MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Company and its subsidiaries (collectively the “Group”) are principally engaged in the manufacturing and sales of decorative printing materials products which mainly comprise of (i) decorative paper; (ii) melamine impregnated paper; and (iii) PVC flooring film. The Group served over 500 customers in both domestic and overseas markets for the six months ended 30 June 2025 (the “Period”). The overseas sales reached over 40 countries in Asia, North America, South America, Europe, Oceania and Africa.

FINANCIAL REVIEW

Revenue

The Group’s revenue for the Period was approximately RMB270.5 million, representing an increase of approximately 3.8% over the six months ended 30 June 2024 (the “Corresponding Period”). The increase in the Group’s revenue was driven by the increase in revenue from overseas markets and the People’s Republic of China (the “PRC”). The revenue from overseas markets recorded an increase of approximately 7.2% over the Corresponding Period, which was mainly derived from the increase in demand of United Arab Emirates, India and other overseas markets. The demand from PRC customers remained stable and recorded a slight increase of approximately 2.2% over the Corresponding Period. The increase in revenue was mainly derived from the increase in sales of major products, including decorative paper, melamine impregnated paper and PVC flooring film, during the Period.

Cost of sales

Despite the increase in revenue, the cost of sales decreased by approximately RMB15.7 million or approximately 8.4%, from approximately RMB186.5 million for the Corresponding Period to approximately RMB170.8 million for the Period, which was primarily due to the decrease in production materials such as original paper and other production costs during the Period.

Gross profit and gross profit margin

The Group’s gross profit increased significantly by approximately RMB25.6 million, or approximately 34.5%, from approximately RMB74.1 million for the Corresponding Period to approximately RMB99.7 million for the Period, primarily due to the corresponding increase in the Group’s revenue and the decrease in the Group’s cost of sales. The prices of production materials were stable, and the production efficiency was improved due to the favorable results of the Company’s cost-efficient measures, which led to an increase in the gross profit margin for the Period to approximately 36.9% (the gross profit margin for the Corresponding Period: 28.4%).

MANAGEMENT DISCUSSION AND ANALYSIS

Selling expenses

The Group's selling expenses increased by approximately RMB1.4 million or 6.4% from approximately RMB21.1 million for the Corresponding Period to approximately RMB22.5 million for the Period. The increase was primarily attributable to the increase in the marketing and exhibition expenses in order to facilitate sales orders.

Administrative expenses

The administrative expenses for the Period increased by approximately RMB12.2 million or 33.3% from approximately RMB36.6 million for the Corresponding Period to approximately RMB48.8 million for the Period. The increase was mainly attributable to (i) the increase in salaries and welfare of our administrative staff, (ii) the increase in entertainment expenses in order to maintain relationship with business partners, and (iii) the increase in the preliminary infrastructure expenses for the establishment of the new manufacturing plant in She County.

Other income and other gains – net

The Group's other income and other gains – net decreased by approximately RMB5.1 million or 98.5% from approximately RMB5.2 million of net gains for the Corresponding Period to approximately RMB0.1 million for the Period, primarily due to the foreign exchange loss was recorded resulting from the depreciation of US dollar ("USD") against RMB during the Period.

Finance expenses – net

The Group's finance expenses – net increased by approximately RMB0.2 million or 5.0% from approximately RMB5.1 million for the Corresponding Period to approximately RMB5.3 million for the Period. This was primarily due to the increase in interest expenses attributable to the increase in the bank borrowings.

Income tax expense

The income tax expense increased from approximately RMB1.4 million for the Corresponding Period to approximately RMB3.3 million for the Period, which was due to the increase in profit before income tax.

Profit attributable to owners of the Company

As a result of the foregoing, the Group recorded a profit attributable to owners of the Company of approximately RMB19.9 million for the Period as compared to a profit attributable to owners of the Company of approximately RMB15.1 million for the Corresponding Period.

MANAGEMENT DISCUSSION AND ANALYSIS

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 30 June 2025, the Group had current assets of approximately RMB354.6 million (31 December 2024: RMB324.4 million) which comprised cash and cash equivalents of approximately RMB54.3 million (31 December 2024: RMB55.6 million). As at 30 June 2025, the Group had current liabilities amounted to approximately RMB187.0 million (31 December 2024: RMB287.9 million). Accordingly, the current ratio, being the ratio of current assets to current liabilities, was around 1.90 times as at 30 June 2025 (31 December 2024: 1.13 times). The increase in current ratio was mainly due to the decrease in notes payable and payables for purchase of property, plant and equipment.

As at 30 June 2025, the Group's total bank borrowings amounted to approximately RMB468.9 million (31 December 2024: RMB380.8 million), representing an increase of approximately 23.1% as compared to that of 31 December 2024. There was no material seasonality of borrowing requirements for the Group. As at 30 June 2025, bank borrowings of the Group amounting to approximately RMB468.9 million were at fixed interest rates ranging from 2.9% to 3.7% per annum. Accordingly, the gearing ratio of the Group, calculated based on the total bank borrowings divided by the total equity, was approximately 1.61 as at 30 June 2025 (31 December 2024: 1.37). The increase in gearing ratio was mainly attributable to the increase in long-term bank borrowings during the Period.

The Group adopted a prudent treasury policy and thus maintained a healthy liquidity position throughout the Period. To manage liquidity risk, the board of Directors of the Company (the "Board") closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

FOREIGN EXCHANGE EXPOSURE

The Group mainly operates in the PRC, but a significant portion of its sales is made to foreign countries, and thus the Group is exposed to foreign currency risks arising from various currency exposures, mainly with respect to USD, Euro and Hong Kong dollars. The Group regularly and closely monitors the level of the foreign exchange risk exposures and will make necessary hedging arrangements to minimise its foreign currency exposure arising from the fluctuation in foreign exchange in the future.

During the Period, the Group did not engage in any derivatives activities and did not commit to any financial instruments to hedge its exposure to foreign currency risks.

MANAGEMENT DISCUSSION AND ANALYSIS

CONTINGENT LIABILITIES

The Group had no material contingent liabilities as at 30 June 2025 (31 December 2024: Nil).

PROSPECTS

Challenges including high interest rates, geo-political tensions and Sino-US trade conflicts continue to cloud the global economy despite the emergence of positive signals. The global business environment remains consistently challenging in the short run and the geopolitical uncertainties have brought increased challenges to the Group. With the steady recovery of China's economy and looking forward, the Group will be more proactively integrating into this dynamic market. The decorative printing material industry may continue to grow in the coming year as demand for decorative paper is expected to increase due to the economy recovery.

The proposed establishment of another manufacturing plant in She County is in line with the business plan of the Group and will further enhance its production capacity and flexibility to facilitate the Group's business expansion in She County, Huangshan City, Anhui Province, the PRC. The construction is on-going and the progress is in line with the original schedule and it is expected to be completed on or before 30 December 2026. The Directors believe that the new manufacturing plant aligns with the development strategy of the Group, and will further enhance the profitability of the Group and promote the long-term sustainable development of the Group.

The Group will stick to its proven business strategies to maintain and strengthen its growth and performance. To maintain its well-recognised reputation in the market, the Group is exploring opportunities to expand its business presence in the global decorative printing material market as well as developing other business partnerships that would be beneficial to the overall business development of the Group.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as disclosed in this interim report, the Group did not have any future plans for material investments or additions of capital assets as at the date of this interim report.

2 Basis of presentation

This unaudited condensed consolidated interim financial information for the Period has been prepared in accordance with HKAS 34, ‘Interim financial reporting’. The unaudited condensed consolidated interim financial information should be read in conjunction with the Group’s consolidated financial information for the year ended 31 December 2024, which have been prepared in accordance with the Hong Kong Financial Reporting Standards (the “HKFRSs”).

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

3 *Significant accounting policies*

The accounting policies applied are consistent with those adopted in preparing the Group's annual audited financial statements for the year ended 31 December 2024, except for the estimation of income tax using the tax rate that would be applicable to expected total annual earnings and the adoption of amendments to HKFRSs effective for the financial year ending 31 December 2025.

New and amended standards adopted by the group

A number of new or amended standards became applicable for the current reporting period. The new or amended standards did not have any material impact on the Group's accounting policies and did not require retrospective adjustments.

4 *Estimates*

The preparation of the unaudited condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2024.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

5 *Financial risk management*

5.1 *Financial risk factors*

The Group's activities expose it to a variety of financial risks, market risk (foreign exchange risk, cash flow and fair value interest rate risk), credit risk and liquidity risk.

The unaudited condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the annual report as at 31 December 2024.

There have been no changes in the risk management policies since 31 December 2024.

5.2 *Fair value estimation*

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The carrying amounts of long-term bank borrowings approximates their fair value because the Group's borrowings bear floating interest rates which approximate to the market borrowing interest rate.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

5 Financial risk management (Continued)

5.2 Fair value estimation (Continued)
