REASONS FOR AND BENEFITS OF THE PLACING AND USE OF PROCEEDS

Assuming that all the Placing Shares are fully placed and issued, the gross proceeds from the Placing will be HK$93.1 million and the net proceeds (after deduction of placing commission and other expenses of the Placing) from the Placing are estimated to be approximately HK$92.02 million, representing a net placing price of approximately HK$1.32 per Placing Share.

The Directors intend to use the net proceeds from the Placing for the following purposes: (i) approximately 43% (or approximately HK$39.63 million) will be used to make capital injection into TGM to strengthen its capital base and support its business expansion and development; (ii) approximately 33% (or approximately HK$30.42 million) will be used to increase the funding reserves for TGM's provision of IPO financing services to clients to enhance its client service capacity; and (iii) approximately 24% (or approximately HK$22.12 million) will be used to invest in the development of VirtuTrade Pro with the aim of preparing for potential virtual asset trading needs of existing clients. The net proceeds from the Placing are expected to be fully utilized as of November 2028.

The Board considers the Placing as a reasonable decision having regard to the Group's business development strategy, industry trends and the prevailing regulatory environment. On one hand, making capital injection into TGM and replenishment of its funding reserves for undertaking IPO-related businesses will significantly enhance TGM's capital adequacy to meet regulatory compliance requirements, strengthen its capacity to undertake risk-weighted assets and improve its market credibility. This will in turn enable TGM to undertake larger-scale IPO underwriting and margin financing businesses and solidify the profitability foundation of the Group's licensed business segment. On the other hand, the investment in developing VirtuTrade Pro, which will be designed to comply with the regulatory requirements of the SFC in Hong Kong, will allow the Group to capture the policy opportunities brought by the regulated development of virtual assets in Hong Kong, fill the market gap for "one-stop connectivity" with multiple licensed trading platforms, and support the potential needs of the Group's existing clients, thereby creating new revenue growth drivers for the Group.

The Directors consider that the Placing Agreement is entered into upon normal commercial terms following arm's length negotiations between the Company and the Placing Agent and the terms of the Placing Agreement (including the Placing Price and the placing commission) are fair and reasonable and in the interests of the Company and the Shareholders as a whole.
