2025 ANNUAL REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “**Directors**”) of China Oral Industry Group Holdings Limited (the “**Company**” and together with its subsidiaries, the “**Group**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRLADY'S STATEMENT

Dear shareholders,

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of China Oral Industry Group Holdings Limited (the “**Company**”), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the “**Group**”) for the year ended 31 December 2025.

The Group is principally engaged in the manufacturing and sales of inflatable products and related accessories, the provision of dental clinic services and sales of dental related products, and sales of yarn and polyester in the People's Republic of China (the “**PRC**”). In recent years, the Group has continued to drive business transformation, gradually expanding its presence in healthcare-related sectors, and actively exploring development opportunities in digitalization and medical technology.

The year 2025 was a challenging year for the Group. The uneven global economic recovery, changes in the trade environment, and intensified market competition all placed pressure on the Group's overall operations. For the year ended 31 December 2025, the Group recorded a revenue of approximately RMB 167.6 million, representing a decrease of approximately 27.4% compared to previous year; with a loss of approximately RMB42.7 million for the year. The overall performance was under pressure, primarily due to changes in the external market environment and the provision for impairment of certain non-financial assets during the year.

In the face of a complex and volatile operating environment, the Group will continue to adhere to the principles of prudence and pragmatism. We remain committed to driving business adjustments, management improvements, and resource optimization, while steadily pursuing new opportunities that align with the Group's overall strategic direction. The Board believes that, building on a foundation of stable operations, the Group will continue to drive business transformation, enhancing overall operational efficiency, service quality, and sustainable development capabilities.

In terms of medical technology, the Group will continue to adhere to a prudent and progressive approach, advancing initiatives related to artificial intelligence and digitalization to align with business growth and enhance overall operational efficiency. At the same time, the Group remains attentive to development opportunities in cutting-edge medical technologies such as cell therapy. Subsequent to the reporting period, China Digital Health Group Co., Limited, an indirect wholly-owned subsidiary of the Group, entered into a memorandum of understanding with BO HUI BIOTECH CO., Ltd. for proposed strategic cooperation in clinical treatment business within hospitals in the Greater Bay Area. The memorandum of understanding is non-legally binding and is subject to further feasibility assessments and the execution of a formal agreement.

In line with its overall development strategy, the Group will also seek investment opportunities in the healthcare and wellness sectors at appropriate times to support its long-term business growth.

Looking ahead, the Group remains cautiously optimistic about its overall development prospects. We will continue to adhere to the principles of prudent operations, quality first, and a long-term perspective, consistently enhancing our overall operational quality and core competitiveness to create long-term, stable, and sustainable value for our shareholders.

I would like to take this opportunity to express my sincere gratitude to the Company's shareholders, investors, customers, suppliers, business partners, and all staff members for their continued support and trust. I am also deeply grateful to my fellow Board members and the management team for their efforts and contributions over the past year.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The year of 2025 was one filled with challenges and opportunities. Against a backdrop of persistent global economic uncertainties, and diversified market demands, the Group faced unprecedented pressures while simultaneously gaining momentum.

The Group is principally engaged in the manufacturing and sales of inflatable products and related accessories, the provision of dental clinic services and sales of dental related products, and sales of yarn and polyester in the PRC.

Inflatable products business

Founded in 2003, the Group has over 20 years of experience in designing, manufacturing, and selling high-quality inflatable amusement parks and other inflatable products.

In 2025, the revenue of inflatable products business decreased from approximately RMB174,710,000 in 2024 to approximately RMB104,588,000 in 2025, which was mainly attributable to the implementation of heightened trade tariffs and a subsequent reduction in sales orders from the American market.

Dental clinic business

Since 2023, the Group has attempted a foray into the oral health care industry.

In January 2023, the Group acquired the entire equity interest in Hongkong Eko Holding Co., Limited and its subsidiaries which are engaged in the operation of a dental clinic, the provision of dental clinic services, and sales of dental related products and equipment in the PRC.

In 2025, dental clinic business fared quite well, experiencing a steady growth in revenue and contributing approximately 14.5% (2024: 9.8%) of the Group's total revenue; however, sales of medical equipment made a loss mainly due to the price war in the PRC, resulting in a gross loss and significant write-down in the related inventories.

Yarn and polyester business

In January 2024, the Group has completed the acquisition of the entire equity interest in HongKong Taixing Holding Co., Limited and its subsidiaries which are engaged in the sales of yarn and polyester in the PRC. Within our expectation, the yarn and polyester business continued performing well in 2025 and contributing approximately 23.1% (2024: 14.6%) of the Group's total revenue.

OUTLOOK

Looking forward 2025, we are filled with confidence and anticipation. With the gradual recovery of the global economy, we foresee increased opportunities and possibilities.

The Group does not discount the impact of the escalating geopolitical conflicts, the imminent trade war and the economic slowdown in China to the Group's business. The Group will remain vigilant and prudent in managing operating costs, business growth and the risk profile of our business portfolio. The Group believes that with its experience and production know-how, it is strategically well-positioned to manage its business and capitalise on opportunities which may arise in future.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

FINANCIAL REVIEW

Revenue

The Group's revenue was derived from three principal businesses, namely, the sales of inflatable products and related accessories, the provision of dental clinic services and sales of dental related products, and sales of yarn and polyester which are analysed in Note 5 to the consolidated financial statements.

The Group's revenue was approximately RMB167,645,000 in 2025, representing a decrease of approximately RMB63,314,000 or 27.4% as compared to the revenue of approximately RMB230,959,000 in 2024.

Revenue from the inflatable products business in 2025 was approximately RMB104,588,000, representing a decrease of approximately RMB70,122,000 or 40.1% as compared with approximately RMB174,710,000 in 2024.

Revenue from the dental clinic business was approximately RMB24,271,000, representing an increase of approximately RMB1,740,000 or 7.7% as compared to that of approximately RMB22,531,000 in 2024.

Revenue from the yarn and polyester business in 2025 was approximately RMB38,786,000 which accounted for approximately 23.1% of the Group's total revenue, representing an increase of approximately RMB5,068,000 or 15.0% as compared to that of approximately RMB33,718,000 in 2024.

Cost of sales

Cost of sales was approximately RMB153,516,000 in 2025, representing a decrease of approximately RMB40,192,000 or 20.7% as compared to approximately RMB193,708,000 in 2024, which was in line with the decrease in revenue.

Gross profit and gross profit margin

The Group recorded a gross profit of approximately RMB14,129,000 in 2025, representing a decrease of approximately RMB23,122,000 or 62.1% compared with approximately RMB37,251,000 in 2024. Overall gross profit margin was approximately 8.4% in 2025, representing a decrease as compared to approximately 16.1% in 2024. Such decrease was mainly due to the decline in the inflatable product business which has higher gross profit margin.

Other income, gains and losses, net

Total other income, gains and losses, net was approximately RMB5,220,000 in 2025, representing an increase of approximately RMB2,634,000 or 101.9% as compared with that of approximately RMB2,586,000 in 2024. Such increase was mainly due to the gain on disposal of a subsidiary of approximately RMB6,028,000 offset by the net foreign exchange losses of approximately RMB1,467,000 recorded in 2025.

Distribution and selling expenses

Our distribution and selling expenses mainly comprise expenses for salaries and benefits paid to our sales and marketing staffs, travelling expenses, marketing and exhibition expenses, distribution and transportation expense, advertisement and recruitment expenses.

Total distribution and selling expenses was approximately RMB11,804,000 in 2025, representing a decrease of approximately RMB14,492,000 or 55.1% as compared to that of approximately RMB26,296,000 in 2024. The decrease was in line with the reduction in revenue in 2025.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Administrative expenses

Our administrative expenses mainly comprise salaries and benefits paid to our staff in the administrative function, directors' remuneration, utilities expenses, travelling and transportation expenses, depreciation expenses, amortisation expenses, insurance expenses, legal and professional expenses and other expense items such as repair and maintenance fees, entertainment fees, telephone and bank charges.

The administrative expenses was approximately RMB27,061,000 in 2025, representing an increase of approximately RMB6,668,000 or 32.7% as compared to that of approximately RMB20,393,000 in 2024.

Impairment loss on non-financial assets

During the year ended 31 December 2025, the Group's operation of inflatable products business was adversely affected by the implementation of heightened trade tariffs and a subsequent reduction in sales order from the American market. Because of worse-than expected performance of the inflatable products business operation and the loss sustained by the Group, management considered certain property, plant and equipment, right-of-use assets and other intangible assets of the Group were subject to impairment at 31 December 2025 and performed an impairment assessment.

For the purpose of impairment testing, the estimates of recoverable amount were determined based on the value-in-use calculation. Based on the impairment assessment, impairment loss of approximately RMB2,888,000, RMB15,399,000 and RMB32,000 were recognised on property, plant and equipment, right-of-use assets and other intangible assets respectively relating to the inflatable products business cash-generating unit in profit or loss during the year ended 31 December 2025 in order to write down the carrying amount of the property, plant and equipment, right-of-use assets and other intangible assets to their recoverable amounts.

Finance costs

Finance costs was approximately RMB423,000 in 2025, representing a decrease of approximately RMB330,000 or 43.8% as compared to that of approximately RMB753,000 in 2024.

Loss for the year

Loss for the year was approximately RMB42,717,000, representing an increase of approximately RMB26,278,000 or 159.9% as compared to that of approximately RMB16,439,000 in 2024.

Dividends

The Board does not recommend the payment of any dividend in 2025 (2024: Nil).

Liquidity, Financial Resources, Capital Structure and Gearing Ratio

The Group finances its liquidity and financial requirements primarily through cash generated from operations and equity contributed from the shareholders of the Company (the "**Shareholders**").

As at 31 December 2025, the Group's total equity attributable to owners of the Company amounted to approximately RMB96,708,000 (2024: RMB107,138,000).

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

The current ratio of the Group as at 31 December 2025 was approximately 2.78 as compared to that of approximately 2.08 in 2024. The quick ratio of the Group as at 31 December 2025 was approximately 1.84 as compared to that of approximately 1.43 in 2024. The Group had bank borrowings of approximately RMB29,000 as at 31 December 2025 (2024: RMB676,000) and the gearing ratio of the Group, as calculated by the total borrowings divided by the total equity, was approximately 0.03% (2024: 0.6%). The Directors believe that the Group is in a healthy financial position to expand its core business and to achieve its business objectives.

Significant Investments Held, Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures, and Future Plan for Material Investments or Capital Assets

Save for the disposal of subsidiary 中山市潤和高分子材料製造有限公司 Zhongshan Runhe Macromolecular Materials Manufacture Limited, which carried out part of manufacturing process of the Group's inflatable products manufacturing operation, at a cash consideration of RMB2,400,000, and was completed on 2 January 2025, there was no other significant investment, material acquisition or disposal of subsidiaries or associated companies by the Group in 2025.

Contingent Liabilities

As at 31 December 2025, the Group did not have any significant contingent liabilities (2024: Nil).

Pledge of Assets

As at 31 December 2025, the Group had no assets pledged for bank borrowings or for other purpose (2024: Nil).

Commitments

As at 31 December 2025, the Group has entered into contractual commitments for the acquisition of property, plant and equipment of approximately RMB3 million (2024: RMB1 million).

Foreign Currency Exposure

As the majority of the Group's revenue is denominated in US Dollars but the costs incurred by the Group for the production are denominated in RMB, significant fluctuation in the exchange rate between RMB against US Dollars may materially affect the business results of operations. As a result of the business expansion to overseas markets, the Group will continue to generate a significant amount of sales, assets and liabilities denominated in a currency other than RMB. In this case, the Group would be exposed to risks related to the exchange rate and the currency in which its assets and liabilities are denominated. A depreciation of RMB would require the Group to use more RMB to service the same amount of foreign currency liabilities, or a depreciation of foreign currency against RMB may result in receipts from receivables substantially less than the contractual amounts in terms of RMB at the settlement date.

Having considered the cost effectiveness with reference to the business model, the Group currently does not have a formal foreign currency hedging policy or engage in hedging activities designed or intended to manage such exchange rate risk during the reporting periods. Because RMB is not freely convertible, the ability of the Group to reduce foreign exchange risk is limited.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Treasury Policies

The Group is exposed to credit risk primarily arising from trade and other receivables and bank deposits. Trade receivables are from customers with good collection track records with the Group. For trade receivables, the Group adopts the policy of dealing only with customers of appropriate credit history to mitigate credit risks and allowance for credit loss on trade and other receivables of approximately RMB5,232,000 was recognised in 2025 (2024: RMB1,634,000).

Bank deposits are mainly deposits with banks with good credit ratings assigned by international credit rating agencies or with good reputation. For bank deposits, the Group adopts the policy of dealing only with high credit quality counterparties.

Employees and Remuneration Policies

As at 31 December 2025, the Group had 524 full-time employees (2024: 608). Most of the employees of the Group are located in the PRC. The total employee remuneration, including remuneration of Directors, amounted to approximately RMB51,214,000 in 2025 (2024: approximately RMB51,161,000).

The Group entered into separate labour contracts with each of its employees in accordance with the applicable labour laws in Hong Kong and the PRC. The Group provides its employees with various benefits including discretionary bonus, contribution to social insurance premium and housing provident fund, and contribution to mandatory provident fund. The Group also offers options that may be granted to employees under the share option scheme.

Use of proceeds for share subscription

On 24 January 2025, the Company completed the share subscription with the subscriber and allotted and issued 228,000,000 ordinary shares of HK\$0.01 each at the subscription price of HK\$0.14 per subscription share. The net proceeds from the share subscription are approximately HK\$31,720,000. ENVIRONMENTAL POLICIES AND PERFORMANCE

During the Year, the Group continued to focus on improving its performance in environmental protection, enhancing the awareness of environmental protection and proactively addressing the environmental issues. The Group endeavoured to adopt various energy saving and emission reduction measures in its business operation, so as to reduce the consumption of natural resources by using environmentally-friendly products and verified materials.

Please refer to the Environmental, Social and Governance Report of this annual report for the details of environmental policies and performance of the Group.

COMPLIANCE WITH LAWS AND REGULATIONS

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Company and its subsidiaries during the Year.

RELATIONSHIP WITH CUSTOMERS, SUPPLIERS, SUBCONTRACTORS AND EMPLOYEES

Customers

The Group considers its customers as one of the most important stakeholders. The Group's commitment to continue its dedication to quality control, product safety and customer service are essential in maintaining the trust of its customers. Besides selling its products in the domestic market, the Group also sells to over 40 countries in Europe, Australia and Oceania, North America, Asia, Central and South America and Africa. During the Year, the Group recorded revenue of approximately RMB94,351,000 from the sales to overseas customers (2024: approximately RMB154,195,000), which accounted for approximately 56.3% of the total revenue (2024: approximately 66.8%). The Group recorded approximately 41.9% of the total revenue from the Group's top five customers (2024: approximately 50.4%). The Directors believe that the well-established relationships with major customers of the Group and market conditions, together with the reliable and high-quality products and dedicated customer service, will continue to strengthen market presence and future expansion of the Group.

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder (which to the knowledge of the Directors owns more than 5% of the Company's issued share capital) had any interest in the Group's five largest customers.

REPORT OF THE DIRECTORS (continued)

Suppliers

The Group selects the suppliers on the basis of product quality, their background and credibility, reputation, service, price, scale of production and ability to meet the delivery schedule and requests. The Group typically works with reputable and reliable suppliers to secure key raw materials such as air blowers used in production process. The Group has established stable and good relationships with its suppliers of principal raw materials. The raw materials are generally available from a number of domestic suppliers, and the Group normally will have at least two sources of supply for each type of raw materials to avoid dependency. The Group requires goods provided by the Group's suppliers to meet high quality standards and to conduct regular evaluation on suppliers. During the Year, purchases of materials from the Group's five largest suppliers amounted to approximately RMB45,013,000 (2024: approximately RMB52,507,000) and represented approximately 50.8% of the total cost of goods purchased (2024: approximately 44.2%).

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder (which to the knowledge of the Directors owns more than 5% of the Company's issued share capital) had any interest in the Group's five largest suppliers.

Subcontractors

During the Year, the Group subcontracted a portion of sewing, printing, bleaching and dyeing and packaging works to 20 subcontractors (2024: 20), which are mainly local factories involving in sewing, bleaching and dyeing and packaging works. The total subcontracting fees amounted to approximately RMB15,334,000 (2024: approximately RMB11,316,000), representing approximately 10.0% of the total cost of sales (2024: approximately 5.8%). Subcontractors are selected based on assessment of (i) service quality; (ii) timeliness on delivery; (iii) quotation; and (iv) whether they have a quality assurance system that meets the Group's work requirements.

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder (which to the knowledge of the Directors owns more than 5% of the Company's issued share capital) had any interest in the Group's subcontractors.

Employees

The Group recognises employees as valuable assets of the Group, the Group intends to use the best effort and retain appropriate and suitable personnel to serve the Group. The Group assesses available human resources on a continuous basis and will determine whether additional personnel are required to cope with the business development of the Group. The Directors believe that good working relationship is maintained with its employees.

Save as disclosed in the section "Biographical Details of the Directors and Senior Management" of this annual report, each of the Board members has no financial, business, family or other material or relevant relationships with each other.

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for performing the corporate governance duties as set out in paragraph A.2.1 of the CG Code, which include the following:

1. to develop and review the policies and practices on corporate governance of the Group;
2. to review and monitor the training and continuous professional development of the Directors and senior management;
3. to review and monitor the Group's policies and practices on compliance with legal and regulatory requirements;
4. to develop, review and monitor the code of conduct and compliance manual (if any) applicable to the Directors and employees; and
5. to review the Company's compliance with the CG Code and disclosure in the corporate governance report of the Company.

APPOINTMENT AND RE-ELECTION

Each of the executive Directors and the non-executive Director entered into a service contract with the Company and each of the independent non-executive Directors entered into letters of appointment with the Company. The service contracts with the executive Directors and the letters of appointment with the independent non-executive Directors are for an initial fixed term of one to three years. The aforementioned service contracts and letters of appointment are subject to termination in accordance with their respective terms. The service contracts and letters of appointment may be renewed in accordance with the Articles and the applicable GEM Listing Rules.

According to Article 108 of the Articles, one-third of the Directors for the time being shall retire from office by rotation at every annual general meeting of the Company, provided that every Director shall retire from office by rotation and are subject to re-election at annual general meeting at least once every three years. Accordingly, Mr. Xiao Jiansheng and Ms. Deng Xin will each retire as Director at the 2026 AGM and, being eligible, will offer themselves for re-election.

CORPORATE GOVERNANCE REPORT (continued)

According to Article 112 of the Articles, any Director appointed by the Board to fill a casual vacancy shall hold office only until the first general meeting of the Company after his appointment and be subject to re-election at such meeting. Any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election. Any Director appointed under Article 112 of the Articles shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at an annual general meeting of the Company pursuant to Article 108 of the Articles. Accordingly, Mr. Geng Chuan Long will retire as an independent non-executive Director at the 2026 AGM and, being eligible, will offer himself for re-election.

At 2026 AGM, separate ordinary resolutions will be put forward to the Shareholders in relation to the proposed election of Mr. Xiao Jiansheng as executive Director, and Ms. Deng Xin and Mr. Geng Chuan Long as independent non-executive Directors.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The roles of Chairman and Chief Executive Officer are separate and not performed by the same individual to avoid power being concentrated in any one individual. During the Year, Ms. Yan Ping is the Chairlady of the Board and Mr. Liu Yao Guang is the Chief Executive Officer of the Company.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the independent non-executive Directors in writing an annual confirmation of his independence pursuant to Rule 5.09 of the GEM Listing Rules and the Company considers all the independent non-executive Directors to be independent.

CORPORATE GOVERNANCE REPORT (continued)

Company Secretary

The company secretary of the Company assists the Board by ensuring the Board policy and procedures are followed. The company secretary is also responsible for advising the Board on corporate governance matters.

Ms. Chan Lok Yin has been appointed as company secretary of the Company on 29 November 2024. Her primary contact person of the Company is Mr. Liu Yao Guang, the Chief Executive Officer of the Company.

In compliance with Rule 5.15 of the GEM Listing Rules, Ms. Chan Lok Yin has undertaken no less than 15 hours of relevant professional training to update her skill and knowledge during the Year.

AUDITORS' REMUNERATION

The amount of fees charged by the external auditors generally depends on the scope and volume of the external auditors' work performed. The remuneration paid or payable to the external auditors of the Company HLB Hodgson Impey Cheng Limited in respect of audit services and non-audit services for the Year amounted to approximately RMB0.8 million and nil, respectively.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board has overall responsibility for the establishment, maintenance and review of the Group's internal control system to safeguard shareholder investments and the assets of the Group. The internal control system of the Group aims to facilitate effective and efficient operation which in turn minimises the risks to which the Group is exposed. The system can only provide reasonable but not absolute assurance against misstatement or losses.

The Board has conducted a review of the implemented system and procedures, covering financial, operational and legal compliance controls and risk management functions. The Directors consider that the Group has implemented appropriate procedures safeguarding the Group's assets against unauthorised use or misappropriation, maintaining proper accounting records, execution with appropriate authority and compliance of the relevant laws and regulations.

A review on the internal control systems of the Company, including financial, operational and compliance controls and risk management functions has been carried out by an independent consultancy company with staff in possession of relevant expertise to conduct an independent review.

The Audit Committee reviewed the internal control review report issued by the independent consultancy company and the Company's risk management and internal control systems in respect of the Year and considered that they are effective and adequate. The Board assessed the effectiveness of internal control systems by considering the internal control review report and reviews performed by the Audit Committee and concurred the same.

The Group has appointed an independent consultancy company as its internal audit function during the Year as required under Code Provision D.2.2 of the CG Code. The Audit Committee and the Board, has considered the internal control review report prepared by an independent consultancy company to form the view that the Group's risk management and internal control systems were generally effective and adequate and in compliance with the requirements of Code Provision D.2.1 of the CG Code for the Year in all material respects. The Audit Committee and the Board will continue to review the need for an internal audit function on an annual basis.

CORPORATE GOVERNANCE REPORT (continued)

There is currently no internal audit function within the Group. The Directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs. Nevertheless, the Directors will continue to review at least annually the need for an internal audit function.

The Company understands its obligations under the SFO and the GEM Listing Rules and the overriding principle that inside information should be announced immediately after such information comes to the Company's attention and/or it is the subject of a decision unless it falls within the SFO safe harbours. Meanwhile, the Company has set up an inside information policy, the insider internal reporting obligations, reporting procedures and liability of disclosure of information of the personnel concerned has been clearly stated, and the Company shall arrange self-examination in a timely manner in accordance with the provisions of the relevant regulatory authorities. The real-time monitoring performed by the Company may involve the inside information, and should organize intermediary agencies to determine whether the information belongs to an inside information and practical, if it has fulfilled the disclosure requirements, will soon organize the disclosure and will strictly control the scope of the monitoring before the disclosure, the volatility of share price will be monitored until the disclosure of inside information is completed; if the disclosure requirements are not satisfied, the Company will also maintain strict confidentiality

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

INTRODUCTION AND APPROACH TO ESG AND REPORTING

China Oral Industry Group Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**” or “**we**”) is mainly engaged in the manufacturing and sales of inflatable products and related accessories, the provision of dental services and sales of dental related products, and sales of yarn and polyester in the People’s Republic of China (the “**PRC**”).

The Group is pleased to present the Environmental, Social and Governance (“**ESG**”) report (the “**ESG Report**”) for the financial year ended 31 December 2025 (the “**Reporting Period**” or “**2025**”). The ESG Report summarizes the initiatives, programs and performance of the Group as well as demonstrates its commitment to sustainability.

The Group believes sustainability is a key to achieve continuous success and has integrated this key concept into its business strategy. In order to pursue a successful and sustainable business model, the Group recognizes the importance of integrating ESG aspects into its risk management system and has taken corresponding measures in its daily operation and governance perspective.

ESG GOVERNANCE STRUCTURE

The Board of Directors (the “**Board**”) assumes full responsibility for the Group’s ESG strategies and reporting as well as for overseeing and managing the Group’s ESG-related issues. In order to better manage the Group’s ESG performance and potential risks, the Board discusses and reviews the Group’s ESG issues at least once annually with the assistance of the ESG working group (the “**Working Group**”) comprising of staff from relevant departments. With the aim to demonstrate the steadfastness of the Group on sustainable development, the Board had set targets on environmental aspects and implemented the latest ESG-related policies and guidelines for complying with the latest applicable laws and regulations. The Board is also responsible for ensuring the effectiveness of ESG risk management and internal control mechanism and facilitating the exchange of best practices with other comparable companies.

The Working Group is responsible for collecting ESG data which are reviewed and confirmed by respective department heads, assisting in the assessment and identification of the Group’s ESG risks and the appropriateness and effectiveness of the Group’s internal control system, and compiling ESG reports. The ESG performance of the Group, including environmental, labor practices, quality assurance and other ESG aspects, is monitored by the Working Group through keeping track of the progress with key performance indicators (“**KPIs**”) against relevant ESG-related goals and targets set by the Board. Its findings, decisions and recommendations would be reported to the Board through meeting at least once annually. Where appropriate, external advisors would be engaged to provide expertise and professional advice for the ESG management process.

REPORTING SCOPE

The Group operates business in manufacturing and sales of inflatable products and related accessories, the provision of dental services and sales of dental related products, and sales of yarn and polyester in the PRC. ESG data from the administrative office in Hong Kong is excluded from the reporting scope of this ESG Report due to its insignificant impact on the ESG performance of the Group. The Group will continue to expand the scope of disclosure in the future by enhancing its data collection procedures becomes more mature and its work on sustainable development is strengthened.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

REPORTING FRAMEWORK

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Code (the “**ESG Reporting Code**”) as set out in the Appendix C2 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

Information relating to the corporate governance practices of the Group has been set out in the Corporate Governance Report of this annual report.

REPORTING PRINCIPLES

The Group attaches great importance to the materiality, quantitative, consistency and balance during the preparation for this ESG Report, and the Group has applied these reporting principles in the aforementioned ESG Reporting Code as the following:

Based on the materiality assessment results, the Group was informed of the topics that stakeholders were highly concerned about. The Group is particularly focused on recruitment, promotion and dismissal. In the ESG Report, the Group will further disclose its performance in terms of relevant aspects, and consider the results as important reference points for the planning of ESG management for the next financial year.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

A. ENVIRONMENTAL

A1. Emissions

The Group attaches great importance to good environmental management and strives to protect the environment in order to fulfill its social responsibilities. The Group has formulated the Procedure for Operational Control on Environmental System (《環境體系運行控制程序》), which aims to prevent pollution and minimize possible environmental impacts from activities that have a significant impact on the environment during production and business operations. The procedure is applicable to the control of resources, energy management and pollutants in the Group's production and operation according to relevant requirements. The Group's factories are accredited with ISO 14001:2015 Environmental Management System.

The Group strictly complies with the Environmental Protection Law of the People's Republic of China, the Law of the People's Republic of China on the Prevention and Control of Water Pollution, the Law of the People's Republic of China on Prevention and Control of Atmospheric Pollution, the Law of the People's Republic of China on Prevention and Control of Environmental Noise Pollution, the Law of the People's Republic of China on the Prevention and Control of Environmental Pollution by Solid Waste, and other environmental protection related laws and regulations. The Group prepared and implemented various emissions and waste reduction measures based thereon. During the Reporting Period, the Group was not aware of any material non-compliance with environmental-related laws and regulations that would have a significant impact on the Group.

Air Emissions

The Group's major sources of air emissions were originated from diesel and petrol consumed by vehicles as well as diesel consumption for electricity generator. In the financial year ended 31 December 2024 ("2024"), the Group has set a target to maintain or reduce the air emission intensity in 2025 using performance in 2024 (23.40 g/employee) as the baseline. In order to achieve the target, the Group has actively taken the following emissions reduction measures to minimize the impacts:

- Conduct regular vehicle inspection and maintenance to enhance vehicle and boiler efficiency;
- Encourage the use of public transportation for business travels;
- Avoid peak hour traffic;
- Encourage the use of bicycles;
- Encourage car-pooling;
- Reduce the number of business trips by utilizing electronic communication means, such as video conferences;
- Educate employees to turn off engines for idling vehicles; and
- Actively adopt other measures to reduce emissions, which are described in the section headed "GHG Emissions" under this aspect.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Regular inspections have been performed by an external professional assessment company to inspect the level of the pollutants generated. Inspections are conducted according to the Determination of Particulate Matter in Exhaust Gas and Sampling Method of Gaseous Pollutants in a Fixed Source of Pollution (GB/T 16157-1996) and have passed the National Standard Air Pollutant Release Standard (DB44/27-2001) as well as the Emission Standard for Order Pollutants (GB 14554-93). The level of exhaust gases such as benzene, toluene and xylene generated from the process of injecting oil into the inflatable playgrounds was satisfactory during the Reporting Period.

The total air emission of nitrogen oxides (“**NOx**”), sulphur oxides (“**SOx**”) and particulate matters (“**PM**”) had decreased by approximately 86.81% from 2024 to 2025 due to effective implementation of air emissions reduction measures and the disposal of a subsidiary, which was a major source of emission in 2024. Comparing to the baseline of approximately 23.40 g/employee in 2024, the Group has achieved target. Following is the summary of the Group’s air emissions performance:

Indicator ¹	Unit	2025	2024
NOx	kg	1.56	12.47
SOx	kg	0.19	0.70
PM	kg	0.12	1.01
Total air emissions	kg	1.87	14.18
Total air emissions intensity ²	g/employee	3.57	23.40

Notes:

1. The calculation method of air emissions is based on How to prepare an ESG Report – Appendix 2: Reporting Guidance on Environmental KPIs issued by the Stock Exchange.
2. As at 31 December 2025, the Group had a total of 524 (as at 31 December 2024: 608, whereas only 606 employees are included within the reporting scope) employees. This data has also been used for calculating other intensity data.

To drive continuous improvement, the Group targets to maintain or reduce the air emission intensity in the financial year ending 31 December 2026 (“**2026**”), using performance in 2024 (23.40 g/employee) as its baseline.

GHG Emissions

GHG emissions from the Group were primarily due to the petrol and diesel consumption for transportation, diesel consumption for electricity generator and refrigerant consumption (Scope 1) and purchased electricity (Scope 2). In 2024, the Group set a target to maintain or reduce the GHG emission intensity in 2025 using such performance in 2024 (1.24 tCO₂e g/employee) as the baseline. In order to achieve the target, we adopted the following measures to reduce GHG emissions and enhance employees’ awareness during operation:

- Actively adopt vehicle emission reduction measures. Relevant measures are described under “Air Emissions” in this aspect above; and
- Actively adopt environmental protection, energy conservation and water conservation measures which are described in the sections headed “Energy Management” and “Water Consumption” under aspect A2.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

During the Reporting Period, the total GHG emissions had decreased by approximately 73.09% from approximately 752.36 tonnes of carbon dioxide equivalent (“tCO₂e”) in 2024 to approximately 202.47 tCO₂e in 2025 due to effective implementation of energy conservation measures as described in the section headed “Energy Management” and the disposal of a subsidiary, which was a major source of emission in 2024. Comparing to the baseline of approximately 1.24 tCO₂e/employee in 2024, the Group has achieved the target. Following is the summary of GHG emissions performance:

Indicator ³	Unit	2025	2024
Direct GHG emissions (Scope 1)	tCO ₂ e	84.03	143.36
Energy indirect GHG emissions (Scope 2)	tCO ₂ e	118.44	609.00
Total GHG emissions (Scope 1 and 2)	tCO ₂ e	202.47	752.36
Total GHG emissions intensity	tCO ₂ e	0.39	1.24

Note:

- GHG emissions data is presented in terms of carbon dioxide equivalent and based on, including but not limited to, The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards issued by the World Resources Institute and the World Business Council for Sustainable Development, How to prepare an ESG Report – Appendix 2: Reporting Guidance on Environmental KPIs issued by the Stock Exchange, Global Warming Potential Values from the IPCC Sixth Assessment Report (AR6), the “Notice on Releasing the Carbon Dioxide Emission Factor of Electricity in 2022” and the “Notice on Releasing the Carbon Dioxide Emission Factor of Electricity in 2023” issued by the Ministry of Ecology and Environment of the PRC.

To drive continuous improvement, the Group targets to maintain or reduce the GHG emission intensity in 2026, using performance in 2024 (1.24 tCO₂e/employee) as its baseline.

Sewage Discharge

The Group discharges two types of waste water, namely domestic sewage and industrial effluent.

Domestic Sewage

Domestic sewage is discharged from the accommodation that the Group provides to employees in the PRC. The Group strictly controls the discharge of sewage to minimize its environmental impacts. Regular inspection has been performed by a professional external assessment company to check against various standards such as the Standard Examination Methods for Drinking Water – Organoleptic and Physical Parameters (GB 5749-2006) and Technical Specifications Requirements for Monitoring of Surface Water and Waste Water (HJ/T 91-2002). According to the report conducted by the assessment company, the test results were satisfactory during the Reporting Period. The Group’s sewage emissions comply with the Standard for Drinking Water Quality (GB 5749-2006) and Discharge Limits of Water Pollutants (DB44/26-2001) in the PRC. The amount of domestic sewage discharge is considered the same as the amount of water consumption, which will be described in the section headed “Water Consumption” under aspect A2.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Industrial Effluent

Water used in the production processes of producing the inflatable products eventually becomes industrial effluent, which is hazardous wastewater. Therefore, the Group engages a government-authorized service company to collect the effluent and perform water purification to remove undesirable matters through the process of screening, grit removal and sedimentation. Besides, the Group is continuously looking for possible ways to enhance recycling of effluent in the future.

During the Reporting Period, the volume of industrial effluent had increased as compared to 2024 due to increased industrial operation. The industrial effluent intensity remained at a similar level when comparing 2024 and 2025. Following is the summary of effluent discharge performance:

Indicator	Unit	2025	2024
Industrial effluent	tonnes	26.00	24.00
Total industrial effluent intensity	tonnes/employee	0.05	0.04

Waste Management

The Group recognizes the importance of good waste management practices which not only protects the reputation and quality of the products produced, but also safeguards the health and safety of its employees. Therefore, the Group has established a detailed Procedure for Operational Control on Environmental System (《環境體系運行控制程序》) that regulates the Group's waste management practices of non-hazardous waste and hazardous waste, and clearly states the procedures for the collection, storage and disposal of waste. In 2024, the Group set targets to maintain or reduce the production level of both hazardous and non-hazardous waste in 2025, using performance in 2024 as the baseline. In order to achieve the targets, measures have been taken as detailed below.

Hazardous Waste

The Group recognizes the importance of governing the management and disposal of hazardous waste. The Group has established Rules on Waste Classification (《垃圾分類細則》) and Hazardous Waste Collection Record Form (《危險廢棄物收集記錄表》), which clearly states the procedures of categorizing and handling hazardous waste, to guide the employees and monitor the collection and storage of hazardous waste. Specific areas are assigned for the temporary storage of hazardous waste for safety purposes and a licensed third party is engaged in the collection of waste for recycling and reuse purposes.

Due to the dangerous nature of hazardous waste, the Group will set up special containers for hazardous waste storage and arrange qualified professional environmental service suppliers for collection, transportation and disposal. The Group will hire external processing companies that have relevant licenses and business licenses approved by the government.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

During the Reporting Period, the total hazardous waste had decreased from approximately 1.64 tonnes in 2024 to approximately 0.43 tonnes in 2025 due to effective implementation of waste management and the disposal of a subsidiary, which was a major source of emission in 2024. Comparing to the baseline of approximately 0.0027 tonnes/employee in 2024, the Group has achieved the target. Following is the summary of hazardous waste disposal performance:

Indicator	Unit	2025	2024
Waste lamp	tonnes	0.01	0.02
Waste of packaging bucket	tonnes	0.15	1.15
Waste of screen printing	tonnes	0.02	0.02
Used cleaning cloth from production	tonnes	0.17	0.27
Used active charcoal	tonnes	0.05	0.15
Used photographic plastic	tonnes	0.03	0.03
Total hazardous waste	tonnes	0.43	1.64
Total hazardous waste intensity	tonnes/employee	0.0008	0.0027

To drive continuous improvement, the Group targets to maintain or reduce the production level of hazardous waste in 2026, using performance in 2024 (0.0027 tonnes/employee) as its baseline.

Non-hazardous Waste

The Group adheres to the principles of waste management and is committed to handling and disposing all waste generated by our business activities through abiding by the 3R principle (Reduce, Reuse and Recycle).

Besides, the Group had established the Waste Classification (《垃圾分類細則》) to guide the employees on waste management such as waste classification, collection, transportation and disposal.

All of our waste management practices comply with relevant environmental laws and regulations. The non-hazardous waste disposed by the Group's business activities were mainly scrap paper and metal. We have taken the following measures in our business operation towards the waste reduction target:

- Place recycling bins in office areas to cultivate employees' recycling habits;
- Distribute office memos to remind staff to only print necessary materials to avoid wastage;
- Record and monitor the paper consumption;
- Reuse envelopes, folders and carton in office;
- Use recycled paper for printing and copying; and
- Promote double-sided printing to utilize paper efficiently.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

During the Reporting Period, the total non-hazardous waste had increased by approximately 24.25% from approximately 5.65 tonnes in 2024 to approximately 7.02 tonnes in 2025 due to the increased usage of scrap metal because of operational needs. Comparing to the baseline of approximately 0.009 tonnes/employee in 2024, the Group has not achieved the target. The Group will enhance recycling practice to reduce the disposal of scrap metal. Following is the summary of non-hazardous waste disposal performance:

Indicator	Unit	2025	2024
Scrap metal	tonnes	6.81	5.27
Scrap paper	tonnes	0.21	0.38
Total non-hazardous waste	tonnes	7.02	5.65
Total non-hazardous waste intensity	tonnes/employee	0.013	0.009

To drive continuous improvement, the Group targets to maintain or reduce the production level of non-hazardous waste in 2026, using such performance during 2024 (0.009 tonnes/employee) as its baseline.

A2. Use of Resources

The Group continues with initiatives to introduce resource efficiency and eco-friendly measures to the Group's operations and is committed to optimizing the use of resources in all of its business operations.

The Group has established relevant policies and procedures in governing the use of energy and water with reference to the objectives of achieving higher efficiency and reducing the unnecessary use of materials.

Energy Management

The Group has developed related energy measures and initiatives on the efficient use of energy, such measures and initiatives have been formally documented in the Operational Control on Environmental System (《環境體系運行控制程序》). Employees are required to take the related measures and initiatives and assume responsibility for the Group's overall energy efficiency. We developed Energy Usage Statistics Table (《能源使用統計表》) to record energy consumption of each department. If certain departments' electricity consumption exceeds the monthly consumption target, the Group will conduct investigation to find out the root cause and apply reduction controls to increase energy efficiency. We also regularly review our energy consumption objectives and targets to continuously enhance the Group's energy consumption performance.

In 2024, the Group set a target to maintain or reduce the energy consumption intensity in 2025, using performance in 2024 (3.02 MWh/employee) as its baseline. The Group has introduced various measures and initiatives to achieve the goal of electricity saving and efficient consumption. Such measures and initiatives include but not limited to the following:

- Post green messages in the workplaces;
- Switch off computers, printers, machines and other electronic devices after office hours or when leaving the workplace to reduce power consumption;
- Turn off all unnecessary lightings and use natural lightings as far as practicable;
- Apply optimal temperature setting of air-conditioning; and
- Conduct or participate in environmental activity annually to promote awareness on energy conservation among employees.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

During the Reporting Period, the total energy consumption had decreased by approximately 77.33% from approximately 1,827.15 MWh in 2024 to approximately 414.14 MWh in 2025 due to the effective implementation of energy conservation measures as mentioned above and the disposal of a subsidiary, which was a major source of emission in 2024. Comparing to the baseline of approximately 3.02 MWh/employee in 2024, the Group has achieved the target. Following is the summary of energy consumption performance:

Indicator ⁴	Energy Category	Unit	2025	2024
Direct energy	Petrol	MWh	85.15	292.65
	Diesel	MWh	22.36	38.51
Indirect energy	Electricity	MWh	306.63	1,495.99
Total energy consumption		MWh	414.14	1,827.15
Total energy consumption intensity		MWh/employee	0.79	3.02

Note:

4. The unit conversion method of energy consumption data is formulated based on the "Energy Statistics Manual" issued by the International Energy Agency.

To drive continuous improvement, the Group targets to maintain or reduce the energy consumption intensity in 2026, using such performance during 2024 (3.02 MWh/employee) as its baseline.

Water Consumption

Clean water is valuable since it remains a scarce resource in many parts of the world. Thus, we are committed to treasuring the water resources we have. The Group has implemented a variety of measures and initiatives which have been formally documented in the Operational Control on Environmental System (《環境體系運行控制程序》). We also regularly review our water consumption objectives and targets to continuously enhance the Group's water consumption performance.

The Group uses government-supplied water sources, mainly for production and employees' daily living purpose. In 2024, the Group set a target to maintain or reduce the water consumption intensity in 2025, using performance in 2024 (107.93 m³/employee) as its baseline. In order to achieve the target, we encourage all employees to develop the habit of water conservation. The following are some measures we have implemented to increase water efficiency:

- Post water saving reminders and guide employees to consume water reasonably;
- Fix dripping taps promptly to avoid further leakage and wastage; and
- Conduct or participate in environmental activity annually to promote awareness on water conservation among employees.

In view of the geographical location of the Group's operations and nature of business, there is no problem in sourcing water that is fit for purpose.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

During the Reporting Period, the total water consumption had decreased slightly by approximately 4.13% from approximately 65,405.43 m³ in 2024 to approximately 62,706.43 m³ in 2025. Yet, the intensity increases because of the decrease in number of employees. Comparing to the baseline of approximately 107.93 m³/employee in 2024, the Group has not achieved the target. The Group will enhance water conservation practices to reduce water consumption. Following is the summary of water consumption performance:

Indicator	Unit	2025	2024
Total water consumption	m ³	62,706.43	65,405.43
Total water consumption intensity	m ³ /employee	119.67	107.93

To driver continuous improvement, the Group targets to maintain or reduce the water consumption intensity in 2026, using such performance during 2024 (107.93 m³/employee) as its baseline.

Use of Packaging Materials

Apart from energy and water resources, the main resources used by the Group are packaging materials. We consumed various types of packaging materials, such as plastics, paper cartons and wave balls in our daily operations. We conduct annual review based on the packaging material consumption rate. We also maximize the usage of packaging material. For example, we pack more products in larger boxes in order to avoid excessive packaging.

During the Reporting Period, the consumption of packaging materials has decreased by approximately 42.25% from approximately 4,788.00 kg in 2024 to approximately 2,765.00 kg in 2025 after streamlining the packaging method.

A3. The Environment and Natural Resources

The Group pursues the best practices for environmental protection and focuses on the Group's business impacts on the environment and natural resources. In addition to complying with relevant environmental laws and international standards for protecting the natural environment, the Group has implemented the Environmental System Operational Control Program (《環境體系運行控制程序》), to integrate concepts of environmental protection and natural resource conservation into our internal management and daily operations in order to achieve environmental sustainability.

In the upcoming years, the Group plans to further enhance employees' awareness on environmental protection and improve the resource efficiency. The Group will also work closely with suppliers to reduce the negative environmental impact of the supply chain.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Plasticizers

The Group is committed to reducing the adverse impacts on the environment through using widely recognized environmentally friendly plasticizers. Plasticizers are the main raw materials used to soften PVC making it elastic, flexible and bendable. Many studies have been conducted to evaluate the impact of plasticizer on humans and on the environment. The Member States Committee of European Chemicals Agency stated that some elements of plasticizers are the endocrine disruptor that cause adverse endocrine effects in fish and other aquatic organisms. Therefore, the Group uses polyethylene terephthalate (“PET”), an eco-friendly plasticizer that is easy to reprocess and decompose into its basic monomers. PET can be recycled into different useful materials, such as polyester used in carpeting, car parts, fiberfill for coats, sleeping bags, shoes, luggage, t-shirts and other items. Moreover, according to the study conducted by scientists at the University of Pittsburgh on examining the environmental impacts of biopolymer production, PET ranks relatively lower compared to other plasticizers in terms of factors such as biodegradability, recycled percentage, mass from renewable sources, life cycle health hazards and life cycle energy use.

Working Environment

The Group is committed to providing employees with a comfortable working environment to enhance work efficiency. We maintain office discipline and environmental hygiene by keeping individual workspaces and public area clean and tidy. Our staff will monitor the condition of the staff quarters and workspaces from time to time. Emergency plans are set up in advance whereas prevention and control measures are adopted to identify problems and risks. We will deal with the identified problems and potential risks in time to maintain a sound working environment.

The Group has implemented the “Environmental and Safety Monitoring Management Procedures” (《環境及安全監測管理程序》) which specifies the frequency and methods of monitoring on specified key features for track record and assessment of the Group’s operation related to the environment and safety.

Noise Pollution

The Group has always been aware of its impact of noise pollution on the surrounding communities and the health of workers. The Group actively communicates with nearby communities and its workers on noise issues and provides its workers with health and safety equipment for protection. In order to evaluate the Group’s level of noise pollution, a third-party inspection is carried out every year. The inspection report verified that the Group has complied with Emission Standard for Industrial Enterprises Noise at Boundary (GB12348-2008) in the PRC. The noise level of the Group at daytime and mid-night was maintained at a reasonable level during the Reporting Period.

A4. Climate Change

Extreme weather events are becoming more frequent and severe, therefore tackling climate change has become a global consensus. The Group has realized that climate change will affect its business operations. Therefore, the Group has established a robust set of policies and procedures to identify, monitor and manage ESG issues, including climate change. Material climate-related risks are identified and managed under our enterprise risk management framework. The Group does not only adopt the industry’s best practices to improve the energy efficiency of its operations, but also encourages its employees, suppliers and customers to minimize carbon emissions in their daily business activities. It incorporates climate change considerations into the internal control, enterprise risk management as well as procurement process. The Group promotes the adoption of eco-friendly and energy-efficient products and materials, providing annual reports to track its advancements in reducing carbon emissions.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

In the future, the Group will continue to review its policies and assess the effectiveness of actions in order to enhance its resilience to climate-related risks. Also, the Group will monitor regulatory change and adopt the enhanced climate disclosure under the ESG Reporting Code when necessary.

Climate-related Risks

Following are the climate change risks that will impact the Group's business operations, which could be classified as physical risks and transition risks. Physical risks refer to the risks of increased frequency of extreme weather events that could impact the Group's business operations, whereas transition risks refer to the risks of transitioning to a lower-carbon economy may entail extensive policy, legal, technology and market changes to address mitigation and adaptation requirements related to climate change. Depending on the nature, speed and focus of these changes, transition risks may pose varying levels of financial and reputational risks to organizations. Further explanation will be discussed below.

Physical Risks

Increased frequency and severity of extreme weather events, such as extreme cold or heat, storms, heavy rains, typhoons, can disrupt operations by damaging the power grid and communication infrastructures, hampering and injuring our employees on the way or during their work. These events could disrupt supply chains, interrupt business operations and damage the Group's assets and might ultimately raise operational costs. Therefore, the Group has taken different actions to manage the above-mentioned acute physical risks. For example, the Group maintains a comprehensive insurance coverage on assets that are prone to damage by extreme weather conditions. A business continuity plan is in place as a countermeasure for managing extreme weather events. In addition, the Group has developed the practice of communicating the arrangements under extreme weather conditions to employees in advance. Principally, the Group aims to ensure smooth business operations even during such conditions to mitigate the risks.

Transition Risks

There are more stringent climate legislations and regulations to support global vision for decarbonization. For example, the Stock Exchange has required listed companies to enhance the climate-related disclosures in their ESG reports. Stricter environmental laws and regulations may expose enterprises to higher risks of claims and lawsuits. The Group's reputation may also be damaged due to failure to meet the compliance requirements for climate change. The Group's related capital investment and compliance costs thus increase. In response to the policy and legal risks as well as the reputation risks, the Group regularly monitors existing and emerging trends, policies and regulations relevant to climate change, and will alert the top management where necessary to avoid cost increments, non-compliance fines or reputational risks due to delayed response. Besides, we have set targets to further reduce our energy consumption and GHG emissions during the Reporting Period to show our emphasis and effort in transition towards a low-carbon economy.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

B. SOCIAL

B1. Employment

Human resources are the foundation of supporting the development of the Group. The Group's success relies heavily on the ability to attract, develop and retain employees. The Group adheres to the people-oriented principle, respects and protects the legitimate rights and interests of each employee. It regulates labor employment management, safeguards employees' occupational health and safety, strengthens democratic management, safeguards the interests of employees, and fully respects and values employees' enthusiasm, initiative and creativity so to build a harmonious labor relationship.

The Group has formally documented relevant employment policies in the Employee Handbook (《員工手冊》), covering recruitment, promotion and dismissal, remuneration and benefits, diversity and equal opportunities, etc. We review these policies and our employment process periodically to ensure the continuous improvement of our employment standards.

The Group complies with all related laws and regulations, including, but not limited to, the Labor Law of the People's Republic of China and the Labor Contract Law of the People's Republic of China. The Group has established a series of human resource management policies to provide employees with a healthy, happy and motivated working atmosphere, and to guide employees to actively integrate their personal pursuit into the long-term development of the Group. During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations that would have a significant impact on the Group.

As at 31 December 2025, the Group had 524 employees within the reporting scope (as at 31 December 2024: 606 employees). The following shows the breakdown of employees by gender, age group, employment type and geographical region.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Employee by Age Group

Employee by Employment Type

Employee by Geographical Location

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

The employee turnover rate was approximately 25.76%⁵ during the Reporting Period (2024: approximately 26.24%). The following table shows the breakdown of employee turnover:

	Number of Employee Turnover		Breakdown of Employee Turnover ⁶	
	2025	2024	2025	2024
By Gender				
Male	32	46	17%	29%
Female	103	113	31%	71%
By Age Group				
Age below 30	23	24	48%	15%
Age 30–50	54	73	21%	46%
Age over 50	58	62	26%	39%
By Geographical Location				
Zhongshan	48	46	14%	29%
Hunan	80	107	57%	67%
Guangzhou	7	6	23%	4%

Notes:

5. Calculation of employee turnover rate:

$$\frac{\text{Number of employees who left during the reporting period}}{\text{Number of employees at the end of the reporting period}} \times 100\%$$

6. Calculation of breakdown of employee turnover:

$$\frac{\text{Number of employees who left in the specific category during the reporting period}}{\text{Total number of employees who left in the specific category at the end of the reporting period}} \times 100\%$$

Recruitment, Promotion and Dismissal

The Group seeks to build an elite workforce by recruiting outstanding employees. The Group has established the Recruitment Management Procedure (《僱用管理程序》) to standardize the hiring procedures and recruitment principles, and adheres to the hiring principles of morality, knowledge, ability, experience and fitness applicable to job positions as well as the principles of fairness, openness and justice, so as to continuously attract, employ and develop talents.

The Group offers promotion and development opportunities for outperforming employees through an open and fair assessment system so as to explore their capability, assist them on career development and contribute to the Group's sustainable growth. Staff performance reviews are carried out regularly to assess employees' work performance based on the principle of meritocracy, talents and competitiveness on an open and fair basis.

Besides, the Group does not tolerate the dismissal of employees under any unreasonable basis, and exit interviews are required to be conducted with the resigned staff to collect opinions for any possible improvements on the Group's policies.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Remuneration and Benefits

The Group has established a fair, reasonable and competitive remuneration system under the Remuneration Management System (《薪酬管理制度》) and Remuneration Management Procedure (《薪資福利管理程序》) that provides compensation to employees based on the principles of fairness, competition, incentives, rationality and legality. As stated in the policies, the remuneration package of the Group's employees consists of basic salary, performance bonus, overtime pay, working-age salary, food subsidy, related subsidies and various bonuses.

The Group signed and executed labor contracts with all employees in the PRC in accordance with the Labor Contract Law of the People's Republic of China. The Group pays five social insurances and one housing fund for its employees in the PRC in compliance with the laws and regulations, namely endowment insurance, medical insurance, unemployment insurance, work injury insurance, maternity insurance and housing provident fund to ensure employees are covered by social insurance.

In addition, the Group respects the rights of employees on rest and leave, establishing regulations for working hours and granting various types of rest periods and holidays. The Group offers a wide variety of leave entitlements for different circumstances such as maternity leave, paternity leave, marriage leave, study leave, compassionate leave and compensation leave.

Diversity, Equal Opportunity and Anti-discrimination

Sustainable growth of the Group relies on the diversity of talents and the provision of equal opportunities. Under the Anti-discrimination Procedure (《反歧視程序》), the Group endeavors to recruit and promote employees based on experience and expertise and make decisions independent of race, national origin, ancestry, sex, marital status, disability, religious or political affiliation, age, or sexual orientation. It is of the Group's firm belief that all employees should have the right to work in an environment free of discrimination, harassment, victimization and vilification. Therefore, the Group is committed to creating and maintaining an inclusive and collaborative workplace culture. In addition, the Group emphatically states its zero-tolerance stance on any above-mentioned behaviors in the workplace. In case of any violation, employees have access to various communication channels, including an employee suggestion box, to report and express their opinion. The procedure of dealing with complaints are set out in the Employee Complaints and Suggestions Management System (《員工投訴及建議管理制度》).

B2. Health and Safety

Occupational Health and Safety

We are committed to providing and maintaining a safe and healthy environment for all our employees, contractors, customers and others who visit or work on our premises and preventing work-related accidents, injuries and illnesses. The Group believes that employees are valuable assets of an enterprise and regards human resources as its corporate wealth. The Group has established Operational Control Procedure on Occupational Health and Safety Policy (《職業健康安全體系運行控制程序》) which includes the prevention and remediation of safety accidents, detection on potential safety hazards in the workplace, and maintenance of a safe working environment. We review this policy and our health and safety practices at least annually and, if necessary, revise them to ensure continuous improvements of our health and safety standards.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

The Group enforces relevant laws and regulations such as the Labor Law of the People's Republic of China, the Work Safety Law of the People's Republic of China, the Law of the People's Republic of China on the Prevention and Treatment of Occupational Diseases and the Fire Protection Law of the People's Republic of China. During the Reporting Period, the Group was not aware of any material non-compliance with health and safety related laws and regulations, including but not limited to the Occupational Safety and Health Ordinance, that would have a significant impact on the Group. The Group does not operate any vehicle manufacturing, warehousing, displaying and maintenance and repair facilities. Therefore, the Group is not subject to significant health, work safety, social or environmental risks. Nonetheless, an Incident Investigation Control Procedure (《事故調查控制程序》) has been formulated to set out procedures on dealing with occupational incidents aiming to prevent recurrence. There were no work-related fatalities in each of the past three years including the Reporting Period, hence no claims or compensation were paid to its employees due to such accident.

Most of the equipment used in our factories are light-duty machinery. Thus, most of the employees' work-related injuries are minor injuries. During the Reporting Period, the Group recorded 8 reported accidents due to work-related injury.

Indicator	Unit	2025	2024
Number of work-related injury	case	8	4
	person	8	8
Injury rate	per thousand employees	15.27	13.20
Number of lost days	day	86.00	41.60

Steps taken as remediation included provision of additional safety training for the injured employees followed by inspection of the site to identify any other potential safety hazards and to take precautionary measures if necessary.

Internal Health and Safety Management System

To pursue an injury-free working environment, the Group requires all employees to attend safety training before the commencement of work. We also emphasize to our employees the vital importance of strictly complying with safety requirements to protect themselves from accidents and injuries. Safety guidelines such as Safety Management System on Electricity Utilization (《安全用電管理制度》) and Production Equipment Management Regulation (《生產設備管理規定》) have been formulated to address any safety issues. When safety issues are spotted, employees are required to report in a timely manner. The Group has also formulated a series of emergency plans in case of any accidents and organized fire drills on a regular basis to further reinforce employees' safety awareness.

On the other hand, the Group had implemented Employee Occupational Health and Occupational Disease Management (《員工職業健康及職業病管理》), which provides staff with health and safety notifications to enhance their awareness. The Group also arranges body checks for employees, particularly paying attention to those who have abnormal examination result and providing treatment advice. Additionally, the Group will monitor staff's health with the regular release of List of Job with Occupational Disease Risk (《具有職業病風險的崗位清單》).

With the effective implementation of the above measures, the Group's factory has been accredited with ISO 45001:2018 Occupational Health and Safety Management System.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Fire Safety

The Group has formulated its fire safety system in accordance with the Fire Protection Law of the People's Republic of China and Provisions on the Supervision and Administration of Fire Protection of Construction Projects. In case of emergencies, different locations of the Group's workplaces are equipped and clearly located with first aid kits and fire extinguishers of which staff are instructed to the correct use. Fire drills are conducted regularly to enhance awareness on the fire evacuation plans.

Other Health and Safety Measures

The Group adhered to placing the health and safety of employees as its top priority. The Group strictly maintained a high hygiene standard and complied with the virus prevention regulations issued by the local governments and has disseminated information on the pandemic situation and preventive measures to its employees. The precautionary measures taken by the Group included:

- Perform temperature checks and registrations before entering offices and the factories;
- Require all vehicles and personnel to be disinfected when entering the factories;
- Provide adequate disinfection supplies, such as hand sanitizer, in its operations;
- Encourage employees to wash their hands frequently with soap and water, or with a hand sanitizer;
- Keep social distancing of at least 1 meter from one another when lining up for canteen meals and minimize meal gatherings;
- Cancel large-scale events such as spring dinner; and
- Advocate employees to reduce non-essential cross-city travels.

B3. Development and Training

The Group recognizes the valuable contribution its talents have made to the continued success of the Group. The Group believes that its ability to recruit and retain experienced and skilled labor is key to growth and development.

Development and Training of Employees

The Group has developed relevant training procedures to standardize the management of employees' training. Various training programs are held to improve the knowledge and skills of employees. The Group has developed an Annual Training Plan (《年度培訓計劃》) based on the training requirements from various departments to enhance the employees' skills and knowledge.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

The Group has conducted quality and environment management training programs to enhance the knowledge of employees on the standards of ISO9001 and ISO14001. The programs include job skills training, safety precautions in using production equipment and machinery, fire safety and first aid, as well as various systems relating to factory regulations, social responsibility and anti-terrorism. These help employees to become more professional in quality and environmental management. Training content is regularly updated to ensure contents are relevant to stakeholders' changing needs, such as change in law and regulatory requirements, market, product trends and customer behavior.

To help new employees adapt to the workplace, the Group provides induction training for new employees. Besides, the Group launches mentoring program, for which experienced employees act as mentors to guide newcomers. This program can effectively facilitate communication, build team spirit and strengthen their sense of belonging.

In addition to internal training, the Group encourages and supports employees to participate in external personal and professional training to fulfill the needs of the Group's development. To encourage employees in taking the initiative in learning and pursue further career development, the Group offers reimbursements to its employees who have received relevant training and completed development programs that pertain to their respective work positions and skills.

The percentage of employees trained was approximately 94.27% during the Reporting Period (2024: approximately 88.61%). The following table shows the breakdown of the employee trained:

Employee Trained	Percentage of Employees Trained ⁷		Total Training Hours		Average Training Hours ⁸	
	2025	2024	2025	2024	2025	2024
By Gender						
Male	93.12%	85.71%	1,766.00	1,841.00	10.03	9.90
Female	94.93%	90.23%	3,094.00	3,287.00	9.73	9.36

$$\frac{\text{Number of training hours in the specific category during the reporting period}}{\text{Number of employees trained in the specific category during the reporting period}} \times 100\%$$

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

B4. Labor Standards

The Group adopts a people-oriented management approach. Thus, it prohibits any punitive measures, management methods, and behaviors such as abusive, corporal punishment, violence, mental stress, sexual harassment (including inappropriate language, posture and physical contact) for any reason.

Prevention of Child Labor or Forced Labor

Child and forced labor are strictly prohibited during the recruitment process as defined by laws and regulations. In view of this, the Group had implemented the Prohibition of Child Labor Control Program (《禁用童工控制程序》) and the Prohibition of Forced Labor Program (《禁止強迫勞工控制程序》) to prevent relevant departments from employing child and forced labor.

The Group has established a comprehensive recruitment process to examine candidates' background and official reporting procedures to handle any exceptions. Personal data are collected during the employment process to assist in the selection of suitable candidates and to verify candidates' personal data. The Human Resources Department diligently verifies identity documents and periodically conducts checks to ensure their actual age aligns with personnel information provided.

To prevent any form of forced labor, a job description outlining the principal responsibilities of employee is attached in the labor contract. Furthermore, employees' overtime working is based on voluntary principle so as to avoid the violation of labor standards. To safeguard the rights and interests of employees, they are entitled to overtime salary or compensatory leave after working overtime.

In the event of a violation, the Group will formulate a summary record internally, put forward rectification advice, and direct the Human Resources Department, which is responsible for such matters, to strengthen the employee inspection procedure and avoid the recurrence of similar incidents.

During the Reporting Period, the Group was not aware of any material non-compliance with child and forced labor-related laws and regulations, that would have a significant impact on the Group including but not limited to the Labor Law of the People's Republic of China and the Labor Contract Law of the People's Republic of China that would have a significant impact on the Group.

B5. Supply Chain Management

As a socially responsible enterprise, it is critical to maintain and manage a reliable supply chain that is consistent with the Group's policies on sustainability. The Group is committed to building and maintaining close business relationships with its business partners. The Group has also established measures and procedures to reduce risks associated with the economy, environment, and society.

Fair and Open Procurement

The business cooperation process of the Group is conducted in an open, fair and impartial manner. The Group will not discriminate against any business partners and will not allow any corruption or bribery. Employees and other individuals who are interested in the relevant business partners will not be allowed to participate in related business activities. The Group focuses on the integrity of its partners and will only select business partners who have a good track record in the past and who do not have any serious non-compliance or violation of business ethics.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Procurement Practices

The Group has established a rigorous and standardized procurement system. The Group has formulated the Procurement Flow Chart (《採購流程》) and Supplier Selection Form (《供應商評審表》) to evaluate and select suppliers. During the supplier selection process, the Group not only reviews suppliers' basic information, but also considers a number of other factors such as the delivery schedule, pricing, possession of requisite licenses, certifications, and compliance to relevant industrial laws, regulations and standards.

In addition, all suppliers are evaluated carefully and subjected to regular monitoring and assessments. The Group reviews and evaluates supplier performance in accordance with its Supplier Monthly Assessment Form (《供應商月度綜合考核表》). The Group classifies them into different grades (A/B/C/D) based on monthly assessment results. The Group applied Purchase Order Material Tracking Form (《採購物料追蹤表》) to track the quality of material purchased. In order to ensure suppliers' capability in quality assurance, safety and environmental responsibility, field visit and investigation will be conducted. The investigation reviews the production capacity, technology level, quality assurance capabilities, supply capacity, safety and environment management qualifications.

In view of the growing societal concerns towards environmental issues, the Group is aware of the importance of managing the environmental and social risks of its supply chain. The Group embedded environmental and social consideration in the procurement process and supplier communication. The Group has implemented the Supplier Selection and Evaluation Policy (《供應商的啟用和選擇政策》), which prioritizes suppliers that promote environmentally preferable products and services. The Group also informs suppliers of its environmental policy and requirements and its initiatives in green procurement. The Group especially requires suppliers of chemical substances to provide material safety data sheets ("MSDS") and other relevant test reports. To manage potential environmental and social risks in its supply chain, the Group has established a stringent and standardized procurement system and supplier selection process, and has implemented relevant practices relating to engaging suppliers and the requirement of environmental and social risk control to all suppliers.

During the Reporting Period, the Group had 152 major suppliers (2024: 50), all of which were located in the PRC. The Group was not aware of any key suppliers that had any actions or practices which have a significant negative impact on business ethics, environmental protection, human rights and labor practices. All major suppliers are subject to the above evaluation and monitoring regularly.

B6. Product Responsibility

The Group actively safeguards the quality of its products with its internal control process and maintains ongoing communication with its customers to ensure mutual understanding while fulfilling customers' needs and expectations. We aim to apprehend customers' needs and expectations and strive to continuously improve the quality of our products and services.

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations, including, but not limited to, the Law of the People's Republic of China on the Protection of Consumer Rights and Interests, the Product Quality Law of the People's Republic of China, the Patent Law of the People's Republic of China and the Advertising Law of the People's Republic of China that would have a significant impact on the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

Product Quality Supervision

The Group recognizes the importance of achieving and maintaining high product quality standard to the sustainable growth of the Group. Our factory in Zhongshan has obtained the certificate of ISO 9001:2015 Quality Management System on the design and manufacture of inflatable products.

To maintain high product quality, we attach great emphasis on quality management. The Group has established a quality control team, Quality Control Handbook (《品質控制手冊》) and Unqualified Products Control Procedure (《不合格品控制程序》) to ensure the quality of the raw materials and products at each stage of production processes, as well as that of our end-products. Our raw materials and products comply with international product safety and quality standards, such as the standards of the American toy safety standard ASTM F963-11, European Commission standard EN71-1, EN71-2 and EN71-8, Australia and New Zealand toy standard AS/NZS ISO8124-1:2013 and ICTI Ethical Toy Program.

The quality control team is responsible for conducting product risk assessments for new products. A product quality and safety test report summarizing all findings will be submitted to the Engineering Department. The team will also conduct random sample testing during the trial production process. The Engineering Department is required to give solutions on the concerns raised by the quality control team. The products will not enter the market until the quality control team confirms that all the testing results are satisfactory and no quality and safety issues are being found. During the Reporting Period, there are no products sold and shipped subject to recalls for safety and health reasons.

Innovation Intellectual Property Rights

The Group views the effort in conducting research and development as indispensable to maintain a high product quality standard. The Group strives to advance its product range by leveraging its research and development expertise, aiming to introduce products with special features. To bolster its research and development capabilities, the Group has developed a Design Department comprising professional technicians and engineers.

To ensure that the products invented and designed by the Group are not being plagiarized, the Group has formulated Measures for the Protection of Intellectual Property Rights (《維護和保障知識產權措施》). The Group protects its intellectual property rights worldwide through administrative and legal means, cooperation with customs and litigation. If the Group notices competitive products or marketing materials that potentially infringe its intellectual property rights, the Group will further investigate and follow up as required. As at 31 December 2025, the Group's valid intellectual property rights are as follows:

Chinese design patent	92
Chinese utility patent	6
Chinese invention patent	3
Software copyright	1
Work registration certificate	174
Trademark	32
Foreign utility model invention patents	4

Customer Services

The Group provides delighting and high-quality service experience to customers through standardized service quality management. As we value our customers' opinions, we regularly conduct customer satisfaction surveys and have an online opinion form on the Group's website to collect public opinions.

Any complaints from customers, suppliers, and partners will be reviewed in accordance with internal procedures and guidelines followed by appropriate follow-up measures. If applicable, the Group will conduct relevant investigations to resolve complaints and make improvements accordingly. The Group believes that complaints are good opportunities to receive feedback from the community and customers, so as to continuously enhance our service and products.

During the Reporting Period, the Group did not receive any material complaints from customers.

Protection of Privacy

The Group is committed to protecting customers' confidential information, privacy and interests of the Group and its stakeholder. We have formulated Information Security Regulations (《信息安全規定》) and Data Protection Policy (《資料保護政策》) to ensure privacy and data security. Employees should strictly abide by these regulations, including, but not limited to, updating the operating system and anti-virus software on a prompt and regular basis, using encryption technology to protect sensitive data files, and avoiding downloading software or programs from unknown sources. They are also prohibited from disclosing information regarding the Group's business decisions or any information that would be unfavorable to the Group's benefit and reputation. Our information technology engineers will also check the information system regularly to minimize potential risks of data leakage.

Advertising and Labelling

The Group owns different brands such as Happyhop Brand, Happyhop Pro Brand and Action Air. We promote our products mainly through advertisements, social networking pages and industry exhibitions. We emphasize the importance of proper advertising and compliance with relevant requirements of media advertisements. We verify all information regarding our products and business before the publication of promotion materials or product sales to prevent any false, misleading or deceptive information being publicized.

B7. Anti-corruption

The Group considers ethical conduct is of utmost importance in corporate sustainable development and long-term success. Therefore, the Group values the importance of anti-corruption work and is committed to building a fair, open, honest and transparent corporate culture. During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations related to bribery, extortion, fraud, and money laundering, including but not limited to, Company Law of the People's Republic of China, Bidding Law of the People's Republic of China and Anti-Unfair Competition Law of the People's Republic of China that would have a significant impact on the Group. There were no concluded legal cases regarding corrupt practices brought against the Group or its employees during the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT (continued)

The Group has adopted a zero-tolerance approach towards all forms of corruption, including deception, bribery, forgery, extortion, conspiracy, embezzlement, money laundering and collusion. The Group has established anti-bribery and anti-corruption control procedures, anti-fraud mechanism and anti-conflict of interest regulation to guide the employees, ensuring that the Group strictly adheres to a high standard of business conduct.

The Group has formulated an Employee Complaints and Suggestions Management System (《員工投訴及建議管理制度》). Under the policy, employees are encouraged to report to the management if any illegal activities such as corruption are suspected or discovered. All complaints filed are confidential and the Group is responsible for protecting the legitimate rights and interests of the whistle-blower. As specified in the Employee Handbook (《員工手冊》), the Group may terminate the employment contract with any employee who is involved in the misconduct or malpractice and reserves the right to take further legal action against such individual.

In order to uphold business ethics and raise awareness, our Directors, employees and suppliers are given anti-corruption trainings at least once annually. During the Reporting Period, the Group has delivered its anti-corruption policies and procedures to 0 Directors, 502 employees and 70 suppliers, while 505 employees received total of 556 hours of anti-corruption training. The training is in form of internal seminar that familiarize the Directors and different levels of staff with their corresponding role and responsibility regarding anti-corruption and business ethics under applicable laws and regulations.

B8. Community Investment

The Group is committed to emboldening and supporting the public by means of social participation and contribution as part of its strategic development, and to nurture the corporate culture and practices of corporate citizens in the daily work life throughout the Group. The Group aims to promote the stability of the society and support the underprivileged in rehabilitation to improve the quality of life. To cater the specific needs of the local community, the Group has formulated the Community Investment Policy to understand the needs of the community, identify the focus areas and allocate appropriate resources to empower the community. The Group is an active member of the Red Cross Society of China (“RCSC”), a humanitarian social relief organization, and support RCSC through donation. During the Reporting Period, the Group did not support any activity due to resource constraint. The Group will participate and contribute to the community in the future.

The Group hopes to foster employees’ sense of social responsibility by encouraging them to participate in charitable activities to make greater contributions to the community. The Group believes that by participating in activities that contribute to the community, the Group can enhance the civic awareness of its employees and establish correct values within them.

INDEPENDENT AUDITORS' REPORT

國衛會計師事務所有限公司
HODGSON IMPEY CHENG LIMITED

31/F, Gloucester Tower
The Landmark
11 Pedder Street
Central
Hong Kong

TO THE SHAREHOLDERS OF CHINA ORAL INDUSTRY GROUP HOLDINGS LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of China Oral Industry Group Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 76 to 159, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards as issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) as issued by the HKICPA. Our responsibilities under those standards are further described in the Auditors’ responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA’s *Code of Ethics for Professional Accountants* (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITORS' REPORT (continued)

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Impairment assessment of goodwill and other non-financial assets

Our procedures in relation to impairment assessment of goodwill and other non-financial assets mainly included:

Refer to notes 15, 16 17 and 18 to the consolidated financial statements.

- Assessing management's identification of CGUs based on the Group's accounting policies and understanding of the Group's business;
- Assessing value in use calculations methodology adopted by management;
- Assessing the reasonableness of key assumptions based on our knowledge of the business and industry and using valuation expert; and
- Checking the mathematical accuracy of value in use calculations in the management impairment assessment.

Management performs impairment assessment of the goodwill which arose from business combination and reviews the carrying amounts of the Group's other non-financial assets at the end of each reporting period to determine whether there is an objective evidence of impairment.

For the purpose of assessing impairment, assets are grouped at the lowest level for which there are separately identified cash flows cash generating units ("**CGUs**"). The recoverable amount of the CGUs were determined based on value in use calculations using cash flow projections.

During the year, the Group recognised an impairment loss on other non-financial assets of approximately RMB2,888,000, RMB15,399,000 and RMB32,000 respectively on property, plant and equipment, right-of-use assets and other intangible assets relating to the inflatable products business CGU as included in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2025.

We focus on the impairment of goodwill and other non-financial assets because the estimation of recoverable amount is subject to high degree of estimation uncertainty. The inherent risk in relation to the impairment of goodwill and other non-financial assets is considered significant due to significant management judgement to appropriately identify CGUs and to determine the key assumptions, including discount rate, revenue, and direct costs underlying the value in use calculations.

INDEPENDENT AUDITORS' REPORT (continued)

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon (the "Other information").

Our opinion on the consolidated financial statements does not cover the Other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other information and, in doing so, consider whether the Other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is a material misstatement of this Other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards as issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITORS' REPORT (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditors' report is Fong Ka Yiu (practising certificate number: P08080).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands under the Companies Act of the Cayman Islands as an exempted company with limited liability on 3 November 2015.

The shares of the Company have been listed on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) with effect from 7 December 2017.

Its parent is Risen Thrive Limited, a company incorporated in the British Virgin Islands which is wholly and beneficially owned by Ms. Yan Ping. Its ultimate controlling party is Ms. Yan Ping, who is also the chairlady and an executive director of the Company.

The addresses of the registered office and the principal place of business of the Company are Windward 3, Regatta Office Park, P.O. Box 1350, Grand Cayman, KY1-1108, Cayman Islands and Unit 304, 3/F, Dominion Centre, 43 Queen’s Road East, Hong Kong respectively.

The Company is an investment holding company. The Company and its subsidiaries (collectively, the “**Group**”) are principally engaged in the manufacturing and sales of inflatable products and related accessories, and the provision of dental clinic services, sales of dental related products and sales of yarn and polyester in the People’s Republic of China (the “**PRC**”).

Items included in the financial statements of each of the Group’s subsidiaries are measured using the currency of the primary economic environment in which the respective entity operates (the “**functional currency**”). The functional currency of the Company is Hong Kong dollars (“**HK\$**”). The consolidated financial statements are presented in Renminbi (“**RMB**”), rounded to the nearest thousand, which is different from the functional currency of the Company as the Group’s dominated operations are substantially based in the PRC.

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS

Amendments to HKFRS Accounting Standards that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) for the first time, which are mandatorily effective for the annual periods beginning on or after 1 January 2025 for the preparation of the consolidated financial statements:

Amendments to HKAS 21	Lack of Exchangeability
-----------------------	-------------------------

The directors of the Company considered that the application of the amendments to HKFRS Accounting Standards in the current year had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (Continued)

New and amendments to HKFRS Accounting Standards in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRS Accounting Standards that have been issued but are not yet effective:

Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments ¹
Amendments to HKFRS 9 and HKFRS 7	Contracts Referencing Nature-dependent Electricity ¹
Amendments to HKFRS Accounting Standards	Annual Improvements to HKFRS Accounting Standards – Volume 11 ¹
HKFRS 18	Presentation and Disclosure in Financial Statements ²
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³

¹ Effective for annual periods beginning on or after 1 January 2026.

² Effective for annual periods beginning on or after 1 January 2027.

³ Effective for annual periods beginning on or after a date to be determined.

Except for the new HKFRS Accounting Standard mentioned below, the directors of the Company anticipate that the application of all other amendments to HKFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 18 *Presentation and Disclosure in Financial Statements*

HKFRS 18 *Presentation and Disclosure in Financial Statements*, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 *Presentation of Financial Statements*. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1 *Presentation of Financial Statements*, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management defined performance measures (MPMs) in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* (the title of which will be changed to Basis of Preparation of Financial Statements upon effective of HKFRS 18) and HKFRS 7 *Financial Instruments: Disclosures*. Minor amendments to HKAS 7 *Statement of Cash Flows* and HKAS 33 *Earnings per Share* are also made. HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. HKFRS 18 requires retrospective application with specific transition provisions. The application of HKFRS 18 is not expected to have significant impact on the financial performance and positions of the Group in terms of recognition and measurement. However, it is expected to affect the structure and presentation of the consolidated statement of profit or loss. Additional disclosures required for the Group's MPMs will be disclosed in a separate note to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange and by the Hong Kong Companies Ordinance.

The directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

3.2 Material accounting policy information

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Business combinations

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

3.2 Material accounting policy information (Continued)

Business combinations (Continued)

The identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the *Conceptual Framework for Financial Reporting* (the “**Conceptual Framework**”) except for transactions and events within the scope of HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or HK(IFRIC)-Int 21 *Leases*, in which the Group applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 at the acquisition date;
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer’s previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer’s previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

For the year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

3.2 Material accounting policy information (Continued)

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or group of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On disposal of the relevant cash-generating unit or any of the cash-generating unit within the group of cash-generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit (or a cash-generating unit within a group of cash-generating units), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cash-generating unit (or the group of cash-generating units) retained.

Non-current assets held for sale

Non-current assets (and disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in the relevant subsidiary after the sale.

When the Group is committed to a sale plan involving disposal of an investment, or a portion of an investment, in an associate or joint venture, the investment or the portion of the investment that will be disposed of is classified as held for sale when the criteria described above are met, and the Group discontinues the use of the equity method in relation to the portion that is classified as held for sale from the time when the investment (or a portion of the investment) is classified as held for sale.

Non-current assets held for sale (Continued)

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell, except for financial assets within the scope of HKFRS 9, investment properties which continue to be measured in accordance with the accounting policies as set out in respective sections.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good and service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control of the goods or service may be transferred over time or at a point in time. Revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of distinct good or service.

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

Revenue from contracts with customers (Continued)

The Group recognises revenue from the following goods and services:

(i) *Sale of goods*

The Group manufactures and sells inflatable products and related accessories. Revenue is recognised when the control of the products is considered to have been transferred to the customers.

Revenue from the sale of products is recognised when control of the products has transferred, being at the point the products are delivered to the customers and the customers have full discretions to sell the products and no unfulfilled obligation that could affect the customer's acceptance of the products.

Revenue from these sale is recognised based on the price specified in the contract, net of returns and value added taxes.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

A contract liability is recognised when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognises the related revenue. The Group recognised its contract liabilities under trade and other payables as receipt in advance from customers in the consolidated statement of financial position.

(ii) *Provision of sub-contracting services*

Revenue from providing services is recognised in the accounting period in which the services are rendered.

Revenue from provision of sub-contracting services is recognised based on the actual service provided.

(iii) *Provision of dental clinic services*

Revenue from the rendering of dental services is recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group.

Revenue from the rendering of orthodontics and implantology dentistry services is recognised over time using an input method to measure progress towards complete satisfaction of the service. The input method recognises revenue on the basis of the staff costs and/or costs of inventories, consumables and customised products, where appropriate, relative to the total expected costs to complete the service. When the payments received from customers exceed the services rendered, a contract liability is recognised.

Revenue from the rendering of general and other dentistry services is recognised when the services have been rendered given that such dental services are generally completed within a very short period of time.

(iv) Sale of dental related products

Revenue from sale of medical equipment and dental materials is recognised when the control of the products is considered to have been transferred, being when the goods are delivered and accepted by the customers.

(v) Sale of yarn and polyester

Revenue from sale of yarn and polyester is recognised when the control of the products is considered to have been transferred, being when the goods are delivered and accepted by the customers.

Refund liabilities

The Group recognises a refund liability if the Group expects to refund some or all of the consideration received from customers.

Sale with a right of return

For a sale of products with a right of return, the Group recognises all of the following:

- (a) revenue for the transferred products in the amount of consideration to which the Group expects to be entitled (therefore, revenue would not be recognized for the products expected to be returned);
- (b) a refund liability; and
- (c) an asset (and corresponding adjustment to cost of sales) for its right to recover products from customers.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assess whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed. As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the group reasonably expects that the effects on the consolidated financial statements would not differ materially from individual leases within the portfolio.

Leases (Continued)

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Non-lease components are separated from lease component and are accounted for by applying other applicable standards.

Short-term leases and leases of low-value assets

The Group apply the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on a short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date less any lease incentive received;
- any initial direct costs incurred by the Groups; and
- an estimate of costs to be incurred by the Groups in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payment (including in-substance fixed payments) less any lease incentives receivables;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of an option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- The lease payments change due to changes in market rental rates following a market rent review/ expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Leases (Continued)

The Group as a lessee (Continued)

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise, except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal.

Foreign currencies (Continued)

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rate for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currency translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (that is a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use of sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Retirement benefit costs

Payments to the defined contribution benefit plans are recognised as an expense when employees have rendered services entitling them to the contributions.

Obligations for contributions to retirement plans, including contributions payable under the Hong Kong Provident Fund Schemes Ordinance and the PRC central pension scheme, are recognised as an expense in profit or loss as incurred.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS Accounting Standards requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before tax as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

Taxation (Continued)

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Property, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bring the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management and, for qualifying assets, borrowing costs capitalised in accordance with Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment on property, plant and equipment, right-of-use assets and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets, and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash generating-unit) for which the estimates of future cash flows have not been adjusted.

Impairment on property, plant and equipment, right-of-use assets and intangible assets other than goodwill (Continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each assets in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. Such overdrafts are presented as short-term borrowings in the consolidated statement of financial position.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Classification and subsequent measurement of financial assets

Financial assets that meets the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application/ initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Classification and subsequent measurement of financial assets (Continued)

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. For financial instruments other than purchase or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the “other income and gains” line item.

Impairment of financial assets subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade receivables, deposits and other receivables and cash and bank balances) which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

Impairment of financial assets subject to impairment assessment under HKFRS 9 (Continued)

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instruments' external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payment are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Impairment of financial assets subject to impairment assessment under HKFRS 9 (Continued)

(i) Significant increase in credit risk (Continued)

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of “investment grade” as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the net cash flows that the Company expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables where the corresponding adjustments is recognised through a loss allowance account.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. Specifically:

- For financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the 'Other income and gains' line item as part of the net foreign exchange gains;
- For financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the 'Other income and gains' line item as part of the gain on fair value changes of financial assets at fair value through profit or loss.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivables is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Financial liabilities and equity (Continued)

Financial liabilities at amortised cost

Financial liabilities including trade and other payables, amount due to a shareholder and bank borrowings are subsequently measured at amortised cost using the effective interest method.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the 'Other income and gains' line item in profit or loss as part of net foreign exchange gains for financial liabilities that are not part of a designated hedging relationship.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period.

Derecognition of financial liabilities

The Group derecognises a financial asset when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Offsetting a financial asset and a financial liability

A financial asset and a financial liability are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis.

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Impairment loss on trade and other receivables

The Group estimates the amount of loss allowance for ECLs on trade and other receivables that are measured at amortised cost based on the credit risk of the respective financial instruments. The loss allowances for trade and other receivables are based on assumptions about risk of default and expected loss rates. The Group use judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the client's past history collection record, existing market conditions as well as forward looking estimates at the end of each reporting period. Management reassesses the loss allowances at each reporting period.

Impairment assessment of goodwill and other non-financial assets

The Group tests at least annually whether goodwill has suffered any impairment. Other non-financial assets (including property, plant and equipment, right-of-use assets and other intangible assets) that are subject to depreciation and amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset or a cash-generating unit have been determined based on value in use calculations. These calculations require the use of estimates.

Management prepares discounted future cash flows to assess the difference between the carrying amount and their value in use and provided for impairment loss. Any change in the assumptions adopted in the discounted cash flows would increase or decrease in the impairment loss and affect the Group's net asset value and profit or loss.

5. SEGMENT INFORMATION

HKFRS 8, Operating Segments, requires identification and disclosure of operating segment information based on internal financial reports that are regularly reviewed by the executive directors of the Company, being the chief operating decision maker ("CODM"), for the purpose of resources allocation and performance assessment.

For the purpose of resource allocation and performance assessment, management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment.

Specifically, the Group's business activities are operated and managed as three segments as follows:

- (i) Inflatable products business – manufacturing and sales of inflatable products and related accessories;
- (ii) Dental clinic business – provision of dental clinic services and sales of dental related products in the PRC; and
- (iii) Yarn and polyester business – sales of yarn and polyester.

6. REVENUE (Continued)

Revenue from the rendering of orthodontics and implantology dentistry services is recognised over time using an input method to measure progress towards complete satisfaction of the service. The Group determined that the input method is the best method in measuring the progress of orthodontics and implantology dentistry services because there is a direct relationship between the Group's effort and the transfer of services to the customer.

Revenue from the rendering of general and other dentistry services is recognised when the services have been rendered given that such services are generally completed within a very short period of time.

Liabilities related to contracts with customers

The following table shows the amount of revenue recognised in the current reporting period that was included in the contract liabilities at the beginning of the reporting period:

	2025 RMB'000	2024 RMB'000

15. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment are depreciated on a straight-line basis over their useful lives as follows:

Leasehold improvements	Over the shorter of the term of the lease, and 2 to 10 years
Plant and machinery	6 to 10 years
Medical equipment	7 to 10 years
Motor vehicles	5 years
Furniture, fixture and equipment	3 to 10 years

Impairment assessment of property, plant and equipment, right-of-use assets and intangible assets

During the year ended 31 December 2025, the Group's operation of inflatable products business was adversely affected by the implementation of heightened trade tariffs and a subsequent reduction in sales order from the American market. Because of worse-than expected performance of the inflatable products business operation and the loss sustained by the Group, management considered certain property, plant and equipment, right-of-use assets and other intangible assets of the Group were subject to impairment at 31 December 2025 and performed an impairment assessment.

For the purpose of impairment testing, property, plant and equipment, right-of-use assets and intangible assets for the Group's inflatable products business operation have been considered as one cash-generating unit ("**Inflatable products business CGU**") as these assets are related to the inflatable products business operation. The recoverable amount has been determined based on the value in use calculation. Management uses cash flow projections based on the most recent financial budget after taking into accounts the operation environment and market conditions at the point of time and covering a five-year period. Cash flow beyond the five-year period are extrapolated using the growth rate of 2%. The key assumptions for the value in use calculation are those regarding the discount rate, revenue and direct costs. As at 31 December 2025, management estimates the discount rate of 24.6% using pre-tax rate that reflect current market assessments of the time value of money and the risks specific to the cash-generating unit. Changes in revenue and direct costs are based on past experience and expectations of changes in market.

Based on the impairment assessment, impairment loss of approximately RMB2,888,000, RMB15,399,000 and RMB32,000 were recognised on property, plant and equipment, right-of-use assets and other intangible assets respectively relating to the inflatable products business CGU in profit or loss during the year ended 31 December 2025 in order to write down the carrying amount of the property, plant and equipment, right-of-use assets and other intangible assets to their recoverable amounts.

During the year ended 31 December 2025, the Group has performed impairment assessment to the goodwill. Certain property, plant and equipment of the Group as disclosed above are allocated to the dental clinic business CGU and yarn and polyester business CGU for impairment assessment (Note 17). Based on the impairment assessed conducted by management, there's no impairment recognised on these property, plant and equipment as at 31 December 2025 (2024: Nil).

Impairment test for cash generating units containing goodwill

The goodwill of RMB883,000 arose from the acquisition of the entire equity interest in Hong Kong Taixing Holding Co., Limited and its subsidiaries during the year ended 31 December 2024 and the goodwill of RMB14,379,000 arose from the acquisition of HongKong Eko Holding Co., Limited and its subsidiary during the year ended 31 December 2023.

For the purposes of impairment testing, goodwill is allocated to the Group's cash generating units ("CGUs") identified as follows:

	2025 RMB'000	2024 RMB'000
Dental clinic business	14,379	14,379
Yarn and polyester business	883	883
	15,262	15,262

In addition to goodwill above, property, plant and equipment and right-of-use assets that generate cash flows together with the related goodwill are also included in the above CGUs for the purpose of impairment assessment.

17. GOODWILL (Continued)

Dental clinic business CGU

The recoverable amount has been determined based on the value in use calculation with reference to valuation performed by an independent professional valuer. Management uses cash flow projections based on the most recent financial budget after taking into accounts the operation environment and market conditions at the point of time and covering a five-year period. Cash flow beyond the five-year period are extrapolated using the growth rate of 2% (2024: 2%). The key assumptions for the value in use calculation are those regarding the discount rate, revenue and direct costs. As at 31 December 2025, management estimates the discount rate of 18% (2024: 16%) using pre-tax rate that reflect current market assessments of the time value of money and the risks specific to the cash-generating unit. Changes in revenue and direct costs are based on past experience and expectations of changes in market.

For the year ended 31 December 2025, management of the Group determines that there is no impairment on the dental clinic business CGU. Management believes that a reasonably possible change in the assumptions would not cause the carrying amount of the dental clinic business CGU to exceed the recoverable amount of the CGU.

For the year ended 31 December 2024, based on the impairment assessment conducted by management, impairment loss of approximately RMB7,200,000 was recognised on goodwill in profit or loss during the year ended 31 December 2024 in order write down the carrying amount of goodwill to its recoverable amount.

Yarn and polyester business CGU

The recoverable amount has been determined based on the value in use calculation with reference to valuation performed by an independent professional valuer. Management uses cash flow projections based on the most recent financial budget after taking into accounts the operation environment and market conditions at the point of time and covering a five-year period. Cash flow beyond the five-year period are extrapolated using the growth rate of 2% (2024: 2%). The key assumptions for the value in use calculation are those regarding the discount rate, revenue and direct costs. As at 31 December 2025, management estimates the discount rate of 16% (2024: 15%) using pre-tax rate that reflect current market assessments of the time value of money and the risks specific to the cash-generating unit. Changes in revenue and direct costs are based on past experience and expectations of changes in market.

During the years ended 31 December 2025 and 2024, management of the Group determined that there's no impairment on the yarn and polyester business CGU. Management believes that a reasonably possible change in the assumptions would not cause the carrying amount of the yarn and polyester business CGU to exceed the recoverable amount of the CGU.

Dental clinic business	10,448	13,545
Yarn and polyester business	2,704	5,290
	31,863	33,775

The credit terms granted to customers are varied and are generally the result of negotiations between individual customers and the Group. The Group generally allows credit period ranging from 0 to 270 days. No interest is charged on overdue receivables.

The management closely monitors the credit quality of trade receivables and considers the trade receivables that are neither past due nor impaired to be of a good credit quality. Trade receivables that are neither past due nor impaired relate to a number of independent customers with good settlement history.

The Group applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which requires the use of the lifetime expected credit loss provision for trade receivables. Details of which are set out in note 35 to the consolidated financial statements.

At 31 December 2025	(1,204)	377	(377)	(1,204)

Under the Enterprise Income Tax Law of the PRC, withholding tax is imposed on dividends declared in respect of profits earned by the PRC subsidiaries from 1 January 2008 onwards.

Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences to accumulated profits of the PRC subsidiary amounting to approximately RMB21 million (2024: RMB21 million) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

At the end of the reporting period, the Group has unused tax losses of approximately RMB39 million (2024: RMB21 million) available for offsetting against future profits and deductible temporary differences of approximately RMB44 million (2024: RMB18 million). No deferred tax asset has been recognised in respect of these unused tax losses and deductible temporary differences due to the unpredictability of future profit streams. The unused tax losses of the Group of approximately RMB34 million (2024: RMB21 million) may be carried forward for a maximum period of five years.

31. RESERVES

Share premium

Share premium is the excess of the proceeds received over the nominal value of the shares of the Company issued at a premium, less expenses incurred in connection with the issue of the shares.

Special reserve

Special reserve represents the reserve arose pursuant to the corporate reorganisation for the purpose of the listing of the Company's shares on the GEM.

Statutory reserve

In accordance with the PRC Company Law and the PRC subsidiaries' Articles of Association, every year the PRC subsidiaries are required to transfer at least 10% of the profit after taxation determined in accordance with PRC Accounting Standards to the statutory reserves until the balance reaches 50% of the registered capital. Such reserve can be used to reduce any losses incurred or to increase registered capital.

Share options reserve

The share options reserve comprises the portion of the grant date fair value of unexercised share options granted to eligible participants of the Group that has been recognised in accordance with the accounting policy adopted for share-based payments.

Foreign currency translation reserve

Exchange differences relating to the translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (i.e. RMB) are recognised directly in other comprehensive income and accumulated in the foreign currency translation reserve. Exchange differences previously accumulated in the foreign currency translation reserve in respect of translating the net assets of foreign operations are reclassified to profit or loss on the disposal of the foreign operation.

32. SHARE OPTION SCHEMES

2017 Share Option Scheme

The Company has adopted a share option scheme pursuant to a resolution passed on 15 November 2017 ("**2017 Share Option Scheme**"). The purpose of the Scheme is to attract and retain the best available personnel, to provide additional incentive to employees (full time and part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group and to promote the success of the business of the Group.

Under the 2017 Share Option Scheme, the board of directors may, at their absolute discretion and subject to the terms of the 2017 Share Option Scheme, grant options to any employees (full-time or part-time), directors, consultants or advisors of the Group, or any substantial shareholders of the Group, or any distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group, to subscribe for shares of the Company.

32. SHARE OPTION SCHEMES (Continued)

2017 Share Option Scheme (Continued)

Under the 2017 Share Option Scheme, the maximum number of shares which may be issued upon exercise of all options to be granted under the Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the shares in issue upon the date of which the shares are listed and permitted to be dealt in the Stock Exchange. The 10% limit may be refreshed at any time by approval of the Company's shareholders provided that the total number of Company's shares which may be issued upon exercise of all options to be granted under the 2017 Share Option Scheme and any other share options schemes of the Company must not exceed 10% of the Company's shares in issue as at the date of approval of the refreshed limit. Subject to the approval of the Company's shareholders, the aggregate number of the Company's shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2017 Share Option Scheme and any other schemes of the Company must not exceed 30% of the Company's shares in issue from time to time. No options may be granted under the 2017 Share Option Scheme or any other share options schemes of the Company if this will result in the limit being exceeded.

The total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) under the 2017 Share Option Scheme or any other share option schemes of the Company in any 12-month period up to date of grant shall not exceed 1% of the shares of the Company in issue. Where any further grant of options to a participant under the 2017 Share Option Scheme would result in the shares issued and to be issued upon exercise of all options granted and to be granted to such participant (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of such further grant representing in aggregate over 1% of the shares in issue, such further grant must be separately approved by shareholders of the Company in general meeting with such participant and his/her close associates abstaining from voting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or any of their respective associates must be approved by the independent non-executive directors of the Company (excluding any independent non-executive director who is the grantee). Where any share options granted to a substantial shareholder or an independent non-executive director of the Company, or any of their respective close associates would result in the total number of shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) under the Scheme and any other share option schemes of the Company to such person in any 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the shares of the Company in issue and having an aggregate value in excess of HK\$5 million must be approved by the Company's shareholders at the general meeting of the Company, with voting to be taken by way of poll.

An offer for the grant of options must be accepted within seven days inclusive of the day on which such offer was made. The amount payable by the grantee of an option to our Company on acceptance of the offer for the grant of an option is HK\$1. An option may be exercised in accordance with the terms of the 2017 Share Option Scheme at any time during a period as the directors may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

The subscription price shall be a price solely determined by the board of directors of the Company and notified to a participant and shall be at least the highest of: (i) the closing price of the Company's shares as stated in the Stock Exchange's daily quotations sheet on the offer date; (ii) the average closing prices of the Company's shares as stated in the Stock Exchange's daily quotations sheets for the 5 business days immediately preceding the date; and (iii) the nominal value of the Company's share on the offer date.

32. SHARE OPTION SCHEMES (Continued)

2017 Share Option Scheme (Continued)

The 2017 Share Option Scheme will remain in force for a period of ten years commencing on 15 November 2017 and shall expire at the close of business on the business day immediately preceding the tenth anniversary thereof unless terminated earlier by the shareholders in general meeting.

On 6 June 2025, a total of 80,000,000 share options were granted to eleven grantees at the exercise price of HK\$0.095 each to subscribe for up to 80,000,000 ordinary shares of par value at HK\$0.01 each of the Company. Each share option was eligible for subscription of one ordinary share of the Company. The share options are exercisable from 6 June 2026 to 5 June 2035 and shall be vested on 6 June 2026.

The details of the share options granted are as follows:

Date of grant	6 June 2025
Vesting period	6 June 2025 – 5 June 2026
Exercise period	6 June 2026 – 5 June 2035
Number of shares to be vested	80,000,000
Total consideration received from grant of share options	HK\$11
Fair value at grant date	RMB4,087,000

The fair value of the share options was determined at the date of grant using the Binomial Option Pricing Model (the “**Model**”). The inputs into the Model were as follows.

Closing share price at grant date	HK\$0.095
Exercise price	HK\$0.095
Expected volatility	104.98%
Expected life	10 years
Risk-free interest rate	2.8%
Expected dividend yield	Nil
Exercise multiple	1.6–2.47

The Model has been used to estimate the fair value of the options. The expected life used in the Model has been adjusted based on management’s best estimate for the effects of non-transferability, exercise restrictions and behavioural considerations. Expected volatility is based on the historical volatility of the Company’s share price, adjusted for any expected changes to future volatility based on publicly available information. Changes in variables and assumptions may result in changes in the fair value of the options.

Pursuant to the ordinary resolution passed on an extraordinary general meeting held on 29 August 2025, the Company terminated the 2017 Share Option Scheme and adopt a new share option scheme.

Upon termination of the 2017 Share Option Scheme, no further options may be granted thereunder but the provisions of the 2017 Share Option Scheme shall remain in full force and effect.

32. SHARE OPTION SCHEMES (Continued)

2025 Share Option Scheme

The Company has adopted a share option scheme pursuant to a resolution passed on 29 August 2025 ("**2025 Share Option Scheme**"). The purpose of the 2025 Share Option Scheme is to provide eligible participants with the opportunity to acquire proprietary interests in the Company and to encourage eligible participants to work towards enhancing the value of the Company and its Shares for the benefit of the Company and its shareholders as a whole, as well as to motivate eligible participants to contribute to the success of the Group's operations.

The 2025 Share Option Scheme will remain in force for a period of ten years commencing on the adoption date.

The terms of the 2025 Share Option Scheme allow the Company to, where it considers appropriate, specify a minimum holding period and performance targets which must be achieved before share options can be vested in or exercised by an option holder. Whilst there is a general rule under the 2025 Share Option Scheme that the vesting period in respect of any share option granted to any eligible participant shall not be less than 12 months from the date of acceptance of the offer, the rule of the 2025 Share Option Scheme has nonetheless retained flexibility by setting out exceptional circumstances where there may be shorter vesting periods as further set out in the 2025 Share Option Scheme. The rules of the 2025 Share Option Scheme have also set out clawback mechanisms where the Company would be able to clawback the incentives granted to such option holders who were involved in misconduct, breach of law or employment agreement. Further, the exercise price shall be at least the highest of (i) the official closing price of the shares as stated in the daily quotations sheet of the Stock Exchange on the offer date; (ii) the average of the official closing price of the shares as stated in the daily quotations sheets of the Stock Exchange for the five trading days immediately preceding the offer date; and (iii) the nominal value of the shares on the offer date. The purpose of the 2025 Share Option Scheme is to encourage eligible participants to work towards the long-term development of the Group and enhancing the value of the Company and its shares.

The total number of shares and treasury shares which may be issued/transferred upon the exercise of all share options to be granted under the 2025 Share Option Scheme and all options, awards or securities to be granted under any other share scheme(s) of the Company (the "**Other Schemes**") shall not in aggregate exceed 10% of the total number of shares in issue on the date of extraordinary general meeting (excluding any Treasury Shares) unless the Company obtains an approval from the shareholders. Options, awards or securities lapsed in accordance with the terms of the 2025 Share Option Scheme or Other Schemes shall not be counted for the purposes of calculating whether the general scheme limit have been exceeded.

Offers to grant a share option shall be open for acceptance in writing. Such acceptance must be received by the Company within such time as may be specified in the offer (which shall not be later than fourteen days from the offer date). An offer shall be deemed to have been accepted on the date when the duplicate offer document comprising acceptance of the offer is duly signed by the eligible participant with the number of shares in respect of which the offer is accepted clearly stated therein together with a remittance in favour of the Company of HK\$1.00 by way of consideration for the grant thereof. Such consideration shall not be refundable. The vesting period for share options under the 2025 Share Option Scheme shall, in principle, not be less than twelve months.

There was no share option granted to eligible participants under the 2025 Share Option Scheme during the year ended 31 December 2025 and there were no outstanding share options under the 2025 Share Option Scheme as at 31 December 2025.

The 2025 Share Option Scheme is valid for a period of ten years commencing on the adoption date of 29 August 2025 and its remaining life as at 31 December 2025 was about 9.7 years.

33. RETIREMENT BENEFIT PLANS

The Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the plans are held separately from those of the Group in funds under the control of trustees.

The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefit plans operated by the government of the PRC. The subsidiaries are required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plans is to make the specified contributions.

The total expense recognised in profit or loss of approximately RMB4,850,000 (2024: RMB4,238,000) for the year ended 31 December 2025 represents contributions payable to the plans by the Group at rates specified in the rules of the plans.

During the years ended and as at 31 December 2025 and 2024, no contribution was forfeited (by the Group on behalf of its employees who leave the defined contribution schemes prior to vesting fully in such contributions) and be used by the Group to reduce the existing level of contributions.

34. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The Group monitors its capital using a gearing ratio, which is defined as debts divided by equity attributable to owners of the Company. Debts included bank borrowings as detailed in note 28 and excluded bank borrowings classified as held for sale as detailed in note 23. Equity attributable to owners of the Company comprises issued share capital and reserves. The gearing ratio at the end of the reporting period was as follows:

	2025 RMB'000	2024 RMB'000
Debts	29	676
Equity attributable to owners of the Company	96,708	107,138
Gearing ratio	0.1%	0.6%

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

Management of the Group review the capital structure regularly taking into account the cost of capital and the risks associated with the cost of capital. The Group will balance its overall capital structure through the issuance of new shares, raise of borrowings and repayment of existing borrowings.

35. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

	2025 RMB'000	2024 RMB'000
Financial assets		
Amortised cost	73,364	104,332
Financial liabilities		
Amortised cost	54,434	60,815

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade receivables, deposits and other receivables, bank deposits with maturity period over three months, cash and bank balances, trade and other payables, amount due to a shareholder, bank borrowings and lease liabilities. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The management has been monitoring these risk exposures to ensure appropriate measures are implemented on a timely and effective manner so as to mitigate or reduce such risks.

There has been no change to the types of the Group's exposure in respect of financial instruments or the manner in which it manages and measures the risks.

Foreign currency risk management

For the year ended 31 December 2025, approximately 57% (2024: 66%) of the Group's revenue are denominated in United States dollar ("US\$"). The Group's dominant operations are in the PRC and most of the operating expenses are primarily denominated in RMB. The Group is exposed to currency risk arising from currency exposures with respect to US\$ and RMB. The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2025

35. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Foreign currency risk management (Continued)

At the end of the reporting period, the carrying amounts of the Group's major monetary assets and liabilities denominated in a currency other than the functional currencies of the relevant group entities are as follows:

	2025 RMB'000	2024 RMB'000
Assets		
US\$	39,172	45,483
Liabilities		
US\$	1,669	3,449

Since HK\$ is pegged to US\$, the directors consider that the foreign currency risk in respect of the Group's US\$ denominated monetary assets and liabilities at the end of the reporting period held under the Group's subsidiary in Hong Kong is insignificant.

Sensitivity analysis

As shown in the table below, the Group is primarily exposed to changes in RMB/USD exchange rates. The following table details the Group's sensitivity to a 5% weakening in the RMB against US\$. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rate. The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period and adjusts their translation at the end of the reporting period for a 5% change in foreign currency rate. A positive number below indicates a decrease in loss where RMB weakens against US\$. For a 5% weakening of US\$ against RMB, there would be an equal and opposite impact on the loss.

	2025 RMB'000	2024 RMB'000
US\$	711	84

For the year ended 31 December 2025

35. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Interest rate risk management

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing financial assets and financial liabilities. The Group is exposed to cash flow interest rate risk to its variable-rate bank deposits and fair value interest rate risk in relation to its fixed-rate bank deposit, bank borrowings and lease liabilities. The management considers that the exposure to interest rate risk on variable-rates bank deposits is insignificant as interest rates on bank deposits are relatively low and are not expected to change significantly. The fixed-rate instruments of the Group are insensitive to any change in market interest rates. The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

Credit risk management

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties provided by the Group is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In respect of trade receivables and deposits and other receivables, credit evaluations are performed on all customers and counterparties. These evaluations focus on the counterparty's financial position, past history of making payments and take into account information specific to the counterparty as well as pertaining to the economic environment in which the counterparty operates. Monitoring procedures have been implemented to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performed impairment assessment under ECL model on its financial assets. In this regard, management considers that the Group's credit risk is significantly reduced.

The tables below detail the credit risk exposures of the Group's financial assets which are subject to ECL assessment:

At 31 December 2025	Notes	12m or life-time ECL	Gross carrying amounts RMB'000	Loss allowance RMB'000	Net carrying amount RMB'000

For trade receivables, the Group applies the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines ECL on trade receivables from the sales of inflatable products and related accessories and sales of yarn and polyester by using provision matrix. These receivables have been grouped based on the same credit risk characteristics. The expected credit loss rates are estimated based on historical observed default rates over the expected life of the debtors and adjusted for forward-looking information that is available without undue cost of effort.

The Group performs impairment assessment under ECL model and provided impairment based on 12m ECL for deposits and other receivables, bank deposits and bank balances that the directors of the Company believe that there is no significant increase in credit risk of these amounts since initial recognition. For the other receivables which had significant increase in credit risk or credit impaired during the year, the Group provided impairment based on lifetime ECL.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies or with good reputation. The Group is also subject to concentration of credit risk arising from its trade receivables. As at 31 December 2025, trade receivables that are due from the Group's largest five customers approximate to 31% (2024: 44%).

Other than concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings or good reputation and on trade receivables as disclosed above, the Group does not have any other significant concentration of credit risk.

Liquidity risk management

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents and banking facilities deemed adequate by management to finance the Group's operations and mitigate the effects of unexpected fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, the maturity analysis for non-derivative financial liabilities is prepared based on the scheduled repayment dates.

36. ACQUISITION OF A SUBSIDIARY

Year ended 31 December 2024

On 29 January 2024, the Group completed the acquisition of the entire equity interest in HongKong Taixing at a consideration of HK\$25,600,000 which was fully settled by (i) the allotment and issue of 180,000,000 consideration shares at the issue price of HK\$0.12 per consideration share to the vendor; and (ii) the payment of cash of HK\$4,000,000 to the vendor at completion. The fair value of the consideration transferred on completion amounting to approximately RMB22,065,000. HongKong Taixing and its subsidiaries (collectively the “**HongKong Taixing Group**”) are principally engaged in sale of textile products such as polyester, yarn and knitted fabric in the PRC. The acquisition has been accounted for as acquisition of business using the acquisition method.

The following table summarises the total purchase consideration for investment, the fair value of assets acquired, and the liabilities assumed at the acquisition date:

	RMB'000
Consideration transferred	
Cash paid	3,626
Equity instruments issued	18,439
Total	22,065
Recognised amounts of identifiable assets acquired and liabilities assumed	
Property, plant and equipment (Note 15)	14
Inventories	25,142
Trade receivables	2,240
Prepayments, deposits and other receivables	6,090
Cash and bank balances	548
Trade and other payables	(11,312)
Bank borrowings	(1,540)
Total identifiable net assets	21,182
Add: Goodwill (Note 17)	883

Outflow of cash to acquire the business, net of cash acquired	
Cash consideration	3,626
Less: Cash and cash equivalents acquired	(548)
Net outflow of cash – investing activities	3,078

The acquisition of HongKong Taixing Group was aimed at allowing the Group to diversify its customer base and broaden the Group's revenue stream. The goodwill mainly represents the synergies expected to be achieved from integrating HongKong Taixing Group into the Group's existing business. None of the goodwill recognised was expected to be deductible for tax purpose.

36. ACQUISITION OF A SUBSIDIARY (Continued)

Year ended 31 December 2024 (Continued)

The acquisition-related costs amounting to approximately RMB553,000 were charged directly to administrative and other operating expenses in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2024.

The acquired business contributed revenue of approximately RMB33,718,000 and net loss of approximately RMB549,000 to the Group for the year from date of acquisition to 31 December 2024. If the acquisition had occurred from 1 January 2024, consolidated revenue and consolidated loss for the year of the Group for the year ended 31 December 2024 would have been approximately RMB234,681,000 and RMB16,216,000 respectively.
