

## RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2024

# CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the "Directors" or individually a "Director") of Timeless Resources Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

#### **19. SHARE-BASED PAYMENT ARRANGEMENT**

On 25 September 2013, an ordinary resolution approving the adoption of a share option scheme was passed by shareholders at the extraordinary general meeting of the Company ("2013 Share Option Scheme"). Under the 2013 Share Option Scheme, Directors of the Company may grant options to eligible persons to subscribe for the Company's shares subject to the terms and conditions as stipulated therein. The 2013 Share Option Scheme was valid for a period of 10 years from the adoption date and so expired on 25 September 2023. Thereafter, no further options would be granted under the 2013 Share Option Scheme to grantees.

On 14 August 2023, a total of 41,000,000 share options were granted under the 2013 Share Option Scheme to grantees. The details of the share options granted are as follows:

Date of grant	14 August 2023
Vesting period	14 August 2023 – 13 August 2024
Exercise period	14 August 2024 – 13 March 2027
Number of shares to be vested	41,000,000
Total consideration received from grant of share options	HK\$11
Fair value at grant date	HK\$627,000

The following share options were outstanding under the 2013 Share Option Scheme during the six months ended 30 September 2024 and 2023:

	Weighted average exercise price HK\$ per share	Number of options
At 1 April 2024 and 30 September 2024	0.4772	5,700,000
At 1 April 2023	0.1125	32,255,136
Granted during the period	0.0242	41,000,000
Lapsed during the period	0.1435	(518,919)
At 30 September 2023	0.0625	72,736,217

The fair value of the share options was determined at the date of grant using the Binomial Option Pricing Model (the "Model"). The model requires the input of highly subjective assumptions, including the option's expected life and the price volatility of the underlying shares, and changes in the subjective input assumptions can materially affect the fair value estimate of share options.

Closing share price at grant date	HK\$0.024
Exercise price	HK\$0.0242
Expected volatility	116.92%
Expected life	3.58 years
Risk-free interest rate	3.99%
Expected dividend yield	Nil
Exercise multiple	2.2-2.8

The Model has been used to estimate the fair value of the options. The expected life used in the Model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions and behavioural considerations. Expected volatility is based on the historical volatility of the Company's share price, adjusted for any expected changes to future volatility based on publicly available information. Changes in variables and assumptions may result in changes in the fair value of the options.

On 28 December 2023, the shareholders of the Company approved the consolidation of every 10 existing shares into 1 consolidated share (the "Share Consolidation"). Upon completion of the Share Consolidation on 2 January 2024, the number of options granted and the exercise prices were adjusted accordingly.

The exercise prices and exercise periods of the share options outstanding under the 2013 Share Option Scheme as at 30 September 2024 and 31 March 2024 are as follows:

Exercise period	Exercise price HK\$ per share	Number of options
2 March 2017 – 1 March 2027 14 August 2024 – 13 March 2027	1.080 0.242	1,600,000 4,100,000
	T	otal 5,700,000

The Group recognised total expense of HK\$231,000 (six months ended 30 September 2023: HK\$82,000) for the six months ended 30 September 2024 in relation to the share options granted by the Company.

On 25 September 2023, a new share option scheme (the "2023 Share Option Scheme") was approved by the shareholders of the Company at the extraordinary general meeting. The 2023 Share Option Scheme was adopted by the Company on 26 September 2023 when the conditions as set therein became satisfied. Unless otherwise cancelled or amended, the 2023 Share Option Scheme will remain valid for a period of 10 years from the adoption date of 26 September 2023.

## MANAGEMENT DISCUSSION AND ANALYSIS

## About the Group

The Group is principally engaged in two business segments, namely (i) the Mining and Metal Business; and (ii) the Software and Innovation Business.

## **Business Review and Outlook**

## Mining and Metal Business

## Overview

The Mining and Metal Business primarily comprises of exploration, development and exploitation of a nickel-copper mine in the PRC and metal trading in Hong Kong.

During the period, the approval letter on the proposal for development plan of the phase two mining zone of the Baishiquan Nickel-copper Mine was obtained in May 2024 and the assessment of production scale of mining license was completed. The Group have been applying for the renewal of the current mining license which will be expired in December 2024. The Ministry of Land and Resources issued the public notice on the royalty fee assessment report in September 2024 and a mining right assignment agreement will be entered into with the Ministry of Land and Resources after the expiry of the public notice period if there is no objection. The Group did not generate any revenue from the sales of nickel-copper products in the current period (six months ended 30 September 2023: nil).

During the period, the Group completed trading of 81 kg gold with gross profit of approximately HK\$120,000 (six months ended 30 September 2023: nil).

## Outlook

Nickel prices at the London Metal Exchange ("LME") have been pressured lower in recent months, with LME nickel futures falling from more than US\$21,000 per tonne in May 2024 to as low as US\$15,600 per tonne in late July – marking a three-year low. The nickel surplus, driven by increased supply from Indonesia and China, has limited the upside for prices. However, it is anticipated that the growing demand for electric vehicles will boost global nickel prices in future.

The renewed mining license is expected to be obtained by the end of year 2024 subject to the payment of the royalty fee under the mining right assignment agreement. According to the planned schedule, after obtaining the renewed mining license with increased production scale, we will prepare and submit the feasibility study, safety evaluation report, evaluation report on environmental impact etc to the local government for approval. It is targeted that the Group will start to construct the mine site in the second half of 2025 and the extraction of the phase two mining zone may be commenced by the end of 2026, subject to the progress of the development phase, the construction work and approval by relevant authorities.
