The preparation of the Third Quarterly Financial Statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, incomes and expenses on a year to date basis. Actual results may differ from these estimates.

The Third Quarterly Financial Statements include an explanation of events and transactions that are significant to an understanding of the changes in financial performance of the Group since 31 December 2021, and therefore, do not include all of the information required for full set of financial statements prepared in accordance with the HKFRSs which collective term includes all applicable individual HKFRSs, HKAS and Interpretations issued by the HKICPA. 2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

The accounting policies and methods of computation applied in the preparation of the Third Quarterly Financial Statements are consistent with those applied in the preparation of the 2021 Audited Consolidated Financial Statements.

The Third Quarterly Financial Statements have been prepared on the historical costs basis and presented in Hong Kong dollars (“**HK\$**”), which is the same as the functional currency of the Company and all values are rounded to the nearest thousand (HK\$’000) except otherwise indicated.

The Group manages its businesses by business lines. In a manner consistent with the way in which information is reported internally to the Group’s most senior executive management, being the chief operating decision maker, for the purposes of resource allocation and performance assessment, the Group has presented the following four reportable segments. No operating segments have been aggregated to form any of the following reportable segments.

Underwriting and placing	—	Provision of underwriting and placing services
Margin financing	—	Provision of securities and initial public offering financing services
Money lending	—	Provision of money lending services

For the purposes of assessing segment performance and allocating resources between segments, the Group’s most senior executive management monitors the revenue, results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all non-current and current assets. Segment liabilities include all current liabilities with the exception of current tax payable.

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation and amortisation of assets attributable to those segments.

The accounting policies of the operating segments are the same as the Group’s accounting policies. Segment profit represents the profit earned by each segment without allocation of interest income on bank deposits, sundry income and income tax expense.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group is an integrated financial service provider licensed to (i) conduct Type 1 (dealing in securities) regulated activity under the Securities and Futures Ordinance (“SFO”) (Chapter 571 of the laws of Hong Kong) and (ii) money lending business, through its subsidiaries. Over the years, the Group aims to establish an integrated platform for providing a wide range of financial services to its clients. During the Reporting Period, the principal activities of the Group mainly include (a) brokerage services and relevant service income; (b) underwriting and placing services; (c) securities, initial public offering financing services; and (d) money lending services.

During the Reporting Period, the Group continued to derive a majority of its revenue from its money lending business, which accounts for approximately 82.83% of the Group’s total revenue.

The total revenue of the Group decreased from approximately HK\$38.46 million for the nine months ended 30 September 2021 to approximately HK\$29.80 million for the nine months ended 30 September 2022, representing a decrease of approximately 22.50%. The decrease in revenue was mainly attributable to the decrease in revenue from the Type 1 licensed regulated services as a result of the COVID-19 pandemic (“COVID-19”) delayed the progress of most originally planned initial public offerings (“IPOs”) projects and fund-raising exercise. Although the management of the Group implemented cost control during the Reporting Period, the profit for the period attributable to owners of the Company of approximately HK\$12.30 million for the nine months ended 30 September 2022, representing a decrease of approximately 34.92% as compared to the Corresponding Period.

The management of the Group has been working hard and through various channels to develop the business. Nevertheless, the Group’s performance relied on external factors, including Hong Kong and global economic environment, interest rate movement and the turnover of the Hong Kong securities market and demand of market fund raising activities, as well as the development and impact of COVID-19 and its effect over the investment and financing needs of customers. They are beyond the Group’s control and the Group’s financial performance is susceptible to fluctuation as a result.

Given the challenges in the economic outlook and the capital-intensive nature of the Group's existing principal business, the Group's management believes that the key to future growth of the Group hinges on the expansion of the range of services provided by the Group, where each additional business segment adds to the synergistic effect of the Group's current service offerings. The Group plans to expand into financial services regulated under Type 6 (advising on corporate finance) and the Type 9 (asset management) licenses under the SFO, which will allow the Group to broaden its source of income, explore new markets with growth potential and capture new business opportunities which may create substantial value to the shareholders of the Company (the "**Shareholders**"). With an aim of reaching out for collaboration with other market players, the Group is considering acquiring a company licensed under the SFO to conduct Type 6 (advising on corporate finance) regulated activity. Specifically, it is the intention of the Directors to identify potential targets with particular priority given to those that has an established network of clients and has a number of deals in the pipeline, which the Group would be able to immediately capitalise on. The Group expects that through the potential acquisition, it could leverage on the existing client base of the target company to further expand the underwriting and placing business cared by the Group through potential placing and underwriting opportunities currently being explored by the target company.

On the other hand, relating the development of the Type 9 (asset management) regulated activity, the Group has recently employed two responsible officers licensed under the SFO and submitted new business plan to the relevant department of the Securities and Futures Commission for application to resumption of the Type 9 license. The potential expansion of the Type 6 and Type 9 regulated activities will allow the Group to extend its coverage in the financial industry and become an enterprise that is capable of providing clients with one-stop comprehensive financial services (including underwriting of new share, bookrunner, custody, placing and other corporate finance advisory services), which will effectively integrate resources and reduce operating costs.

In light of the recurring COVID-19 and uncertainties in the market for a prolonged period, the Group will stick to its robust operational strategies, strictly control costs, actively expand business, and strive to provide better quality products and services. The Group will also capture the development opportunities to create better returns to its Shareholders.

FINANCIAL REVIEW

Revenue

For the Reporting Period, the Group recorded a revenue of approximately HK\$29,803,000, representing a decrease of approximately 22.50% as compared to the corresponding period of approximately HK\$38,457,000, mainly as a result of the decrease in revenue of the Type 1 licensed regulated services.

The Type 1 licensed regulated services business

The Type 1 licensed regulated services business is conducted by the Group's wholly-owned subsidiary, Orient Securities Limited, which is a corporation licensed to carry on business in Type 1 (dealing in securities), Type 4 (advising on securities) and Type 9 (asset management) regulated activities under the SFO. As at 30 September 2022, the Group had 87 active securities accounts as reported pursuant to Securities and Futures (Financial Resources) Rules (Cap. 571N) (2021: 75 active securities accounts).

The money lending business

The money lending business is conducted by the Group's wholly-owned subsidiary, Orient Securities Finance Limited, which is a licensed money lender under the Money Lenders Ordinance (Cap. 485 of the laws of Hong Kong).

Based on the existing business model, clients apply the loans from Orient Securities Finance Limited for personal or corporate purposes. The Group offers fixed-term loans to clients with maturity periods up to 60 months. To manage the associated credit exposure from the Group's money lending business, the Group has credit assessment and internal control procedures.

The Group shall complete credit assessment for applicants for its money lending services. In assessing their creditworthiness, the Group primary focus is on the collateral and security (if any) offered as well as the applicant's background. The Group evaluate collateral according to various matrices, such as their liquidity, market value volatility and type. In addition to the collateral, the Group's credit assessment department takes into account the client's occupation, financial condition, reputation, investment purpose, securities concentration, asset proof and credit history, which facilitate the Group's assessment on the client's repayment ability. Where necessary, the Group may conduct credit search with external agencies to obtain background information and credit history of its client.

It is the policy of the Group to review the outstanding amount of each loan at least yearly or in a more frequent manner depending on individual circumstances or market condition. Impairment allowances on individual assessed accounts are determined by an evaluation of the incurred loss at balance sheet date on a case-by-case basis, and are applied to all individually significant accounts. Generally, impairment allowances will be provided when clients' collaterals are insufficient to cover their outstanding loan balances.

As at the date of this report, the management team of the money lending services consists of two key management personnel, and the overall management oversight is provided by Ms. Lee Nga Ching, who is the executive Director. Further, both of the key management personnel have over ten years of experience in the industry and are primarily responsible for, among others, carrying out, supervising and monitoring the daily money lending activities, reviewing and implementing the company's internal procedure and handling recoverability of all outstanding debts.

Employee costs

The total employee costs for the first nine months ended 30 September 2022 was approximately HK\$6.64 million (2021: approximately HK\$7.40 million) which represented a decrease of approximately HK\$0.76 million or 10.29% compared with 2021.

Administrative expenses

The total administrative expenses for the first nine months ended 30 September 2022 was approximately HK\$7.11 million (2021: HK\$7.92 million) which represented a decrease of approximately HK\$0.81 million or 10.22% compared with 2021.

Finance costs

Finance costs represented interest expense recognised on lease liabilities and debentures. The Group recorded finance costs of approximately HK\$101,000 during the nine months ended 30 September 2022 (2021: approximately HK\$75,000).

Profit attributable to the owners of the Company

The Group recorded a net profit attributable to owners of the Company of approximately HK\$12.30 million for the first nine months ended 30 September 2022 (2021: approximately HK\$18.89 million).

Dividend policy

The Group currently does not have a pre-determined dividend payout ratio. Dividends may be paid out by cash or other means that the Group considers appropriate. The declaration and payment of any interim dividends would require the recommendation of the Board and will be at their discretion. In addition, any final dividend for a financial year will be subject to the Shareholders' approval. A decision to declare or to pay any dividend in the future, and the amount of any dividends, depends on a number of factors, including the operation performance, financial condition, the payment by the subsidiaries of cash dividends to the Group, and other factors the Board may deem relevant. There is no assurance that the Group will be able to declare or distribute any dividend in the amount set out in any plan of the Board or at all.

The dividend distribution record in the past may not be used as a reference or basis to determine the level of dividends that may be declared or paid by the Board in the future.

Details of the dividend are set out in Note 8 to the Third Quarterly Financial Statements.

Treasury policy

The Group has adopted a prudent financial management approach towards its treasury policies and had maintained a healthy liquidity position throughout the Reporting Period. To manage liquidity risks, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and commitments can meet its funding requirements from time to time.

Foreign exchange exposure

The Group operates in Hong Kong with transactions denominated in Hong Kong dollars and the Group's financial statements are prepared in Hong Kong dollars. Contingent liabilities

On 22 September 2022, Orient Securities Limited, a wholly owned subsidiary of the Company, as a defendant (the “**Defendant**”) received a writ of summons (the “**Writ**”) issued in the Court of First Instance of the High Court of the Hong Kong Special Administrative Region by a solicitor acting for Ms. Dong Yun as a plaintiff (the “**Plaintiff**”) against the Defendant. As stated in the statement of claim attached to the Writ, the Plaintiff, who was a client of the Defendant, claim (the “**Claim**”) against, the Defendant, for (i) damages for unlawful means conspiracy (ii) interest; (iii) costs; and (iv) further and/other relief in connection with a series of alleged unlawful acts carried out by the Defendant with other defendants as stated in the Writ.

After seeking professional advice from the legal advisor engaged by the Company (the “**Legal Advisor**”), and to the best of the Directors’ knowledge, information and belief, having made all reasonable enquiries, the Board believes that the Claim for conspiracy and/or fraud against the Defendant is weak to the extreme and could hardly stand up to an argument for overcoming the hurdle of time barred. By reason of the facts and analysis conducted by the Legal Advisor, the Board is of the view that the Claim will not have any material impact on the Group’s financial position.

Further announcement(s) will be made to update on the progress of the matter as and when appropriate.

PRINCIPAL RISKS AND UNCERTAINTIES
