CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of BOSA Technology Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM (the “GEM Listing Rules”) of the Stock Exchange for the purpose of giving information with regard to the Company and its subsidiaries (together, the “Group”). The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET REVIEW

During the interim period, Hong Kong's construction industry continued to reflect a mix of subdued private activity and steady public sector momentum. According to the latest provisional figures from the Census and Statistics Department, the Gross Value of Construction Works (GVCW) performed by main contractors was HK\$68.9 billion in Q2 2025, virtually unchanged (less than 0.05%) in nominal terms from Q2 2024 but down 3.5% in real terms. In Q3 2025, GVCW fell modestly by 1.5% in nominal terms to HK\$73.4 billion, and declined 5.5% in real terms after inflation adjustment, as private site activity weakened further while public works continued to grow. Specifically, private sector GVCW in Q3 2025 decreased by 18.1% year-on-year to HK\$16.9 billion, while public sector site work expanded by 7.7% in nominal terms to HK\$34.1 billion, highlighting the divergence in momentum between the two segments.

Private sector construction remained cautious amid the still-elevated interest rate environment and residual unsold inventory, leading developers to delay or moderate new project launches. By contrast, public sector activity continued to provide a significant underpinning to overall construction demand, supported by the Government's ongoing infrastructure, transport and housing programmes. The Government has projected that its capital works programme will average approximately HK\$120 billion per annum over the next five years, providing a strong pipeline of projects that rely heavily on reinforced concrete works. This sustained public spending has helped to moderate the overall downturn in construction activity.

Cost pressures persisted during the interim period. Labour costs in the construction sector continued to rise, contributing to higher wage indices for key trades (1.7%–10.4% increases), while construction material prices remained at elevated levels despite some relative stability and declines in items like steel and sand. These dynamics have maintained a focus on productivity, quality and cost-efficient construction methods across the industry. At the same time, broader economic growth in Hong Kong remained resilient: overall GDP expanded by 3.8% year-on-year in both Q3 and Q4 2025, extending the city's economic growth streak and supporting demand across key sectors, including infrastructure and services.

MANAGEMENT DISCUSSION AND ANALYSIS

Against this backdrop, mechanical splicing services continued to be closely aligned with public infrastructure and large-scale reinforced concrete projects, where quality assurance, compliance and efficiency are increasingly important. While near-term private sector demand is likely to remain cautious, the Group believes that ongoing government investment in infrastructure and housing, coupled with Hong Kong's strategic economic role, provides a solid foundation for medium- to long-term demand for mechanical splicing solutions. The Board remains confident in the longer-term development prospects of the construction industry and in the continued relevance of mechanical splicing in supporting complex reinforced concrete works.

BUSINESS REVIEW

The Group is principally engaged in providing mechanical splicing services to the reinforced concrete construction industry in Hong Kong. The Group's customers are primarily main contractors and subcontractors of various types of reinforced concrete construction projects in Hong Kong. Construction projects that the Group service can generally be categorised into public sector projects and private sector projects.

The Group will continue to cautiously monitor the business opportunities and continue to strengthen its competitiveness in the market to enhance the profitability of the Group and interests of the shareholders of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

OUTLOOK

The overall construction business in Hong Kong is expected to remain in the region of steady to slow in the short to medium term and the Hong Kong government is likely to provide stimulus to the local economy. Yet, the trend of interest rate, the US-China relationship and the geopolitical tensions continue to pose uncertainties to the Hong Kong economy. The fluctuations of TW\$ and steel price may also drive up the material cost and the gross margin may be eroded. The Group will monitor prudently the selling price to the customers and the purchases price of couplers from Taiwan to ensure the business of the Group maintaining a reasonable gross margin.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

During the six months ended 31 December 2025 (the “Period”), all of the Group’s revenue was generated from the provision of services of processing and connecting reinforcing bars in Hong Kong. Accordingly, the Group has only one single operating segment and one geographical segment during the Period.

The Group’s revenue decreased by approximately HK\$10.7 million or approximately 26.8%, from approximately HK\$39.9 million for the six months ended 31 December 2024 to approximately HK\$29.2 million for the Period, which was mainly due to the decrease in the number of new projects and customers during the Period.

Cost of Sales

The Group’s cost of sales decreased by approximately HK\$5.2 million or approximately 27.7%, from approximately HK\$18.7 million for the six months ended 31 December 2024 to approximately HK\$13.5 million for the Period, which was in line to the decrease in revenue.

Gross Profit

The Group’s gross profit decreased by approximately HK\$5.5 million or approximately 26%, from approximately HK\$21.2 million for the six months ended 31 December 2024 to approximately HK\$15.7 million for the Period, which was in line to the decrease in revenue.

Other Income

The Group’s other income increased by approximately HK\$1.3 million or approximately 42.8%, from approximately HK\$3.1 million for the six months ended 31 December 2024 to approximately HK\$4.5 million for the Period. The increase was mainly attributable to the increase in fixed deposit interest income by approximately HK\$1.6 million.

MANAGEMENT DISCUSSION AND ANALYSIS

Administrative Expenses

The Group's administrative expenses decreased by approximately HK\$3.1 million or approximately 27.0%, from approximately HK\$11.4 million for the six months ended 31 December 2024 to approximately HK\$8.3 million for the Period, which was mainly attributable to the decreased in the administrative staff costs of approximately HK\$2.3 million.

Profit and Total Comprehensive Income Attributable to Owners of the Company

The Group's profit and total comprehensive income attributable to owners of the Company increased by approximately HK\$1.8 million or approximately 18.3%, from approximately HK\$9.9 million for the six months ended 31 December 2024 to approximately HK\$11.7 million for the Period.

Liquidity and Financial Resources

The Group practiced prudent financial management and maintained a strong and sound financial position during the Period. As at 31 December 2025, the Group had cash and bank balances of approximately HK\$32.2 million (30 June 2025: approximately HK\$57.6 million) and time deposits with maturity over three months of HK\$174.4 million (30 June 2025: approximately HK\$143.6 million). The current ratio, calculated as the total current assets divided by total current liabilities, was approximately 14.2 times as at 31 December 2025 (30 June 2025: approximately 9.9 times). The Group has no bank overdraft as at 31 December 2025 (30 June 2025: Nil). The gearing ratio, representing total borrowings divided by total equity, was Nil as at 31 December 2025 (30 June 2025: Nil). In view of the Group's current level of cash and bank balances and funds generated internally from operations, the Board is confident that the Group will have sufficient resources to meet its financial needs for its operations.

Foreign Exchange Exposure

The Group purchased all of the couplers used in our business operations from Taiwan. These purchases were denominated in TWD. The Group expects to continue to make coupler purchases in Taiwan in the near future. Accordingly, fluctuations in TWD against HK\$ may result in exchange losses or gains and affect our results of operations.

MANAGEMENT DISCUSSION AND ANALYSIS

The management considered that the Group has sufficient foreign exchange to meet its foreign exchange liabilities as they become due, which will be funded by cash generated from operating activities. The Group has not entered into any agreement to hedge our exchange rate exposure relating to TWD and will continue to monitor its foreign exchange exposure. The Group will consider hedging significant foreign currency exposure should the need arises and no derivative financial instruments were held by the Group as at 31 December 2025 for speculative purposes.

Dividend

The board of directors (the “Board”) does not recommend the payment of dividend in respect for the Period (for the six months ended 31 December 2024: Nil).

Pledge of Assets

The Group’s obligations under finance leases were secured by the lessor’s charge over the leased assets. As at 31 December 2025, the Group had secured and unguaranteed obligations under finance leases of approximately Nil (as at 30 June 2025: approximately HK\$53,000), which were secured by motor vehicles of the Group.

Save as disclosed above, the Group did not have pledged assets as at 31 December 2025 (30 June 2025: Nil).

Capital Structure

The Company was incorporated in Cayman Islands and registered as an exempted company with limited liability under the Cayman Companies Law on 24 October 2016. Its shares were listed on GEM of the Stock Exchange on 12 July 2018. The Company’s capital comprises ordinary shares and capital reserves. The Group finances its working capital, capital expenditures and other liquidity requirements through a combination its cash and cash equivalents and cash flows generated from operations.

MANAGEMENT DISCUSSION AND ANALYSIS

Future Plans for Material Investment and Capital Assets

The Group did not have any other plans for material investment and capital assets as at 31 December 2025 save for the acquisition a parcel of land to open new workshop in Hong Kong, details of which are set out in the prospectus under the section “Future Plans and Use of Proceeds”.

Significant Investments Held, Acquisitions and Disposals

There were no significant investments held, acquisitions or disposals of subsidiaries, associates, joint venture and affiliated companies by the Group during the Period.

The Group did not have any other material plans for significant investments, acquisitions and disposals of subsidiaries, associates and joint ventures as at 31 December 2025.

Employees and Remuneration Policies

As at 31 December 2025, the Group had 36 full-time employees (2024: 42 employees), including the Directors. Total staff costs (including Directors’ emoluments and part-time employees) were approximately HK\$10.1 million for the Period as compared to approximately HK\$12.7 million for the six months ended 31 December 2024.

Remuneration is determined with reference to duties, responsibilities, experience and skills. On top of basic salaries, the Group provides discretionary bonuses to our senior management and key employees as incentive bonuses.

MANAGEMENT DISCUSSION AND ANALYSIS

Use of Listing Proceeds

The Company's shares were listed on GEM of the Stock Exchange on 12 July 2018 for which the Company issued 200,000,000 new shares at HK\$0.30 per share. The net listing proceeds received by the Company, after deducting underwriting fees and other related expenses, are approximately HK\$37.8 million. These proceeds are intended to be applied in the manner as described in the section headed "Future Plans and Use of Proceeds" in the Prospectus. The future plan and scheduled use of proceeds as disclosed in the Prospectus were based on the best estimation of future market conditions made by the Group at the time of preparing the Prospectus, while the proceeds were applied with consideration of the actual development of business and market. As at the date of this report, the Group does not anticipate any material change to the plan as to the use of listing proceeds. All unused net proceeds have been placed as interest bearing short-term demand deposits with licensed bank in Hong Kong. Barring any unforeseen circumstances, the remaining proceeds will be utilised by 31 December 2026.

MANAGEMENT DISCUSSION AND ANALYSIS

Comparison Between Business Objectives and Actual Business Progress

The below table sets out the proposed applications of the net proceeds as set out in the Prospectus and the unutilized amount as at 31 December 2025:

Description	Amount designated in the Prospectus (as adjusted based on the actual net proceeds raised)	Business plan as disclosed in Prospectus	Utilized	Total remaining net proceeds available	Latest development	Expected timeframe

All these factors are affecting economic activities and demand extremely careful reconsiderations. As a result, the searching for a suitable parcel of land has been delayed. Save as Yuen Long and Ping Che, the Group is also considering other geographical location for the expansion of workshop in appropriate circumstances.	The proposed acquisition of a parcel of land is expected to be completed by 31 December 2026
	—	Finalise selection of a parcel of land (Internal resources)				
	—	Purchase a parcel of land (HK\$35.3 million)

MANAGEMENT DISCUSSION AND ANALYSIS

As at date of this report, the remaining amount of approximately HK\$36.4 million were expected to be utilized in the same manner as disclosed in the Prospectus based on the flowing timeline:

Acquire a parcel of land to open a new workshop

As at date of this report, approximately HK\$35.3 million allocated for acquiring a parcel of land to open a new workshop has not been utilized by the Group, which was planned to be completed during the period from 1 July 2018 to 31 December 2018 as set forth in the Prospectus. The number of factors affecting the timeline of acquiring the land have been increased and getting more and more complicated. The previously social unrest in 2019–2020, the increase in the land price after listing, the ongoing COVID-19 pandemic, the lower than expected recoveries in the local economy after the reopening of the borders of Chinese mainland, the slowdown of the Chinese mainland economy and the rapid raising of interest rates. All these factors are affecting economic activities and demand extremely careful reconsiderations. In light of the uncertainties and potential adverse impacts of these factors may pose, the Group has adopted a more cautious approach in evaluating a suitable parcel of land. Apart from the selection criteria as set forth in the Prospectus, the Group needs to take into consideration investment return, profitability of acquisition in the latest market condition, synergy effect with the Group and challenges and expenses that could arise from integrating with the acquisition of a parcel of land. The Board considers that the delay had no material adverse impact on the business operation and financial position of the Group.

Since Listing, the management of the Group has established a location selection committee and were in the course of identifying a potential parcel of land for opening a new workshop. As the acquisition of a parcel of land to open a new workshop was considered a crucial factor in determining the long-term growth and future success, the Group will require more time to identify suitable potential workshop location based on the factors identified above, and it is expected that the unutilized net proceeds will be fully utilized on or before 31 December 2026.

MANAGEMENT DISCUSSION AND ANALYSIS

Placing resources into research and development

According to the Prospectus, the planned use of net proceeds (as adjusted on a pro rata basis based on the actual net proceeds raised) for spending on research and development by 31 December 2018 is approximately HK\$2.4 million. The actual use of the net proceeds up to 31 December 2025 is approximately HK\$1.3 million. The actual used amount was less than the planned use amount primarily because (i) there was a delay in opening a new workshop as mentioned above; and (ii) the Group has taken a longer time to assess and implement the research and development plan in a proper manner.

The Group will continue to seek for suitable research and development opportunities with a view of enhancing the quality and cost-effectiveness of our existing mechanical splicing services, and reducing overhead costs and servicing time. It is expected that the unutilized net proceeds for research and development will be fully utilized on or before 31 December 2026.

The expected timeline for the full deployment of the unutilised proceeds disclosed above is based on the best estimation from the Board with the latest information and market condition as at the date of this report. The Board confirms that there is no material change in the business nature of the Group as set out in the Prospectus and the Group considers that the delay in the use of proceeds does not have any material adverse impact on the operation of the Group. However, further delays may still happen due to the recent outbreak of Omicron. The Board will continue to closely monitor the situation and evaluate the effects on the timeline to deploy the unutilised proceeds and keep shareholders and potential investors informed if there are any material changes.

Principal Risks and Uncertainties

The business operations and results of the Group may be affected by various factors, some of which are external causes and some are inherent to the business. The board is aware that the Group is exposed to various risks and the principal risks and uncertainties are summarized below:

MANAGEMENT DISCUSSION AND ANALYSIS

Any failure to maintain an effective quality control system could have a material adverse effect on the Group's business and operations

The quality and consistency of the Group's services are critical to its ability to retain its customers and acquire and attract new customers. The Group's quality control system is dependent on a number of factors, including a timely update to suit the ever-changing business needs as well as its ability to ensure that the Group's quality control policy and guidelines are followed. Any failure to maintain the effective and adequate quality control system could result in defects in its services that could negatively impact the Group's reputation and expose the Group to claims by its customers. Any such dispute would incur additional costs or damage to the Group's business reputation and corporate image, as well as disrupt the Group's business operations.

The Group does not enter into any formal contract with its customers (with certain exceptions). The Group's customers request services from the Group on an order by order basis, which exposes the Group to potential volatility in its revenue

Except for certain major customers with whom the Group has entered into written contracts, the Group does not enter into any long-term contract with its customers. Therefore, the Group's customers are not obligated in any way to continue placing orders with the Group at the historical level or at all. The Group cannot guarantee that the Group will receive any orders from its existing customers or that the Group will be able to continue its business relationship with them on the current terms or at all.

The Group's services are provided based on actual orders received from its customers. The Group's customers may cancel or defer their orders. The Group's customers' orders may vary from period to period, and it is difficult to accurately forecast future order quantities. There is no assurance that the Group's customers will continue to place orders with the Group in the future at the same volume, or at the same margin, as compared to prior periods, or at all. The Group may not be able to locate alternative customers to place new orders. There is also no assurance that the volume or margin of its customers' orders will be consistent with the Group's expectations. As a result, the Group's results of operations may vary from period to period and may fluctuate significantly in the future.

MANAGEMENT DISCUSSION AND ANALYSIS

Any failure, damage or loss of the Group's equipment may materially and adversely affect the Group's operations and financial performance

The Group's services rely on its equipment, which includes reinforcing bar cutting machines, and self-developed CNC crimping machines and CNC threading machines. If the Group fail to maintain its equipment or cope with any latest development trends or demands or to cater to different needs and requirements of different customers, its overall competitiveness and thus its financial performance and results of operations may be materially and adversely affected.

In addition, there is no assurance that our equipment will not be damaged or lost as a result of, among others, improper operation, accidents, fire, adverse weather conditions, theft or robbery. The Group's equipment may break down or fail to function normally due to wear and tear or mechanical or other issues. The Group does not maintain insurance covering loss of or damage to our equipment. If any failed, damaged or lost equipment cannot be repaired and/or replaced in a timely manner, the Group's operations and financial performance could be materially and adversely affected.

Furthermore, the Group plans to acquire additional equipment to enhance its technical ability and to strengthen its capability to cater to different needs and requirements of different customers. As a result of the purchase of additional equipment, it is expected that additional depreciation will be charged to the profit or loss and may, therefore, affect the Group's business, financial condition and results of operations.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1. GENERAL

BOSA Technology Holdings Limited (the “Company”) was incorporated in Cayman Islands and registered as an exempted company with limited liability under the Cayman Companies Law on 24 October 2016. The Company’s shares have been listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 12 July 2018.

The addresses of the Company’s registered office and the principal place of business are Windward 3, Regatta Office Park, PO Box 1350, Grand Cayman KY1-1108, Cayman Islands and Room 203A, 2/F, LT Tower, 31 Chong Yip Street, Kwun Tong, Kowloon, Hong Kong, respectively.

Upon Listing, the substantial shareholder of the Company is Kin Sun Creative Company Limited (“Kin Sun”). Kin Sun is a limited liability company incorporated in Hong Kong and wholly-owned by Mr. Kwan Tek Sian (“Mr. Kwan”), who is a non-executive director of the Company.

The Company is an investment holding company. The consolidated financial statements are presented in Hong Kong dollar (“HK\$”), which is also the functional currency of the Company.

This interim condensed consolidated financial information has not been audited.

2. BASIS OF PREPARATION

The interim condensed consolidated financial information of the Group for the six months ended 31 December 2025 have been prepared in accordance with the applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange and by the Hong Kong Companies Ordinance, and with Hong Kong Accounting Standard (“HKAS”) 34, Interim Financial Reporting, issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

This interim condensed consolidated financial information should be read in conjunction with the Group’s annual financial statements for the year ended 30 June 2025, which have been prepared in accordance with HKFRS Accounting Standards (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the HKICPA.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based payment”, leasing transactions that are within the scope of HKAS 17 “Leases”, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Adoption of new or revised HKFRS Accounting Standards effective in the current period

In the Period, the Group has adopted all the new or revised standards, amendments and interpretations (“new or amended HKFRS Accounting Standards”) issued by the HKICPA that are relevant to its operations and effective for its accounting period beginning on 1 July 2025. The adoption of these new and amended HKFRS Accounting Standards did not result in significant changes to the Group’s accounting policies, presentation of the Group’s Interim Financial Statements and amounts reported for the Period and prior periods.

The Group has not applied the new and amended HKFRS Accounting Standards that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of those new and amended HKFRS Accounting Standards but is not yet in a position to state whether these new and amended HKFRS Accounting Standards would have a material impact on its results of operations and financial position.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group’s accounting policies, which are described in note 3, management of the Group is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following is the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next twelve months.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Provision of expected credit losses (“ECL”) for trade receivables (upon application of HKFRS 9)

The Group uses provision matrix to calculate ECL for the trade receivables. The provision rates are based on past due information groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group’s historical default rates taking into consideration forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade receivables with significant balances and credit impaired are assessed for ECL individually.

5. REVENUE AND SEGMENTAL INFORMATION

Revenue represents the fair value of amounts received and receivable for the services provided and net of discount during the period. The Group’s operations and revenue is solely derived from provision of mechanical splicing services in Hong Kong during the period. For the purpose of resources allocation and performance assessment, the chief operating decision maker (i.e. the executive directors of the Company) reviews the overall results and financial position of the Group as a whole prepared based on same accounting policies set out in note 3. Accordingly, the Group has only one single operating segment and no further analysis of this single segment is presented.

Geographical information

No geographical segment information is presented as the Group’s revenue are all derived from Hong Kong based on the location of services provided to the customers and the Group’s non-current rental deposits, right-of-use assets and plant and equipment as at 31 December 2025 amounting to HK\$5,574,000 (30 June 2025: HK\$5,214,000) are all located in Hong Kong by physical location of assets.

61–90 days	831	2,445
Over 90 days	<u>–</u>	<u>2,148</u>
	<u>11,402</u>	<u>16,101</u>

Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Credit limits attributable to customers are reviewed regularly. Trade receivables that are neither past due nor impaired have good credit quality.

As at 31 December 2025, included in the Group's trade receivables are debtors with aggregate carrying amount of approximately HK\$6,767,000 (30 June 2025: HK\$10,624,000), which are past due at the end of the reporting period for which the Group has not provided for impairment loss as there was settlement subsequent to the end of the reporting period or there was continuous settlements by respective customers and the amounts are still considered recoverable. The Group does not hold any collateral over these balances.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

16. TRADE RECEIVABLES (continued)

In determining the recoverability of a trade receivable, the Group considers current creditworthiness, the past collection history of each customer, ageing analysis and subsequent settlement of individual balances. The Group has policy regarding impairment losses on trade receivables which is based on the evaluation of collectability and ageing analysis of accounts and on management's judgement including the current creditworthiness and the past collection history of each customer. The management of the Group believes that no impairment is required.

17. TIME DEPOSITS AND BANK BALANCES

Bank balances comprise bank deposits with an original maturity from three months to one year and carrying interest at prevailing market rate of 2.5%–5.1% per annum.

18. TRADE PAYABLES
