INTERIM RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 JUNE 2025

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This report, for which the directors (the “**Directors**” and each, a “**Director**”) of SuperRobotics Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) collectively and individually accept responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquires, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

This report, containing the full text of the 2025 Interim Report of the Company, complies with the relevant requirements of the GEM Listing Rules in relation to information to accompany preliminary announcement of interim results. Printed version of the Company’s 2025 Interim Report will be delivered to the shareholders of the Company and available for viewing on the Stock Exchange’s website at <http://www.hkexnews.hk> and the Company’s website at <http://www.superrobotics.com.hk> on 29 August 2025.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL INFORMATION

SuperRobotics Holdings Limited (the “**Company**”) was incorporated in the Cayman Islands and with effect from 22 April 2014, the Company deregistered in the Cayman Islands and continued in Bermuda with limited liability. The Company’s shares are listed on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The address of the registered office and principal place of business of the Company are disclosed in the “**Company Information**” section to the annual report.

The principal activities of the Company and its subsidiaries (collectively referred to as the “**Group**”) are provision of engineering products and related services (the “**Robotics Business**”).

The unaudited condensed consolidated financial statements (the “**Interim Financial Information**”) are presented in units of thousands of Hong Kong dollar (HK\$’000), unless otherwise stated, which is the same as the functional currency of the Company.

2. BASIS OF PREPARATION

The Interim Financial Information have been prepared in accordance with HKAS 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) as well as the applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange.

The preparation of the Interim Financial Information in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The Interim Financial Information contains unaudited condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the publication of the 2024 annual financial statements. The Interim Financial Information and notes thereon do not include all of the information required for a full set of consolidated financial statements prepared in accordance with HKFRS Accounting Standards. The Interim Financial Information should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2024.

The financial information relating to the financial year ended 31 December 2024 that is included in the Interim Financial Information as comparative information does not constitute the Company’s statutory annual financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2024 are available from the Company’s registered office.

During the six months ended 30 June 2025, the Group incurred a net loss of approximately HK\$12,208,000 (six months ended 30 June 2024: HK\$14,159,000). As at 30 June 2025, the Group had a capital deficiencies of approximately HK\$171,933,000 (as at 31 December 2024: HK\$161,949,000) and net current liabilities of approximately HK\$171,666,000 (as at 31 December 2024: HK\$18,576,000) including cash and cash equivalents of approximately HK\$11,026,000 (as at 31 December 2024: HK\$14,038,000) and other borrowings of approximately HK\$150,860,000 (as at 31 December 2024: HK\$146,999,000).

These conditions indicate the existence of material uncertainties which may cast significant doubt about the ability of the Group to continue as a going concern.

In view of these circumstances, the directors have given careful consideration to the future liquidity and performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain plans and measures have been taken to mitigate the liquidity pressure and to improve its financial position which include, but not limited to, the following:

- (i) On 16 January 2023, the Group entered into a new facilities agreement with 惠州市金達勝投資有限公司 (Huizhou Jindasheng Investment Limited*) (“**HJIL**”), who is a non-controlling shareholder of the Group’s certain subsidiaries. Under the new facilities agreement, the new facilities granted to the Group with the amount of approximately RMB20,007,000 (equivalent to HK\$21,924,000) will be available for drawdown as and when needed as at 30 June 2025. The directors considered that such facilities will continue to be available given that such facilities are secured by the entire equity interest in a non-wholly owned subsidiary of the Group, 深圳市安澤智能機器人有限公司 (“**Anzer**”). It is expected that borrowings will continue to be available for drawdown under these facilities as and when needed in the next twelve months and within 3 years from the date of the new facilities.
- (ii) The management of the Company has actively taken measures to improve operating results and net cash inflows of the Group’s Robotics Business in Hong Kong and the People’s Republic of China (the “**PRC**”) including but not limited to increase sales order for Robotics Business.
- (iii) The Group will continue to source additional funding from external resources and/or fund raising opportunities.

In the current interim period, the Group has applied the following amendments to HKFRS Accounting Standards issued by the HKICPA, for the first time, which are mandatorily effective for the annual period beginning on 1 January 2025 for the preparation of the Group’s Interim Financial Information:

Amendments to HKFRS 21 and HKFRS 1

Lack of exchangeability

The application of the amendments to HKFRS Accounting Standards has had no material impact on the Group’s financial position and financial performance for the current and/or prior periods and/or on the disclosure set out in the Interim Financial Information.

The Group has not applied any new and amendments to HKFRS Accounting Standards that have been issued but not yet effective for the current accounting period.

3. OPERATING SEGMENTS

The Group's operating segment have been determined based on the information reported to and reviewed by the executive directors, being the Group's chief operating decision-maker (the "CODM"), which are used for the purposes of assessing performance and making strategic decisions. The Group's operating segment is structured and managed separately according to the nature of their operations, and the products and services they provide. Each of the Group's operating segment represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other operating segments.

The Group has one operating segment for both years. Particular of the Group's reportable segment is summarised as follows:

Provision of engineering products and related services (*Note*)

The CODM considered the Group has only one operating segment under HKFRS 8 *Operating Segments*, accordingly, only entity-wide disclosures, major customers and geographic information are presented.

Note: For the engineering products, the Group offers robotic products. For the provision of engineering related services, the Group provides equipment installation, support and maintenance services for robotics and automation systems.

Geographical information

Since all of the Group's revenue and non-current assets were generated from and located in the PRC for both years, no geographical segment information in accordance with HKFRS 8 is presented.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review

The Group mainly offers robotic products. For the provision of engineering related services, the Group provides equipment installation, support and maintenance services for robotics and automation systems (collectively, the “**Engineering Business**”).

During the period ended, the Group continued to develop and improve its robotic products. The Group has also driven the commercialisation of its products at a faster pace. For the period 2025, the revenue of the Engineering Business has increased by 72.8% and contributed a total revenue of approximately HK\$5.1 million to the total turnover of the Group.

Business Model of the Group

The Group operates its business mainly through Shenzhen Anzer Intelligent Robotics Co. Limited (“**Anzer**”), a controlled subsidiary of SuperRobotics Holdings Limited (“**SuperRobotics**”), in the mainland market.

Through application of the latest artificial intelligence (“**AI**”) and robotic technologies, Anzer produces our two main types of robotic products, namely commercial patrol robots and special purpose robots.

The commercial patrol robots offer patrolling/surveillance functions and are equipped with AI detection and recognition capabilities in autonomous navigation mode. The product requires minimum labor effort, and also endure difficult working environment, which could prove challenging to ordinary workers. Through utilising our product, our customers are able to free up their workforce and allocate labor resources efficiently, hence improving productivity.

The special purpose robots are mainly marketed to government agencies such as public security bureau. Our customers can utilize our special purpose robots to handle dangerous explosives and chemicals by remote control. Our customer’s trained personnels can transport, disarm, destroy or detonate dangerous items at a safe distance, greatly minimizing the risk of personal injury and public harm.

Anzer’s major customers include robotics unicorn firms, and property firms. Our special purpose robot customers mainly include public security bureaus from various provinces in the mainland China, such as Xinjiang, Shandong, Zhejiang, Henan and Guangdong.

Apart from traditional robotic product business, Anzer has been exploring new business opportunities through cooperations with its existing property management clients. OUTLOOK

In the past year, the company has made significant progress in engineering and automation production, establishing a strong market position. With the continuous evolution of technology and growing market demand, the company will continue to focus on improving product quality and technological innovation, striving to provide more competitive solutions for customers.

In the fourth quarter of 2024, the company officially launched a new products – AI development and cloud computing. This strategic move aims to seize the opportunities in the rapidly growing AI and cloud computing markets, expanding the company's business scope and achieving sustainable long-term growth.

In terms of AI development, we will focus on developing intelligent solutions that enhance efficiency, reduce costs, and improve user experience. Our goal is to become an industry-leading AI technology provider, driving market trends through continuous innovation.

AI Development in the Chinese Market Analysis

According to latest research report, China's AI market is rapidly growing and is expected to bring significant growth opportunities to key industries by 2030. Currently, China's AI adoption rate is 41%, slightly behind the global average, but there is still great potential for growth. In industries such as automotive, transportation and logistics, manufacturing, healthcare, and life sciences, the application of AI technology can create over \$600 billion in economic value annually.

However, Chinese enterprises still have considerable room for improvement in AI technology monetization and economic value creation. Only 9% of Chinese companies can achieve over 10% revenue growth through AI, compared to 19% in leading countries. Therefore, the company will focus on enhancing the integration of AI technology with business and strengthening AI-related talent cultivation to achieve greater economic benefits.

AI and Cloud Computing Development in the Chinese Market Over the Next 5 Years

Over the next five years, China's AI and cloud computing markets will experience explosive growth. According to industry analysis, AI large models will drive a new wave of growth in the cloud computing industry. It is estimated that by 2027, China's cloud computing market will exceed 2.1 trillion yuan.

Additionally, China's intelligent computing power will continue to grow rapidly, with a projected compound annual growth rate of 52.3% over the next five years. With the launch of the "Eastern Data Western Computing" project and the construction of intelligent computing centers, effective resource structure integration will be achieved at the national level, supporting industrial structure adjustments and building a more robust computing power and algorithm infrastructure.

In terms of cloud computing, we will strive to provide efficient, secure, and flexible cloud services to meet the needs of different customers. We will enhance our technical capabilities and service levels through strategic partnerships, ensuring the company's competitive advantage in the cloud computing market.

In the future, the board will continue to increase investment in research and development, strengthen market expansion, and promote diversified business development.
