Management Discussion and Analysis

Business Overview

We are a finance leasing company in Fujian Province primarily dedicated to providing equipment-based financing solutions and financial information service in the PRC. We provide customized services to meet specific needs and requirements of our customers by closely interacting with them to determine the appropriate interest rates, repayment plans and terms of our services based on their businesses, cash flows and source of payment. Our customers are mainly SMEs and entrepreneurial individuals, and also include reputable large enterprises. While our Group remains focused in developing the finance leasing business, as well as extending into financial information service provision, we also actively look for opportunities to expand into other areas of business.

On 13 January 2021, we established Baiying Paper to expand our business portfolio into the packaging and paper products trading industry. Our packaging and paper products trading business has continued to operate steadily by engaging in the trading of paper products, such as corrugated cardboard box, packaging paper and kraft paper, etc. The packaging and paper products trading businesses will not affect our financial services business.

On 18 February 2025, the Group established a new subsidiary, namely Xiamen Baishun Information Technology Limited (“**Baishun**”) (廈門柏順信息科技有限公司) and primarily providing SaaS service to small and medium-sized financial consultancies in China.

On 27 March 2025, Xiamen Baiying entered into the sale and purchase agreement with Qingxiangyuan, an associate of the three ultimate individual Controlling Shareholders. Pursuant to which, among other things, Xiamen Baiying conditionally agreed to sell, and Qingxiangyuan conditionally agreed to acquire, entire equity interest of Qiaoxin. The Disposal was completed on 13 June 2025. Following the completion, the Company ceased to hold any interest, directly or indirectly, in Qiaoxin and its subsidiaries and their financial results, assets and liabilities will no longer be consolidated into the financial statements of the Group. For more details, please refer to the note 5 and note 22 to the unaudited interim financial report, the major and connected transaction announcement dated 27 March 2025, supplemental announcement dated 1 April 2025, the circular of extraordinary general meeting and notice of extraordinary general meeting both dated 12 May 2025, the poll results announcement dated 3 June 2025 and the completion announcement dated 13 June 2025.

For the six months ended 30 June 2025, we served 92 customers located in 19 provinces in China in relation to our financial services and packaging and paper products trading business. Our revenue increased from RMB9.1 million for the six months ended 30 June 2024 to RMB16.8 million for the six months ended 30 June 2025. We recorded a loss of approximately RMB9.7 million for the six months ended 30 June 2024 and a profit of approximately RMB4.8 million for the Reporting Period. The revenue and profit generated from our financial services was RMB11.7 million and RMB17.3 million for the six months ended 30 June 2025, respectively. The revenue and profit generated from packaging and paper products trading was RMB5.1 million and RMB0.01 million for the six months ended 30 June 2025, respectively.

Financial Services

Finance Leasing Services

We primarily offered two types of finance leasing services, namely, direct finance leasing and sale-leaseback, to our customers. Direct finance leasing is mainly used to satisfy the need of our customers to commence new projects, expand production, make advancements in technology and have finance demands to purchase new equipment. Sale-leaseback is primarily used by our customers to fund their business operations. Through sale-leaseback, our customers sell the assets, of which they have the ownership, to us to finance their working capital and then we lease the sold assets back. We usually enter into financial leasing agreements with our customers which sets out major terms such as the leased asset concerned, purchase price of the leased asset, term of the lease, the payment schedule of the lease payments, security deposit (if any), management fee (if any), transfer of title clause and insurance for the leased asset, which will usually be paid by our customers. In addition, depending on the credit profile of our customers, we may require our customers to provide other collaterals, such as immovable property. For the six months ended 30 June 2025, our revenue from finance leasing services was RMB7.4 million, accounting for 44% of our total revenue.

To the Board of Directors of Baiying Holdings Group Limited

(Incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 30 to 68 which comprises the condensed consolidated statement of financial position of Baiying Holdings Group Limited (the “**Company**”) and its subsidiaries (collectively the “**Group**”) as of 30 June 2025 and the related condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six months period then ended and notes to the condensed consolidated financial statements. The Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to express a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2025 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34.

Notes to the Unaudited Interim Financial Report

For the six months ended 30 June 2025

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands under the Companies Law, Cap. 22 (Law 3 of 1961, as combined and revised) of the Cayman Islands as an exempted company with limited liability on 5 June 2017.

The Company's issued shares have been listed on GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 18 July 2018.

2. BASIS OF PREPARATION

This unaudited interim financial report has been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") as well as the applicable disclosure provisions of the Rules Governing the Listing of Securities on GEM of the Stock Exchange. It was authorised for issue on 28 August 2025.

The unaudited interim financial report has been prepared in accordance with the same accounting policies adopted in the 2024 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2025 annual financial statements. Details of any changes in accounting policies are set out in note 3.

The preparation of an interim financial report in accordance with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This unaudited interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2024 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with HKFRS Accounting Standards.

3. CHANGES IN ACCOUNTING POLICIES

Application of amendments to HKFRS Accounting Standards

The Group has applied the following amendments to a HKFRS Accounting Standards issued by the HKICPA to this unaudited interim financial report for the current accounting period:

- Amendments to HKAS 21, Lack of Exchangeability

This development does not have a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented in this unaudited interim financial report.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

Accounting policies newly applied by the Group

Loss control of a subsidiary

When the Group loses control of a subsidiary (except for disposal of subsidiaries by way of distribution in specie by the Company, where the disposed subsidiaries are ultimately under control of the same parties before and after the distribution), the gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for on the same basis as would be required if the relevant assets or liabilities were disposed of.

For the six months ended 30 June 2025

4. REVENUE AND SEGMENT REPORTING

(a) Disaggregation of revenue

The principal activities of the Group are providing equipment based financing solutions, financial information services to customers, sales of packaging and paper products and manufacture and sales of vinegar and other condiment products in the People's Republic of China (the "PRC"). During the reporting period, manufacture and sales of vinegar and other condiment products was classified as a discontinued operation, so the amount of each significant category of revenue recognised during the six months ended 30 June 2025 and 2024 as follows does not include any amount for this discontinued operation, which is described in more details in note 5:

- (ii) Revenue from sales of packaging and paper products is recognised when control of goods has transferred, being when the goods have been delivered as agreed in the sales contracts. Revenue from providing financial information services includes granting the right to access the financial information platforms and solutions to the customers and is recognised over time in accordance with the terms of the relevant contracts.

(b) Segment reporting

The Group manages its businesses by divisions, which are organised by business lines (products and services). In a manner consistent with the way in which information is reported internally to the Group's most senior executive management, being the chief operating decision maker, for the purposes of resource allocation and performance assessment, the Group has presented the following two reportable segments. During the reporting period, manufacture and sales of vinegar and other condiment products was classified as a discontinued operation, so the following segment information does not include any amounts for this discontinued operation, which is described in more details in note 5 and 22. No operating segments have been aggregated to form the following reportable segments.

- Financial services segment: providing financial leasing service and financial information services in the PRC; and
- Packaging and paper products trading segment: the Group set up Fujian Baiying Paper Co., Ltd. ("Baiying Paper") to diversify the business of the Group. The main business of Baiying Paper is sales of packaging and paper products in the PRC.

(i) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets, and current assets with the exception of deferred tax assets. Segment liabilities include borrowings, trade and other liabilities, lease liabilities, income tax payable with the exception of deferred tax liabilities.

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

For the six months ended 30 June 2025

4. REVENUE AND SEGMENT REPORTING (Continued)

(b) Segment reporting (Continued)

(i) Segment results, assets and liabilities (Continued)

Disaggregation of revenue by the timing of revenue recognition, as well as information regarding the Group’s reportable segments as provided to the Group’s most senior executive management for the purposes of resource allocation and assessment of segment performance for the period is set out below:

Finance lease receivables are mainly secured by leased assets which are used in infrastructure, manufacturing, construction and other industries, lessees' deposits and leased assets repurchase arrangement where applicable.

Additional collateral may be obtained from lessees to secure their repayment obligation and such collateral include residential properties, car parks etc. Due to restriction of the collateral registration procedure, finance lease receivables with carrying amount of RMB422,089 was arranged through an entrusted loan with properties as the collateral as at 30 June 2025 (31 December 2024: RMB422,089).

Lessees' deposits are calculated and collected based on a certain percentage of the entire value of the lease contract. The deposits are returned to the lessees in full by end of lease period according to the terms of the lease contracts. The balance of the customers' deposits can also be applied and used to settle any outstanding lease payments for the corresponding lease contract.
