MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Company and its subsidiaries (collectively the “Group”) are principally engaged in the manufacturing and sales of decorative printing materials products which mainly comprise of (i) decorative paper; (ii) melamine impregnated paper; (iii) finish foil paper; (iv) polyvinyl chloride (“PVC”) furniture film; and (v) PVC flooring film. The Group served over 500 customers in both domestic and overseas markets for the Period. The overseas sales reached over 40 countries in Asia, North America, South America, Europe, Oceania and Africa.

FINANCIAL REVIEW

Revenue

The Group’s revenue for the Period was approximately RMB332.2 million, representing a decrease of approximately 11.2% over the Corresponding Period. The decrease in the Group’s revenue was driven by the decrease in revenue from overseas markets and the People’s Republic of China (the “PRC”). The revenue from overseas markets recorded a decrease of approximately 16.4% over the Corresponding Period, which was mainly derived from the decline in demand of Pakistan, India and other overseas markets. The demand from PRC customers remained strong but also recorded a slight decrease of approximately 8.2% over the Corresponding Period. The decrease in revenue was mainly derived from the decrease in sales of major products, including decorative paper, melamine impregnated paper and PVC flooring film, during the Period.

Cost of sales

The cost of sales decreased by approximately RMB37.5 million or approximately 12.5%, from approximately RMB300.8 million for the Corresponding Period to approximately RMB263.3 million for the Period, which was primarily due to decrease in the production volume during the Period. The decrease in cost of sales is in line with the decrease in the Group’s revenue during the Period.

Gross profit and gross profit margin

The Group’s gross profit decreased by approximately RMB4.2 million, or approximately 5.8%, from approximately RMB73.1 million for the Corresponding Period to approximately RMB68.9 million for the Period, primarily due to the corresponding decrease in the Group’s revenue during the Period. The prices of production materials remained stable during the Period, and the production efficiency was slightly improved, which led to a slight increase of the gross profit margin for the Period to approximately 20.7% (the gross profit margin for the Corresponding Period: 19.6%).

MANAGEMENT DISCUSSION AND ANALYSIS

Selling expenses

The Group's selling expenses decreased by approximately RMB1.4 million or 5.8% from approximately RMB24.3 million for the Corresponding Period to approximately RMB22.9 million for the Period. The decrease was primarily attributable to the (i) decrease in exhibition expenses as fewer trade exhibitions and trade fairs were held during the Period; and (ii) decrease in licensing fee due to decrease in sale of relevant licensed products.

Administrative expenses

The administrative expenses for the Period increased by approximately RMB5.0 million or 15.3% from approximately RMB32.8 million for the Corresponding Period to approximately RMB37.8 million for the Period. The increase was mainly attributable to the (i) increase in the depreciation and amortisation expenses upon the completion of the new factory building; and (ii) increase in entertainment expenses.

Other income and other gains – net

The Group's other income and other gains – net increased significantly by approximately RMB4.0 million or 184.6% from approximately RMB2.1 million of net gains for the Corresponding Period to approximately RMB6.1 million of net gains for the Period, primarily due to the foreign exchange gain of RMB1.9 million during the Period (the Corresponding Period: foreign exchange loss of RMB0.6 million) and the increase in government grants income and rental income.

Finance expenses – net

The Group's finance expenses – net increased by approximately RMB1.8 million or 33.7% from approximately RMB5.3 million for the Corresponding Period to approximately RMB7.1 million for the Period. This was primarily due to (i) the increase in interest expenses attributable to the increase in the amount of bank borrowings; and (ii) the decrease in the amount of capitalisation of borrowings costs due to the completion of the new factory building and production lines.

Income tax expense

The income tax expense decreased significantly from approximately RMB1.3 million for the Corresponding Period to approximately RMB0.3 million for the Period, which was due to the decrease in profit before income tax and decrease in deferred income tax during the Period.

Profit attributable to owners of the Company

As a result of the foregoing, the Group recorded a profit attributable to owners of the Company of approximately RMB6.9 million for the Period as compared to a profit attributable to owners of the Company of approximately RMB11.6 million for the Corresponding Period.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECTS

The global business environment is consistently challenging in the short run and global economic prospects have worsened significantly. The expected inflation in long-term global economic environment as well as geopolitical uncertainties have all increased challenge to the Group. The Group recorded a decrease in revenue of 11.2% and a slim profit attributable to owners of the Company during the Period. The Group will closely monitor the product pricing and costs in order to maximise its profit margins and maintain profitability.

Going forward, the Group will continue grasping the advantages of existing decorative paper industry and keep focusing on sustainable strategic customers in the PRC and monitoring the potential development of overseas markets. Taking advantage of the well-recognised reputation in the market and the continuous effort made by the Group's management and staff at all levels, the Directors are optimistic to explore new markets and capture emerging business opportunities in the decorative printing materials industry.

The board of directors (the “Board”) is pleased to announce the unaudited condensed consolidated results of the Group for the three months and nine months ended 30 September 2022 together with the comparative figures for the Corresponding Period as follows:
