MANAGEMENT DISCUSSION AND ANALYSIS

Operational review

Supply chain management and related services

The supply chain management service remains the main focus of the Group. The Group is providing intermediate service between suppliers and customers and it takes advantage of the business networks and resources in order to assist small and medium-sized enterprises in various industries to minimise the overall operation cost. Owing to the solid financial background of the Group and the great demand for supply chain service in mainland China, the Group has established many strategic partnerships with other supply chain companies, so as to undertake the operation of purchase and sales based on the services on import and export trade, logistic, customs clearance and storage.

During the Period, the Group continued its supply chain management service of aquatic products.
