Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Management Discussion and Analysis

MARKET AND BUSINESS OVERVIEW

The Group is principally engaged in (i) the design, development, manufacture and sale of beauty products; and (ii) the design, development and sale of beauty bags. The core business and revenue structure of the Group remained unchanged for the period ended 31 March 2023. During the current period, the Group maintained its sales activities under the challenging business environment. Despite not being able to travel, the management and sales teams continued effortlessly communication with overseas customers for their needs and product demand. At the same time, the management conducted review on operational and costs efficiency.

The global market faced continuous challenges throughout the year. At a macro level, political tension and travel restrictions were contributing factors affecting all businesses on the supply chain. At a micro level, retail companies experiencing cash flow problems, unemployment, all added to the pile.

Nevertheless, the beauty and cosmetics industry has proven to be resilient, as evidenced by data from the past. This remains the case as consumers continue to be concerned over health and hygiene, personal appeal, and awareness among people about the benefits of cosmetics for their skin and hair.

PROSPECT

Looking forward, the Directors consider the global environment remains uncertain and challenging. The Group will continue to focus its efforts in creating innovative products and expanding reach to new geographical locations. The ongoing pandemic of COVID-19 is putting millions at risk in more and more countries, making a serious public health crisis worldwide. Under such circumstances, various e-commerce solutions for generation Z and millennials are emerging as major trends in the recent service industry. In addition, it is expected that sustainability will play an important role for consumers in the beauty and cosmetics industry going forward.
