CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Zhejiang RuiYuan Intelligent Control Technology Company Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.*

This report will remain on the Stock Exchange’s website at www.hkexnews.hk on the “Latest Listed Company Announcements” page for at least 7 days from the date of its publication and on the website of the Company at www.ruiyuanhk.cn.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

I. GENERAL INFORMATION

Zhejiang RuiYuan Intelligent Control Technology Company Limited* (the “Company”) is a joint stock limited liability company incorporated in the People’s Republic of China (the “PRC”) and its shares are listed on the GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The principal activities of the Company and its subsidiaries (collectively referred to as the “Group”) are sales of controller systems for electronic equipment and electronic component and subassembly for electronic appliances and manufacturing and sales of CNC machine tools optical and mechanical products in the PRC.

The unaudited consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Company.

2. BASIS OF PREPARATION

The unaudited condensed consolidated results of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) and Hong Kong Accounting Standards (“HKAS”) (collectively “HKFRSs”), accounting principles generally accepted in Hong Kong, the disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”).

Going concern

During the period, the Group incurred a net loss for the period of approximately RMB613,000. At 30 June 2025, the Group had net current liabilities of approximately RMB54,170,000 and capital deficiency of approximately RMB54,058,000. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern and therefore it may be unable to realise its assets and discharge its liability in the normal course of business. Nevertheless, the Directors have performed an assessment of the Group’s future liquidity and cash flows, taking into account the following relevant matters:

- (i) The Directors will strengthen to implement measures aiming of improving the working capital and cash flows of the Group including closely monitoring the general administrative expenses and operating costs;
- (ii) A major shareholder of the Company and a shareholder of ultimate holding company confirm to provide adequate financial support to the Group as is necessary to ensure its continuing operation for a period at least twelve months from the date of this report;

* For identification purpose only

- (iii) Amount due to a shareholder of ultimate holding company of approximately RMB740,000 as at 30 June 2025 is repayable on demand. The shareholder of ultimate holding company confirm, that he will not demand for repayment until the Group has improved its liquidity position; and
- (iv) Amount due to a major shareholder approximately RMB46,000,000 as at 30 June 2025 is interest-free and repayable on demand. The major shareholder of the Company confirms that he will not demand for repayment until the Group has improved its liquidity position.

The Directors consider that after taking into account the abovementioned financing plans and financial support of the major shareholder, the Group will have sufficient working capital to satisfy its present requirements for at least the next twelve months from the date of approval of these consolidated financial statements. Accordingly, the consolidated financial statements have been prepared on a going concern basis. Should the Group be unable to continue to operate as a going concern, adjustments would have to be made to the consolidated financial statements to write down the value of assets to their recoverable amounts, to provide for further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities respectively. The effect of these adjustments have not been reflected in the consolidated financial statements.

The accounting policies adopted in preparing the unaudited condensed consolidated results for the six months ended 30 June 2025 are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2024, except for the change in accounting policies due to the revised HKFRSs and HKASs, which are described in Note 3.

The condensed consolidated results for the six months ended 30 June 2025 are unaudited but have been reviewed by the audit committee of the Company.

The Group has not early adopted the new and revised standards and amendments to standards that have been issued but are not yet effective for the six months ended 30 June 2025.

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024, except for the adoption of new standards effective as of 1 January 2025.

Amendments to HKAS 21

The effects of changes in foreign exchange rates — Lack of exchangeability

The application of the new and revised standards during the Reporting Period has no material impact on the amounts reported in these condensed consolidated financial statements and/or disclosures set in these condensed consolidated financial statements.

5. SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker (“CODM”), being the executive directors of the Company, in order to allocate resources to segments and to assess their performance. No operating segments identified by the chief operating decision maker have been aggregated in arriving at the reportable segments of the Group.

The Group’s operating and reportable segments are: (i) Sales of controller systems for electronic products; and (ii) Sales of mechanical products. The CODM considers the Group has two operating and reportable segments which are based on the internal organisation and reporting structure. This is the basis upon which the Group is organised.

Segment revenues and results

The following is an analysis of the Group’s revenue and results by reportable and operating segment:

For the six months ended 30 June

13. CONTINGENT LIABILITIES

Case No. LBTC 3663/2016 (the “Labour Tribunal Proceedings”)

On or around 7 November 2016, a former employee (the “Former Employee”) who was terminated by the Company on or around 5 October 2016 (the “Termination Date”), commenced proceedings in the Labour Tribunal against the Company and its former subsidiary, Hong Kong Wan Li Enterprise Co. Ltd. (“HK Wan Li”) (together, the “Respondents”), claiming a total amount of approximately of HK\$2,600,000 (equivalent to approximately RMB2,340,000) on a number of grounds, including (i) dismissal by reason of redundancy; (ii) failure to grant statutory holidays; (iii) failure to grant annual leave; (iv) failure to pay long service payment; (v) failure to make payment for overtime work; (vi) failure to pay end of year payment; and (vii) failure to pay bonus. Pursuant to the Order of the Labour Tribunal dated 5 May 2017, the Labour Tribunal Proceedings are presently stayed indefinitely with costs reserved.

As of the date of this report, the Company is not aware of any further development to the Labour Tribunal Proceedings since 5 May 2017.

Taking into account the possible outcome and their obligations for the above cases, the Group has made a provision for claim of approximately RMB86,000 (equivalent to approximately HK\$96,000) for the year ended 31 December 2016 and no further provision was made thereafter.

Since the above cases are presently stayed indefinitely, the Directors would continue to exercise their due care in monitoring the progress of the cases and would assess the adequacy of provision of claim and the financial impact on the Group as and when appropriate. The Directors believe that the amount of approximately RMB86,000 as at 30 June 2025 (2024: RMB86,000) represents the best estimate of the Group's liability having taken legal advice.

Save as disclosed above, the Group had no material contingent liabilities.

14. SIGNIFICANT EVENT AFTER THE REPORTING PERIOD

As at date of the report, the Group has no significant events after the Reporting Period.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review

The Group's major business included engaging in the design, manufacture and sales of CNC machine tools optical and mechanical products, sales of controller systems for electronic equipment and electronic component and subassembly for electronic appliances.

The Group's activities are primarily operated in the PRC and the Group's revenue is mainly attributable to customers in the PRC.

In 2025, the Group continued to take the initiative to develop the business of industrial electronic intelligent control equipment, mechanical equipment, industrial CNC system, and general parts processing and manufacturing. At present, the Group purchased a batch of multi-axis drilling machine, grinding machine and radial drilling machine and other equipment, for metal castings and metal products (such as bed, bed legs, headstock, pressure film, briquetting, nut and other castings and forgings) processing, manufacturing and production of CNC machine tools and optical machines. The CNC machine tool optical and mechanical products launched by the Group in the first half of 2021 are applied in different fields, including raw materials, production and processing. The Company will soon launch a variety of high-end CNC machine tool and optical machine products to enhance the enterprise's own product innovation and market expansion. In addition, the Group's industrial automation control system and electronic equipment products have also been processed and upgraded, further improved the performance of products and enhanced market competitiveness. The Group will continue to purchase a series of processing equipment to develop new products.

The Group has signed letters of intent for cooperation with a number of agent dealers, mainly metal casting and forging factories and precision machinery companies. The suppliers mainly include manufacturers of metal casting and forging parts, while the customers of the Company include trading enterprises and production companies. The Company's marketing team will continue to expand business in Hangzhou, Jiaxing, Shanghai, Shaoxing, Nanjing, Wuxi, Huai'an, Linhai, Quzhou and other cities, continue to increase new sales customers, and actively explore more cities' markets.

Financial review

For the six months ended 30 June 2025, the Group recorded a turnover of approximately RMB9,910,000 (for the six months ended 30 June 2024: RMB13,067,000), representing a decrease of approximately RMB3,157,000. The decrease is mainly due to the fact that one of the downstream customers is engaged in international export trade business, and currently the taxes and fees for export business are too high, therefore the orders from sales customers have significantly decreased, resulting in a decline in the Group's turnover compared to the same period last year. At present, the Company is actively exploring new businesses and seeking new development.

For the six months ended 30 June 2025, loss attributable to shareholders was approximately RMB613,000 (for the six months ended 30 June 2024: RMB249,000), representing an increase of loss of approximately RMB364,000. The increase in losses was mainly due to the decrease in revenue and rise in sales costs and financing costs. The Group will continue to implement cost management.

For the six months ended 30 June 2025, the gross profit margin was 4.67% (for the six months ended 30 June 2024: 9.49%). The decrease in gross profit margin is mainly due to the increase in raw material costs, while the selling prices of the Company's products have not been raised.

For the six months ended 30 June 2025, administrative expenses were approximately RMB819,000, representing a decrease of approximately RMB492,000 compared with the corresponding period of last year. The decrease in administrative expenses is mainly due to the fact that the fees of some partners for the third quarter of 2025 were not settled as at 30 June 2025, while the related fees for the same period in 2024 had been settled as at 30 June 2024.

Prospect

The Group understands that its own competitive capability in product innovation and quality is important to future growth in sales and operation. Operation processes are continuously streamlined. The Group is moving forward with realistic measures and goals and in accordance with feasible plans. The Group has established strategic partnerships with various companies and is now actively expanding the products and sales markets, laying the foundation for the increase in the trading business of intelligent control systems. At present, the Group's products for sale include electronic components, industrial electronic intelligent control system, alternating current servo motors and CNC machine tools optical and mechanical. Such products have gradually been recognized by the market and customers. The application of industrial electronic intelligent control system and CNC machine tools optical and mechanical developed by the Group has been gradually available to the market, making the market and development prospects of the Group promising.

Dividend

No dividend was distributed during the Reporting Period. The Board does not recommend the payment of dividend for the six months ended 30 June 2025 (for the six months ended 30 June 2024: Nil).

Financial resources and liquidity

As at 30 June 2025, the Group had net current liabilities of approximately RMB54,170,000 (31 December 2024: RMB53,566,000).

As at 30 June 2025, current assets amounted to approximately RMB6,057,000 (31 December 2024: RMB12,041,000) of which approximately RMB3,535,000 were bank balances and cash (31 December 2024: RMB11,999,000). On the other hand, the Group had current liabilities of approximately RMB60,227,000 (31 December 2024: RMB65,607,000).

As at 30 June 2025, the Group bank borrowings approximately RMB2,993,000 (31 December 2024: RMB2,952,000).

The Group had no gearing ratio as at 30 June 2025 (31 December 2024: Nil), which is expressed as a percentage of the other borrowings over the total assets.

Currency risk

The Group operates in the PRC with most of the transactions denominated and settled in RMB. All of the financial assets at amortised cost are denominated in RMB. As a result, there is no exposure to foreign currency risk.

The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Outlook and future development

As the general economic growth in China slowed down in recent years, competition in the controller systems market becomes keener and keener. In this connection, we will continue to implement stringent cost control measures in 2025. Going forward, the Group will explore business opportunities on intelligence control system for heavy industrial uses such as application for industrial robotics.

Material acquisition or disposal of subsidiaries, associates and joint ventures

For the six months ended 30 June 2025, the Group did not have any material acquisition or disposal of subsidiaries, associates and joint ventures.

Employees and remuneration policies

As at 30 June 2025, the Group had 10 employees (31 December 2024: 11 employees). Remuneration is determined by reference to market terms and the performance, qualifications and experience of individual employees. Bonuses based on individual performance will be paid to employees in recognition and reward of their contribution. Other benefits include contributions to retirement benefits scheme.

Pledge of assets

As at 30 June 2025, the Group had no asset collateral (31 December 2024: Nil).

Contingent liabilities

Details of the contingent liabilities are set out in Note 13 to the condensed unaudited consolidated interim financial statements.

Significant investments held
