CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

10. DEPOSITS PLACED IN LIFE INSURANCE POLICIES

	At 30 June 2023 HK\$'000 (unaudited)	At 31 December 2022 HK\$'000 (audited)
Deposits placed in life insurance policies		
Non-current portion	–	5,352
Current portion	116,497	115,037
	116,497	120,389

Reconciliation of the movement for deposits placed in life insurance policies:

	At 30 June 2023 HK\$'000 (unaudited)	At 31 December 2022 HK\$'000 (audited)
At the beginning of the year	120,389	114,650
Accrued interest earned during the period	1,460	2,953
Surrender of a life insurance policy during the period	(5,352)	–
Change arising from change of cash flow estimates	–	2,786
At the end of the period	116,497	120,389

Two deposits placed in life insurances policies with principal amounts of HK\$100,000,000 (“**Insurance policy A**”) and US\$644,000 (“**Insurance policy B**”) (collectively referred to as the “**Insurance Policies**”) respectively. The Group can terminate the policies at any time and receive cash refund based on the cash value of the policies at the date of withdrawal, which is determined by the upfront payment plus accumulated interest earned and minus the expense charged at inception, the accumulated insurance charge and policy expense charge. A surrender charge would also be required if the withdrawal is made before the 5th policy year for Insurance policy A and 15th policy year for Insurance policy B. The effective interest rates of Insurance policy A and Insurance policy B are and 2.64% and 1.31% per annum, respectively, which is determined on initial recognition by discounting the estimated future cash receipts over the expected life of policies of 15 years.

The Group originally intended to hold the Insurance Policies until the end of their expected life of 15 years. During the year ended 31 December 2022, the management of the Group resolved to surrender Insurance policy A within 12 months after the end of that reporting period. During the Period, the Group has surrendered the Insurance policy B, a loss of HK\$903,000 has been recognised in the profit or loss of the Period.

The decisions are in response to the Group’s increasing borrowings costs due to recent interest rate changes of global environment, of which could result a less favorable position for the Group to hold the Insurance Policies until the end of their expected lives, and these arrangements would also optimise the Group’s capital structure through liquidity management. The management of the Group considers such plan is consistent with the business model for holding financial assets to receive contractual cash flows as an objective, as such, there was no changes in the business model of operating these deposits and the classification of the deposits placed for life insurance policies as financial assets at amortised costs is still appropriate.

As such, the deposit paid for the Insurance policy A of HK\$116,497,000 (31 December 2022: HK\$115,037,000) is classified as current assets.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group was founded in 1990 in Hong Kong and has been developing earnestly in the logistics industry. As a well-established freight forwarding and logistics one-stop service provider, provision of freight forwarding services forms our core business. We purchase cargo space from airlines, shipping liners, general sales agents (“**GSA**”) and either sell it to direct shippers or sell it to other freight forwarders who act on behalf of their shipper customers.

A majority of our customers is direct shipper customers, and we solve their needs by exporting their goods from Hong Kong to worldwide destinations through provision of air freight and ocean freight services. We are particularly successful in destinations in Asia, such as Bangladesh, Sri Lanka, and alongside the Mekong River countries, such as Cambodia and Vietnam. During the Period, the Group’s freight forwarding services (including air freight and ocean freight forwarding services) accounted for approximately 35.1% of the total revenue in aggregate.

On top of our core freight forwarding services, we strategically offer ancillary logistics services primarily at our warehouses in response to the rising demand from our customers who require customised value-added logistics services. The ancillary logistics services we offer include warehousing, repacking, labelling, palletising and local delivery within Hong Kong. We integrate our ancillary logistics services into our core freight forwarding services to strategically create a distinct corporate identity among our shipper customers.

From 2019, we have further developed into the provision of E-Commerce fulfillment services. We have set up and have been running a fulfillment service based on up-to-date mobile applications to provide cross-border logistics activities in response to the increasing demand for E-Commerce from the People’s Republic of China (the “**PRC**”), and international clients in the United States of America, Europe, Canada and Australia. Such operation successfully grows into providing procurement activities, local distribution and fulfillment services, for example, for the much needed pharmaceutical and medical products.

With our successful and competitive experience in the logistics industry since 1990s, we have steadily developed, with a view to extend our services and capture new business opportunities by utilising our strengths and capabilities and our business acquaintances. We strive to consolidate our relationships with our long-term suppliers, customers from all sectors, as well as network and technology providers with our comprehensive product portfolios and cargo knowledge to continue to develop new and successful business for the Group.

OUTLOOK

The general outlook of the business environment will remain challenging. In 2023, the reopening of borders and the relaxation of the pandemic prevention measures in Hong Kong and the PRC will expect to improve customers' orders. However, we remain cautious about the increasing price in fuel and labour, alongside with interest expenses.

The Group believes and is confident that the economy of Hong Kong is gradually recovering, which will benefit the logistics industry. The pandemic has made people more health-conscious and reliant on e-commerce platforms. Therefore, our cold chain logistics solutions and e-commerce fulfillment services will continue to develop and will make strides. Our cold chain logistics management solutions have been developed with high-end, reliable and temperature-controlled technology for transporting and storing pharmaceuticals, health care products, food and skin care products. Going forward, we will continue to invest huge effort to further develop and expand our e-commerce fulfillment services segment by improving operating efficiency with robotic-aid enhancement systems. In addition, the Group has been actively taking measures to develop appropriate products and services to the market.

The management will continue strictly controlling costs and implementing pricing adjustments to increase profitability. Nonetheless, the Group will constantly review business strategies, improve operational efficiency and strive for sustainable growth to create long-term value for shareholders and investors.

FINANCIAL REVIEW

Revenue and costs of sales

Revenue of the Group decreased by 49.8% from HK\$262.0 million for the six months ended 30 June 2022 to HK\$131.4 million for the Period.

Revenue from air freight forwarding services decreased by HK\$44.4 million from HK\$78.3 million for the six months ended 30 June 2022 to HK\$33.9 million for the Period. Revenue from ocean freight forwarding services decreased by HK\$51.3 million from HK\$63.5 million for the six months ended 30 June 2022 to HK\$12.2 million for the Period.

The changes are as a result of the (i) recovery of shipment volume affected by the outbreak of COVID-19 and economic downturn are slower than anticipated; and (ii) significant drop in freight containers' price charged to customers comparing with the six months ended 30 June 2022, of which the supply of freight carriers was insufficient.

Revenue from logistics and warehousing services decreased by HK\$17.5 million from HK\$60.2 million for the six months ended 30 June 2022 to HK\$42.7 million for the Period, resulting from the completion of our engagement by the Hong Kong Government to distribute anti-epidemic service bags and electronic wristbands in January 2023.

Revenue from e-commerce decreased by HK\$17.5 million from HK\$60.1 million for the six months ended 30 June 2022 to HK\$42.6 million for the Period, which was due to a change of operating model with certain major customers of the Group of this segment.

Cost of sales decreased by 48.1% from HK\$229.1 million for the six months ended 30 June 2022 to HK\$118.9 million for the Period. The decrease was mainly due to reduction of direct costs due to decrease in shipment volume and number of orders received in each of our core segments.

Gross profit

Gross profit decreased by 61.9% from HK\$32.9 million for the six months ended 30 June 2022 to HK\$12.6 million for the Period. The decrease in gross profit was due to the decrease in gross profit from freight forwarding services and logistics and warehousing services. This effect is partially offset by the improvement in gross profit from e-commerce fulfillment services.

Gross profit margin decreased by 3.0% from 12.6% for the six months ended 30 June 2022 to 9.6% for the Period.

The decrease in gross profit from freight forwarding services was resulted from the recovery of shipment volume affected by the outbreak of COVID-19 and economic downturn, which is slower than expected and significant drop in freight containers' price charged to customers, as well as decrease in gross profit margin due to the increase in direct shipping costs.

The decrease in gross profit from logistics and warehousing services mainly due to the completion of our engagement to distribute the anti-epidemic service bags and electronic wristbands by the Hong Kong Government in January 2023.

Despite the above, the gross profit from e-commerce fulfillment services improved our customers mix with higher margin and improved our rates charged to customers.

Other gains and losses, net

Other gains and losses, net mainly comprised loss on surrender of a life insurance policy of HK\$0.9 million, which outweighs a gain from disposal of property, plant and equipment of HK\$0.7 million for the Period.

Administrative and selling expenses

Administrative and selling expenses decreased by approximately HK\$10.4 million from HK\$30.1 million for the six months ended 30 June 2022 to HK\$19.7 million for the Period. The decrease in administrative expenses was primarily due to the (i) decrease in legal and professional fees for the Period as the professional fees for on-going litigations for the six months ended 30 June 2022 was no longer incurred by the Group; (ii) reduction of staff salaries and allowance due to the decrease in the number of employees for the Period; and (iii) reduction in overall spending through cost control initiatives.

Loss attributable to owners

The Group recorded a loss attributable to owners of the Company of HK\$9.1 million for the Period as compared to a profit attributable to the owners of the Company of HK\$3.7 million for the six months ended 30 June 2022.

The loss attributable to owners of the Company for the Period was mainly resulted from the (i) decrease in shipment volume and revenue from air and ocean freight forwarding services as the recovery of shipment volume affected by the outbreak of COVID-19 and economic downturn are slower than anticipated and significant drop in freight containers' price charged to customers; (ii) decrease in gross profit and gross profit margin from logistics and warehousing services; (iii) loss on surrender of a life insurance policy; and (iv) increase in finance costs due to increase in bank borrowing rates and increase in interest expenses on a loan from a substantial shareholder and other borrowings which did not exist for the six months ended 30 June 2022.

Notwithstanding the above, the Group recorded (i) an increase in gross profit from e-commerce fulfillment services; and (ii) a decrease in administrative and selling expenses which is primarily due to the decrease in legal and professional fees for the Period as the professional fees for on-going litigations for the six months ended 30 June 2022 was no longer incurred by the Group for the Period; and (iii) a decrease in salaries and allowances due to the decrease in the number of employees for the Period.

The increase is mainly due to increase in loan from a substantial shareholder during the Period and decrease in net assets value due to operating loss incurred by the Group during the Period, which is partially offset with repayment of other borrowing of HK\$7.1 million during the Period. With available bank balances, bank and cash, and credit facilities, the Group has sufficient liquidity to satisfy its funding requirements.
