INTERIM REPORT 2025/2026

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

The Company is a limited liability company incorporated in the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, the Cayman Islands. Its principal place of business in Hong Kong is located at Rooms 1101-04, 11/F, Harcourt House, 39 Gloucester Road, Wanchai, Hong Kong. The principal activity of the Company is investment holding and the Group is principally engaged in the provision of valuation and advisory services, financing services and securities broking, placing and underwriting and investment advisory and asset management services.

The shares of the Company (the “Shares”) have been listed on GEM by way of placing since 25 February 2013.

The unaudited condensed consolidated financial statements for the six months ended 30 September 2025 (the “Interim Financial Statements”) were approved and authorised for issue by the Board on 17 November 2025.

2. BASIS OF PREPARATION

(a) Basis of preparation

The Interim Financial Statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and the applicable disclosure provisions of the GEM Listing Rules.

The Interim Financial Statements do not include all of the information and disclosures required in annual financial statements in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”), which comprises all applicable individual HKFRS, HKASs and Interpretations issued by the HKICPA, and should be read in conjunction with the Group’s audited consolidated financial statements for the year ended 31 March 2025 (the “2025 AFS”).

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(c) Basis of measurement

The Interim Financial Statements have been prepared under the historical cost basis as modified by the revaluation of financial assets of fair value through profit or loss ("FVTPL") and investment property which are carried at fair value.

(d) Fair value measurements of financial instrument

Fair value estimates are made at a specific point in time and are based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The following disclosures of fair value measurements use a fair value hierarchy which has three levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy defined in HKFRS 13 "Fair Value Measurement".

Fair value measurements categorised into				
	Level 1	Level 2	Level 3	Total
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
As at 30 September 2025				
Financial assets at FVTPL				
— Life insurance policies	—	1,741	—	1,741

During the six months ended 30 September 2025, there were no transfers between level 1 and level 2, or transfer into or out of level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

The Group's financial controller is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes, including level 2 and level 3 fair value measurements. The financial controller reports directly to the Board for these fair value measurements. Discussions of valuation processes and results are held between the financial controller and the Board at least twice a year.

For level 2 and level 3 fair value measurements, the Group will normally engage external valuation experts with recognised professional qualifications and recent experience to perform the valuations.

The reconciliation of the carrying amounts of the Group's financial assets at FVTPL classified within Level 2 of the fair value hierarchy is as follows:

	2025 HK\$'000
Life insurance policies	
Balance at 1 April	1,741
Change in fair value	—
At the end of reporting period	1,741
Fair value change for the six months ended included in profit or loss	—

Below is a summary of significant unobservable inputs to the valuation of financial instruments as at 30 September 2025:

	Valuation technique	Significant unobservable inputs	Relationship of unobservable inputs to fair value
Life insurance policies	Quoted prices provided by a financial institution	N/A	N/A

(e) Functional and presentation currency

The Interim Financial Statements are presented in Hong Kong Dollars ("HK\$"), which is also the functional currency of the Company and its principal subsidiaries, and all values are rounded to the nearest thousand except when otherwise indicated.

Investment property was revalued on 30 September 2025 by an independent professional valuer. The valuation, which conforms to The Valuation Standards of the Hong Kong Institute of Surveyors, was arrived at using direct comparison approach in the course of valuation.

The direct comparison approach is a method of valuation by making reference to comparable market transactions. This approach rests on the wide acceptance of the market transactions as the best indicator and pre-supposes that evidence of relevant transactions in the market place can be extrapolated to similar properties. Appropriate adjustments and analysis are considered to the differences in location and other characters between the comparable properties and the subject properties.

The fair value of the investment property is a level 2 recurring fair value measurement.

There were no changes to the valuation techniques during the six months ended 30 September 2025.

The fair value measurement is based on the above property's highest and best use, which does not differ from its actual use.
