards (“IFRSs”), and any public announcements made by the Company during the interim reporting period.

3. Summary of significant accounting policies and critical accounting estimates and judgments

3.1 Summary of significant accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended December 31, 2021, as described in those annual financial statements, except for the estimation of income tax using the tax rate that would be applicable to expected total annual earnings and the adoption of new and amended standards as set out below. The Interim Financial Information has been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss and an associate measured at fair value through profit or loss which are carried at fair value.

(a) *New and amended standards adopted by the group*

A number of new or amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

3. Summary of significant accounting policies and critical accounting estimates and judgments (Continued)

3.1 Summary of significant accounting policies (Continued)

(b) Impact of standards issued but not yet applied by the entity

Certain standards, amendments and interpretations to existing standards have been issued but are not yet effective for the financial period beginning January 1, 2022, and are not expected to have a material impact on consolidated financial statement in the foreseeable future.

3.2 Critical accounting estimates and judgments

The preparation of the Interim Financial Information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

When preparing the Interim Financial Information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the 2021 Financial Statements.

4. Financial risk management

4.1 Financial risk factors

The Group is subject to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and concentration risk.

The Interim Financial Information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the 2021 Financial Statements.

There have been no changes in the risk management policies during the six months ended June 30, 2022.

4.2 Fair value estimation

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The Group did not have any financial liabilities that were measured at fair value as of June 30, 2022 and December 31, 2021.

4. Financial risk management (Continued)

4.2 Fair value estimation (Continued)

(ii) Valuation techniques used to determine fair values

The fair value of financial instruments traded in active markets is determined based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required for evaluating the fair value of a financial instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- quoted market prices or dealer quotes for similar instruments;

4. Financial risk management (Continued)

4.2 Fair value estimation (Continued)

(ii) *Valuation techniques used to determine fair values (Continued)*

- discounted cash flow model and unobservable inputs mainly including assumptions of expected future cash flows and discount rate;
- a combination of observable inputs and unobservable inputs, including discount rate, risk-free interest rate and expected volatility.

The fair value of the investment in associate is primarily based on the Group's attributable portion of the reported net asset value ("**NAV**") of the associate. The NAV was derived from the fair value of the underlying investments (most of total assets of the associate represented financial assets measured at fair value) at the same measurement date as that used by the Group. The Group understands and assesses the valuations provided by the general partner of the associate and made necessary adjustments as a result of the assessment. The associate measured at fair value through profit or loss is included in level 3.

(ii) Fair value of share options (Continued)

The key assumptions used in the valuation of the share options as of the grant date are set out in the table below:

	January 18, 2017	April 1, 2019	August 16, 2019	May 17, 2021

Dividend yield	—	—	—	—

The Company estimated the risk-free interest rate based on the yield of a HK 10-Year Government Bond with a maturity life equal to the life of the share options. Volatility was estimated at grant date based on average of historical volatilities of the comparable companies with length commensurable to the time to maturity of the share options. Dividend yield is based on management estimation at the grant date.

20. Loss per share

(a) Basic

Basic loss per share for the three months and the six months ended June 30, 2022 and 2021 is calculated by dividing the loss of the Group attributable to the owners of the Company of the period by the weighted average number of ordinary shares in issue during the period.

Weighted average number of ordinary shares in issue (thousand shares)	349,142	348,594	348,938	347,625
Basic loss per share (expressed in RMB per share)	(0.06)	(0.01)	(0.09)	(0.04)

(b) Diluted

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

For the six months ended June 30, 2022 and 2021, the Company had two categories of potential ordinary shares, restricted share units and share options granted to eligible person. As the Group incurred loss for the three months and the six months ended June 30, 2022, the potential ordinary shares were not included in the calculation of dilutive loss per share where their inclusion would be anti-dilutive.
