## MANAGEMENT DISCUSSION AND ANALYSIS

Management of the group has continued to utilise our professional and committed workforce and financial resources to achieve maximum return to our shareholders.

### Business Review

Throughout the year, our group remained dedicated to delivering our products and professional services to our customer base.

Nevertheless, the recent trade and tariff conflict between the United States and China is expected to inflict further damage on the economies of China and Hong Kong. This development might disrupt and fundamentally reshape the global trade landscape, posing risks and long-term challenges to Hong Kong's economic recovery. Given the uncertainties and unfavourable external environment, we adopt a more stringent and cautious stance when evaluating our future outlook.

### Future Prospect

Since our establishment, we have been focusing on our core business and technologies, we continue to devote our efforts and resources for the long term growth of the group building on our *Innovation, Technology and Excellency*; three words which best explain ITE.

All members performed professionally under the corporate vision, mission and core values. Every year, new intellectual assets are created, accumulated and protected, and the range of professional services continues to expand to meet the fast growing needs of the changing world. We have firmly maintained our position as the pure rider to provide innovative solutions to our clients.

### Key Risks and Uncertainties

The group's insurance may be insufficient to cover all losses associated with its business operations. The group maintains insurance policies against loss or damage to its office and business interruption, public liability and employees' compensation. The insurance coverage may be insufficient to cover all the risks associated with the group's business and operations in the future. In the case of an uninsured loss or a loss in excess of insured limit, including those caused by natural disasters and other events beyond the group's control, the group may be required to pay for losses, damages and liabilities out of its own funds, which could materially and adversely affect its business, financial condition and results of operations. Even if the insurance coverage is adequate to cover its direct losses, the group may need to be responsible for the indirect losses. Furthermore, claim records of the group may affect the premiums which insurance companies charge in the future.

Despite of the above, the group considers that the current insurance coverage is sufficient for its existing operation scale and the group will review its insurance policies from time to time.

### Compliance with Laws and Regulations

As far as the board of directors of the company and management are aware, the group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the group. During the year, there was no material breach of or non-compliance with the applicable laws and regulations by the group.

However, the income from maintenance services increased by 3% to HK\$9,409,587 (2024: HK\$9,114,762).

The group's administrative expenses increased slightly by 2% to HK\$7,757,695 (2024: HK\$7,618,180). Included in administrative expenses, the research and development cost and associated sponsorship was decreased by 38% to HK\$758,425 (2024: HK\$1,215,032). Expenditure on research and development activities was totally expensed in profit or loss during the year.

During the year, the group's finance cost was HK\$19,796 (2024: HK\$55,103) which related to finance charges on lease liabilities.

## **Liquidity and Financial Resources**

The group continues to adopt a conservative approach in its treasury policy. The group strives to reduce exposure to credit risk by performing ongoing credit evaluations of the financial condition of its customers. Besides, the group's liquidity and financing arrangements are also reviewed regularly.

Taking into consideration the stringent cost control and the existing financial resources available to the group, it is believed that the group should have adequate financial resources to meet its operation, development requirements and investments in the future.

## **Treasury Policy**

The group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the period under review. The group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the board closely monitors the group's liquidity position to ensure that the liquidity structure of the group's assets, liabilities and other commitments can meet its funding requirements from time to time.

## **Employment Information**

The group recognises that its staff is one of the group's most important assets. Aiming at providing competitive salary packages, the group adjusts employees' salary level in close association with the performance, qualifications and experience of individual staff as well as labour market conditions. In addition to the regular remuneration, discretionary bonus and share options may be awarded to eligible employees with reference to individual performance and the group's business performance.

The group enjoys good relations with its staff and has not experienced any disruption of operations due to major labour disputes. In addition to the remuneration as mentioned above, the group also provides fringe benefits which comply with the relevant laws and regulations of Hong Kong including contributions to the Mandatory Provident Fund Scheme. Besides, the group also provides on-going training programmes for its employees to keep them abreast of the latest market trends and new technologies.

## **Exposure to Fluctuations in Exchange Rates and Related Hedges**

The group's assets, liabilities, revenues and expenses are mainly denominated in HK\$, United States dollars ("US\$"), British Pound ("GBP") and Renminbi ("RMB"). The exchange rates between HK\$, US\$, GBP and RMB have been steady for the past few years. During the year, the group generally used the receipts from customers to pay its suppliers and meet its capital requirements. They are denominated in the local currency of the place in which the subsidiaries operate. The group does not currently engage in hedging to manage possible exchange rate risk as the group considers the cost associated with such hedging arrangements would exceed the benefits. However, management will continue to monitor the possible exposure to exchange rate risk and will take such measures as it deems prudent.

## **Significant Investments, Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures, and Future Plans for Material Investments or Additions of Capital Assets**

The group's financial statements for the year ended 31 March 2025 have been reviewed by the audit committee, who is of the opinion that such statements comply with the applicable accounting standards, the GEM Listing Rules and legal requirements, and that adequate disclosures had been made.

## **CORPORATE GOVERNANCE**

The company is firmly committed to maintaining statutory and regulatory standards and adherence to the principles of corporate governance emphasising transparency, independence, accountability, responsibility and fairness. The board ensures that effective self-regulatory practices exist to protect the interests of the shareholders of the company.

The company has applied the principles and complied with all the code provisions as set out in the Corporate Governance Code (the "Code") contained in Appendix C1 of the Rules Governing the Listing of Securities on the GEM of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules") throughout the year ended 31 March 2025, save for the deviations discussed below.

Mr. Lau has been both chairman and chief executive officer of the company since its incorporation. The board considers that, with the present board structure and scope of business of the group, there is no imminent need to separate the roles into two individuals as Mr. Lau is capable of distinguishing the priority of these roles in which he has been acting. However, the board will continue to review the effectiveness of the group's corporate governance structure to assess whether the separation of the positions of chairman and chief executive officer is necessary.

Under the code provision B.2.2 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. However, the non-executive directors do not have a specific term of appointment, but are subject to rotation in accordance with the articles of association of the company. As such, the company considers that sufficient measures have been taken to serve the purpose of the code provision B.2.2 of the Code.

The company has not arranged any insurance coverage for the directors' liabilities in respect of any potential legal actions against the directors. Given the nature of the company's business, directors believe that the occurring of legal actions against the directors is very slight, and the company still can achieve excellent corporate governance through various management and monitoring mechanism so as to reduce such risks, such as periodic review on the effectiveness of internal control system, clear division of duties and providing training for staffs and the management. The board will review, on a regular basis, the necessity to arrange insurance cover for potential legal actions against the directors.
