CHARACTERISTICS OF GEM (THE "GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a high investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of China Information Technology Development Limited (the "Company" or "CITD") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company and its subsidiaries (collectively the "Group"). The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

This report will be available on the Company's website <http://www.citd.com.hk> and will remain on the "Latest Listed Company Information" page on the website of the Stock Exchange at <http://www.hkexnews.hk> for at least 7 days from the date of its posting.

Chairman's Statement

Dear Shareholders,

I am pleased to present the annual results of China Information Technology Development Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31 December 2025 (the "Year").

FINANCIAL SUMMARY

During the Year, the Group recorded a revenue of approximately HK\$34,464,000 representing a decrease of approximately 16.9% from approximately HK\$41,485,000 in the year ended 31 December 2024 (the "Corresponding Year"). Loss for the Year attributable to the equity owners of the Company was approximately HK\$99,459,000 (2024: loss of approximately HK\$37,634,000). The increase in loss is mainly due to (i) the increase in fair value loss on the investment properties from approximately HK\$20,617,000 in 2024 to approximately HK\$54,225,000 in 2025; (ii) the increase in impairment loss under expected credit losses model from approximately HK\$987,000 in 2024 to approximately HK\$20,330,000 in 2025 regarding the dispute between the Group and the tenant for the investment properties; and (iii) the decrease in revenue generated from the investment properties of approximately HK\$5,364,000. The Group's results are discussed in detail under the section headed "Management Discussion and Analysis" in this annual report.

REVIEW AND OUTLOOK

The global economic landscape in 2025 remained uncertain due to persistent geo-political tensions, inflationary pressures, and fluctuating monetary policies. Supported by government measures to stimulate technological innovation and domestic consumption, the economy of Hong Kong and China showed signs of modest recovery.

Meanwhile, the accelerated pace of digital transformation continued to reshape global industries in 2025, driving a strong appetite for intelligent and adaptive solutions. The global artificial intelligence ("AI") market surpassed USD 220 billion during the Year, marking steady growth amid increasing adoption of generative AI, automation, and data-driven technologies. The Company maintained a prudent yet forward-looking business strategy and strived for financial stability with strategic expansion. The Group continued to explore collaborations and potential acquisitions, establishing alliances with industry experts to create synergies without pressure on cash flow or resources. The Company was focused on strengthening its technology portfolio in AI, cloud computing, and Web 3.0, enabling us to deliver advanced and efficient solutions that meet our clients' evolving needs.

During the Year, the Group successfully integrated Popsible Limited, which the Company acquired in 2024. It provides tailored information technology and public relations services aligned with clients' strategic goals. This acquisition enhanced operational synergies across our two other subsidiaries, helped diversify revenue streams, and improved resource utilisation, helped positioning the Group for future growth. Meanwhile, the Group also strived to reinforce its presence in the Middle East through collaborations in the United Arab Emirates ("UAE"). With the experience and AI technology applied in train bogie maintenance jointly developed by DataCube and a public transportation company, the Group has been liaising with various business partners in different areas like UAE and Egypt, for projects utilizing AI for predictive maintenance and optimization of air traffic management, airport train safety. The Group is also developing a vessel traffic management system which is a sophisticated maritime surveillance and management system that helps monitor and regulate vessel traffic in busy waterways or ports.

Chairman's Statement

Entering into 2026, the geo-political landscape has even become more complex and intense. Nevertheless, Hong Kong and Chinese governments have been continuously supportive to innovation and digital economy development and the IT industry. We understand that to persistently improve our products and services for our customers and keep in pace with the technological advancement requires injection of resources and manpower, the Company shall therefore uphold a prudent financial management strategy and look for necessary funding to support any potential projects and the Group's business developments in the UAE and expansion of technical team in Hong Kong as appropriate. The Company shall endeavor to maintain a healthy liquidity position while pursuing strategic investment and business projects that align with its long-term growth objectives.

APPRECIATION

I would like to take this opportunity to extend my sincere gratitude to the shareholders of the Company ("Shareholders"), customers and business partners of the Group for their continuous support and trust and thank my fellow directors for their concerted effort and insights throughout the past years. We treasure the efforts from the Group's management team and the unwavering commitment of our staff. On behalf of the Board, I would like to express my sincere appreciation to our management team and staff for their dedication and commitment.

Management Discussion and Analysis

Business Review

The rapid digital transformation across industries has driven an unprecedented demand for innovative solutions. Seeing a huge potential for growth, during the Year, the Company had continued to focus on technology advancements in cloud computing, Web 3.0 and AI etc in order to meet the evolving needs of our clients.

The Group has been vigilant of the uncertainties and challenges while taking opportunities to cement and expand its AI and other IT businesses with prudent risk management during the Year. The Group has been actively seeking for potential business opportunities and exploring new markets and maintaining its financial stability.

Subscription of New Shares Under General Mandate

In November 2024, the Company entered into the subscription agreement with the A M K M INVESTMENTS L.L.C, a company incorporated in the UAE with limited liability (the "Subscriber"), pursuant to which the Company has conditionally agreed to allot and issue, and the Subscriber has conditionally agreed to subscribe for, 12,353,000 subscription Shares ("Subscription Shares") at the subscription price of HK\$6.31 per subscription share (the "Subscription Agreement"). The Subscription Shares would be issued and allotted under the general mandate granted to the Directors by the Shareholders at the annual general meeting on 28 June 2024 ("2024 AGM").

The Subscription Shares represent (i) approximately 16.86% of the existing issued share capital of the Company as at the date of the report; and (ii) approximately 14.43% of the enlarged issued share capital of the Company immediately following the completion Subscription, assuming that there will be no change in the issued share capital of the Company (other than the issue of the Subscription Shares) between the date of the announcement dated 7 November 2024.

The Subscriber undertakes to the Company that it shall, and shall procure its nominee to, remain the sole beneficial owner of the Subscription Shares which are not subject to any encumbrances, and shall not, without the prior written consent of the Company, dispose or procure its nominee to dispose any of the Subscription Shares. The Subscriber further undertakes that, without the prior written consent of the Company, the Subscriber shall not and shall procure its nominee not to pledge, charge, or create encumbrance over the Subscription Shares during the lock-up period (collectively referred as the "Lock Up"). The Lock-Up shall automatically expire if the Proposed Dual Listing does not take place on or before the third anniversary of the Subscription Agreement or any other date agreed by the parties of the Subscription Agreement in writing.

Assuming that all the Subscription Shares are fully subscribed, the gross proceeds from the Subscription is expected to be US\$9,993,260 (equivalent to approximately HK\$77.95 million) (together with SFC transaction levy, Stock Exchange trading fee and other levies and fees as may be payable by the Subscriber). The net proceeds from the Subscription, after deducting all the relevant expenses, will amount to approximately HK\$77.75 million, which represents the net issue price of approximately HK\$6.30 per Subscription Share. The intended use of the net proceeds shall be (i) 70% of the net proceeds (equivalent to approximately HK\$54.43 million) will be used for the general working capital in the UAE, including but not limited to, the expenses for the setup of the office and the business development in the UAE; and (ii) 30% of the net proceeds (equivalent to approximately HK\$23.32 million) will be used for the general working capital in Hong Kong, including but not limited to, the office rents, salaries and administrative expenses in Hong Kong.

Management Discussion and Analysis

As the Subscriber has yet to comply with its obligations of the Subscription Agreement as at 11 August 2025, the Company would not proceed with the Subscription, and the Completion Date would not be further extended.

Details of the above Subscription and the Subscription Agreement are set out in the announcements dated 7 November 2024, 5 December 2024, 2 January 2025, 3 February 2025, 3 March 2025, 3 April 2025, 6 May 2025, 6 June 2025, 7 July 2025 and 11 August 2025.

Proposed Disposal of Property

In June 2025, Guangzhou Xinfeng Investment Consultancy Company Limited* (廣州信豐投資諮詢有限公司) as the Vendor (the “Vendor”), an indirect wholly-owned subsidiary of the Company, and Guangdong Xinjingsheng Industrial Investment Co., Ltd.* (廣東新景晟產業投資有限公司) as the Purchaser (the “Purchaser”), an independent third party (as defined by GEM Listing Rules), entered into the Sale and Purchase Agreement (the “Agreement”), pursuant to which, the Vendor has conditionally agreed to sell and the Purchaser has conditionally agreed to acquire the Property at the consideration of RMB150,000,000 (equivalent to approximately HK\$163,800,000) (the “Disposal”).

Given the challenging market condition and increasing competition of office lease market in Guangzhou, the Directors believe that the Disposal represents a good opportunity for the Company to realise the value of the Property and reallocate its financial resources to other business needs, as well as, to increase the general working capital of the Group.

As one or more of the relevant applicable percentage ratios in respect of the Agreement and the transactions contemplated thereunder is more than 25% but less than 75%, the Agreement and the transactions contemplated thereunder constitutes a major transaction for the Company under Chapter 19 of the GEM Listing Rules and is accordingly subject to the notification, announcement and Shareholders’ approval requirements set out under Chapter 19 of the GEM Listing Rules.

After due and careful consideration, the Purchaser decided not to proceed with the Disposal and, on 30 July 2025, the Company received the termination agreement (the “Termination Agreement”) dated 28 July 2025 entered into by the Vendor and the Purchaser to cease and terminate the Sale and Purchase Agreement and the transactions contemplated thereunder effective from 16 July 2025 after arm’s length negotiations.

It is of the view that the termination of the Disposal shall have no material adverse impact on the financial position and operation of the Group.

* *The English translation of the Chinese name is for information only and should not be regarded as the official English translation of such name.*

Management Discussion and Analysis

The Group will continue to look for potential purchaser(s) for the Property and will publish further announcement(s) in compliance with the GEM Listing Rules as and when appropriate if the terms for the disposal of the Property to such potential purchaser(s) have been finalised.

Details of the Agreement, the Disposal and the termination are set out in the announcements dated 19 June 2025, 14 July 2025 and 30 July 2025.

Rights Issue on the Basis of Three Rights Shares for Every Eight Existing Shares Held on the Record Date On a Fully Underwritten Basis

On 13 August 2025, the Company proposed to raise, before expenses, not less than approximately HK\$35.44 million (assuming no change in the number of Shares in issue on or before the Record Date), by way of the rights issue of issuing up to 27,474,463 rights Shares and not more than approximately HK\$38.04 million (assuming no change in the number of Shares in issue, other than as a result of the issue of Shares upon full exercise of the outstanding share options, on or before the Record Date), by way of the Rights Issue of issuing up to 29,489,418 Rights Shares, at the Subscription Price of HK\$1.29 per Rights Share, on the basis of three (3) Rights Shares for every eight (8) existing Shares held by the Qualifying Shareholders on the Record Date ("Rights Issue").

Meanwhile, on 13 August 2025, the Company and RaffAello Securities (HK) Limited as the Underwriter (the "Underwriter") entered into the underwriting agreement ("Underwriting Agreement"), whereby, subject to the terms and conditions thereof, in particular the fulfilment of the conditions contained therein, the Underwriter has conditionally agreed to underwrite the underwritten Shares of not less than 27,474,463 Rights Shares (assuming no change in the number of Shares in issue on or before the Record Date) and not more than 29,489,418 Rights Shares (assuming no change in the number of Shares in issue, other than as a result of the issue of Shares upon full exercise of the Outstanding Share Options, on or before the Record Date). The Rights Issue was fully underwritten by the Underwriter.

Subsequently, on completion of the Rights Issue which took place on 8 October 2025, 27,474,463 Rights Shares were allotted and issued under valid acceptances of Provisional allotment letters and pursuant to the Underwriting Agreement.

Details of the Rights Issues are set out in the announcements dated 13 August 2025, 6 October 2025 and 8 October 2025 as well as the prospectus dated 11 September 2025.

The gross proceeds from the Rights Issue are approximately HK\$35.44 million and the net proceeds from the Rights Issue after deducting the underwriting commission and all other relevant expenses from the Rights Issue are estimated to be approximately HK\$32.05 million.

As at 31 December 2025, the Group used (i) approximately HK\$713,000 for rental and building management fee and (ii) approximately HK\$5,365,000 for salaries; and (iii) HK\$1,450,000 for repayment of professional fees and other administrative expenses as intended. The remaining net proceeds were kept in the bank of the Group. The Group expects that the remaining net proceeds to be fully utilized on or before April 2027 as disclosed in the prospectus of Rights Issue.

Management Discussion and Analysis

Placing of New Shares Under General Mandate

On 19 November 2025, the Company and Glory Sun Securities Limited (the “Placing Agent”), entered into the placing agreement (“Placing Agreement”), pursuant to which the Company has conditionally agreed to place through the Placing Agent, on a best effort basis, of up to 14,000,000 placing shares (“Placing Share(s)”), to not less than six placees who and whose ultimate beneficial owners shall be independent third parties at the Placing Price of HK\$0.28 per Placing Share (“Placing”). The closing price of the Company’s shares on 19 November 2025 was HK\$0.33. The Directors consider that the Placing Agreement is entered into upon normal commercial terms following arm’s length negotiations between the Company and the Placing Agent and the terms of the Placing Agreement (including the Placing Price and the placing commission) are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.

On 5 December 2025, all the conditions set out in the Placing Agreement had been fulfilled. The Placing was completed on 5 December 2025 in accordance with the terms of the Placing Agreement. An aggregate of 14,000,000 Placing Shares, representing approximately 12.20% of the issued share capital of the Company immediately after completion of the Placing, have been successfully placed to not less than six Placees at the Placing Price of HK\$0.28 per Placing Share.

The net proceeds from the Placing (after deduction of commission and other expenses of the Placing) were approximately HK\$3,881,000. As at the date of this report, the Company has fully utilized the net proceeds from the Placing for (i) the repayment of maturing indebtedness; and (ii) general working capital of the Group as intended.

Details of the Placing and Placing Agreement are set out in the announcements dated 19 November 2025 and 5 December 2025.

Disposal of 100% Interests in a Subsidiary

On 29 December 2025, Ms. Sin Ka Ka, an independent third party, as the purchaser (“Ms. Sin”) and the Company as vendor entered into the disposal agreement (the “Disposal Agreement”). Pursuant to the Disposal Agreement, Ms. Sin has agreed to acquire, and the Vendor has agreed to sell the Sale Share of 1 share with a par value of US\$1.00 of Rosy Depot Limited, a wholly-owned subsidiary of the Company (the “Target Company”) and the Sale Loans for the consideration of HK\$4,000,000 (the “Disposal of Subsidiary”). The Target Company is an investment holding company and its principal asset is approximately 8.74% equity interests of Global Engine Group Holding Limited, a company incorporated in BVI with limited liability and listed on the Nasdaq (Stock Code: GLE).

The net cash proceeds from the Disposal of Subsidiary, after deducting the estimated expenses in relation to the Disposal of Subsidiary, will amount to approximately HK\$3,990,000. The Company intends to apply the net proceeds of the Disposal of Subsidiary as general working capital of the Group.

The Disposal of Subsidiary was completed on 31 December 2025. Details of the above Disposal of Subsidiary are set out in the announcements dated 29 December 2025 and 2 February 2026.

Management Discussion and Analysis

Macro Systems

During the Year, Macro Systems Limited allied with various top-class industry elites to continuously promote enterprise market's digital transformation in Hong Kong. DataCube

During the Year, DataCube Research Centre Limited ("DataCube"), continued to use advanced artificial intelligence technology to develop a sophisticated algorithm capable of collecting real-time vibration frequency data from train bogies and cooperated with a public transportation company. It effectively predicts abnormal conditions, thereby improving monitoring and maintenance efficiency. Meanwhile, it has also continued to promote data modelling and big data analysis, as well as developing related technologies to expedite the adoption and drive the evolution of AI and business intelligence across different industries and regions with its unique advanced core technologies of the AI Book, AI Manager and BI Canvas. As such, DataCube provides the technological platforms and all related resources to drive the development of smart cities in Asia. Currently, the AI Book and BI Canvas developed by DataCube serve clients in the PRC.

The smart logistics and customer relationships management system (the "CRM system"), one of the branches of the AI Booster solution services, is a simplified AI solution targeting small to medium-sized enterprises without AI specialists. It is an end-to-end ecosystem that provides leading-edge solutions for model development, deployment, monitoring and evolution.

Management Discussion and Analysis

According to the data collected by DataCube, the smart logistics and CRM system of the AI Booster solution services help customers of the Group to select the optimal transportation by providing real-time information sharing so that on-time delivery can be achieved. It can also monitor exceptional changes of the business while providing more personalised recommendation to the customers. The algorithms and data management technologies used in the AI Book and BI Canvas can create synergy for the development of AI Booster and the smart logistics and CRM system, allowing the Group to seamlessly streamline its entire data process and leverage cutting-edge AI technologies. Therefore, the Company has been injecting resources in research and development on its AI technology in the smart logistics and CRM system to transform enormously complex data with automated machine learning platforms and augmented analytics into useful insights which enables the Group to provide timely services to its customers. The system shall also provide automated sales and customer service interactions and other logistics management services.

During the Year, DataCube contributed a revenue of approximately HK\$4,963,000 representing an increase of 17.6% as compared to the revenue of approximately HK\$4,222,000 during the corresponding year of 2024. During the Year, DataCube focused on the cooperation with the mass rapid transit company and obtained higher amount of revenue from it.

Possible

Possible Limited (“Possible”) is a service provider that specializes in the areas of cloud technology and digital marketing. It provides information technology services in relation to a cloud-based solution for customer loyalty management and data analysis. Possible also prioritizes charitable fundraising and NFT care initiatives related to environmental, social, and corporate governance, benefiting various charity organizations.

During the Year, Possible contributed a revenue of approximately HK\$3,601,000.

FUTURE PROSPECT

Shadowed by the increasing geopolitical complexity and the rapid technological advancement, the business environment remains challenging. Against this backdrop, the governments of Hong Kong and Mainland China continue to demonstrate strong commitment to fostering innovation, accelerating digital transformation, and supporting sustainable growth across the information technology sector.

Building on this momentum, the Group will continue to strengthen its technological capabilities and product offerings, ensuring that our services and products remain competitive and relevant to market needs. We will actively explore the integration of AI to enhance operational efficiency, optimize customer experiences, and deliver innovative applications that connect technology with everyday life.

To support these initiatives, the Group is constantly seeking ways to enhance its operational efficiency and the profitability of its business. The Group will also proactively explore new opportunities in Hong Kong and the PRC as well as new markets like UAE to expand its customer base and market share which will boost value to its shareholders. Meanwhile, the Group shall strive to resolve the dispute in relation to the Property in PRC as disclosed in the section “Material Litigation and Arbitration” under the Director’ Report. The Group remains dedicated to preserving a healthy liquidity position while pursuing high-potential investments that reinforce its long-term goal for sustainable business growth.

Management Discussion and Analysis

FINANCIAL REVIEW

Revenue

The Group's revenue for 2025 amounted to approximately HK\$34,464,000, decreased by 16.9% from approximately HK\$41,485,000 in 2024. The decrease in revenue is mainly due to the dispute between the Group and the tenant regarding the investment properties in the PRC and revenue from the investment properties decreased of approximately HK\$5,364,000.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group's financial condition, results of operations, and business prospects may be affected by a number of risks and uncertainties directly or indirectly pertaining to the Group's businesses. To their best of knowledge and belief, the Directors consider that the followings are the key risks and uncertainties identified by the Group as at the date of this report.

Risks relevant to the Group's business

Market competition and innovation risk

The internet and technology industries are highly competitive with rapid product updates and replacements, and the development of AI-related technologies is progressing rapidly. The development of technologies brings evolutionary changes to the existing business models and brings in more new players into the market. The existing market competition landscape may face major changes. Therefore, how to promote innovative and sustainable social values through innovation in technology, product and business model is one of the key challenges of the Company. If the Group is unable to continue to achieve innovation in technology, product and business model, the Group's existing business and future growth potential may be adversely affected.

Management Discussion and Analysis

Regulatory and compliance risk

As the Group continuously expands its businesses, the Group must abide by and comply with the relevant applicable laws and regulations in different jurisdictions, including but not limited to laws and regulations relating to privacy and data protection and labour protection and continue to pay attention to changes in industry laws and regulations. In addition, changes in international circumstances may affect the development of global policies and regulations and impact the development of various industries across different regions. If the Group fails to comply with the evolving legal regime, particularly those relating to privacy and data protection and labour protection, the Group may be subject to penalties, rectification orders, substantial fines, potentially significant monetary damages or suspensions in the Group's business operations.

Risks relevant to the macro environment which may affect the Group's business

Foreign Exchange Rates Risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

Price Risk

The Group's financial assets at fair value through profit or loss are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The Directors manage this exposure by maintaining a portfolio of investments with different risk profiles.

Risk relevant to the Group itself

Liquidity Risk

Liquidity risk is the potential risk that the Group will be unable to meet its obligations when they fall due because of an inability to obtain adequate funding or liquidate assets. In managing liquidity risk, the Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

Management Discussion and Analysis

EMPLOYEES AND REMUNERATION POLICIES

There were a total of 59 employees in the Group as of 31 December 2025 (2024: 70 employees). Total expenses on employee benefits amounted to approximately HK\$24,291,000 for the year ended 31 December 2025 (2024: approximately HK\$24,216,000 of which HK\$1,764,000 is related to equity-settled share-based payment). The management believes the remuneration packages offered by the Group to its employees are competitive.

The Remuneration Committee of the Company recommends the level of remuneration for Directors, subject to approval by the Board. The primary goal of the remuneration policy with regard to the remuneration packages of the Group's executive Directors is to enable the Group to retain and motivate executive Directors by linking their compensation with performance as measured against corporate objectives achieved. In order to determine the level of remuneration paid to the members of the Board, market rates and factors such as time commitment, responsibilities of directors and the Group's performance are taken into account. As part of the remuneration package, Board members may be granted a certain number of share options under share incentive schemes adopted by the Company from time to time. Such securities may be granted upon the recommendation of the Remuneration Committee and will be subject to approval by the Board or the Shareholders (if necessary).

The Group has formulated its emolument policy which sets out the basis for the remuneration of the employees and the remuneration structure of employees that comprises of basic wage, allowances, benefits and others, and grants employees share options as appropriate based on the assessment of individual performance. The Company has made contributions to, among others, social insurance on behalf of its employees in PRC in accordance with the relevant laws and regulations requirements of the PRC. The emoluments payable to employees of the Group are determined based on their responsibilities, qualifications, experiences and the role taken as well as the industry practices. Other benefits to the employees of the Group include, among other things, share options. Details of the shares options granted are set out in the section headed "Share Option Scheme" in this annual report.

REDEMPTION, PURCHASE OR CANCELLATION OF THE COMPANY'S REDEEMABLE SECURITIES

Neither the Company nor any of its subsidiaries has redeemed, purchased or cancelled any of the Company's redeemable securities during the Year.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES OR TREASURY SHARES

Directors' Report

2023 Share Option Scheme

The Company has adopted the 2023 Share Option Scheme with effect from 15 May 2023 (the "Adoption Date") pursuant to an ordinary resolution passed by the Shareholders. The Company is entitled to offer 6,176,523 share options under the scheme mandate and 617,652 share options under the service provider sublimit upon the adoption of the share option scheme. As at the date of this report, 1,771,030 share options (as adjusted) have been granted under the 2023 Share Option Scheme.

Purpose and Participants of the 2023 Share Option Scheme

The purpose of the 2023 Share Option Scheme is to enable the Board to grant share options to (i) director(s) and employee(s) of the Company or any of its subsidiaries; (ii) directors and employees of holding companies, fellow subsidiaries or associate companies of the Company; and (iii) person(s) who provide services to the Group on a continuing and recurring basis in its ordinary and usual course of business which are in the interests of the long-term growth of the Group such as advisers, consultants, distributors, contractors, suppliers, agents and service providers of any subsidiary of the Group ("Service Providers" and collectively referred as the "Eligible Participants") as incentives or rewards for their contribution or potential contribution to the Group.

There is no performance target attached to the options granted. The options granted will be subject to clawback mechanism as determined by the Board. In particular, the lapse of the options upon cessation of employment of the grantee and the cancellation of the options at the discretion of the Board.

The Directors are of the view that the adoption of the 2023 Share Option Scheme aligns with the market practice of providing incentives to employee participants to work towards achieving the long-term objectives for the benefit of the Group as a whole.

The Board may determine the Employee Participants' eligibility in its sole discretion by considering all relevant factors as appropriate and take into account criteria based on the nature of the contributions made by the Eligible Participants before granting Share Option(s) to them.

Total number of share available for issue

Pursuant to an ordinary resolution passed by the Shareholders on 15 May 2023, the Company is entitled to issue a maximum of 6,176,523 Shares upon exercise of the share option to be granted under the scheme, representing 10% of the issued Shares on 15 May 2023.

During the Year, the remaining Scheme mandate available for future grant pursuant to the 2023 Share Option Scheme was 4,608,523 shares (representing approximately 4.02%) of issued Shares (excluding treasury shares), and 617,652 shares under the service provider sublimit representing 0.54% of the issued Shares (excluding treasury shares).

The Company had granted 1,771,030 share options (as adjusted) under the 2023 Share Option Scheme to certain directors and employees of the Company. During the Year, no options had been granted to service providers and the service provider sublimit has not been utilized.

As at the date of this report, 1,771,030 share options (as adjusted) are outstanding and so 1,771,030 shares are available for issue, representing approximately 1.54% of the issued Shares (excluding treasury shares).

Subsequent to the Year, 46,061 share options (as adjusted) granted has been lapsed.

Directors' Report

Maximum entitlement of each participant under the 2023 Share Option Scheme

The total number of Shares issued and which may fall to be issued upon exercise of the share option granted under the 2023 Share Option Scheme and any other share option schemes of the Company (including both exercised and outstanding share option) to each participant in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue as at the date of grant. Any further grant of share option in excess of this 1% limit shall be subject to the issuance of circular by the Company to seek the approval of the Shareholders in general meeting and/or subject to other requirements prescribed under the GEM Listing Rules.

The Board has also set the service provider sublimit in respect of the total number of Shares which may be allotted and issued in respect of all share option to be granted to Service Providers under the 2023 Share Option Scheme to 1% of the total number of Shares in issue on the Adoption Date, being no more than 617,652 Shares.

Period within which the option may be exercised by grantee

The option granted under the 2023 Share Option Scheme shall be exercised in 10 years from the date of grant.

Vesting Period of the options granted

The vesting period of share options granted under the 2023 Share Option Scheme shall be determined by the Board subject to a minimum period of no less than 12 months.

The amount payable on acceptance of options

Upon acceptance of the Option, the grantee shall pay HK\$1.00 to the Company by way of consideration for the grant no later than 30 days from the date of grant.

Basis of determining the exercise price of options granted

The exercise price of a Share in respect of any particular share option granted under the 2023 Share Option Scheme shall be such price as the Board in its absolute discretion shall determine at the time of grant, save that such price will be at least the highest of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets on the date of grant, which must be a day on which the Stock Exchange is open for the business of dealing in securities; (ii) the average of the official closing prices of the Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant; and (iii) the nominal value of a Share.

The remaining life of the 2023 Share Option Scheme

The 2023 Share Option Scheme shall be valid and effective for a period of 10 years from the Adoption Date.

Corporate Governance Report

INTRODUCTION

The Board of the Company believes that corporate governance is essential to enhance the Group's value and accountability and has adopted various measures to adhere to a high standard of corporate governance to safeguard the interests of shareholders, clients, service vendors, employees and other stakeholders.

The Company has complied with the code provisions (the "Code Provision(s)") of the Corporate Governance Code as set out in Appendix C1 of the GEM Listing Rules (the "Code") for the year ended 31 December 2025, except for the following:

Code Provision C.1.5

Code Provision C.1.5 stipulates that non-executive directors and independent non-executive directors should attend general meetings to gain and develop a balanced understanding of the views of shareholders of the Company. Ms. Leung Kar Ming, *MH*, the non-executive Director and Mr. Chu Wun Chiu, the independent non-executive Director were unable to attend the annual general meeting on 24 June 2025 due to their other business engagements.

Code Provision C.2.1

Chairman and Chief Executive Officer

Code Provision C.2.1 stipulates the roles of chairman and chief executive should be separate and should not be performed by the same individual.

Mr. Wong King Shiu, Daniel served as both the Chairman and the Chief Executive Officer during the year. Such practice deviates from code provision C.2.1 of the Code. The Board is of the opinion that it is appropriate and in the best interests of the Company for the same person to hold both positions as it helps maintain the continuity of the policies and the stability of the operations of the Company.

CULTURE AND VALUES

With the aim to provide advanced and high quality IT services to our clients, the Board strives to foster corporate culture with the following core principles and to ensure that the Company's vision, values and business strategies are aligned to it.

Integrity and code of conduct

The Group endeavors to maintain high standards of business ethics and corporate governance across all our activities and operations. The Directors, management and staff are all required to act lawfully, ethically and responsibly, and the required standards and norms are explicitly set out in the training materials for all new staff and embedded in various policies such as the Group's employee manual, the anti-corruption policy and the whistleblowing policy of the Group. The said policies had been available and sent to all staff for their reference. Regular updates and training are provided to reinforce the standard.

Commitment

The Group believes that the culture of commitment to workforce development, workplace safety and health, diversity, and sustainability is important to nurture commitment with the Group's mission. This sets the tone for a strong, productive workforce that attracts, develops, and retains the best talent and produces the highest quality work. Moreover, the Company's strategy in the business development and management are to achieve long-term, steady and sustainable growth, while having due considerations from environment, social and governance aspects.

Corporate Governance Report

BOARD OF DIRECTORS

Board Composition and the responsibilities, accountabilities and contributions of the Board and Management

The Board, which currently comprises eight Directors, including three executive Directors, and two non-executive Directors and three independent non-executive Directors. The Board is responsible for overseeing the corporate strategy and performance, annual and interim results, succession planning, internal control and risk management, major acquisitions, disposals and capital transactions, and other significant operational and financial matters of the Company. The independent non-executive Directors are responsible for ensuring a high standard of internal control of the Company and financial and other mandatory reporting of the Board as well as to provide a balance in the Board in order to protect shareholders' interest and overall interest of the Group.

Major corporate matters that are specifically delegated by the Board to the management include the preparation of annual, and interim accounts for board approval before public reporting, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of risk management and internal controls procedures, and compliance with relevant statutory requirements and rules and regulations.

All Directors have given sufficient time and attention to the affairs of the Group. Each executive Director and non-executive Director (including the independent non-executive Director) has sufficient experience, knowledge and execution ability to hold the position so as to carry out his duties effectively and efficiently.

The composition of the Board, details of backgrounds and qualifications of all Directors are set out in the "Corporate Information" and "Biographical Information of Directors and Senior Management" sections of this annual report. The latest list of Directors setting out their roles and responsibilities is available and accessible at the websites of the Company (<http://www.citd.com.hk>) and the Stock Exchange (www.hkexnews.hk).

There was no financial, business, family or other material/relevant relationship among Directors.

Board Independence

The Company recognises that Board independence is crucial in good corporate governance and effectiveness of the Board. The Board has established mechanisms to ensure independent views and input from any Director of the Company are delivered to the Board for building an objective and effective decision.

The governance framework and the following mechanisms are reviewed annually by the Board, through its nomination committee ("Nomination Committee") and the remuneration committee ("Remuneration Committee") of the Company, in order to ensure the effectiveness:

1. Three out of the eight Directors are independent non-executive Directors, which meets the requirements of the GEM Listing Rules that the Board must have at least three independent non-executive Directors and must appoint independent non-executive Directors representing at least one-third of the Board.
2. The Nomination and Remuneration Committees will assess the independence, qualification and time commitment of a candidate who is nominated to be a new independent non-executive director before appointment and also the continued independence of existing independent non-executive Directors and their time commitments annually. On an annual basis, all independent non-executive Directors are required to confirm in writing their compliance of independence requirements pursuant to Rule 5.09 of the GEM Listing Rules, and to disclose the number and nature of offices held by them in public companies or organisations and other significant commitments.

Corporate Governance Report

3. The Nomination and Remuneration Committees will conduct the performance evaluation of the independent non-executive Directors annually to assess their contributions.
4. External independent professional advice is available as and when required by individual Directors.
5. No equity-based remuneration with performance-related elements will be granted to independent non-executive Directors.
6. A Director (including independent non-executive Director) who has a material interest in a contract, arrangement or other proposal shall not vote or be counted in the quorum on any Board resolution approving the same.
7. The Chairman of the Board meets with independent non-executive Director annually without the presence of the executive Directors and non-executive Directors.
8. The independent non-executive Directors of the Company who served the Company for more than nine years, his/her further appointment should be subject to a separate resolution to be approved by shareholders pursuant to the Code.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding the director's securities transactions (the "Code of Conduct") on terms no less exacting than the required standard of dealings as set out in Rules 5.48 to 5.67 of the GEM Listing Rules. The Company has made specific enquiry of all Directors regarding any non-compliance with the Code of Conduct during the year, and they all confirmed that they have fully complied with the required standard of dealings set out in the Code of Conduct throughout the year ended 31 December 2025.

TRAINING, INDUCTION AND CONTINUING DEVELOPMENT OF DIRECTORS

Each Director receives comprehensive, formal and tailored induction on the first occasion of his appointment so as to ensure the he has appropriate understanding of the business and operations of the Company and that he is fully aware of his responsibilities and obligations under the GEM Listing Rules and relevant regulatory requirements. The Company is committed to arranging and funding suitable training to all Directors for their continuous professional development.

During the year of 2024, the Company appointed Mr. Chu Joshua Allen Kiu Wah, Ms. Leung Kar Ming, *MH*, Mr. Chu Wun Chiu and Mr. So Han Meng Julian as the Company's directors.

NOMINATION OF DIRECTORS

The Board is empowered under the Articles of Association to appoint any person as a director either to fill a casual vacancy or, subject to authorisation by the shareholders of the Company in general meeting, as an additional member of the Board. The Company has adopted the nomination policy (the “Nomination Policy”) which sets out the procedures, process and criteria for identifying and recommending candidates for election to the Board of Directors. The criteria for recommending the suitable candidates for directorship include (i) reputation for integrity, (ii) qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company’s business and corporate strategy, (iii) willingness to devote adequate time to discharge duties as Board members and other directorships and significant commitments; (iv) diversity in all its aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service, and (v) such other perspectives appropriate to the Company’s business. These factors are for reference only, and not meant to be exhaustive and decisive. The nomination committee of the Company (“Nomination Committee”) has the discretion to nominate and recommend any person, as it considers appropriate to the Board for further approval.

Upon receipt of a proposal on appointment of new Directors, the Nomination Committee should evaluate such candidates based on the criteria as set out above and in accordance with the Board Diversity Policy, to determine whether such candidates are qualified for directorship. The candidates shall be invited to the meeting for consideration by the Nomination Committee. The Nomination Committee may also put forward candidates who are not nominated by Board members.

The Nomination Committee should make recommendation to the Board. The nomination committee and/or the Board should also make recommendation to Shareholders in respect of the proposed election of Directors at a general meeting where appropriate.

For re-election of Directors, the Nomination Committee and/or the Board should in accordance with the board evaluation policy, board skill matrix and assessments, review the overall contribution and service to the Company of the retiring Directors, the level of participation and performance by such Directors on the Board. The Nomination Committee and/or the Board should also review and determine whether the retiring Directors continue to meet the criteria as set out above. The Nomination Committee and/or the Board should then make recommendation to Shareholders in respect of the proposed re-election of Directors at a general meeting.

The Nomination Committee shall review and recommend to the Board on any revisions to the Nomination Policy to ensure its transparent and fair for the election or re-election process of directors, remains relevant to the Company needs and reflects the good corporate governance practice. The Nomination Committee will discuss any revisions that may be required, and recommend any such revision to the Board for consideration and approval.

Corporate Governance Report

BOARD DIVERSITY

The Company recognises that increasing diversity at the Board level will support the attainment of the Company's strategic objectives and sustainable development. The Board has adopted a board diversity policy (the "Board Diversity Policy") which sets out the approach to achieve and maintain diversity on the Board.

Pursuant to the Board Diversity Policy, the Company seeks to achieve board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and other qualities.

The Company also takes into consideration its own business model and specific needs from time to time in determining the optimal composition of the Board. Nomination Committee has considered measurable objectives based on four focus areas: gender, age, professional experience and ethnicity to implement the Board Diversity Policy. Such objectives will be reviewed from time to time to ensure their appropriateness and the progress made towards achieving those objectives will be ascertained.

Nomination Committee will review the Board Diversity Policy, as appropriate, to ensure its continued effectiveness at least once annually. The Board Diversity Policy is available on the website of the Company for public information.

Measurable Objectives

For the purpose of implementation of the Board Diversity Policy, the following measurable objectives:

1. at least one third of the Directors shall be independent non-executive Directors;
2. at least one Director is female; and
3. at least one Director shall have obtained accounting or other professional qualifications.

During the year ended 31 December 2025, all the measurable objectives have been fulfilled.

Corporate Governance Report

Progress:

The Board and the Nomination Committee believe that the diversity of the Board is sufficient given that there are Directors from different industries and with different experience, skills and knowledge. As at 31 December 2025, the analysis of the Board diversity is set out as follows:

During the year, in the IT industry which is traditionally short of female talents, the Group had managed to attract female talents and maintained a relatively balanced gender ratio as shown in the below chart:-

Gender Diversity in Workforce

The Company shall continue to maintain gender diversity in workforce.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors of the Company as at the date of this Annual Report, the Company has maintained the prescribed public float under the GEM Listing Rules of at least 25% of the Company’s total number of issued shares was held by the public.

RISK MANAGEMENT AND INTERNAL CONTROL

The main features of the risk management and internal control systems of the Group are to provide a clear governance structure, policies and procedures, as well as reporting mechanism to facilitate the Group to manage its risks across business operations, to safeguard the shareholders’ investment and the Group’s assets and to ensure strict compliance with relevant laws, rules and regulations. The Group has established a risk management framework, which consists of the Board, the Audit Committee and the senior management of the Group. The Board determines the nature and extent of risks that shall be taken in achieving the Group’s strategic objectives. The Audit Committee is responsible for reviewing the effectiveness of the risk management and internal control systems and reporting to the Board. The Board, through the Audit Committee, conducts reviews of the effectiveness of such systems at least annually, covering all material controls including financial, operational and compliance controls. The Board acknowledges that it is responsible for the risk management and internal control systems and reviewing their effectiveness. The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company’s strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems.

Our risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Group has formulated and adopted risk management policy in providing directions in identifying, evaluating and managing significant risks. At least on an annual basis, the senior management identifies risks that would adversely affect the achievement of the Group’s objectives, and assesses and prioritizes the identified risks according to a set of standard criteria. Risk mitigation plans and risk owners are then established for those risks considered to be significant.

Corporate Governance Report

In addition, the Group has engaged an independent professional advisor to assist the Board and the Audit Committee in ongoing monitoring of the risk management and internal control systems of the Group and in performing the internal audit functions for the Group. Deficiencies in the design and implementation of internal controls are identified and recommendations are proposed for improvement. Significant internal control deficiencies are reported to the Audit Committee and the Board on a timely basis to ensure prompt remediation actions are taken.

Risk management report and internal control report are submitted to the Audit Committee and the Board at least once a year. The Board, through the Audit Committee, had performed annual review on the effectiveness of the Group's risk management and internal control systems, including but not limited to the Group's ability to cope with its business transformation and changing external environment; the scope and quality of management's review on risk management and internal control systems; result of internal audit work; the extent and frequency of communication with the Board in relation to result of risk and internal control review; significant failures or weaknesses identified and their related implications; and status of compliance with the GEM Listing Rules.

Risk Management Process

In addition to the Board's oversight responsibilities, the Company has developed a risk management process to identify, evaluate and manage significant risks and to resolve material internal control defects. Senior management of the Group is responsible for the annual risk reporting process. Independent professional advisor meets with members of the senior management to review and assess risks and discuss solutions to address material internal control defects, including any changes relevant to a given year. Risks are compiled, ratings are assigned and mitigation plans are documented. The risk assessment is reviewed by certain members of the senior management and presented to the Audit Committee and the Board for their review.

Risks are evaluated by the Board and the Group's senior management based on (i) the severity of the impact of the risk on the Company's business operation and financial results; and (ii) the probability that the risk will occur.

Based on the risk evaluation, the Company will manage the risks as follows:

- Risk elimination – the Group's senior management may identify and implement certain changes or controls that in effect eliminate the risk entirely.
- Risk mitigation – the Group's senior management may implement a risk mitigation plan designed to reduce the likelihood, velocity or severity of the risk to an acceptable level.
- Risk retention – the Group's senior management may decide that the risk rating is low enough that the risk is acceptable for the Company and that no action is required. The risk would continue to be monitored as part of the risk management program to ensure the level of risk does not increase to an unacceptable level.

Corporate Governance Report

Significant Risks of the Company

Certain significant risks identified during the reporting period and the relevant risk mitigation plans are shown as below:

1. *Market competition and innovation risk*

The Internet and technology industries are highly competitive with rapid product updates and replacements, and the development of AI-related technologies is progressing rapidly. The development of technologies brings evolutionary changes to the existing business models and brings in more new players into the market. The existing market competition landscape may face major changes. Therefore, how to promote innovative and sustainable social values through innovation in technology, product and business model is one of the key challenges of the Company.

The Company attaches great importance to innovation and stays on top of the developments of the industry and user needs, keeps up with the technological development through innovation in frontier technology, and constantly improves the Company's products and services. By attracting and cultivating key talents and increasing investment in scientific research, the Company continuously improves its technology and innovation abilities and brings more cutting-edge technological benefits to the Company's business and products. The Company also continuously optimizes its resource allocation, enhances its core products and business, strengthens its product development and technical capabilities, explores innovative business models, develops products that meet the expectations of both domestic and international markets, continuously improves user experience, promotes sustainable and high-quality development of its businesses and increases its market competitiveness. The Company collaborates with its partners to jointly innovate, enhance service capabilities, and support the ecosystem in order to achieve product service growth and continuous iterative innovation, and create value for users and the society.

2. *Global macroeconomic risks*

The uncertainty of the global economic trend leads to changes in global markets. In the face of global economic changes, the Company adjusts its business development strategy accordingly, actively seeks and expands business development opportunities, and creates value for its shareholders. The Company also continuously improves its operational efficiency to confront uncertainties arising from the external environment.

3. *Regulatory and compliance risk*

As the Company continuously expands its businesses, the Company must abide by and comply with the relevant applicable laws and regulations in different jurisdictions, including but not limited to laws and regulations relating to privacy and data protection and labour protection and continue to pay attention to changes in industry laws and regulations. In addition, changes in international circumstances may affect the development of global policies and regulations and impact the development of various industries across different regions. The Company has taken practical steps to devote substantial resources in various areas to ensure the Company's compliance with regulatory requirements. The Company has engaged external professional consultants, kept abreast of the changes to relevant laws and regulations, adjusted strategies accordingly, taken appropriate actions or measures, improved internal training and the understanding of the laws and regulations, and enhanced the corresponding management system and policies to ensure that the Company is in compliance with such applicable laws and regulations.

Corporate Governance Report

Whistleblowing Policy

The Board adopted a whistleblowing policy (the “Whistleblowing Policy”) in June 2022. The purpose of the Whistleblowing Policy is to (i) foster a culture of compliance, ethical behaviour and good corporate governance across the Group; and (ii) promote the importance of ethical behaviour and encourages the reporting of misconduct, unlawful and unethical behavior. The nature, status and the results of the complaints received under the Whistleblowing Policy are reported to the chairman of the Audit Committee of the Group. No incident of fraud or misconduct that have material effect on the Group’s financial statements or overall operations for the year ended 31 December 2024 has been discovered. The Whistleblowing Policy is reviewed annually by the Audit Committee to ensure its effectiveness.

Anti-corruption Policy

The Board adopted an anti-corruption policy (the “Anti-corruption Policy”) in June 2022. The Group is committed to achieving the high standards of integrity and ethical behaviour in conducting business. The Anti-corruption Policy forms an integral part of the Group’s corporate governance framework. The Anti-corruption Policy sets out the specific behavioural guidelines that the Group’s personnel and business partners must follow to combat corruption. It demonstrates the Group’s commitment to the practice of ethical business conduct and the compliance of the anti-corruption laws and regulations that apply to its local and foreign operations. In line with this commitment and to ensure transparency in the Group’s practices, the Anti-corruption Policy has been prepared as a guide to all Group employees and third parties dealing with the Group. The Anti-corruption Policy is reviewed and updated periodically to align with the applicable laws and regulations as well as the industry best practice.

COMPANY SECRETARY

As at 31 December 2025, the Company Secretary of the Company, Ms. Lam Mei Wai Michelle, fulfilled the requirement under Rules 5.14 and 5.15 of the GEM Listing Rules. As an employee of the Company, the Company Secretary supports and reports directly to the Chairman of Board, ensures good information flow within the Board and the board committees while board policies and procedures are followed; advises the Board on governance matters, facilitates induction and monitors the training and continuous professional development of directors. She has attained not less than fifteen hours of relevant professional training during the year. Her biography is set out in the “Biographical Information of Directors and Senior Management” section of this annual report.

The Board approves the selection, appointment or dismissal of the secretary in board meetings. All Directors have access to the advice and services of the Company Secretary to ensure that board procedures, and all applicable law, rules and regulations, are followed.

Corporate Governance Report

INSIDE INFORMATION

Guidelines are provided to the Directors, management and relevant staff (likely possessing the unpublished inside information) of the Group to ensure that the inside information of the Group is to be disseminated to the public in equal and timely manner in accordance with the applicable laws and regulations. The procedures include, among others, regularly remind the Directors, management and relevant staff about the compliance with the securities dealing restrictions as set out in Rules 5.48 to 5.67 of the GEM Listing Rules and the notification of the blackout period applicable to the publication of the annual, interim and quarterly (if any) results of the Company respectively.

All Directors and those employees who could have access to, and monitor, the information of the Group are responsible for making appropriate precautions to prevent abuse or misuse of such information. Employees of the Group are prohibited from using inside information for their own benefit.

DIVIDEND POLICY

The dividend policy of the Company has been adopted on 31 December 2018 which sets out the factors in determination of dividend payment of the Company (the "Dividend Policy").

Under the Dividend Policy, the declaration and payment of dividends shall be in accordance with the applicable laws and the relevant provisions of articles of association of the Company effective from time to time.

In deciding whether to propose a dividend and in determining an appropriate basis for dividend distribution, the Board will take into account, inter alia, the Group's earnings, reasonable return in investment of the investors and the shareholders in order to provide incentive to them to continue to support the Company in their long-term development, the financial conditions, business plan, future operations and earnings, capital requirement and expenditure plans of the Company, any restrictions on payment of dividends that may be imposed by the Group's lenders, the general market sentiment and circumstances and any other factors the Board deems appropriate.

The Company will continually review the Dividend Policy as appropriate from time to time. There is no guarantee that any particular amount of dividends will be distributed for any specific periods.

SHAREHOLDERS' RIGHTS

In accordance with the Company's Article 58, any shareholder or shareholders of the Company holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting, the requisitionists themselves may do so in the same manner, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Board shall be reimbursed to the requisitionists by the Company.

Shareholders may put forward their enquiries about the Company to the Board or the Company Secretary at the Company's head office in Hong Kong.

Corporate Governance Report

COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS

The Board is committed to maintaining a high degree of corporate transparency, as well as maintaining a communication with shareholders having the aim to ensure shareholders be provided with information about the Company and enable them to engage actively with the Company and to exercise their rights (“Communication Policy”).

The Company communicates with shareholders and investors through various channels including Hong Kong Branch Share Registrar of the Company, Computershare Hong Kong Investor Services Limited, for enquiries of shareholding, the Company Secretary of the Company for direct enquiries and publication of quarterly, interim and annual reports, announcements, circulars and other corporate information available on the websites of the Stock Exchange and/or the Company.

The Company’s general meeting provides valuable opportunities for the Board to have face-to-face communication with the shareholders. The Company encourages the participation of the shareholders through annual general meeting and other general meetings where the shareholders exchange views with the Board, and to exercise their rights to vote at meetings.

The Board has reviewed the implementation and effectiveness of the Communication Policy with Shareholders including steps taken at the general meetings, the handling of queries received (if any) and the multiple channels of communication and engagement in place, and considered that the Communication Policy with Shareholders has been properly implemented during the year under review and is effective.

During the Year, there was no significant change in the Company’s constitutional documents which is available on the websites of the Company and the Stock Exchange.

We welcome shareholders and potential investors to visit the Company’s website at www.citd.com.hk to obtain up-to-date information regarding the Company.

Shareholders may also make enquiries with the Board at the general meetings of the Company.

Independent Auditor's Report

To the shareholders of

China Information Technology Development Limited

(Incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of China Information Technology Development Limited (the "Company") and its subsidiaries (hereinafter collectively referred to as the "Group") set out on pages 63 to 162, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section, we have determined the matter described below to be the key audit matters to be communicated in our report.

Investment properties

Refer to Note 15 to the consolidated financial statements and the accounting policies on pages 87 to 88.

The key audit matter

The Group measured its investment properties at fair value with the changes in fair value recognised in the consolidated statement of profit or loss. This fair value measurement is significant to our audit because the carrying amount of investment properties of approximately HK\$169,661,000 as at 31 December 2025 and change in fair value of investment properties of approximately HK\$54,225,000 for the year ended 31 December 2025 are material to the consolidated financial statements. In addition, the Group's fair value measurement involves application of judgement and is based on assumptions and estimates.

Independent valuer was engaged by the management of the Group for the fair value determination of investment properties as at 31 December 2025.

How the matter was addressed in our audit

Our audit procedures in relation to management's fair value assessment on investment properties included the following:

- Examining the external valuation report and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Assessing the competence, independence and integrity of the external valuer engaged by the Group;
- Evaluating key assumptions and input data in the valuation model to market data;
- Checking arithmetical accuracy of the valuation model; and
- Assessing the disclosure of the fair value measurement in the consolidated financial statements.

Independent Auditor's Report

Key audit matters (Continued)

Impairment assessment of trade receivables, deposits and other receivables

Refer to Notes 21 and 24 to the consolidated financial statements and the accounting policies on pages 89 to 96.

The key audit matter

The Group has trade receivables of approximately HK\$3,180,000, and deposits and other receivables amounting to approximately HK\$33,533,000, net of loss allowance for trade receivables, deposits and other receivables of approximately HK\$21,764,000 as at 31 December 2025.

The loss allowance is estimated by taking into account the credit loss experience, ageing analysis of these assets, evaluation of collectability and financial position and an assessment of both the current and forecast general economic conditions, all of which involve a significant degree of management judgement.

How the matter was addressed in our audit

Our audit procedures in relation to management's impairment assessment on trade receivables, deposits and other receivables included the following:

- Reviewing the Group's credit policy and provision policy for determining loss allowance in respect of trade receivables, deposits and other receivables;
- Examining the valuation report from management expert for the assessment of the fair value of the provision for impairment of trade receivables, deposits and other receivables;
- Assessing the competence, capabilities, qualifications, and objectives of the management and management expert; and
- Reviewing the assessment of ECL model and challenging the reasonableness of the methods and assumptions used to estimate ECL.

Independent Auditor's Report

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors of the Company and Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards issued by the HKICPA and the disclosure requirement of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Audit committee are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements *(Continued)*

We communicate with audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Dai Tin Yau.

The directors of the Company anticipate that, except as described below, the application of the new and amendments to HKFRS Accounting Standards will have no material impact on the results and the financial position of the Group.

HKFRS 18 – Presentation and Disclosure in Financial Statements

HKFRS 18 sets out requirements on presentation and disclosures in financial statements and will replace HKAS 1 Presentation of Financial Statements. HKFRS 18 introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. Minor amendments to HKAS 7 “Statement of Cash Flows” and HKAS 33 “Earnings per Share” are also made.

HKFRS 18, and the consequential amendments to other HKFRS Accounting Standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted.

The application of HKFRS 18 is not expected to have material impact on the financial position of the Group but is expected to affect the presentation of the statement of profit or loss and statement of cash flows and disclosures in the future financial statements. The Group will continue to assess the impact of HKFRS 18 on the consolidated financial statements of the Group.

3. MATERIAL ACCOUNTING POLICIES INFORMATION

Basis of preparation

The consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments and investment properties that are measured at fair values, at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The material accounting policies are set out below.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances (please specify), appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

The Group reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Changes in the Group's ownership interests in existing subsidiaries *(Continued)*

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. The amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets and liabilities (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable HKFRS Accounting Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations or asset acquisitions

The Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets under assessment exclude bank and cash balances, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met, the set of activities and assets is determined not to be a business and no further assessment is needed.

Assets acquisitions

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to investment properties which are subsequently measured under fair value model and financial assets and financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

Business combinations

Acquisition of businesses are accounted for using the acquisition method, except for business combination under common control. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs incurred to effect a business combination are recognised in profit or loss as incurred.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Business combinations or asset acquisitions *(Continued)*

Business combinations (Continued)

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to the acquiree's employee benefit arrangements are recognised and measured in accordance with HKAS 12 Income Taxes and HKAS 19 Employee Benefits, respectively;
- liabilities or equity instruments related to share-based payment arrangement of the acquiree or the replacement of the acquiree's share-based payment transactions with the share-based payment transactions of the Group are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date (see the accounting policy below);
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard, and
- lease liabilities are recognised and measured at the present value of the remaining lease payments as if the acquired lease was a new lease at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at an amount equal to the lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests are measured at acquisition-date fair value except for non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets on a transaction-by-transaction basis.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Business combinations or asset acquisitions *(Continued)*

Business combinations (Continued)

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at each reporting date, and changes in fair value are recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. The provisional amounts recognised at the acquisition date are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Goodwill

Goodwill arising from a business combination is carried at cost less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Goodwill *(Continued)*

A cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit (or groups of cash-generating units). Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

The Group's policy for goodwill relating to an associate or a joint venture is set out in "investments in associates and joint ventures" below.

Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method, except for the investments classified as held for sale in which case it is accounted for in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, investments in associates and joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associates and joint ventures. If the Group's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

If an associate or a joint venture uses accounting policies other than those of the Group for like transactions and events in similar circumstances, adjustments are made to make the associate's or joint venture's accounting policies conform to those of the Group when the associate's or joint venture's financial statements are used by the Group in applying the equity method.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Investments in associates and joint ventures *(Continued)*

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment, any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the associate or joint venture is recognised as goodwill and is included in the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 36 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the net investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture. When the Group retains an interest in the former associate or a joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKFRS 9. The difference between the carrying amount of the associate or a joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or a joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the associate or joint venture is disposed of.

When the Group's ownership interest in an associate or a joint venture is reduced, but the Group continues to apply the equity method, the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest is reclassified to profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

Gains and losses resulting from transactions between the Group and its associate or joint venture are recognised in consolidated financial statements only to the extent of interests in the associate or joint venture that are unrelated to the Group. The Group's share in the associate's or joint venture's gains or losses resulting from these transactions is eliminated.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Investments in associates and joint ventures *(Continued)*

The Group applies HKFRS 9, including the impairment requirements, to long-term interests in an associate or joint venture to which the equity method is not applied and which form part of the net investment in the investee. In applying HKFRS 9 to long-term interests, the Group does not take into account adjustments to their carrying amount required by HKAS 28 (i.e. adjustments to the carrying amount of long-term interests arising from the allocation of losses of the investee or assessment of impairment in accordance with HKAS 28).

Revenue from contracts with customers

Revenue is recognised to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- The Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Contract assets and contract liabilities

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

Other revenue

Interest income is recognised using the effective interest method.

Rental income is recognised on a straight-line basis over the lease term.

Leasing

Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract or modification date or acquisition date, as appropriate. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Leasing *(Continued)*

The Group as lessee (Continued)

Lease liabilities *(Continued)*

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments), less any lease incentives receivable.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received. Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under HKAS 37 "Provision, Contingent Liabilities and Contingent Assets". The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Leasing *(Continued)*

The Group as lessee (Continued)

Right-of-use assets *(Continued)*

Except for the right-of-use assets classified as investment properties and measured under fair value model, right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets that do not meet the definition of investment property as a separate line in the consolidated statement of financial position. The right-of-use assets that meet the definition of investment property are presented within "investment property".

The Group applies HKAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

When the Group obtains ownership of the underlying leased assets at the end of the lease term upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to property, plant and equipment.

Lease modification

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Leasing *(Continued)*

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When a contract includes both lease and non-lease components, the Group applies HKFRS 15 to allocate the consideration under the contract to each component.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Foreign currency translation

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currency translation reserve (attributed to non-controlling interests as appropriate).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Foreign currency translation *(Continued)*

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a joint arrangement that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss. In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and retranslated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefits costs and termination benefits

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Long service payments

The Group's net obligation in respect of Long service payments under the Employment Ordinance is the amounts of future benefit that employees have earned in return for their services in the current and prior periods. The obligation is calculated using the projected unit credit method and discounted to its present value and after deducting the fair value of any related assets, including those retirement scheme benefits.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Retirement benefits costs and termination benefits *(Continued)*

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before tax as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Taxation *(Continued)*

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Ownership interests in leasehold land and buildings

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as “right-of-use assets” in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Leasehold improvements	Over the lease terms or 5 years, whichever is shorter
Furniture, fixtures and equipment	18% – 30%
Motor vehicles	10% – 20%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties include land held for undetermined future use, which is regarded as held for capital appreciation purpose.

Investment properties also include leased properties recognised by the Group as right-of-use asset and sub-leased out under operating lease.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Investment properties *(Continued)*

If an item of property, plant and equipment becomes an investment property when there is a change in use, as supported by observable evidence, any difference between the carrying amount and the fair value of that item at the date of transfer is recognised in other comprehensive income and accumulated in properties revaluation reserve. The properties revaluation reserve in respect of that item will be transferred directly to retained earnings when it is derecognised.

If an investment property becomes an owner-occupied property when there is a change in use, as supported by observable evidence, the fair value of that property at the date of transfer is the deemed cost for subsequent accounting for that property as an item of property, plant and equipment.

If an investment property becomes an property under development for sale in the ordinary course of business when there is a change in use, as supported by observable evidence, the fair value of that property at the date of transfer is the deemed cost for subsequent accounting for that property as an property under development.

Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses.

Customer relationships

Customer relationships are stated at cost less any accumulated impairment losses and are amortised on the straight-line basis over their estimated useful life of 10 years. Impairment is reviewed when there is any indication that the customer relationships have suffered an impairment loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the first-in, first-out method. Net realisable value of inventories represents the estimated selling price less the estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents

In the consolidated statement of financial position, bank and cash balances comprise cash (i.e. cash on hand and demand deposits) and cash equivalents. Cash equivalents are short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather for investment or other purposes.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents, as defined above, net of outstanding bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. Such overdrafts are presented as short-term borrowings in the consolidated statement of financial position.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI"), and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

Financial instruments *(Continued)*

Financial assets (Continued)

Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

(i) Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets other than purchased or originated credit-impaired financial assets (i.e. assets that are credit-impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Financial instruments *(Continued)*

Financial assets (Continued)

Financial assets at amortised cost (debt instruments) *(Continued)*

For purchased or originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Interest income is recognised in profit or loss and is included in the “Bank and other interest income” line item.

Financial assets at FVTOCI (debt instruments)

The Group’s debt instruments are classified and measured subsequently at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments are initially measured at fair value plus transaction costs. Subsequently, changes in the carrying amount of debt instruments as a result of foreign exchange gains and losses, impairment gains or losses, and interest income calculated using the effective interest method are recognised in profit or loss. The amounts that are recognised in profit or loss are the same as the amounts that would have been recognised in profit or loss if these debt instruments had been measured at amortised cost. All other changes in the carrying amount of these debts instruments are recognised in other comprehensive income and accumulated under the heading of investment revaluation reserve. Impairment allowances are recognised in profit or loss with corresponding adjustment to other comprehensive income without reducing the carrying amounts of these debt instruments. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Financial instruments *(Continued)*

Financial assets (Continued)

Equity instruments designated as at FVTOCI *(Continued)*

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment revaluation reserve. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, instead, they will continue to be held in investment revaluation reserve.

Dividends from investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the 'Other income and gains' line item in profit or loss.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the 'Fair value (loss)/ gain on investments at fair value through profit or loss' line item. Fair value is determined in the manner described in note 26.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables and lease receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular debtor, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Financial instruments *(Continued)*

Financial assets (Continued)

Impairment of financial assets *(Continued)*

Significant increase in credit risk *(Continued)*

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) the debt instrument has a low risk of default, ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when the asset has external credit rating of 'investment grade' in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of 'performing'. Performing means that the counterparty has a strong financial position and there is no past due amounts.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contract, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 60 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the lease receivable in accordance with HKFRS 16 Leases.

Measurement and recognition of expected credit losses *(Continued)*

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVTOCI, for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities and equity instruments (Continued)

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and financial guarantee contracts issued by the Group, are measured in accordance with the specific accounting policies set out below.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Modification of financial liabilities

A substantial modification of the terms of an existing financial liability or a part of it (whether or not attributable to the financial difficulty of the Group) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. Accordingly, such exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10 per cent.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Share-based payments

Equity-settled share-based payment transactions

Share options granted to employees

The fair value of services received determined by reference to the fair value of share options granted at the date of grant is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share-based payment reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share-based payment reserve.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will continue to be held in share options reserve/will be transferred to retained earnings.

Share options granted to non-employees

Share options issued in exchange for goods or services are measured at the fair values of the goods or services received, unless that fair value cannot be reliably measured, in which case the goods or services received are measured by reference to the fair value of the share options granted. The fair values of the goods or services received are recognised as expenses, with a corresponding increase in equity (share options reserve), when the Group obtains the goods or when the counterparties render services, unless the goods or services qualify for recognition as assets.

Impairment on property, plant and equipment, right-of-use assets, and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets, and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating unit, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

Notes to the Consolidated Financial Statements

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Impairment on property, plant and equipment, right-of-use assets, and intangible assets *(Continued)*

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

Fair value measurement

When measuring fair value except for the Group's share-based payment transactions, leasing transactions, net realisable value of inventories and value in use of property, plant and equipment, right-of-use assets and intangible assets for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follow:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Fair value measurement *(Continued)*

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company.

- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

3. MATERIAL ACCOUNTING POLICIES INFORMATION *(Continued)*

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources to, and assessing the performance of the Group's various lines of business in different geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. KEY ESTIMATES AND CRITICAL JUDGEMENTS

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Fair values of investment properties

The directors of the Company engaged an independent professional valuer to assess the fair values of the investment properties. In determining the fair values, the valuer has utilised a method of valuation which involves certain estimates. The directors of the Company have exercised their judgement and are satisfied that the method of valuation is reflective of the current market conditions. Changes to the estimates used in valuation would result in changes in the fair values of the Group's investment properties and the corresponding adjustments to the amount of gain or loss reported in the consolidated statement of profit or loss.

(b) Provision for impairment of trade receivables, deposits and other receivables

The impairment assessment of trade receivables, deposits and other receivables of the Group is based on the evaluation of collectability and ageing analysis of these assets as well as other quantitative and qualitative information and calculated the lifetime ECLs based on credit loss experience, and on management's judgement and assessment of the forward looking information. Significant judgement and estimates are required in assessing the ultimate realisation of these assets, based on the current creditworthiness, the past collection history and subsequent settlements of each customer. If the financial conditions of customers of the Group deteriorate, resulting in an impairment of their ability to make payments, additional impairment may be required.

Notes to the Consolidated Financial Statements

4. KEY ESTIMATES AND CRITICAL JUDGEMENTS *(Continued)*

Key sources of estimation uncertainty *(Continued)*

(c) Impairment of non-financial assets (other than goodwill)

The directors of the Company assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing for the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows. Changing the assumptions and estimations, including the discount rate could materially affect the recoverable amounts.

(d) Income taxes

The directors of the Company is subject to income taxes in Hong Kong and the PRC. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(e) Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating unit to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate and growth rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

4. KEY ESTIMATES AND CRITICAL JUDGEMENTS *(Continued)*

Key sources of estimation uncertainty *(Continued)*

(f) Deferred tax assets

As at 31 December 2025, a deferred tax asset of approximately HK\$6,122,000 (2024: approximately HK\$5,767,000) in relation to unused tax losses has been recognised in the consolidated statement of financial position. No deferred tax asset has been recognised on the tax losses of approximately HK\$232,689,000 (2024: approximately HK\$206,059,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future, which is a key source of estimation uncertainty. In cases where the actual future taxable profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place.

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors of the Company have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements.

Significant increase in credit risk

As explained in note 3, the Group measures the loss allowance equal to 12-month ECL for financial assets other than trade receivables, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. In assessing whether the credit risk of an asset has significantly increased, the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Notes to the Consolidated Financial Statements

5. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

	2025 HK\$'000	2024 HK\$'000
Financial assets:		
Equity investments at fair value through other comprehensive income	–	21,590
Investments at fair value through profit or loss – mandatorily measured	218	320
Financial assets at amortised cost (including bank and cash balances)	51,646	60,632
	51,864	82,542
Financial liabilities:		
Financial liabilities at amortised costs	79,337	79,621

The Group's activities expose it to a variety of financial risks: market risk (currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(b) Currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

5. FINANCIAL INSTRUMENTS *(Continued)*

(c) Price risk

The Group's investments at fair value through profit or loss and equity investments at fair value through other comprehensive income are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The directors of the Company manage this exposure by maintaining a portfolio of investments with difference risk profiles.

At 31 December 2025, if the share prices of the investments at fair value through profit or loss increase/decrease by 10%, loss after tax for the year would have been approximately HK\$18,000 (2024: approximately HK\$27,000) decrease/increase, arising as a result of the fair value gain/loss of the investments. If the share price of the equity investments at fair value through other comprehensive income increase/decrease by 10%, other comprehensive loss for the year would have no effect (2024: approximately HK\$1,803,000 lower/higher), arising as a result of the fair value gain/loss of the investments.

(d) Credit risk

The credit risk of the Group mainly arises from bank balances, trade receivables, deposits and other receivables. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets

Trade receivables

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by large customer. Limits and scoring attributed to large customers are reviewed once a year. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model on trade receivable balances individually or based on provision matrix. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The Group's concentration of credit risk by geographical locations is mainly in PRC, which accounted for 82% (31 December 2024: 73%) of the total trade receivable as at 31 December 2025.

Deposits and other receivables

For deposits and other receivables, the Group has assessed whether there has been a significant increase in credit risk since initial recognition. The Group considers that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12-month ECL.

(d) Credit risk (Continued)

The table below is the internal credit policy of the Group:

Internal credit rating	Description	Trade receivables	Other financial assets
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12-month ECL
High risk	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Doubtful	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2025 and 31 December 2024.

(f) Interest rate risk

At 31 December 2025, the Group's other loan of approximately HK\$5,212,000 (2024: approximately HK\$5,002,000) and bonds of approximately HK\$5,101,000 (2024: approximately HK\$4,816,000) bear interests at fixed interest rates and therefore are subject to fair value interest rate risks.

At 31 December 2025, the Group's exposure to interest rate risk arises from its bank balances of approximately HK\$14,933,000 (2024: approximately HK\$5,371,000) and bank loan of approximately HK\$30,495,000 (2024: approximately HK\$35,651,000). These bank balances and bank loan bear interests at variable rates varied with the then prevailing market condition.

At 31 December 2025, if interest rates at that date had been 50 basis points lower with all other variables held constant, the Group's loss after tax for the year would have been approximately HK\$152,000 (2024: approximately HK\$177,000) lower (2024: lower), arising mainly as a result of lower interest expenses on bank loans. If interest rates had been 50 basis points higher, with all other variables held constant, the Group's loss after tax for the year would have been approximately HK\$77,000 (2024: approximately HK\$151,000) higher (2024: higher), arising mainly as a result of higher interest expenses on bank loans.

(g) Fair values

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 inputs: valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The chief financial officer reports directly to the board of directors for these fair value measurements. Discussions of valuation processes and results are held between the chief financial officer and the Board of Directors at least twice a year.

For level 3 fair value measurements, the Group engages external valuation experts with the recognised professional qualifications and recent experience to perform the valuations.

6. OPERATING SEGMENT INFORMATION

The Group manages its businesses by divisions, which are organised by different business lines. Information reported to the Group's executive directors, being the chief operating decision maker ("CODM"), for the purposes of resource allocation and performance assessment is prepared on this basis. The Group has identified the following three reportable segments under HKFRS 8 Operating Segments as follows:

- provision of IT infrastructure solutions and maintenance services ("IT solutions and maintenance");
- securities investments; and
- rental of properties.

The Group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3 to the consolidated financial statements. Segment results represent the profit or loss of each operating segment without allocation of include bank and other interest income, finance costs as well as head office and corporate expenses. This is the measure reported to the CODM for the purposes of resource allocation and performance assessment.

7. REVENUE *(Continued)*

Sale of computer hardware and software

The Group sells computer hardware and software to the customers. Sales are recognised when control of the products has transferred, being when the products are delivered to a customer, there is no unfulfilled obligation that could affect the customer's acceptance of the products and the customer has obtained legal titles to the products. Sales to customers are normally made with credit terms of 30 to 90 days. For new customers, deposits or cash on delivery may be required. Deposits received are recognised as a contract liability. A receivable is recognised when the products are delivered to the customers as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Provision of services

The Group provides software development, system integration, technical support and maintenance services to the customers. When the progress towards complete satisfaction of the performance obligations of a contract can be measured reasonably, revenue from the contract and the contract costs are recognised using the percentage of completion method, measured by reference to the percentage of contract costs incurred to date to the estimated total contract costs for the contract. This method provides the most reliable estimate of the percentage of completion.

When the progress towards complete satisfaction of the performance obligations of a contract cannot be measured reasonably, revenue is recognised only to the extent of contract costs incurred that is expected to be recoverable.

The customers pay the contract prices to the Group according to the payment schedules as stipulated in the contracts. If the service rendered by the Group exceeds the payments, a contract asset is recognised. If the payments exceed the service rendered, a contract liability is recognised.

Provision of property management services

Property management services fees recognised on a monthly basis when the services are rendered. The amount for which can be reliably estimated and it is probable that the income will be received. The property management services fees are due on the end of each month.

Revenue expected to be recognised in the future arising from contracts with customers in existence at the reporting date

The following table includes the aggregated amounts of the transaction price allocated to the remaining performance obligations under the Group's existing service contracts. The transaction price does not include any estimated amounts of variable consideration, unless at the reporting date it is highly probable that the Group will satisfy the conditions of variable consideration.

– (Over)/under-provision in prior years	(2)	3
	4	8
Deferred tax credit (<i>note 22</i>)	(497)	–
	(493)	8

For the years ended 31 December 2025 and 2024, Hong Kong Profits Tax of the qualified entity of the Group is calculated in accordance with the two-tiered profits tax rates regime. Under the two-tiered profits tax rate regime, the first HK\$2 million of profits of a qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities in Hong Kong not qualifying for the two-tiered profits tax rates regime will continue to be taxed at the flat rate of 16.5%.

Under the Law of the PRC on Enterprise Income Tax (the “EIT Law”) and implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25%. No provision for PRC EIT has been made in the consolidated financial statements for both years as the subsidiaries in the PRC have no taxable profits.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

12. INCOME TAX (CREDIT)/EXPENSE (Continued)

The tax (credit)/expense for the year can be reconciled to the loss before tax per the consolidated statement of profit or loss and other comprehensive income as follow:

	2025 HK\$'000	2024 HK\$'000

(Over)/under provision in respect of prior year	(2)	3
Tax effect of utilisation of tax losses not previously recognised	(173)	(183)
Tax (credit)/expense for the year	(493)	8

13. DIVIDEND

The directors of the Company did not recommend the payment of any dividend for the years ended 31 December 2025 and 2024.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

14. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following:

	2025 HK\$'000	2024 HK\$'000
Loss for the year attributable to owners of the Company	(99,459)	(37,634)
	2025	2024 (restated)
Weighted average number of ordinary shares for basic and diluted loss per share	89,787,625	77,370,163

The weighted average number of ordinary shares of 89,787,625 for the year ended 31 December 2025 was adjusted to reflect the rights issue completed on 11 September 2025 and the placing completed 5 December 2025.

The weighted average number of ordinary shares of 77,370,163 for the year ended 31 December 2024 was adjusted to reflect the rights issue completed on 11 September 2025.

The diluted loss per share is the same as the basic loss per share as the computation of diluted loss per share does not assume the exercise of the Company's share options since their exercise would result in an anti-dilutive effect on loss per share for the years ended 31 December 2025 and 2024.

15. INVESTMENT PROPERTIES

	2025 HK\$'000	2024 HK\$'000
At 1 January	216,035	244,259
Fair value loss	(54,225)	(20,617)
Exchange realignment	7,851	(7,607)
At 31 December	169,661	216,035

The fair value of the Group's investment properties at 31 December 2025 and 2024 have been arrived at on the basis of a valuation carried out on that date by BonVision International Appraisals Limited (the "Valuer") (2024: BonVision International Appraisals Limited), independent qualified professional valuers not connected with the Group. The Valuer are members of Hong Kong Institute of Surveyors. The valuation was arrived at by adopting income approach as available in the market to assess the market value of the investment properties. During the assessment of the fair values of investment properties, the Valuer and the directors of the Company have exercised their judgement and are satisfied that the method of valuation and the key inputs, including term yield, reversionary yield and market rent are reflective of the current market conditions. If there are changes in the assumptions used for the valuations, the fair value of the investment properties will change in the future.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

15. INVESTMENT PROPERTIES (Continued)

At 31 December 2025, the carrying amount of investment properties of approximately HK\$169,661,000 (2024: approximately HK\$216,035,000) pledged as security for the Group's bank loans amounted to approximately HK\$30,495,000 (2024: approximately HK\$35,651,000).

In estimating the fair value of the properties, the highest and best use of the properties is their current use. The income approach estimates the values of the properties on an open market basis by capitalising rental income on a fully leased basis having regard to the current passing rental income from existing tenancies and potential future reversionary income at the market level. The term value involves the capitalisation of the current passing rental income over the existing lease term. The reversionary value is taken to be current market rental income upon the expiry of the lease and is capitalised on a fully leased basis. In this approach, the Valuer has considered the term yield and reversionary yield. The term yield is used for capitalisation of the current passing rental income as at the date of valuation whilst the reversionary yield is used to convert reversionary rental income. Details of the fair value of investment properties refer to Note 5.

The Group's future undiscounted lease payments under operating leases are receivable as follows:

	2025 HK\$'000	2024 HK\$'000
Less than 1 year	–	5,176
Between 1 and 2 years	–	5,332

At 31 December	19,556	19,556
Carrying amount:		
At 31 December	19,556	19,556
The carrying amount of goodwill had been allocated as follows:		
IT solutions and maintenance	19,556	19,556

The recoverable amount of this CGUs are determined by reference to the value-in-use approach, which are based on discounted cash flow based on the financial budgets approved by the management covering a 5-year period, and the discount rate of approximately 12.12% to 13.34% (2024: approximately 14.38% to 15.26%) that reflects current market assessment of the time value of money and the risks specific to the CGUs. Cash flows beyond 5-year period have been extrapolated using a steady 2% (2024: 2%) annual growth rate.

Assumptions are used in the value-in-use calculations of the abovementioned IT solutions and maintenance segment's CGU as at 31 December 2025. The following sets out the key assumptions on which management have based their cash flow projections to undertake impairment testing of goodwill:

	2025
Revenue growth rate	17%
Budgeted gross margin	31%
Terminal growth rate	2%
Pre-tax discount rate	12.12% – 13.34%

The basis used to determine the value assigned to the budgeted gross margins is the average gross margin achieved in the year immediately before the budgeted year, increased for expected efficiency improvements, and expected market development. Terminal growth rate is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rate is consistent with forecasts included in industry. The discount rate used is before tax and reflects specific risks related to the relevant unit.

Exchange alignment	451	–
At the end of the year	21,540	761

Details of impairment assessment of trade receivables are set out in note 5(c).

The Group applies the simplified approach under HKFRS 9 to provide for expected credit losses using the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected credit losses also incorporate forward-looking information.

During the year ended 31 December 2025, the Group filed a claim with the Guangzhou Yuexiu District People's Court* (廣州市越秀區人民法院) against the tenant for outstanding rent receivables related to the investment property in Guangzhou. The court has accepted the case but there have been no updates on its status up to the date of this report. The directors of the Company consider that the tenant has breached the agreement and, accordingly, the rent receivables with gross amounts of approximately HK\$20,436,000 (2024: HK\$14,606,000) are classified as doubtful as the credit quality has deteriorated and are credit-impaired, and assessed individually (2024: not credit-impaired, and assessed using provision matrix). The remaining gross carrying amounts of trade receivables were assessed using provision matrix.

34. SHARE OPTION SCHEME

The Company adopted a share option scheme with effect from 2 August 2012 (the “2012 Share Option Scheme”) and a new share option with effect from 15 May 2023 (the “2023 Share Option Scheme”, together with 2012 Share Option Scheme, the “Schemes”) for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group’s operations. Eligible participants of the Schemes include the Company’s executive and non-executive directors, full-time employees of the Group, advisers and consultants of the Group. The 2012 Share Option Scheme was expired on 1 August 2022. The 2023 Share Option Scheme became effective on 15 May 2023 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date. Upon expiry of the Schemes, the options granted under the Scheme remain valid until they expire. Further details of the term and validity of the options are set out below.

The maximum number of shares which may be issued upon exercise of all options granted and yet to be granted under the Schemes is currently limited to 30% of the shares of the Company in issue at any time. The total number of shares issued and to be issued upon exercise of the options granted and to be granted to each eligible participant in the Schemes in any 12-month period up to the date of the grant is limited to 1% of the aggregate number of issued shares of the Company at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 21 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors at their discretion, and commences on the date upon which the options are deemed to be granted and accepted.

The exercise price of share options is determinable by the directors of the Company, but may not be less than the higher of (i) the Stock Exchange closing price of the Company’s shares on the date of offer of the share options; and (ii) the average Stock Exchange closing price of the Company’s shares for the five trading days immediately preceding the date of offer.

Notes to the Consolidated Financial Statements

At the date of approval of these consolidated financial statements, the number of share options permitted to be granted under the Scheme was 4,608,523 (2024: 4,608,523), representing 4.02% (2024: 5.55%) of the Company's shares in share as at that day.

These fair values were calculated using Binominal pricing model. The inputs into the model are as follows:

	10 August 2023	16 June 2022	13 May 2021
Share price at the date of grant	HK\$3.23	HK\$0.140	HK\$0.245
Exercise price	HK\$3.42	HK\$0.140	HK\$0.245
Expected volatility	76.59%	65.11%	68.33%
Expected life	10 years	10 years	10 years
Risk free rate	3.356%	3.23%	1.2%
Expected dividend yield	0%	0%	0%
Expected Early Exercise Multiple	2.2/2.8	2.2	2.2

Expected volatility was determined by calculating the historical volatility of the Company's share price over the previous 10 years.

Share options granted to consultants were incentives for helping the Group expand its business network, acquire and explore new business projects and opportunities. The fair value of such benefit could not be estimated reliably and as a result, the fair value is measured by reference to the fair value of share options granted.

No share-based payment expenses was recognised by the Group during the year ended 31 December 2025 (2024: approximately HK\$1,764,000) in relation to the share options granted by the Company.

(c) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group sets the amount of capital in proportion to risk. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the payment of dividends, issue new shares, buy-back shares, raise new debts, redeem existing debts or sell assets to reduce debts.

The Group monitors capital on the basis of the debt-to-capital ratio. This ratio is calculated as total borrowings divided by capital. Total borrowings included bond and bank and other loans. Capital represented the equity attributable to owners of the Company.

41. RETIREMENT BENEFIT SCHEMES

The Group operates a Mandatory Provident Fund Scheme ("MPF Scheme") for all qualified employees in Hong Kong under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rule of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at a rate of 5% specified in the rules, but subject to a cap of HK\$1,500 per month. The only obligation of the Group with respect of MPF Scheme is to make the required contributions under the scheme. No forfeited contribution is available to reduce the contribution payable in the future years.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

41. RETIREMENT BENEFIT SCHEMES (*Continued*)

The employees employed in the PRC are members of the state-managed retirement benefit schemes operated by the PRC government. The PRC subsidiaries are required to contribute a certain percentage of their basic payroll to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect to the retirement benefit schemes is to make the required contributions under the schemes. No forfeited contribution is available to reduce the contribution payable in future years.

During the year ended 31 December 2025, the total contribution to the defined contribution schemes charged to profit or loss amounted to HK\$1,055,000 (2024: HK\$1,229,000).

The Group operates a Mandatory Provident Fund Scheme (“the MPF scheme”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees’ relevant income in accordance with the employment contracts. Contributions to the plan vest immediately.

The employees of the Group’s subsidiaries in the PRC are members of a state-managed retirement benefit plan operated by the government of the PRC. The subsidiaries are required to contribute specified percentage of payroll costs to the retirement benefit plan to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

Forfeited contributions in respect of unvested benefits of employees leaving the Group’s employment cannot be used to reduce ongoing contributions.

Hong Kong employees that have been employed continuously for at least five years are entitled to long service payments (“LSP”) in accordance with the Hong Kong Employment Ordinance under certain circumstances. These circumstances include where an employee is dismissed for reasons other than serious misconduct or redundancy, that employee resigns at the age of 65 or above, or the employment contract is of fixed term and expires without renewal. The amount of LSP payable is determined with reference to the employee’s final salary (capped at HK\$22,500) and the years of service, reduced by the amount of any accrued benefits derived from the Group’s contributions to MPF scheme with an overall cap of HK\$390,000 per employee. Currently, the Group does not have any separate funding arrangement in place to meet its LSP obligation.

In June 2022, The Government of the Hong Kong Special Administrative Region (“Government”) gazetted the Amendment Ordinance, which abolishes the use of the accrued benefits derived from employers’ mandatory MPF contributions to offset the LSP. The Abolition will officially take effect on the Transition Date (i.e., 1 May 2025). Separately, the Government of the HKSAR is also expected to introduce a subsidy scheme to assist employers for a period of 25 years after the Transition Date on the LSP payable by employers up to a certain amount per employee per year.

Under the Amendment Ordinance, the Group’s mandatory MPF contributions, plus/minus any positive/negative returns, after the Transition Date can continue to be applied to offset the pre-Transition Date LSP obligation but are not eligible to offset the post-Transition Date LSP obligation. Furthermore, the LSP obligation before the Transition Date will be grandfathered and calculated based on the last monthly wages immediately preceding the Transition Date and the years of service up to that date.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2025

41. RETIREMENT BENEFIT SCHEMES (Continued)
