## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW AND FUTURE OUTLOOK**

Total revenue of the Group for the nine months ended 30 September 2023 decreased approximately by 8.08% when compared to the corresponding period in 2022. Such decrease was mainly due to the reduced sale price of natural gas in 2023 when compared to the same period in 2022. With the total recovery from the impact of COVID-19 (the “Pandemic”) of the People’s Republic of China (the “PRC”) and the whole world, our businesses in the PRC were benefited and were growing steadily. Moreover, the increase in demand of the clean energy in the PRC was an important factor that motivated the growth of the natural gas business.

The natural gas business is still the core business of the Group. Operating scale of the natural gas business segment continued to be stable in 2023. The government of the PRC is implementing the policies to encourage the use of clean energy in the PRC and the board (the “Board”) of directors (the “Director(s)”) considered the prospect of natural gas business is bright. Those policies included the use of natural gas for vehicles and industrial users, the set up of the natural gas network department, etc. The Group operated the natural gas business in various areas and provinces in the PRC in 2023. Our customers are mostly industrial customers.

The biomass gasification heating supply business in Huaining County, Anhui Province grew stable in 2023. With the great demand of heat supply in the relevant area in Huaining County, the Group expects the segment will generate considerable revenue for the Group. Since part of the factory construction and operation was not yet finished, the revenue generated was not able to cover the operating costs yet. At such, loss incurred in 2023 for this segment. The situation will be improved with the proceed of the construction.

The property investment business in Yichang provide stable cash inflow during the period under review. The area of our investment properties is the industrial park for manufacturing of vehicle which was developed by the Yichang government. Therefore, all of our tenants are manufacturers of vehicle parts. Since the industry is supported and developed by the Yichang government, we believe the property investment business will continue to be one of the major segments of the Group.

The negative effect of the outbreak of the Pandemic continued to affect the global economy and to most of the industries. The recovery of the world economy takes time. Luckily, the impact of the Pandemic to the Group was not so direct and significant as our business of natural gas distribution and property investment relied more on customers' internal demand and natural gas is necessity. Nevertheless, the Company will closely monitor the situation and assess if there is any impact on the Group's operations and operating results.

In view of the unstable global economy, the Board and management will be more careful and prudent in managing the operations of the Group. In the meantime, the Board has been exploring possible investing opportunities to increase the Company's value.

### ***FINANCIAL REVIEW***

Total revenue was approximately HK\$123,468,000 for the nine months ended 30 September 2023, which represented a decrease of approximately 8.08% when compared with approximately HK\$134,325,000 in the corresponding period of last year's total revenue. The Board believes that revenue of the Group will be improved with the growing of the clean energy business.

For the nine months ended 30 September 2023, unaudited loss before income tax was approximately HK\$13,187,000 (nine months ended 30 September 2022: loss of approximately HK\$26,182,000). The loss attributable to owners of the Company was approximately HK\$12,331,000 (nine months ended 30 September 2022: loss of approximately HK\$23,824,000). The loss was decreased when compared to the corresponding period of last year because of the improved performance and profit margin of the business segments of the Group. In the current economic environment, the Board will continue to exercise stringent cost control and maintain a low and effective overheads structure and prudently utilise the Group's corporate resources to create wealth for the shareholders.

### ***BUSINESS OUTLOOK AND PROSPECTS***

From 2023 onwards, the Board is optimistic that the Group will perform much better with the expansion of the energy segment. Currently, the energy segment mainly consists of the natural gas business and biomass gasification heating business. The Group has developed a natural gas sales network of certain scale. The network is still expanding and with the clean energy policy carried out by the PRC government, the management believes the natural gas business will grow steadily under the current economic environment and significant revenue will be contributed by the natural gas business. The energy segment will expand and continue to be the core business segment of the Group.

The land and properties in Yichang will continue to be let out to generate rental income.

**Liquidity and financial resources**

As at 30 September 2023, the Directors anticipated that the Group has adequate financial resources to meet its ongoing operations and future development.

### ***SHARE OPTION***

A share option scheme (the “Share Option Scheme”) was adopted by the shareholders of the Company at the annual general meeting of the Company (the “2022 AGM”) held on 17 May 2022 (the “Adoption Date”).

The Share Option Scheme which complies with Chapter 23 of the GEM Listing Rules. The Share Option Scheme is valid and effective for a period of ten years commencing on the Adoption Date.

The purpose of the Share Option Scheme is to provide incentives and/or rewards to Eligible Participants (as defined below) for their contribution to the growth of the Group and continuing efforts to promote the interests of the Group, and to provide the Group with a more flexible means to reward, remunerate, compensate and/or provide benefits to the Eligible Participants.

The definition of Eligible Participants in the Share Option Scheme include full time or part time employees of the Group (including any directors, whether executive or non-executive and whether independent or not, of the Company or any subsidiary) and any suppliers, consultants, agents and advisers who, in the reasonable discretion of the Board, has contributed or may contribute to the Group eligible for options (the “Options”) under the Share Option Scheme.

Whilst the scope of the Eligible Participants does not limit to the employees and directors of the Group, the Company considers that there can be circumstances when the other Eligible Participants would make contribution to the Group. As the purpose of the Share Option Scheme is to recognise contributions made and to be made to the growth and development of the Group, the Company is of the view that the wide scope of Eligible Participants will allow flexibility to provide incentives to those Eligible Participants who will contribute to the Group. The Directors consider that the aforesaid criteria and rules will serve to preserve the value of the Company and encourage Eligible Participants to acquire proprietary interests in the Company.

Subject to the obtaining of Shareholders' approval with respect to the adoption of the Share Option Scheme at the 2022 AGM, the total number of Shares which may be issued upon exercise of all Options to be granted under the Share Option Scheme and another other schemes must not in aggregate exceed 10% of the total number of Shares in issue as at the Adoption Date unless the Company obtains a fresh approval from Shareholders to renew the 10% Scheme Mandate Limit (as defined in the Share Option Scheme) on the basis that the maximum number of Shares in respect of which Options may be granted under the Share Option Scheme together with any Options outstanding and yet to be exercised under the Share Option Scheme and any other schemes shall not exceed 30% of the issued share capital of the Company from time to time. Having taken into accounts of the outstanding Options, which are less than 10% of the total number of shares in issue, the Company is of the view that the 30% threshold requirement can be met.
