CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this interim report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this interim report.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2022

1. GENERAL INFORMATION

Michong Metaverse (China) Holdings Group Limited (*formerly known as Nomad Technologies Holdings Limited*) (the “**Company**”) was incorporated as an exempted company with limited liability in the Cayman Islands on 5 June 2018, and its shares were listed on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 9 December 2019 (the “**Listing**”).

The Company is an investment holding company. The Company together with its subsidiaries (hereinafter collectively referred to as the “**Group**”) is principally engaged in rendering of: (i) network support services mainly encompassing network infrastructure design and hardware installation, network management and security services; (ii) network connectivity services that focus on providing intranet and internet connectivity solutions and value-added services; and (iii) electronic commerce (“**E-Commerce**”) services.

The addresses of the registered office and the principal place of business of the Company are disclosed in the section “Corporate Information” section of this interim report.

2. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements of the Group for the six months ended 31 December 2022 (the “**Interim Consolidated Financial Statements**”) have been prepared in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”), which collective term includes all applicable individual IFRSs, International Accounting Standards (“**IASs**”) and Interpretations issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance. The Interim Consolidated Financial Statements also comply with the applicable disclosure requirements of the Rule Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”).

The Interim Consolidated Financial Statements are presented in Hong Kong Dollars (“**HK\$**”) and all amounts have been rounded to the nearest thousand (“**HK\$’000**”), unless otherwise indicated.

2. BASIS OF PREPARATION (CONTINUED)

Change in presentation currency

Prior to 1 July 2022, Malaysian Ringgit (“**RM**”) was regarded as the presentation currency of the Company and the consolidated financial statements were also presented in RM. Having considered that the Company’s shares (the “**Shares**”) are listed on the Stock Exchange and its stock is traded in HK\$, the Board believes that it is more appropriate to use HK\$ as the presentation currency as it enables the shareholders (the “**Shareholders**”) and potential investors of the Company to have a more accurate picture of the Group’s financial performance. The change in presentation currencies was accounted for in accordance with IAS 21 The Effects of Changes in Foreign Exchange Rates. Comparative figures have been re-stated to reflect the change in the Group’s presentation currency.

For the purpose of re-presentation of the consolidated financial statements of the Group from RM to HK\$, the assets and liabilities are translated into HK\$ at the closing rate as of the respective reporting dates. Income and expenses are translated at the average exchange rates for the respective periods/years. Share capital, share premium and reserves are translated at the exchange rate at the date when the respective amounts were determined (i.e. historical exchange rates).

2. BASIS OF PREPARATION (CONTINUED)

The preparation of the Interim Consolidated Financial Statements requires the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, incomes and expenses on a year to date basis. Actual results may differ from these estimates.

The Interim Consolidated Financial Statements include an explanation of events and transactions that are significant to an understanding of the changes in financial performance of the Group since 1 July 2022 and, therefore, do not include all of the information required for full set of financial statements prepared in accordance with the IFRSs. They shall be read in conjunction with the audited consolidated financial statement of the Group for the year ended 30 June 2022 included in the annual report of the Company dated 23 September 2022 (the “**Annual Report 2021/2022**”).

The Interim Consolidated Financial Statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values, as appropriate. Except for changes in accounting policies resulting from adoption of new or revised IFRSs, the accounting policies and methods of computation applied in the preparation of the Interim Consolidated Financial Statements are consistent with the Annual Report 2021/2022.

In the current period, the Group has applied, for the first time, the following new/revised IFRSs issued by the IASB which are mandatory effective for the annual period beginning on or after 1 January 2022 for the preparation of the Group’s Interim Consolidated Financial Statements.

Amendments to IAS 16	Proceeds before Intend use
Amendments to IAS 37	Cost of Fulfilling a Contract
Amendments to IFRS 3	Reference to the Conceptual Framework
Annual Improvements to IFRSs	2018-2020 Cycle

The new/revised IFRSs does not have any material effect on the amounts reported and/or disclosures set out in the Interim Consolidated Financial Statements.

The Group has not early adopted any new or revised IFRSs that has been issued but not yet effective in the current accounting period.

The Interim Consolidated Financial Statements have not been audited by the Company’s independent auditor but have been reviewed by the audit committee of the Board (the “**Audit Committee**”) and were approved for issue by the Board.

3. SEGMENT INFORMATION

The executive Directors determine its operating segments based on the internal management reports prepared in accordance with accounting policies conform to IFRSs that are regularly reviewed by the executive Directors, being identified as the chief operating decision maker (“**CODM**”), for the purpose of resources allocation and assessment of segment performance based on products and services offered by the Group to the customers. The increase was mainly due to expansion of the Group's business in the PRC, especially in (i) increase in staff cost for administrative and management personnel (including Directors) by approximately HK\$4,018,000 or 98.0% to approximately HK\$8,117,000 for the six months ended 31 December 2022 (*Six months ended 31 December 2021: approximately HK\$4,099,000*) due to increase in number of employees; and (ii) increase in depreciation of property, plant and equipment by approximately HK\$1,097,000 or 19.4% to approximately HK\$6,745,000 for the six months ended 31 December 2022 (*Six months ended 31 December 2021: approximately HK\$5,648,000*).

Finance costs

Our finance costs mainly derived from the interest expenses on interest-bearing borrowings and bank overdrafts and interest expenses on lease liabilities. Such costs increased by approximately HK\$182,000 or 185.7% from approximately HK\$98,000 for the six months ended 31 December 2021 to approximately HK\$280,000 for the six months ended 31 December 2022. Income tax credit (expenses)

Income tax credit was approximately HK\$500,000 for the six months ended 31 December 2022, as compared to income tax expenses of approximately HK\$1,193,000 for the six months ended 31 December 2021. The change of income tax was mainly attributable to the combined effect of (i) decrease in assessable profits of Malaysian subsidiaries during the six months ended 31 December 2022; (ii) the utilisation of the unused tax losses arising in the PRC, which was brought forward from the year ended 30 June 2022; and (iii) decrease in deferred tax credit in relation to the temporary differences arising from the capital allowances and accelerated accounting depreciation, and provision for contract costs and contract liabilities.

Profit (Loss) for the period

Our profit for the period was approximately HK\$17,633,000 for the six months ended 31 December 2022 as compared to loss of approximately HK\$549,000 for the six months ended 31 December 2021. The turnaround was mainly due to the aggregate effect of increase in revenue and improvement in gross profit margin, and partially offset by the increase in selling expenses and administrative and other operating expenses, mainly due to introduction of E-Commerce business in the PRC, as analysed above.
