MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged in the design and development, manufacturing and sales of disposable plastic food storage containers and to a lesser extent, the development and operation of mobile app and e-commerce platform in the People's Republic of China (the "PRC"). Mr. Xu Youjiang ("Mr. Xu"), the chairman and executive director of the Company, is responsible for the overall management, strategic development and major decision making of the Group.

The Group facilitates production of a comprehensive range of disposable plastic food storage containers, including the design and production of moulds, which are mainly sold to customers in the PRC.

For the six months ended 30 June 2023, the revenue of the Group recorded an increase primarily due to the demands for the Group's disposable plastic food storage containers having increased and remaining at a high level.

Looking forward, the Directors consider that the Group will continue to be affected by external opportunities and challenges such as the popularity of environmentally friendly disposable plastic food storage containers, advances in production technologies and competition from substitutes, such as disposable food storage containers in the market made of other materials. The Directors are of the view that maintaining product safety and focusing on environmental protection, brand promotion, expansion of sales channels and product customisation remain to be the key drivers for the growth of the disposable plastic storage container business. With the Group's experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors under such future challenges that are commonly faced by all competitors, and the Group will continue to strengthen its market position in the industry and expand its market share by the implementation of the Group's business plans through utilisation of the Group's cash and cash equivalents and cash generated from operating activities.

In view of the rapidly growing trend over the past few years of the film industry and enhancement of regulatory environment and favourable policies in the PRC, the Directors believe that the investment in film projects will enable it to leverage the opportunities that the COVID-19 pandemic in the PRC has gradually eased and popular entertainment needs will rebound, and seize the opportunity in the emerging film industry. The Group entered into the equity sale and purchase agreements dated 10 September 2021 and supplemental agreements (the "**Supplemental Agreements**") dated 20 January 2022, to acquire 100% equity interest of June Pictures & Media Limited ("**June Pictures**") with total consideration RMB20,571,430. This acquisition was completed on 27 April 2022. The Directors believe that this investment will bring considerable income to the Group and is a suitable investment, which will also expand the business scope of the Group.

In addition, the e-commerce market in the PRC has continued to grow over the past few years. The Group acquired 100% interest in Beijing Youpinhui Trading Co., Ltd.* (北京優拼匯商貿有限公司) ("**Beijing Youpinhui**") through acquisition of Youpinhui Enterprise Limited ("**Youpinhui Enterprise**"), which held Beijing Youpinhui, on 1 June 2022. Beijing Youpinhui is engaged in the development and operation of mobile app and e-commerce platform, enabling its users to purchase daily necessities and agricultural products via the mobile app. In July 2022, the Group launched a new e-commerce APP platform Yihe Tianxia* (易和天下), which is an online shopping platform covering daily necessities, beauty and skin care products, household appliances, domestic special agricultural products and other products. For the six months ended 30 June 2023, the Group started to provide advertising spaces on our e-commerce APP platform Yihe Tianxia* (易和天下) to and charge service fees against third party advertisers.

The Group will continue to develop commercial business, continuously optimise customer experience, broaden its revenue stream and ultimately maximise shareholder returns.

Cost of sales

The cost of sales increased from approximately RMB91.8 million for the six months ended 30 June 2022 to approximately RMB104.3 million for the six months ended 30 June 2023, representing an increase of approximately RMB12.5 million or approximately 13.6%. Selling expenses

Selling expenses for the six months ended 30 June 2023 amounted to approximately RMB9.4 million (six months ended 30 June 2022: RMB6.6 million), representing an increase of approximately 42.4%. Such increase was attributable to (i) the increase of revenue from disposable plastic food storage containers which incurred more sales staff costs and transportation expenses; and (ii) the increase in selling expenses, including sales staff costs and promotional expenses incurred by the new e-commerce segment.

Administrative and other operating expenses

Administrative and other operating expenses of the Group increased by approximately RMB7.5 million or approximately 83.3% from approximately RMB9.0 million for the six months ended 30 June 2022 to approximately RMB16.5 million for the six months ended 30 June 2023.

Administrative and other operating expenses primarily consist of staff costs, research and development cost, amortisation expense on intangible assets, legal and professional service fees and other costs incurred for the Group's daily operation. The increase was primarily attributable to the legal and professional expenses incurred arising from the Company's proposed transfer of listing from GEM to the Main Board of the Stock Exchange. Trade receivables		
— From third parties	62,381	55,901
Prepayments and other receivables	10,093	7,402
	72,474	63,303

The directors consider that the fair values of all of the trade and other receivables which are expected to be recovered within one year are not materially different from their carrying amounts due to these balances having short maturity periods on their inception.

Trade receivables

Before accepting any new customer, the Group applies an internal credit assessment policy to assess the potential customer's credit quality. The credit period is generally for a period of 60 days. Overdue balances are reviewed regularly by senior management. Trade receivables are non-interest-bearing.

An aged analysis of the trade receivables, based on the invoice date and net of ECL allowance, is as follows:

	As at 30 June 2023 RMB'000 (unaudited)	As at 31 December 2022 RMB'000 (audited)
Within 30 days	28,110	28,570

61 days to 90 days	—	1,968
	62,381	55,901

18. TRADE AND OTHER RECEIVABLES *(continued)*

Trade receivables *(continued)*

All trade receivables are denominated in RMB. The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over two years past due, whichever occurs earlier. As at 30 June 2023, all trade receivables were not past due (31 December 2022: RMB1,968,000 were past due and were subsequently settled). During the year ended 31 December 2022 and the period ended 30 June 2023, no written off was made against the trade receivables.

Generally, the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer base. As at 31 December 2022 and 30 June 2023, there has not been any significant change in the gross amounts of trade receivables that has affected the estimation of the loss allowance during the year/period.

19. CASH AND CASH EQUIVALENTS

As at 30 June 2023, bank balances of RMB123,989,000 (31 December 2022: RMB117,358,000) were denominated in RMB placed with banks in the PRC. RMB is not a freely convertible currency respectively. The conversion of RMB denominated deposits placed in banks in the PRC in foreign currencies and remittance of such foreign currencies denominated bank balances and cash out of the PRC are subject to relevant rules and regulation of foreign exchange control promulgated by the PRC government. Cash at banks earns interest at floating rates based on daily bank deposit rates.
