## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW**

We are an established subcontractor in Singapore specialising in providing reinforced concrete work, comprising steel reinforcement works, formwork erection and concrete works. We may provide such services either individually or as a total package comprising all three, depending on the requirements of our customers. We have also ventured into projects as a main contractor. Our projects can be categorised into general building projects and civil engineering projects.

General building works refer to general construction and major repair works, piling works, finishing works, installation of doors, windows, sanitary products, curtain walling/cladding works, structural works, other special trade construction such as scaffolding and sandblasting, and production of pre-cast components. Our general building works relate primarily to the construction of hotels, hospitals, mixed development and court buildings. During the nine months ended 30 September 2022, we recorded revenue from general building projects of approximately S\$9.4 million (nine months ended 30 September 2021: approximately S\$12.3 million), which accounted for approximately 41.8% of our total revenue for the same period (nine months ended 30 September 2021: approximately 92.9%).

Civil engineering works refer to non-building construction such as the construction of roads, bridges, tunnels, railways, viaducts, water and gas pipelines, sewers, communications and power lines, marine construction as well as site-preparation and construction-related landscaping works. Our civil engineering works relate primarily to the construction of MRT stations. During the nine months ended 30 September 2022, we recorded revenue from civil engineering projects of approximately S\$2.6 million (nine months ended 30 September 2021: approximately S\$0.9 million), which accounted for approximately 11.5% of our total revenue for the same period (nine months ended 30 September 2021: approximately 7.1%).

As at 30 September 2022, we had 8 ongoing contracts with an aggregate outstanding contract value of approximately S\$98.7 million.

Apart from general building projects and civil engineering projects, we also engage in other related business such as sales of ceramic tiles. During the nine months ended 30 September 2022, we recorded revenue from sales of ceramic tiles of approximately S\$10.2 million (nine months ended 30 September 2021: Nil).

### **INDUSTRY OVERVIEW AND PROSPECTS**

During the Reporting Period, the Group was recovering from the COVID-19 pandemic. The Group has made efforts to seek business opportunities and new projects to secure its financial performance.

Singapore's economy has continued to recover from the COVID-19 pandemic in 2022. According to the advance estimate of GDP released by Singapore's Ministry of Trade and Industry (MTI), the Singapore economy grew by 4.4% on a year-on-year basis in the third quarter of 2022, easing slightly from the 4.5% growth in the previous quarter. In particular, the construction sector grew by 7.8% compared with the corresponding period of last year.

The Building and Construction Authority forecasted a bright future for the construction sector in 2022, as the value of construction contracts to be awarded are predicted to be between \$27 billion and \$32 billion. This comes on the back of strong support by the public sector, with master-planned projects across transport, residential, mixed-use and tourism, providing a strong project pipeline for the industry. Additionally, healthcare development and transport infrastructure projects such as the Cross Island Line Phase one (CRL1) project are expected to further support the industry's growth this year.

Meanwhile, to make robust development, the Group deals with risks such as credit risk and liquidity risk arising from its operations through internal risks reports which analyse exposure by degree and magnitude of risk. For credit risk management, the Group has adopted the policy to deal only with high credit quality and good history counterparties to minimise credit risk. For the liquidity risk management, the Group carefully monitors and maintains sufficient reserves of cash for expected liquidity requirements.

Going forward, the Group will continue to identify main contractor works and subcontracting works to capture more potential business opportunities in Singapore. Moreover, the Group is continuing its efforts to upgrade its licence from C1 Grade to B2 Grade to enable the Group to tender for a wider scope of projects.

The funds raised from the Listing have laid a solid foundation for the future development of the Group. Looking ahead, the Group will endeavor to strengthen the development of its existing businesses and to provide steady return as well as growth prospects for the Company's shareholders.
