ANNOUNCEMENT OF ANNUAL RESULTS FOR THE YEAR ENDED 31 DECEMBER 2024

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the "**Directors**") of Future Data Group Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company and its subsidiaries (collectively refer to as the "**Group**"). The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in the provision of (i) integration of systems with network connectivity, cloud computing and security elements; and (ii) maintenance services. As the business environment in 2024 remained complex and challenging, coupled with budget cuts for cyber security services by public and private organisations, leading to a decline in the Group's revenue from cyber security services. The Group has discontinued the cyber security services for improving the overall financial position of the Group during the Year.

(I) Continuing Operations

The continuing operations comprise (i) integration of systems with network connectivity, cloud computing and security elements; and (ii) maintenance services. Notwithstanding the Group has recorded a loss for the Year, our order book is steady and the situation is improving. The management team of the Group will continuously implement tight cost control against those uncertainties.

Set out below were the details of the movement of projects for the Year:

| | HK\$'000 |
|--|-----------|
| Opening backlog as at 1 January 2024 | 202,707 |
| New booking during the Year | 373,972 |
| Revenue recognised during the Year | (426,542) |
| Closing backlog as at 31 December 2024 | 150,137 |

(II) Discontinued Operation

Given that the performance of the businesses of Maximus Group Consulting Limited and its subsidiaries (collectively refer to as the "**Maximus Group**") was not satisfactory and operated at a loss, the Group has disposed of the Maximus Group on 24 January 2024. More details are provided in the section headed "Material Acquisitions and Disposals of Subsidiaries" of the "Management Discussion and Analysis" in this announcement.

PROSPECTS

Looking forward, the Group believes that global and overall market sentiment and development are still weak and complex, which will continue to affect the global economic growth. The business environment in 2025 will still be more challenging than in 2024. We will remain cautious and optimistic, make good use of resources and manage risks well.

The Group will continue to develop businesses related to system development pertaining to Web3.0 and public transit sector, and explore opportunities and business opportunities therein. In addition, the Group will continue to actively explore new business opportunities, aiming to bring higher returns to the shareholders of the Company.

DIVIDENDS

FOREIGN EXCHANGE EXPOSURE

The Group's business in Korea is exposed to currency risk that mainly arose from the currency difference between our revenue receipts (which are denominated in KRW) and some of our payments for purchases (which are in US\$). In preparing the costing of our system integration project in which procurement of components in US\$ is required, we would add on a margin to the relevant cost items of the project as a cushion to safeguard against any unfavourable foreign exchange movement in KRW against US\$ between the costing date and the relevant settlement date.

Revenue and cost of our Hong Kong operation are mainly denominated in HK\$ and US\$. Hence, there is no significant currency risk arising from it.
