2025 Annual Report

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of JLogo Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading, and all opinions expressed in this report have been arrived at after due and careful consideration and are founded on basis and assumptions that are fair and reasonable.*

CHAIRLADY STATEMENT

Dear Valued Shareholders,

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of JLogo Holdings Limited (the “**Company**”) and together with its subsidiaries (collectively, the “**Group**”), I am pleased to present the annual results of the Group for the year ended 31 December 2025.

During the year ended 31 December 2025, we see supply chains continue to be stifled and together with the continuous energy crises, freight hikes, sanctions and counter sanctions, and the consequential outcome is the high inflation we are experiencing now not only in Singapore but a global trend.

Our Group continues to suffer losses due mainly to higher rental rates and wages, as well as oversupply and influx of more F&B competitors vying for this limited market share. Consumers are increasingly price sensitive due to high inflationary pressures.

We acknowledge the challenges ahead and are committed to managing our resources and capital more prudently to ensure sustainability and business growth. We pledge to remain agile and adaptive in response to the constantly evolving market landscape. When approaching expansion opportunities, we will proceed with caution and prudence.

FINANCIAL PERFORMANCE

Our revenue decreased by approximately S\$2.85 million or 20.3% from approximately S\$14.06 million for the year ended 31 December 2024 to S\$11.21 million for the year ended 31 December 2025. Revenue from our Singapore operations decreased by 26.7% to S\$6.74 million mainly attributable to a reduction in the number of operating restaurant outlets following the closure of outlets amid a softer economic environment in Singapore. Whereas revenue from our Malaysia operations decreased by 8.0% to S\$4.47 million primarily attributable to more cautious consumer spending and a softer operating environment in Malaysia.

Our Group recorded a loss of approximately S\$1.52 million and S\$2.55 million for the year ended 31 December 2025 and 2024, respectively. The decrease in losses was mainly attributable to lower impairment losses on assets, the implementation of cost-control measures and the closure of outlets, which reduced loss-making operations and associated operating costs.

CHAIRLADY STATEMENT

OUTLOOK OF THE GROUP

The Group operates in Singapore and Malaysia, two markets that continue to present both opportunities and challenges for the food and beverage industry. Over the past year, the operating environment has remained demanding, particularly in Singapore, where elevated cost of living, persistent inflationary pressures and a tight labour market have weighed on consumer spending and business performance. Rental costs, manpower expenses, utilities and raw material prices have all trended upward in particular wages, placing sustained pressure on operating margins across the sector. In Malaysia, while operating costs are relatively more moderate, the business continues to be influenced by currency fluctuations, input cost volatility and evolving consumer preferences.

Against this backdrop, the Group undertook a consolidation exercise during the financial year, which included the shutter of seven underperforming restaurants in Singapore and two bakery outlets in Malaysia albeit we added two new restaurants with greater caution. These actions were part of a deliberate effort to streamline operations, strengthen the overall portfolio, and reallocate resources towards outlets and concepts with stronger fundamentals. As a result, the Group has made meaningful progress in reducing losses and improving operational discipline.

During the financial year, trading in the Company's shares on The Stock Exchange of Hong Kong Limited has been suspended since April 2025. The Company has been actively working towards fulfilling the resumption requirements and has submitted an application to the Stock Exchange for the resumption of trading. These efforts are aligned with the Group's broader initiatives to stabilise operations, strengthen its financial position and reinforce governance standards. The Board remains committed to taking the necessary steps to achieve a timely resumption and to safeguarding the interests of shareholders.

Looking ahead, the near-term outlook for the F&B sector in the region is expected to remain challenging. Consumer sentiment may continue to be cautious amid ongoing economic uncertainties and rising living costs, particularly in Singapore. The competitive landscape is also expected to remain intense, with operators competing on both pricing and value offerings.

Moving ahead, the Group will continue to prioritise operational efficiency, cost management and portfolio optimisation. In light of the current challenges the Group is facing, we will also adopt a more measured and disciplined approach towards expansion, focusing on sustainable growth opportunities while remaining agile in responding to market conditions.

Notwithstanding the current headwinds, the Group remains confident in the long-term fundamentals of the markets in which it operates. While the F&B industry remains challenging, it will always be an essential part of everyday life and a fundamental component of any society. The dynamic and evolving nature of F&B continues to drive innovation in concepts, offerings and dining experiences, which in turn sustains consumer interest and engagement. The Group believes that this inherent resilience and adaptability will continue to support long-term demand for well-positioned and relevant F&B concepts.

With an established presence, a diversified portfolio of concepts, and a continued focus on operational resilience, the Group is well-positioned to navigate the challenges ahead while pursuing sustainable value creation over the longer term.

CHAIRLADY STATEMENT

APPRECIATION

As we welcome our new staff who joined us this year, I would like to express my utmost appreciation to my management team and all our staff for their hard work and relentless commitment to the Group.

I am very grateful to all members of our Board for their continuous support and professional advice towards our vision and mission, and all other professional parties with their strategic counsel through our journey. In addition, the Company would not have made it here today, as a listed entity, without the assistance and support from our various business partners, suppliers and vendors. Thank you very much indeed.

Last but not least, I would like to extend my warmest appreciation to all our valued shareholders for your unwavering faith and trust in us as we work towards generating better positive shareholder returns in a longer term and sustainable future.

Yours sincerely,

LOW Yeun Ching @ Kelly Tan

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We are a food and beverage group which owns and operates award-winning restaurants in Singapore under different brands and owns one of the largest artisanal bakery chains in Malaysia in terms of revenue and the number of bakery retail outlets in Malaysia. We operate our dining operations in Singapore under three self-owned brands and one franchised brand. Our “Central Hong Kong Café” brand (closed in June 2025) is primarily focused on offering a casual and authentic Cha Chaan Teng experience in a full service environment. Our “Black Society” brand offers Chinese cuisines with a contemporary twist in a full service environment. Our “MASA by Black Society” is a sub-brand of Black Society and focuses on artisanal dimsum in a café setting. Our self-owned “Crazy Rich Thai” brand (closed in August 2025) offers a unique selection of specialised Thai dishes with innovative and creative twists. Our “Happy Lili Hong Kong Café” brand (launched in 2024) offers classic Hong Kong day to day cuisine. Our “Tivoli Coffee House” restaurant (launched in 2025) offers both Western and local dishes to cater to the diverse demography at this location which are mainly tourists. Our artisanal bakery chain in Malaysia offers a wide selection of artisan breads, pastries and cakes under our “Bread Story” brand.

FINANCIAL REVIEW

Revenue

Our revenue decreased by approximately S\$2.85 million or 20.3% from approximately S\$14.06 million for the year ended 31 December 2024 to S\$11.21 million for the year ended 31 December 2025. Revenue from our Singapore operations decreased by 26.7% to S\$6.74 million mainly attributable to a reduction in the number of operating restaurant outlets following the closure of outlets amid a softer economic environment in Singapore. Whereas revenue from our Malaysia operations decreased by 8.0% to S\$4.47 million primarily attributable to more cautious consumer spending and a softer operating environment in Malaysia.

Cost of inventories sold and consumed

Our cost of inventories sold and consumed decreased by approximately S\$0.95 million or 22.0% from approximately S\$4.31 million for the year ended 31 December 2024 to approximately S\$3.36 million for the year ended 31 December 2025. The decrease in food costs was mainly due to lower inventories sold and consumed directly related to the decrease in revenue.

Other income and gain, net

Our other income and gain, net primarily consisted of rewards or subsidies under the Special Employment Credit Scheme, Wage Credit Scheme, Jobs Growth incentive and Senior Worker Employment Grant given by the Singapore government and gain on termination of leases. Our other income decreased by approximately S\$0.33 million or 47.1% from approximately S\$0.70 million for the year ended 31 December 2024 to approximately S\$0.37 million for the year ended 31 December 2025. The decrease was mainly due to the decrease from one-off of gain on termination of leases recognised during the year ended 31 December 2024.

MANAGEMENT DISCUSSION AND ANALYSIS

Depreciation of property, plant and equipment

Depreciation of property, plant and equipment increased by approximately S\$0.08 million or 14.0% from approximately S\$0.57 million for the year ended 31 December 2024 to approximately S\$0.65 million for the year ended 31 December 2025. The increase was mainly attributable to additions of property, plant and equipment for new outlets during the year ended 31 December 2025.

Impairment loss on property, plant and equipment and right-of-use assets

In light of operating losses incurred by the Group in recent years and unfavorable market conditions, the Directors considered that property, plant and equipment and right-of-use assets of the Group relating to the dining operations and artisanal bakery business as at 31 December 2025 might be impaired. In view of this, the Directors have assessed whether property, plant and equipment for its restaurants and bakery outlets that are reporting losses have an indication of impairment, on an individual basis. Where there is an indication of impairment, management determined the recoverable amounts of the property, plant and equipment and right-of-use assets for its restaurants and bakery outlets that are reporting losses based on value in use calculations using cash flow projections on an individual basis (if applicable).

Except for a restaurant which was identified as irrecoverable under operation and impairment losses of approximately S\$0.12 million were recognised in profit or loss in respect of right-of-use assets during the year ended 31 December 2025, based on the assessment, the recoverable amounts of a restaurant in relation to the Dining operations and bakery outlets in relation to the Artisanal bakery business with impairment indications at 31 December 2025 based on the value in use calculation exceed their carrying amounts and therefore no impairment loss was recognised during the year ended 31 December 2025.

Other operating expenses

Other operating expenses primarily consist of legal and professional fees, cleaning fee, repair and maintenance expenses, kitchen and bar utensils expenses, bank charges relating to credit card settlement, unrealised foreign currency exchange losses and other miscellaneous expenses. Our other operating expenses had decreased by approximately S\$0.47 million or 24.5% from approximately S\$1.92 million for the year ended 31 December 2024 to approximately S\$1.45 million for the year ended 31 December 2025 mainly attributable to a reduction in the number of operating outlets and cost-control measures implemented by the management.

MANAGEMENT DISCUSSION AND ANALYSIS

Loss for the year

Our Group recorded a loss of approximately S\$1.52 million and S\$2.55 million for the year ended 31 December 2025 and 2024, respectively. The decrease in losses was mainly attributable to lower impairment losses on assets, the implementation of cost-control measures and the closure of outlets, which reduced loss-making operations and associated operating costs.

LIQUIDITY, FINANCIAL AND CAPITAL RESOURCES

Cash position

As at 31 December 2025, the Group had cash and cash equivalents of approximately S\$0.29 million (31 December 2024: approximately S\$0.53 million), which were mainly denominated in Singapore dollar, Malaysia ringgit, Hong Kong dollar and Renminbi.

As at 31 December 2025, the Group's net current liabilities were approximately S\$10.76 million (31 December 2024: approximately S\$9.43 million). The Group's current ratio as at 31 December 2025, being the ratio of total current assets to total current liabilities, was approximately 0.10 as compared to approximately 0.16 as at 31 December 2024.

Our Group had net cash flow from operating activities of approximately S\$1.74 million for the year ended 31 December 2025. Barring the effect of IFRS16 depreciation of right-of-use assets of approximately S\$2.32 million, it would have been a net cash flow used in operating activities of approximately S\$0.58 million as a result of the operating losses.

Net cash flow used in investing activities was approximately S\$0.21 million for the year ended 31 December 2025. Net cash flow was used primarily on (i) renovation and rebranding of our new restaurants amounting to S\$0.33 million, offset against the (ii) decrease in fixed deposits pledged to bank for banking facilities amounting to S\$0.12 million as a result of less cash is required to cure the breach due to repayment of loan during the year ended 31 December 2025.

Net cash flow used in financing activities was approximately S\$1.91 million for the year ended 31 December 2025. Net cash flow was used in: (i) repayment of lease liabilities of approximately S\$3.11 million; (ii) repayment of bank loans of approximately S\$0.86 million, offset against the (iii) advance from a director of approximately S\$0.71 million; (iv) proceed from bank borrowings of approximately S\$1.22 million; and (v) proceed from other borrowings of approximately S\$0.13 million.

Our restricted cash represents fixed deposits pledged to the bank and financial institutions. The Group is restricted to use the cash of approximately S\$0.08 million as at 31 December 2025 (31 December 2024: approximately S\$0.20 million).

The Group has adopted a prudent financial management approach towards its financial and treasury policies and thus maintained a healthy liquidity position since the Listing. The management closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time. The Group will utilise the balance of cash for appropriate investment in accordance with the Group's strategic direction and development.

Borrowings

As at 31 December 2025, the Group had interest-bearing borrowings and bank overdrafts of approximately S\$3.72 million (31 December 2024: approximately S\$3.10 million) which were denominated in Singapore dollar. The interest-bearing borrowings and bank overdrafts of approximately S\$2.19 million (31 December 2024: approximately S\$1.40 million) were accounted for the current liabilities of the Group and repayable on demand or within one year. Particulars of the Group's interest-bearing borrowings and bank overdrafts as at 31 December 2025 and 31 December 2024 (including their nature, currency involved, maturity profile and interest rate structure) are set out in Note 21 to the consolidated financial statements.

MANAGEMENT DISCUSSION AND ANALYSIS

Gearing ratio

Gearing ratio is measured by interest-bearing borrowings and bank overdrafts divided by the total equity. The gearing ratio is (50.5)% as at 31 December 2025 (31 December 2024: (50.7%)).

Capital expenditure and commitment

During the year ended 31 December 2025, our capital expenditures amounted to approximately S\$0.81 million which consisted primarily renovation and rebranding of our new restaurants (31 December 2024: approximately S\$1.43 million). These capital expenditures were mainly funded by our internal resources. The Group has no capital commitment during the year ended 31 December 2025 (31 December 2024: nil).

Risk of exchange rate fluctuation

The Group has currency exposures arising from sales and purchases that are denominated in a currency other than the functional currency of the Group. Although the Group does not have a foreign exchange hedging policy and does not use any financial instruments, currency borrowings or other hedging instruments to mitigate such exposure, the management monitors the Group's foreign exchange exposure closely and may, depending on the circumstances and trend of foreign currency, consider adopting significant foreign currency hedging policy and measures in the future.

Contingent liabilities

As at 31 December 2025, the Group had no contingent liabilities (31 December 2024: nil).

Charge on assets

The Group's hire purchase loan is secured by a charge over the assets which had a carrying amount of approximately S\$0.10 million as at 31 December 2025 (31 December 2024: approximately S\$0.10 million).

The bank loans of the Group are collectively secured by way of corporate guarantee by the Company, personal guarantee by a director and mortgage over the property with a net carrying amount of approximately S\$1.47 million as at 31 December 2025 (31 December 2024: S\$1.50 million) and pledged deposits approximately S\$0.01 million as at 31 December 2025 (31 December 2024: S\$0.20 million)

There was no further charge on assets of the Group created for the year ended 31 December 2025.

Employees and remuneration policy

As at 31 December 2025, the Group had a total number of 169 full-time employees (31 December 2024: 203) in Singapore and Malaysia.

The remuneration packages of all employees are determined based on factors such as the employees' individual qualifications, contribution to the Group, performance and years of work experience.

The Group provides ongoing training to our staff covering different aspects based on their operational responsibilities, including food ingredients preparation and preservation, customer service, hygiene requirements of the kitchen and dining areas, and quality control.

Events after the reporting period

There were no significant events after the reporting period up to the date of this report.

Pursuant to paragraph F.(a) of the Corporate Governance Code and Corporate Governance Report as set out in Appendix C1 of the GEM Listing Rules (the “**CG Code**”), an issuer can engage an external service provider as its company secretary, provided that the issuer should disclose the identity of a person with sufficient seniority at the issuer whom the external provider can contact. In this respect, the Company has nominated Ms. LOW Yeun Ching @ Kelly Tan, chairlady of the Board and chief executive officer of the Company as its contact point for Mr. Chan.

CORPORATE GOVERNANCE REPORT

COMPLIANCE WITH CORPORATE GOVERNANCE CODE

The Company is committed to achieving high standards of corporate governance. The Directors believe that sound and reasonable corporate governance practices are essential for the continuing growth of the Group and for safeguarding and maximising shareholders' interests.

Pursuant to code provision C.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. However, we do not have a separate chairlady and chief executive officer and Ms. Low Yeun Ching @ Kelly Tan currently performs these two roles. Our Board believes that vesting the roles of both chairlady and chief executive officer in the same person has the benefit of ensuring consistent leadership within our Group and enables more effective and efficient overall strategic planning of our Group. Our Board considers that the balance of power and authority for the present arrangement will not be impaired and this structure will enable our Company to make and implement decisions promptly and effectively. Our Board will continue to review and consider splitting the roles of chairlady of our Board and chief executive officer of our Company at a time when it is appropriate and suitable by taking into account the circumstances of our Group as a whole.

Save as disclosed above, the Directors consider that throughout the year ended 31 December 2025, the Company has applied the principles and complied with all the applicable code provisions set out in the CG Code.

COMPLIANCE WITH THE MODEL CODE FOR DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the code of conduct for securities transactions by Directors on terms equivalent to the Rules 5.48 to 5.67 of the GEM Listing Rules (the "**Model Code**"). The Company had made specific enquiries with written guidelines in relation to the Model Code to all Directors and all Directors have confirmed that they complied with the required standards set out in the Model Code from the Listing Date up to the date of this report.

THE BOARD OF DIRECTORS

THE BOARD

As at the date of this report, the Board comprises the following directors:

Executive Directors

Ms. LOW Yeun Ching @ Kelly Tan (*Chairlady and Chief Executive Officer*)

Mr. Sean LOW Yew Hong (Sean Liu Yaoxiong)

Mr. CHIU Ka Wai

Mr. WU Guangliang

CORPORATE GOVERNANCE REPORT

Independent non-executive Directors

Mr. John Chi Chung MAN

Mr. KHOR Khie Liem Alex

Mr. LEYNG Thai Weng

The overall management of the Company's business is vested in the Board, which assumes the responsibility for leadership and control of the Company and the Directors are collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs and overseeing the achievement of strategic plans to enhance shareholders' value.

Generally, the Board is responsible for all major aspects of the affairs of the Company, including:

- formulation of overall strategies and review of its financial performance and results and the internal control systems;
- policies relating to key business and financial objectives of the Company;
- material transactions, including acquisition, investment, disposal of assets or capital expenditure;
- appointment, removal or reappointment of Board members and auditors;
- communication with key stakeholders, including shareholders and regulatory bodies; and
- recommendation to shareholders on final dividend and the declaration of any interim dividends.

The Board is responsible for maintaining proper accounting records so as to enable the Directors to monitor and disclose with reasonable accuracy the financial position of the Group. The Board updates the Company's shareholders (the "**Shareholders**") on the operations and financial position of the Group through quarterly, interim and annual results announcements as well as the publication of timely reports and announcements of other matters as prescribed by the relevant laws, rules and regulations.

Directors are also provided with access to independent professional advice, where necessary, in carrying out their obligations as Directors, at the expense of the Company.

All Directors, including independent non-executive Directors assume the responsibilities to Shareholders for the well-being and success of the Company. They are aware of their duties to act in good faith and in the best interests of the Company.

The executive Directors are delegated with responsibility to oversee and monitor the operation of specific business areas and to implement the strategies and policies set by the Board.

The non-executive Directors (including the independent non-executive Directors), advise the Company on strategic and critical matters. The Board considers that each non-executive Director brings his own senior level of experience and expertise to the constructive functioning of the Board. To this end, regular informal meetings are held between the executive Directors and non-executive Directors. The Chairlady held meetings with the non-executive Directors at least annually without presence of the executive Directors to evaluate the functioning of the Board.

Each of the Directors has entered into a service contract or has signed a letter of appointment with the Company for an initial term of three years until terminated by either party giving not less than three months' written notice to the other expiring at the end of the initial term of their appointment or any time thereafter. The appointments are subject to the provisions of the Articles of Association of the Company with regard to vacation of office of Directors, removal and retirement by rotation of Directors.

CORPORATE GOVERNANCE REPORT

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

Each of the independent non-executive Directors has made written annual confirmation of his independence pursuant to Rule 5.09 of the GEM Listing Rules. Upon review, the Board concluded that all the independent non-executive Directors are independent within the meaning of the GEM Listing Rules.

CHAIRLADY AND CHIEF EXECUTIVE

Pursuant to code provision C.2.1 set out in the CG Code, the roles of chairlady and chief executive officer should be separate and should not be performed by the same individual. Ms. Low is currently the chairlady and chief executive officer of our Group. Our Board believes that vesting the roles of both chairlady and chief executive officer in the same person has the benefit of ensuring the consistent leadership within our Group and enables more effective and efficient overall strategic planning of our Group. Our Board considers that the balance of power and authority for the present arrangement will not be impaired and this structure will enable our Company to make and implement decisions promptly and effectively. Our Board will continue to review and consider splitting the roles of chairlady of our Board and chief executive officer of our Company at a time when it is appropriate and suitable by taking into account the circumstances of our Group as a whole.

CORPORATE GOVERNANCE REPORT

DIVERSITY AT WORKFORCE LEVEL

The Group is committed to practices fair employment and provides equal opportunities to all our employees while the Group do not base its hiring preferences on gender, age, marital status, race, religion or nationality and strongly believe that diversity within the Group's workforce promotes creativity and sharing of knowledge and ideas.

As of 31 December 2025, the gender ratio of the Group's workforce was approximately 50% male to 50% female. The Board considered that the Group has achieved gender diversity across the workforce.

ACCOUNTABILITY AND AUDIT

The Board acknowledges its responsibility to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group. The Board is not aware of any material uncertainties relating to events or condition that might cast significant doubt upon the Company's ability to continue in business. Accordingly, the Board has prepared the financial statements of the Company on a going concern basis. The Board also acknowledges its responsibility to present a balanced, clear and understandable assessment in the Company's annual, half-yearly and quarterly reports, other price-sensitive announcements and other financial disclosures required under the GEM Listing Rules, and reports to the regulators as well as to information required to be disclosed pursuant to statutory requirements.

The responsibility of the independent auditor is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion to the Shareholders. A statement by auditor about their reporting responsibility is set out in the Independent Auditor's Report. There is no disagreement between the Board and the Audit Committee on the selection, appointment, resignation or dismissal of external auditors.

Having made appropriate enquiries and examined major areas which could give rise to significant financial exposures, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements for the year, the Directors considered the Group has applied appropriate accounting policies consistently, made judgments and estimates that are reasonable in accordance with applicable accounting standards.

The financial results and reports were published within the time limits as required under the GEM Listing Rules after the end of the relevant periods to provide stakeholders with transparent and timely financial information.

CORPORATE GOVERNANCE FUNCTION

No corporate governance committee has been established and the Board is responsible for performing the corporate governance functions such as (i) developing and reviewing the Company's policies, practices on corporate governance, training and the continuous professional development of the Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, etc; (ii) developing, reviewing and monitoring the code of conduct and compliance manual applicable to employees and Directors; and (iii) reviewing the Company's compliance with the CG Code and disclosure in this corporate governance report. Every Board member has full access to the advice and services of the Company Secretary with a view to ensure that Board procedures, and all applicable rules and regulations are followed. They are also entitled to have full access to Board papers and related materials such that they are able to make an informed decision and to discharge their duties and responsibilities.

RISK MANAGEMENT AND INTERNAL CONTROL

The Company had established policies and procedures to identify, assess and manage major risks of the Group. The Board has overall responsibilities for establishing and maintaining an effective risk management and internal control systems of the Group and reviewing their effectiveness. However, such procedures are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

CORPORATE GOVERNANCE REPORT

The management is of the Company responsible for implementing that procedures approved by the Board and to monitor compliance with the policies and procedures.

The Group does not have an internal audit function and it was decided that the Board would be directly responsible for internal control of the Group and for reviewing its effectiveness. During the year, after considering the needs of the Group in its current business development, the Board has performed an annual review on the effectiveness of risk management and internal control systems (“**Annual Review**”) as follows:

- (a) Board Committee meetings were held to discuss and review a report on internal control review conducted by the Chairlady, the Head of Operations and the General Manager (collectively “**key management personnel**”). Internal control issues, where applicable, were discussed and addressed during such meetings;
- (b) An external audit was performed by the external auditors and control gaps in financial controls were highlighted to the Chairlady and key management personnel and appropriately addressed. The control gaps were presented and reviewed by the Audit Committee;
- (c) Discussions were held between the AC and the external auditors in the absence of the key management personnel to address any potential concerns; and

It is concluded that there are no significant defects in the Group’s internal controls and risk management systems in terms of overall adequacy and effectiveness concerning the operational, financial and compliance risks of the Group have been identified during the course of the Annual Review and as at the date of this report.

The Audit Committee wishes to highlight that no cost-effective internal control system will preclude all errors and irregularities. The annual review performed by the Board can provide only reasonable and not absolute assurance against material misstatement or loss. The Audit Committee has also proposed to the Board, with which the Board agreed, to commission a professional internal auditor to perform an internal control review to improve the Group’s internal controls and risk management on a regular basis within a reasonable interval.

Furthermore, the Company reminds the Directors and employees of the Group about due compliance with all policies regarding the Inside Information. The Company keeps the Directors and employees of the Group apprised of the latest regulatory updates to ensure compliance with the relevant regulatory requirements.

COMPANY SECRETARY

The appointment and resignation of the Company Secretary is subject to approval by the Board in accordance with the Articles of Association. The Company Secretary is responsible for ensuring the Board procedures and policy are followed and Board activities are effectively conducted. The Company Secretary is also responsible for maintaining minutes recorded in sufficient details of all the meetings of the Board and committees of the Company. Draft and final versions of minutes are disseminated to Directors for comment and filed for record purposes respectively within a reasonable time after each meeting. The Directors have full and timely access to the minutes of the Board and committees of the Company. The Company Secretary, Mr. Chan Chun Hin, confirmed that he has complied with all the qualifications, experience, and professional training requirements under Rule 5.15 of the GEM Listing Rules.

Details of the primary corporate contact person at the Company is set out under the section “Directors and Senior Management” in this report.

RIGHT TO PUT ENQUIRIES TO THE BOARD

Shareholders have the right to put enquiries to the Board. All such enquiries shall be in writing and sent by post to the principal place of business of the Company in Hong Kong for the attention of the Company Secretary. Shareholders may also make enquiries with the Board at the general meetings of the Company.

RIGHT TO PUT FORWARD PROPOSALS AT GENERAL MEETINGS

There are no provisions allowing Shareholders to propose new resolutions at the general meetings under the Companies Law (as revised) of the Cayman Islands, as amended, modified and supplemental from time to time. However, pursuant to the Articles of Association, Shareholders who wish to move a resolution may by means of requisitions convene an EGM following the procedures set out above.

CONSTITUTIONAL DOCUMENTS

During the year ended 31 December 2025, there had been no change in the Company's constitutional documents. The Articles of Association are available on the websites of the Stock Exchange and the Company.

INVESTOR RELATIONS

The Board recognises the importance of maintaining on-going communication with Shareholders. The Company has adopted a Shareholders' communication policy and promotes communications with Shareholders through several communication channels including publication of notices, circulars and announcements of key developments, and quarterly, interim and annual reports as prescribed under the GEM Listing Rules which can also be accessed via the "Investor Relations" of the Company's website. The Company has reviewed the implementation and effectiveness of the Shareholders' communication policy and considered it to be effective for the year ended 31 December 2025.

The aims of the Company are to improve its transparency, gain more understanding and confidence in relation to the Group's business developments and acquire more market recognition and support from Shareholders.

Shareholders are encouraged to attend all general meetings of the Company. The notices of the extraordinary general meetings and annual general meeting of the Company were circulated to all Shareholders in accordance with the requirements of the GEM Listing Rules and the Articles of Association. It is a standard practice to have the non-executive Directors available to answer questions relating to their roles, tenure, and the committees of the Board. The results of voting by poll are published on the websites of the Stock Exchange and the Company after the meetings.

Any comments and suggestions to the Board can be addressed to our Hong Kong office or the Company Secretary by mail to Suites 2601-2603, 26/F, Shui On Centre, 6-8 Harbour Road, Wanchai Hong Kong; or by email to askus@jlogoholdings.com.

DIRECTORS' REPORT

The Directors present their report and the audited consolidated financial statements of the Group for the year ended 31 December 2025.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Company is an investment holding company. The Company's subsidiaries are principally engaged in the business of:

- (1) dining restaurants in Singapore; and
- (2) artisanal bakery chain in Malaysia.

Further discussion and analysis of these activities as required by Schedule 5 to the Hong Kong Companies Ordinance, including an indication of likely future development in the Group's business, can be found in the section headed "Management Discussion and Analysis" in this report. This discussion forms part of this directors' report.

PRINCIPAL RISKS AND UNCERTAINTIES

A number of factors may affect the results and business operations of the Group, major risks are summarised below.

Our success substantially depends on the market recognition of our brands and any negative publicity, negative reviews or damage to our brands could materially and adversely impact our business and results of operations

We believe that our success substantially depends on the market recognition of our brands and the franchise brand. We believe that our continued success will depend in large on our ability to protect and enhance the value of these brands. Any incident that diminishes consumer trust in or preference for these brands could significantly reduce their values. As it is one of our business strategies to continue to grow in size, expand our food offerings and services and extend our geographic reach, maintaining quality and consistency may become more difficult.

Our Group operates in a highly competitive industry and the opening of new restaurants or bakery retail outlets by competitors near locations in which we operate may negatively affect the revenue of our existing restaurants or bakery retail outlets

Our Group faces intense competition from a large and diverse group of restaurants and bakery retail outlets and other food and beverage operators who target the same or similar group of customers. There are numerous restaurants and bakery retail outlets in Singapore and Malaysia offering similar cuisines and bakery products which compete with our Group in terms of, among other things, taste, quality, price, customer service, ambience, and the overall dining experience. Some of our Group's competitors may have longer operating history, larger customer base, better brand recognition and reputation, and better financial position, marketing strategies and public relations resources. As we face intense competition from other competitors as well as new market entrants, our Group's business and results of operations may be adversely affected in the event that we are not able to stay competitive in terms of our pricing, or there is deterioration in the quality of our dishes, products or our level of service.

DIRECTORS' REPORT

MAJOR CUSTOMERS AND SUPPLIERS

During the year ended 31 December 2025, our Group's customers were mainly retail customers for our dining operations in Singapore and artisanal bakery chain in Malaysia and the five largest customers of the Group accounted for less than 30% of the Group's total revenue.

During the year ended 31 December 2025, our Group's largest supplier and the five largest suppliers accounted for approximately 5.1% and 19.0% of total purchases, respectively, as compared with approximately 4.6% and 21.2% for the year ended 31 December 2024, respectively.

None of the Directors or any of their close associates (as defined in the GEM Listing Rules), or any of the Shareholders (which, to the best knowledge of the Directors, own more than 5% of the Company's issued share capital) had any beneficial interest in the Group's five largest customers or its five largest suppliers during the year ended 31 December 2025.

SEGMENT INFORMATION

An analysis of the Group's performance for the year by operating segment is set out in Note 4 to the consolidated financial statements.

RECOMMENDED DIVIDEND

The Board did not recommend the payment of any dividend for year ended 31 December 2025 (2024: Nil). The Company intends to strike a balance between maintaining sufficient capital to grow the business and rewarding the shareholders of the Company. The Board has adopted a dividend policy pursuant to which in deciding whether to propose a dividend and in determining the dividend amount, the Board shall take into account, the following factors:

- (i) the general financial condition of the Group;
- (ii) the actual and future operations and liquidity positions of the Group;
- (iii) the Group's future cash requirements and availability;
- (iv) any restrictions on payment of dividends that may be imposed by the Group's lenders or securities holders;
- (v) the general market conditions and prospect; and
- (vi) any other factor that the Board deems appropriate.

DIRECTORS' REPORT

CHARITABLE DONATIONS

The Group did not make any material charitable donations during the year (2024: Nil).

SUMMARY FINANCIAL INFORMATION

A summary of the published financial results and assets, liabilities of the Group for the last five financial years, as extracted from the audited consolidated financial statements, is set out on page 115. This summary does not form part of the audited consolidated financial statements.

SHARE CAPITAL

Details of the movements in share capital of the Company during the year are set out in Note 23 to the consolidated financial statements. Details about the issuance of Shares are also set out in Note 23 to the consolidated financial statements.

PURCHASES, SALE OR REDEMPTION OF COMPANY'S LISTED SECURITIES

The Company or any of its subsidiaries has not purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2025.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Associations (the "**Articles**") or the laws of the Cayman Islands which would oblige the Company to offer new Shares on a pro rata basis to existing Shareholders.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY AND ITS ASSOCIATED CORPORATIONS

As at 31 December 2025, the interests and short positions of the Directors and chief executives of the Company or any of their respective associates in the shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (“SFO”)) as recorded in the register required to be kept by the Company under Section 352 of the SFO or as otherwise notified to the Company and the Stock Exchange pursuant to Rules 5.46 to 5.67 of the GEM Listing Rules were as follows:

Long position in the Shares

Name of Director/Chief Executive	Capacity/ Nature of Interest	Number of Shares	Approximate Percentage
Ms. Low Yeun Ching @ Kelly Tan ⁽¹⁾	Beneficial interest	219,500,000 Ordinary Shares ⁽²⁾	43.9%

Notes:

(1) Ms. Low Yeun Ching @ Kelly Tan is an executive Director, the chairlady of the Board and the chief executive officer of the Company.

(2) These Shares are held in long position.

Save as disclosed above, none of the Directors, chief executives of the Company or their respective associates had any interests or short positions in any shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company under Section 352 of the SFO or as otherwise, notified to the Company and the Stock Exchange pursuant to Rules 5.46 to 5.67 of the GEM Listing Rules.

SHARE OPTION SCHEME

The Company had adopted a share option scheme (the “Share Option Scheme”) on 4 April 2018 for the purpose of enabling our Company to grant rights to subscribe for Shares pursuant to the terms of the Share Option Scheme (“Options”, each an “Option”) as incentives or rewards to the Participants (as defined below) for their contribution to our Group and/or to enable our Group to recruit and retain high calibre employees and attract human resources that are valuable to our Group and any entity which our Group holds any equity interest (“Invested Entity”). The terms of the Share Option Scheme are in accordance with the provisions of Chapter 23 of the GEM Listing Rules.

Each of the grantees to whom an option has been granted under the Share Option Scheme shall be entitled to exercise his/her option in the manner set out in his/her offer document, provided that such period of time shall not exceed a period of 10 years commencing on the date on which the option is granted.

DIRECTORS' REPORT

The Board may, at its discretion, invite any executive, non-executive or independent non-executive Directors or any employees (whether full-time or part-time) of our Company, or any of its subsidiaries or associated companies or any other person whom our Board considers, in its sole discretion, has contributed or will contribute to our Group (“**Participants**”, each a “**Participant**”) to take up the Options. The basis of eligibility of any of the class of the Participants to the grant of any Option shall be determined by our Board from time to time on the basis of their contribution to the development and growth of our Group and any Invested Entity. Unless otherwise determined by our Board and specified in the offer letter to be given to the Participant at the time of the offer of the Option (“**Offer**”), there is neither any performance target that needs to be achieved by the Participant who accepts an Offer in accordance with the terms of the Share Option Scheme (“**Grantee**”) before an Option can be exercised nor any minimum period for which an Option must be held before the Option can be exercised.

The subscription price for our Shares under the Share Option Scheme shall be such price as determined by the Board in its absolute discretion at the time of the grant of the relevant Option, but in any case shall not be less than the highest of (a) the closing price of our Shares as stated in the Hong Kong Stock Exchange’s daily quotations sheet on the date on which an Offer is made by our Company to the Grantee (which date must be a Business Day, “**Offer Date**”); (b) a price being the average of the closing prices of our Shares as stated in the Hong Kong Stock Exchange’s daily quotations sheets for the five (5) Business Days immediately preceding the Offer Date (provided that the Offer Price shall be used as the closing price for any Business Day falling within the period before listing of our Shares where our Company has been listed for less than five (5) Business Days as at the Offer Date); and (c) the nominal value of a Share.

The amount payable by the grantee of an Option to our Company on acceptance of the offer for the grant of an Option is HK\$1.00, which shall be payable within the period as our Board may determine and specify in the letter of Offer.

An Option may be exercised in accordance with the terms of the Share Option Scheme at any time during the period to be determined by the Board at its absolute discretion and notified by the Board to each Grantee as being the period during which an Option may be exercised and in any event, such period shall not be longer than 10 years from the date upon which any particular Option is granted in accordance with the Share Option Scheme.

The maximum number of unexercised share options currently permitted to be granted under the Share Option Scheme and any other share option scheme of the Company shall not in aggregate exceed 10% of the total number of Shares in issue immediately following the Listing (being 50,000,000 Shares). The maximum number of shares issuable under share options to each eligible participant in the Company’s Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of shares options in excess of this limit is subject to Shareholders’ approval in a general meeting. During the year ended 31 December 2025, the Company may grant options in respect of up to 50,000,000 Shares to the participants under the Share Option Scheme, being 10% of the issued shares of the Company as at the date of this report.

No option has lapsed, or has been granted, exercised or cancelled under the Share Option Scheme during the year ended 31 December 2025. Our Group did not have any outstanding share options, warrants, convertible instruments, or similar rights convertible into our Shares as at 31 December 2025, nor has there been any exercise, redemption, purchase or cancellation made during the year ended 31 December 2025 of any conversion or subscription rights under any convertible securities, options, warrants or similar rights issued or granted.

DIRECTORS' REPORT

To the members of JLogo Holdings Limited
(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of JLogo Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 45 to 114, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2025, and of its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (the “**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) as issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”). Our responsibilities under those standards are further described in the “*Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements*” section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”), as applicable to audits of financial statements of public interest entities, and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to the “Going concern” section in Note 2 to the consolidated financial statements concerning the adoption of the going concern basis on which the consolidated financial statements have been prepared. The Group incurred a net loss attributable to owners of the Company of approximately Singapore dollars (“**S\$**”)1,521,000 for the year ended 31 December 2025, and at that date, the Group had net current liabilities and net liabilities of approximately S\$10,755,000 and S\$7,371,000, respectively. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. The directors of the Company, having considered the measures being taken by the Group as set forth in Note 2 to the consolidated financial statements, are of the opinion that the Group would be able to continue as a going concern. Accordingly, the directors have prepared the consolidated financial statements on a going concern basis. The consolidated financial statements do not include any adjustments that would result from a failure of achieving the measures. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the “*Material Uncertainty Related to Going Concern*” section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p><i>Impairment of property, plant and equipment and right-of-use assets</i></p> <p>Related disclosures are included in Notes 14 and 15 to the consolidated financial statements.</p> <p>At 31 December 2025, the net carrying amounts of the Group's property, plant and equipment and right-of-use assets (net of impairment loss) in relation to the Dining operations and Artisanal bakery business were approximately S\$1,807,000 and S\$3,061,000, respectively, which represented approximately 74% of the Group's total non-current assets.</p> <p>For restaurants and bakery outlets that were reporting losses or under-performed during the year ended 31 December 2025, management considered that there were indications that these restaurants' / outlets' property, plant and equipment and right-of-use assets might be impaired. At the end of the reporting period, management had performed impairment assessment by determining the recoverable amounts of the property, plant and equipment and right-of-use assets based on value in use calculations using cash flow projections.</p> <p>We identified the impairment assessment of property, plant and equipment and right-of-use assets as a key audit matter because of their significance to the consolidated financial statements and the significant judgement involved in determining the key assumptions which involved high level of uncertainty.</p>	<p>Our procedures, among others, included:</p> <ul style="list-style-type: none">a) assessing the method used by management to assess impairment indicators and appropriateness of using value in use calculations in estimating the recoverable amounts of the property, plant and equipment and right-of-use assets in relation to each restaurant and outlet (if applicable) of the Dining operation and Artisanal bakery business on an individual basis, respectively;b) reviewing management's budgeting process by comparing the actual financial performance against previously forecasted results;c) assessing and evaluating the reasonableness of forecasted revenue and budgeted gross margin, taking into consideration the Group's historical performance, with further consideration of the current market condition, by comparing them to industry information on market outlook and anticipated changes in the business and economic environment;d) assessing and evaluating the growth rates by comparing them to recent performance of the outlets and available external industry data based on conditions prevailing at the reporting date;e) checking arithmetic accuracy of the cash flow forecasts calculation;f) checking, on a sample basis, the accuracy and relevance of the input data used by management; andg) reviewing the adequacy of the disclosures made on the impairment of property, plant and equipment and right-of-use assets.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the 2025 annual report of the Company but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. MATERIAL ACCOUNTING POLICIES

Going concern

In preparing the consolidated financial statements, the directors of the Company have given careful consideration to the future liquidity of the Group in light of the fact that the Group incurred a net loss attributable to owners of the Company of approximately S\$1,521,000 for the year ended 31 December 2025 and at that date, the Group had net current liabilities and net liabilities of approximately S\$10,755,000 and S\$7,371,000, respectively. There is a material uncertainty related to these aforesaid matters that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. The directors are of the opinion that the Group will have sufficient working capital to finance its operations and to meet its financial obligations for at least the next twelve months from the date of approval of the consolidated financial statements and therefore it is appropriate to prepare the consolidated financial statements on a going concern basis, after taking into consideration of the followings:

- (a) Ms. Low Yeun Ching @ Kelly Tan, an executive director and the substantial shareholder of the Company, has committed and proved her ability to provide continuous financial support to the Group as is necessary to enable the Group to meet its day-to-day operations and its financial obligations as they fall due;
- (b) Ms. Low Yeun Ching @ Kelly Tan has confirmed in writing that she will not demand the Group for partial or full repayment of the amount due to her of approximately S\$2,838,000 at 31 December 2025 until such demand will have no significant adverse impact on the Group's going concern and the sufficiency of working capital;
- (c) the Group is negotiating with its bankers and other financial institutions to obtain additional financing facilities. During the year ended 31 December 2025, the Group obtained (i) loan facilities with an aggregate amount of S\$1,000,000 from a financial institution; (ii) loan facilities of RM3,000,000 (equivalent to approximately S\$951,000) from a financial institution; and (iii) loan facilities of HK\$7,000,000 (equivalent to approximately S\$1,155,000) from an independent third party. Up to the date of authorisation of these consolidated financial statements, total unutilised facilities were with an aggregated amount of approximately S\$1,331,000;
- (d) with reference to the cash flow projections for the period from 1 January 2026 to 31 December 2027 (the "**Cash Flow Projections**"), the Group will maintain sufficient cash and cash equivalents through internally generated cash flows and funds obtained from external parties (i.e. bankers, other financial institutions, an independent third party and the substantial shareholder) to finance its activities and pay its debts as and when they fall due;
- (e) the Group continues to improve its operating efficiency by implementing measures to tighten cost controls over various operating expenses in order to enhance its profitability and to improve the cash flow from its operation in future; and
- (f) the Group is actively exploring various fund raising avenues including but not limited to placing of new shares and/or issuing convertible securities and other financial instruments to investors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Going concern (continued)

Having regard to the Cash Flow Projections of the Group, which are prepared assuming that the above measures are successful, the directors of the Company are of the opinion that, in the light of the measures taken to-date, together with the expected results of the other measures in progress, the Group will have sufficient funding resources to satisfy its future working capital and other financing requirements. The directors of the Company believe that the aforementioned measures will be successful, based on the continuous efforts by the management of the Group.

However, should the above measures be unable to implement successfully, the Group may not have sufficient funds to operate as a going concern, in which case adjustments might have to be made to reduce the carrying values of the Group's assets to their recoverable amounts, to reclassify the non-current assets and non-current liabilities as current assets and current liabilities, respectively and to provide for any further liabilities which might arise. The effects of these potential adjustments have not been reflected in the consolidated financial statements.

Basis of preparation

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards, which collective term includes all applicable individual IFRS Accounting Standards ("IFRSs"), IAS Standards and IFRIC Interpretations as issued by the International Accounting Standards Board (the "IASB") and the disclosure requirements of the Hong Kong Companies Ordinance. The consolidated financial statements also comply with the applicable disclosure requirements under the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules").

The consolidated financial statements are presented in Singapore Dollars ("S\$") and all amounts have been rounded to the nearest thousand ("S\$'000"), unless otherwise indicated.

The consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2024 consolidated financial statements except for the adoption of the new/revised IFRS Accounting Standards that are relevant to the Group and effective from the current year as set out below.

Changes in accounting policies

The Group has applied, for the first time, the following new/revised IFRS Accounting Standard:

Amendments to IAS 21	Lack of Exchangeability
----------------------	-------------------------

Amendments to IAS 21: Lack of Exchangeability

The amendments require an entity to apply a consistent approach to assessing whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide.

The adoption of the above amendments does not have any significant impact on the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Future changes in IFRS Accounting Standards

At the date of authorisation of the consolidated financial statements, the IASB has issued the following new/revised IFRS Accounting Standards that are not yet effective for the current year, which the Group has not early adopted.

Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ⁽¹⁾
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity ⁽¹⁾
Amendments to IFRS Accounting Standards	Annual Improvements to IFRS Accounting Standards — Volume 11 ⁽¹⁾
IFRS 18	Presentation and Disclosure in Financial Statements ⁽²⁾
IFRS 19	Subsidiaries without Public Accountability: Disclosures ⁽²⁾
Amendments to IAS 21	Transaction to Hyperinflationary Presentation Currency ⁽²⁾
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ⁽³⁾

(1) Effective for annual periods beginning on or after 1 January 2026

(2) Effective for annual periods beginning on or after 1 January 2027

(3) The effective date to be determined

IFRS 18 “*Presentation and Disclosure in Financial Statements*”, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 “*Presentation of Financial Statements*”. IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of IFRS 18 may affect the presentation of the consolidated statement of profit or loss and other comprehensive income and disclosures in the future consolidated financial statements. The Group is in the process of assessing the detailed impact of IFRS 18 on the Group’s consolidated financial statements.

Except for IFRS 18 as set out above, the management of the Group does not anticipate that the adoption of the new/revised IFRS Accounting Standards in future periods will have any material impact on the Group’s consolidated financial position or performance.

A summary of the material accounting policies adopted by the Group in preparing the consolidated financial statements is set out below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Basis of measurement

The measurement basis used in the preparation of the consolidated financial statements is historical cost basis.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and all of its subsidiaries for the year ended 31 December 2025. A subsidiary is an entity, directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) the contractual arrangement with the other vote holders of the investee;
- (ii) rights arising from other contractual arrangements; and
- (iii) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Basis of consolidation (continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, or the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

Subsidiaries

A subsidiary is an entity that is controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control.

In the Company's statement of financial position which is presented in Note 29 to the consolidated financial statements, investments in subsidiaries are stated at cost less impairment loss. The carrying amounts of the investments are reduced to their respective recoverable amount on an individual basis, if it is higher than the recoverable amount. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

Related parties

A related party is a person or entity that is related to the Group:

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of the holding company of the Group.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each holding company, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a holding company of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the holding company of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the Group and include:

- (a) that person's children and spouse or domestic partner;
- (b) children of that person's spouse or domestic partner; and
- (c) dependants of that person or that person's spouse or domestic partner.

In the definition of a related party, an associate includes subsidiaries of the associate and a joint venture includes subsidiaries of the joint venture.

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the chief operating decision makers for the purpose of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Operating segments that meet the quantitative thresholds are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Other operating segments may be aggregated if they share a majority of these criteria.

Property, plant and equipment

Property, plant and equipment, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Freehold properties	2%
Kitchen and bar equipment	10% – 15%
Motor vehicles	10% – 20%
Furniture and fittings	15% – 50%
Computers and office equipment	20% – 33%
Leasehold improvements	16.67% or over the lease terms

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year in which the item is derecognised.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. At inception or on reassessment of a contract that contains a lease component and non-lease component(s), the Group adopts the practical expedient not to separate non-lease component(s) and to account for the lease component and the associated non-lease component(s) (e.g., property management services for leases of properties) as a single lease component.

Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land and building	2% – 33% or over the lease terms
-----------------------------	----------------------------------

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate (“IBR”) at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

Leases (continued)

The Group as lessee (continued)

Lease liabilities (continued)

A lease modification is accounted for as a separate lease if:

- (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- (b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

When a lease modification is not accounted for as a separate lease, at the effective date of the lease modification,

- (a) the Group allocates the consideration in the modified contract on the basis of relative stand-alone price as described above;
- (b) the Group determines the lease term of the modified contract;
- (c) the Group remeasures the lease liability by discounting the revised lease payments using a revised discount rate over the revised lease term;
- (d) for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease and recognising any gain or loss relating to the partial or full termination of the lease in profit or loss; and
- (e) for all other lease modifications, the Group accounts for the remeasurement of the lease liability by making a corresponding adjustment to the right-of-use asset.

The Group's lease liabilities are presented separately in the consolidated statement of financial position.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be of low value.

Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

2. MATERIAL ACCOUNTING POLICIES (continued)

Leases (continued)

The Group as lessor

The Group classifies each of its leases as either a finance lease or an operating lease at the inception date of the lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and sublease as two separate contracts. The sublease is classified as an operating lease if the head lease is a short-term lease to which the Group has applied the recognition exemption. Otherwise, the sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

The Group accounts for each lease component within a lease contract as a lease separately from non-lease components of the contract. The Group allocates the consideration in the contract to each lease component on a relative stand-alone price basis.

Investments and other financial assets

Initial recognition and measurement

Financial assets are recognised when and only when the Group becomes a party to the contractual provisions of the instruments and on a trade date basis.

On initial recognition, a financial asset is classified as (i) measured at amortised cost; (ii) debt investment measured at fair value through other comprehensive income (“**Mandatory FVOCI**”); (iii) equity investment measured at fair value through other comprehensive income (“**Designated FVOCI**”); or (iv) measured at fair value through profit or loss (“**FVPL**”).

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for “Revenue recognition” below.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest (“**SPPI**”) on the principal amount outstanding.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

2. MATERIAL ACCOUNTING POLICIES (continued)

Investments and other financial assets (continued)

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost include trade and other receivables, pledged deposits and cash and cash equivalents.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- (i) the rights to receive cash flows from the asset have expired; or
- (ii) the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either
 - (a) the Group has transferred substantially all the risks and rewards of the asset, or
 - (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECL") for all debt instruments not held at fair value through profit or loss. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Investments and other financial assets (continued)

Impairment of financial assets (continued)

General approach

ECL are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECL as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECL

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECL

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECL

Investments and other financial assets (continued)

Impairment of financial assets (continued)

Assessment of significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. In particular, the following information is taken into account in the assessment:

- the debtor's failure to make payments of principal or interest on the due dates;
- an actual or expected significant deterioration in the financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- actual or expected changes in the technological, market, economic or legal environment that have or may have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial instrument has increased significantly since initial recognition when contractual payments are more than 90 days past due, except for the receivables for which the Group has reasonable and supportable information to demonstrate that previous non-payments were an administrative oversight, instead of resulting from financial difficulty of the borrower, or that there is no correlation between significant increases in the risk of a default occurring and financial assets on which payments are more than 90 days past due.

Notwithstanding the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

Low credit risk

A financial instrument is determined to have low credit risk if:

- (i) it has a low risk of default;
- (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

Simplified approach of ECL

For trade receivables without significant financing components, the Group applies a simplified approach in calculating ECL. The Group recognises a loss allowance based on lifetime ECL at each reporting date and has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Investments and other financial assets (continued)

Impairment of financial assets (continued)

Credit-impaired financial asset

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower.
- (b) a breach of contract, such as a default or past due event.
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider.
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.
- (e) the disappearance of an active market for that financial asset because of financial difficulties.
- (f) the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

Write-off

The Group writes off a financial asset when the Group has no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or a portion thereof. The Group has a policy of writing off the gross carrying amount when the financial asset is 1 year past due based on historical experience of recoveries of similar assets. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities under the Group's procedures for recovery of amounts due, taking into account legal advice if appropriate. Any subsequent recovery is recognised in profit or loss.

2. MATERIAL ACCOUNTING POLICIES (continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, amount due to a director, bank overdrafts and interest-bearing borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate method amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2025

2. MATERIAL ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out (“FIFO”) method. The cost of inventories comprises cost of purchasing raw materials and finished goods. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period of the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, net of bank overdrafts, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group’s cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss.

Taxation

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each reporting period, taking into consideration interpretations and practices prevailing in countries in which the Group operates in.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2. MATERIAL ACCOUNTING POLICIES (continued)

Taxation (continued)

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carry forward of unused tax credits and unused tax losses can be utilised, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed. Where the grant relates to an asset, the fair value is credited to a deferred income account/ recognised as a deduction from the carrying amount of the relevant asset and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

The benefit of a government loan received at a below-market rate of interest is treated as a government grant. The benefit of the below-market rate of interest shall be measured as the difference between the initial fair value of the loan and the proceeds received.

Revenue recognition

Revenue from contracts with customers within IFRS 15

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

Identification of performance obligations

At contract inception, the Group assesses the goods or services promised in a contract with a customer and identifies as a performance obligation each promise to transfer to the customer either:

- (a) a good or service (or a bundle of goods or services) that is distinct; or
- (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A good or service that is promised to a customer is distinct if both of the following criteria are met:

- (a) the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer (i.e. the good or service is capable of being distinct); and
- (b) the Group's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract (i.e. the promise to transfer the good or service is distinct within the context of the contract).

If a performance obligation is not satisfied over time, the Group satisfies the performance obligation at a point in time when the customer obtains control of the promised asset. In determining when the transfer of control occurs, the Group considers the concept of control and such indicators as legal title, physical possession, right to payment, significant risks and rewards of ownership of the asset, and customer acceptance.

The nature of the Group's promise in granting a licence is a promise to provide a right to access the Group's intellectual property if all of the following criteria are met:

- (a) the contract requires, or the customer reasonably expects, that the Group will undertake activities that significantly affect the intellectual property to which the customer has rights;
- (b) the rights granted by the licence directly expose the customer to any positive or negative effects of the Group's activities identified in (a) above; and
- (c) those activities do not result in the transfer of a good or a service to the customer as those activities occur.

Sale of food and beverages

Revenue from the sale of food and beverages represent the invoiced value of food and beverages, net of goods and services tax, recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the food and beverages to the customer.

Franchise and royalty fee income

Initial franchise income is recognised upon the grant of rights, completion of the designated phases of the franchise set-up and transfer of know-how to the franchisee in accordance with the terms stated in the franchise agreement. Recurring franchise income is recognised on a pre-determined amount in accordance with terms as stated in the franchise agreements. Royalty income is recognised on an accrual basis in accordance with the substance of the relevant agreements.

Revenue from other sources

Interest income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Employee benefits

Short-term employee benefits

Salaries, annual bonuses, paid annual leave and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

Defined contribution plans

The employees of the Group's subsidiaries which operate in Singapore and Malaysia are required to participate in a central pension scheme operated by the local municipal government. The subsidiaries operating in Singapore and Malaysia are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currency translation

The functional currency of the Company is HK\$. As the Group mainly operates in Singapore, Singapore dollars is used as the presentation currency of the Group. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. All differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss and other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

2. MATERIAL ACCOUNTING POLICIES (continued)

Foreign currency translation (continued)

The functional currencies of the Company and certain overseas subsidiaries are currencies other than Singapore dollars. As at the end of the reporting period, the assets and liabilities of these entities are translated into Singapore dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Singapore dollars at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Singapore dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Singapore dollars at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and their accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

(i) *Determining the lease term of contracts with renewal options*

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate the leases (e.g. construction of significant leasehold improvements or significant customisation to the leased asset).

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) *Going concern basis*

The consolidated financial statements have been prepared on a going concern basis, the validity of which depends upon the Group's ability to obtain adequate financing and generate operating cash flows through the successful fulfilment of the measures as described in Note 2 to the consolidated financial statements.

(ii) *Impairment of non-financial assets*

The Group assesses whether there are any indicators of impairment for all non-financial assets, including property, plant and equipment and right-of-use assets, at the end of each reporting period in accordance with the material accounting policies as disclosed in Note 2 to the consolidated financial statements. In determining whether an asset is impaired or the event previously causing the impairment no longer exists, the management has to assess whether an event has occurred that may affect the asset value or such event affecting the asset value has not been in existence. If any such indication exists, the recoverable amounts of the asset would be determined as the greater of the fair value less costs of disposal and value in use, the calculations of which involve the use of estimates. Owing to inherent risk associated with estimations in the timing and amounts of the future cash flows and fair value less costs of disposal, the estimated recoverable amount of the asset may be different from the amount actually received and profit or loss could be affected by accuracy of the estimations.

(iii) *Loss allowance for ECL*

The Group's management estimates the loss allowance for financial assets at amortised cost including trade and other receivables and cash and cash equivalents by using various inputs and assumptions including risk of a default and expected loss rate. The estimation involves high degree of uncertainty which is based on the Group's historical information, existing market conditions as well as forward-looking estimates at the end of each reporting period. Where the expectation is different from the original estimate, such difference will impact the carrying amount of financial assets at amortised cost.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

(iv) Allowance for inventory obsolescence

At the end of each reporting period, the Group assesses whether any allowance for inventory obsolescence is required based on the best available facts and circumstances, including but not limited to, the inventories' physical conditions, age of inventories, their market selling prices, historical experiences and estimated costs to be incurred for their sales. An amount of estimation is required to determine the inventory obsolescence. The realisable value represents the best estimate of the recoverable amount and is based on the most reliable evidence available and inherently involves estimates regarding the future expected realisable value. The carrying amount of the Group's inventories at 31 December 2025 was approximately S\$273,000 (2024: approximately S\$316,000).

(v) Leases – Estimating the IBR

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an IBR to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services, and has two reportable segments as follows:

- (i) the dining operations segment relates to the operations and management of restaurants ("**Dining operations**"); and
- (ii) the artisanal bakery segment relates to the retail outlets specialising in the sale of bread and flour confectionery products ("**Artisanal bakery**").

Management monitors the operating results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss which in certain respects, as explained in the table below, is measured differently from the consolidated financial statements. Income taxes are managed on a group basis and are not allocated to operating segments.

4. OPERATING SEGMENT INFORMATION (continued)

Segment revenue and results

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated expenses and income comprise of expenses incurred by the corporate office and other sources of income which are not directly attributable to the identified segments. Unallocated assets and liabilities comprise of corporate assets and liabilities which are not directly attributable to the identified segments.

Intersegment sales and transfers are transacted on terms agreed in a manner similar to transactions with transfers between business segments. These transfers are eliminated on consolidation.

14. PROPERTY, PLANT AND EQUIPMENT (continued)

Notes:

- (a) The freehold property located at Kuala Lumpur, Malaysia relates to a unit in an apartment used for the Group's hostel purposes. The carrying amount of the Group's freehold apartment at 31 December 2025 and 2024 were approximately RM246,000 and RM255,000, respectively (equivalent to approximately S\$78,000 and S\$78,000 at 31 December 2025 and 2024, respectively). The freehold property located in Singapore relates to the Group's headquarter office unit. The carrying amounts of the freehold unit at 31 December 2025 and 2024 were approximately S\$1,470,000 and S\$1,503,000, respectively.

- (b) The additions in property, plant and equipment are by means of:

	2025 S\$'000	2024 S\$'000
Additions of property, plant and equipment	807	1,425
Less: Provision for reinstatement costs (Note 19(a))	(60)	(161)
Less: Other payables (Note 19)	(415)	(456)
Cash invested in property, plant and equipment	332	808

- (c) Impairment assessment of property, plant and equipment and right-of-use assets

In light of operating losses incurred for the Group in recent years and unfavorable market conditions, the directors of the Company considered that property, plant and equipment and right-of-use assets of the Group relating to the Dining operations and Artisanal bakery business at 31 December 2025 and 2024 might be impaired. In view of this, the directors of the Company have assessed whether property, plant and equipment for its restaurants and bakery outlets that are reporting losses have an indication of impairment, on an individual basis. Where there is an indication of impairment, management determined the recoverable amounts of the property, plant and equipment and right-of-use assets for its restaurants and bakery outlets that are reporting losses based on value in use calculations using cash flow projections on an individual basis (if applicable).

Dining Operations

During the year ended 31 December 2025, a restaurant under the Dining Operations was expected to cease its operation in the year 2026 due to the early termination of lease and was determined as irrecoverable with reference to the fair value less costs of disposal. Accordingly, impairment losses of approximately S\$124,000 were recognised in profit or loss in respect of its related right-of-use assets.

Except for the aforesaid restaurant which was identified as irrecoverable under operation, the management of the Group identified that certain other restaurants relating to the Dining operations had an impairment indication at 31 December 2025 and 2024. The directors of the Company estimated the recoverable amount of each restaurant with an indication of impairment, on an individual basis, with reference to value in use calculations using cash flow projections based on financial budgets approved by the directors of the Company covering a 5-year period (2024: a 3-year period) to be derived from restaurant with an impairment indication at 31 December 2025. The significant inputs and estimations into the valuation approach are (i) budgeted growth rate and gross profit margin, which is based on the past and recent performance of restaurants and management's expectations for the market development and (ii) a pre-tax discount rate to derive the present value of future cash flows. The sensitivity analysis on the significant inputs and estimations used in the valuation approach is detailed in Note 14(d) to the consolidated financial statements.

14. PROPERTY, PLANT AND EQUIPMENT (continued)

Notes: (continued)

(c) Impairment assessment of property, plant and equipment and right-of-use assets (continued)

Dining Operations (continued)

At 31 December 2025, the recoverable amount of the restaurant with an impairment indication based on the value in use calculations exceeds its carrying amount and therefore no impairment loss was recognised during the year ended 31 December 2025.

At 31 December 2024, based on the assessment, the recoverable amount of the restaurant with impairment indication was approximately S\$74,000 which was less than that of the aggregate carrying amounts of property, plant and equipment and right-of-use assets of the restaurant. Accordingly, during the year ended 31 December 2024, impairment losses of approximately S\$79,000 and S\$429,000, respectively were recognised in profit or loss in respect of property, plant and equipment and right-of-use assets of the Group relating to the Dining operations.

Artisanal bakery business

At 31 December 2025, the management of the Group identified that the bakery outlets relating to the Artisanal bakery business had an impairment indication. The directors of the Company estimated the recoverable amount of bakery outlets with reference to value in use calculations using cash flow projections based on financial budgets approved by the directors of the Company covering a 3-year period to be derived at 31 December 2025. The significant inputs and estimations into the valuation approach are (i) budgeted growth rate and gross profit margin, which is based on the past and recent performance of bakery outlets and management's expectations for the market development and (ii) a pre-tax discount rate to derive the present value of future cash flows.

The recoverable amount of the bakery outlets at 31 December 2025 based on the value in use calculations exceeds their carrying amounts and therefore no impairment loss was recognised during the year ended 31 December 2025.

(d) Sensitivity of key inputs and estimations for impairment assessment in respect of the Dining operations

The management identified the following key inputs and estimations in which a reasonably possible change on an individual basis might cause additional impairment loss on property, plant and equipment and right-of-use assets.

Reasonably possible changes that individually cause additional impairment loss on property, plant and equipment and right-of-use assets for the year ended 31 December 2024:

	%	Change	2024 Increase in impairment loss S\$'000
Budgeted growth rate	3.00	Decrease 1%	1
Budgeted gross profit margin	73.00	Decrease 1%	11
Pre-tax discount rate	9.08	Increase 1%	1

(e) At 31 December 2025, certain of the Group's freehold properties with a net carrying amount of approximately S\$1,470,000 (2024: approximately S\$1,503,000) were pledged to secure general banking facilities granted to the Group as set out in Note 21 to the consolidated financial statements.

(f) Motor vehicle of the Group amounting to approximately S\$76,000 (2024: approximately S\$98,000) is pledged as security for bank loan as set out in Note 21 to the consolidated financial statements.

15. LEASE

The Group as a lessee

The Group has lease contracts for leasehold land and buildings. The leasehold land and building located at Kuala Lumpur, Malaysia relates to a land and building for the Group's central kitchen, office and hostel purposes. Lump sum payments were made upfront to acquire leased land from owners with lease period of 99 years, and no ongoing payments will be made under the terms of these leases. Other leases for restaurants and bakery outlets generally have lease terms between 3 and 5 years. There are several lease contracts that include extension and termination options and variable lease payments, which are further discussed below.

(a) Right-of-use assets

The carrying amounts of the Group's right-of-use assets and the movements during the years are as follows:

	Leasehold land and building	
	2025 S\$'000	2024 S\$'000
At the beginning of the reporting period	3,495	4,003
Additions	2,013	3,674

(b) Lease liabilities

The carrying amount of lease liabilities and the movements during the years are as follows:

	2025 S\$'000	2024 S\$'000
At the beginning of the reporting period	4,185	5,189
New leases	2,013	3,674
Accretion of interest recognised during the year	316	374
Termination of leases	(121)	(1,666)
Payments	(3,108)	(3,426)
Exchange realignment	37	40
At the end of the reporting period	3,322	4,185
Analysed into:		
– Current portion	1,909	2,498
– Non-current portion	1,413	1,687
	3,322	4,185

The present value of lease liabilities is summarised as below:

	Lease payments		Present value of lease payments	
	2025 S\$'000	2024 S\$'000	2025 S\$'000	2024 S\$'000
Amounts payable:				
Within one year	2,145	2,741	1,909	2,498
More than one year, but not exceeding five years	1,480	1,904	1,413	1,687
	3,625	4,645	3,322	4,185
Less: future finance charges	(303)	(460)		
Total lease liabilities	3,322	4,185		

During the year ended 31 December 2025, the effective interest rate for the lease liabilities of the Group was approximately 7% (2024: approximately 7%) per annum.

15. LEASE (continued)

The Group as a lessee (continued)

(b) Lease liabilities (continued)

The amounts recognised in profit or loss in relation to leases are as follows:

	Notes	2025 S\$'000	2024 S\$'000
Interest on lease liabilities		316	374
Depreciation of right-of-use assets		2,324	2,743
Gain on termination of leases		(74)	(597)
Impairment loss on right-of-use assets	14(c)	124	429
Expenses relating to short-term leases (included in "Rentals and related expenses")		157	223
Variable lease payments not included in the measurement of lease liabilities (included in "Rentals and related expenses")	15(c)	93	179
		2,940	3,351

The total cash flows for the year ended 31 December 2025 were approximately S\$3,358,000 (2024: approximately S\$3,828,000).

At 31 December 2025 and 2024, the Group was not committed to any short-term lease contracts.

Certain leases include an option allowing the Group to extend the lease term for an additional period after the end of the contract term. Lease payments are generally fixed. Where practicable, extension options are included in the lease terms to provide operational flexibility to the Group. However, these terms are generally not reflected in measuring the lease liabilities because the options are not reasonably certain to be exercised. For those leases with such extension options, the potential future lease payments relating to periods following the exercise dates of extension options are approximately S\$992,000 (2024: approximately S\$899,000).

15. LEASE (continued)

The Group as a lessee (continued)

(c) *Variable lease payments*

The lease contract of a restaurant or outlet contains variable lease payment terms that are linked to sales generated from the restaurant or outlet. Variable lease payment terms are used, when possible, in newly established restaurants or outlets because it allows the Group to align lease expenses with revenue earned and reduce the business risk. During the year ended 31 December 2025, about 45% (2024: 72%) of lease contracts contain such variable lease payment terms.

Further details about the leases with variable lease payments are set out below:

17. TRADE AND OTHER RECEIVABLES (continued)

17(a) Trade receivables

Included in the balances are the trade receivables (before loss allowance) from contracts with customers within IFRS 15:

	2025 S\$'000	2024 S\$'000
At the beginning of the reporting period	45	155
At the end of the reporting period	47	45

The Group's trading terms with its customers are mainly on cash and credit card settlement. The credit term is generally on 14 to 30 days (2024: 14 to 30 days). In view of the fact that the Group's trade receivables relate to credit card receivables from banks and franchisees, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest bearing.

An ageing analysis of the trade receivables at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2025 S\$'000	2024 S\$'000
Less than 30 days	47	45

The details of the loss allowance for impairment of trade receivables are set out in Note 27 to the consolidated financial statements.

Provision for reinstatement costs is recognised when the related leasehold improvements were made. It includes the estimated cost of demolishing and removing all the leasehold improvements made by the Group to the premises. The premises shall be reinstated to the condition set up in the lease agreements upon the expiration of the lease agreements. The Group incurred reinstatement costs for certain closed outlets during the years ended 31 December 2025 and 2024.

22. DEFERRED TAX

At 31 December 2025, the Group had tax losses arising from Singapore and Malaysia of approximately S\$11,871,000 (2024: approximately S\$11,309,000) and S\$185,000 (2024: Nil), respectively.

At 31 December 2025 and 2024, the tax losses arising in Singapore, subject to the agreement by the Inland Revenue Authority of Singapore, are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose.

The tax losses arising in Malaysia can be used to offset against future taxable profits, which can be carried forward for 7 consecutive years of assessment (i.e. from year of assessment 2026 to 2032 (2024: N/A)).

For the years ended 31 December 2025 and 2024, deferred tax assets have not been recognised in respect of the above items as it is uncertain whether taxable profits will be available against which the above items can be utilised.

23. SHARE CAPITAL AND SHARE PREMIUM

27. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of pledged deposits, cash and cash equivalents, trade and other receivables, trade and other payables, amount due to a director, bank overdrafts (current portion) and interest-bearing borrowings (current portion) approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the directors of the Company. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the directors of the Company.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate their fair values.

The fair values of non-current other receivables, lease liabilities and non-current interest-bearing borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities and were assessed to be approximating to their carrying amounts.

In the opinion of the directors of the Company, no financial assets and liabilities of the Group are carried at amount materially different from their fair values at 31 December 2025 and 2024.

The Group is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, interest rate risk and liquidity risk. The Group's overall risk management objective is to effectively manage these risks and seek to minimise potential adverse effects on the financial performance of the Group. The Group reviews and agrees policies for managing each of these risks and they are summarised below.

27. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Credit risk

The Group adopts the policy of dealing only with customers with appropriate credit history. For financial assets, the Group adopts the policy of dealing with financial institutions and other counterparties with high credit ratings. Customers' payment profile and credit exposure are continuously monitored by the Group.

Maximum exposure and year-end staging at 31 December 2025 and 2024

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification at 31 December 2025 and 2024. The amounts presented are carrying amounts for financial assets.

	12-month or Life time ECL	Net carrying amount 2025 S\$'000	Net carrying amount 2024 S\$'000
Trade receivables			
– Normal*	Life time ECL	47	45
Financial assets included in other receivables			
– Normal*	12-month ECL	739	882
Pledged deposits			
– Not yet past due	12-month ECL	76	200
Cash and cash equivalents			
– Not yet past due	12-month ECL	286	534
		1,148	1,661

* The credit quality of the financial assets included in other receivables is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful" or "credit-impaired".

There was no change in the estimation techniques or significant assumptions made during the years ended 31 December 2025 and 2024. Further quantitative data in respect of the Group's exposure to credit risk arising from trade and other receivables are disclosed in Note 17 to the consolidated financial statements.

27. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from its bank overdrafts and interest-bearing borrowings.

At 31 December 2025, the Group had bank overdrafts and interest-bearing borrowings with variable interest rate of approximately S\$3,205,000 (2024: approximately S\$2,059,000). If S\$ interest rates had been 100 basis points higher/lower with all other variables held constant, the Group's consolidated loss before tax would have been approximately S\$32,000 (2024: approximately S\$21,000) higher/lower for the year ended 31 December 2025, arose mainly as a result of the higher/lower interest expense on floating rate loans and borrowings.

The above sensitivity analysis has been determined assuming that the reasonably possible changes in the interest rate has occurred at the beginning of the reporting period and has been applied to the exposure to interest rate risk in existence at the end of the reporting period.

Liquidity risk

The Group manages liquidity risk by maintaining cash and available funding through committed credit facilities sufficient to enable it to meet its operational requirements.

The table below analyses the maturity profile of the Group's financial liabilities based on contractual undiscounted cash flows:

At 31 December 2025	Carrying amounts S\$'000	Within one year or on demand S\$'000	More than one year but less than two years S\$'000	More than two years but less than five years S\$'000	More than five years S\$'000	Total S\$'000

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to provide adequate cash flows to meet its operating requirements.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made to the objectives, policies or processes for managing capital during the years ended 31 December 2025 and 2024.

28. OTHER CASH FLOW INFORMATION

(a) Major non-cash transactions

In addition to the information disclosed elsewhere in the consolidated financial statements, the Group had the following major non-cash transactions:

- (i) During the year ended 31 December 2025, the Group had non-cash additions to right-of-use assets and lease liabilities of approximately S\$2,013,000 and S\$2,013,000, respectively, in respect of lease arrangements for leasehold land and building (2024: approximately S\$3,674,000 and S\$3,674,000, respectively).
- (ii) During the year ended 31 December 2025, the additions of property, plant and equipment of approximately S\$475,000 (2024: approximately S\$617,000) were settled through the recognition of provision of reinstatement costs of approximately S\$60,000 and other payables of approximately S\$415,000, respectively (2024: approximately S\$161,000 and S\$456,000, respectively).
- (iii) During the year ended 31 December 2025, the refundable deposits of approximately S\$124,000 has been offset against the other payables of approximately S\$124,000.
