ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ABOUT THIS REPORT

Min Fu International Holding Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**” or “**Min Fu**”) (Stock Code: 8511) are principally engaged in the provision of smart manufacturing solutions including sales of equipment and provision of relevant technical service in the People’s Republic of China (the “**PRC**”). The shares of the Company (the “**Shares**”) were successfully listed on GEM of the Stock Exchange on 20 April 2018, which marked a key milestone for the Group. The Group is focusing on precision 3D testing solutions and precision machining solutions in the PRC. The Company provides smart manufacturing solutions to serve the needs of high-end equipment manufacturers which require a high level of precision in the manufacture of their industrial products. Its solutions comprise and integrate various equipment and services, ranging from solution concept and design, procurement of machinery, auxiliary tools and software and system installation and debugging to provision of after sales services such as technical support and training. The Group also engaged in agency services for burial business in the PRC.

The Group had been persisting in developing new technology, including new auxiliary tools design software applications. As of 31 March 2026, the Group has 34 registered patents, including 8 invention patents and 26 utility model patents.

The Group acknowledges the significance of effective environmental, social and governance (“**ESG**”) initiatives at operation level. The direction of the Group’s ESG practices is governed by the board of directors of the Company (the “**Board**”), ensuring that the ESG strategy reflects the Company’s core values. We had a designated working group, which comprised of employees from various departments, to gather relevant information and data for the preparation of such report.

This Report describes the ESG initiatives of the Group for the financial year ended 31 March 2026 (the “**Year**” or the “**Reporting Period**”). The contents of this Report provide its stakeholders with an overview of the Group’s efforts regarding ESG impacts arising from its daily operations.

REPORTING PRINCIPLES

This Report was prepared for an overview of the performance of the Group on environmental, social and governance (“**ESG Report**”). This ESG Report complies with the provision of the ESG Reporting Guide as set out in Appendix C2 of the Rules Governing the Listing of Securities on GEM (the “**GEM Listing Rules**”) of the Stock Exchange of Hong Kong Limited.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

This Report is one of the communication channels through which we connect with our stakeholders. We believe that ESG information that is meaningful and important to their decision-making should be disclosed. In this regard, the compilation process of this ESG Report follows the reporting principles suggested by the ESG Reporting Guide, which include:

<i>Materiality</i>	After collecting the opinions of stakeholders through internal and external stakeholder engagements, we review and determine material ESG aspects to the Group and guide the focus of this ESG Report.
<i>Balance</i>	To provide an unbiased picture of the Group, the Group not only disclose the progress in sustainable development management, but also discusses the Group's sustainable development challenges and future action plans, and explains the undisclosed information.
<i>Quantitative</i>	All departments and business lines used standardised tools to continuously record the Group's economic, environmental, and social indicators, and monitor the progress and results of the targets' implementation.
<i>Consistency</i>	Unless otherwise stated, this ESG Report adopted consistent methodologies to allow for a fair comparison of our performance from time to time.

This ESG Report also complies with the mandatory disclosure requirements and "comply or explain" provisions of the ESG Reporting Guide. It is recommended that this Report is read in conjunction with the Company's Annual Report 2026, in particular the Corporate Governance Report and Director's Report.

SCOPE AND BOUNDARY

Unless otherwise specified, this report covers the Group's ESG accomplishments and challenges during the 2026 financial year, from 1 April 2025 to 31 March 2026 (the "**Year**" or "**Reporting Period**").

To provide a comprehensive review of our impact and performance, this ESG Report focuses on the business operations in the Company's headquarter and its local subsidiary in Guangzhou, Guangdong province of the PRC. Due to the non-significant environmental and social impact, the Group's business presence in Beijing, Xian, Chongqing, Changchun, Nanjing and Hong Kong are not included in the Report. The content of this ESG Report focuses on material sustainability areas based on our most significant economic, environmental and social impacts, and the area of greatest interests of our stakeholders. As there were no changes to the business scope, our ESG management approach, initiatives and strategy remained unchanged.

STATEMENT OF THE BOARD OF DIRECTORS

Our management approach is to run our business in an ethically, socially and environmentally responsible manner, supporting and connecting the communities we serve. We must do this while maintaining service excellence and financial returns.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Board has the overall responsibility for the Group’s ESG strategies and Reporting, as well as overseeing and managing our ESG-related risks. The Board regularly reviews our systems and guidelines across our operations to maintain high level of transparency and accountability.

We identify, evaluate and prioritise ESG issues through regular internal and external stakeholder engagements. ESG Working Group is authorised by the Board to carry out ESG-related tasks once the ESG related issue is identified. While the ESG Working Group implements and communicates the day-to-day management of ESG issues, the Board is responsible for the oversight of the overall management and decisions relating to sustainability governance of the Group. Through the Board’s oversight, we are now able to assess ESG risks and provide strategic long-term guidance on sustainability performance, goals, and priorities. We have also implemented new ESG-related policies and guidelines. The new developments are embedded into how we conduct our business as we create long-term sustainable value for our shareholders, employees, customers, suppliers and the communities where we operate.

Looking forward to the future, the Board will also timely review the Group’s own ESG strategic planning and performance based on macro policy environment and our business development direction, considering the matters that the stakeholders concern about. The Board also sets out ESG goals and targets on relevant Key Performance Indicators (“KPIs”), and make comparisons on yearly review. We aim to make full use of our ESG data and reduce carbon footprint by raising employees’ ESG awareness, ultimately driving the change of behavior towards incorporating ESG initiatives into our operational strategy. We strive to provide a supportive working environment to our employees, while minimizing any environmental impact caused by our operational activities.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

This ESG Report has been reviewed by the ESG Working Group and approved by the Board of Company. It is available in both Chinese and English, this ESG Report can be accessed at the website of the Company (www.minfuintl.com) and the Stock Exchange of Hong Kong Limited's website (<https://www.hkexnews.hk>).

The Group highly values comments and suggestions from its stakeholders. We welcome any feedback, and we can be reached at:

MATERIALITY ASSESSMENT

Assessment Process

A materiality assessment is the process of identifying, refining, and assessing the potential ESG related issues that could affect a business and/or its stakeholders. The process involved both employees of different levels and external stakeholders. They were identified based on their expertise and working relationship with the Group.

The materiality assessment processed by the Group consists of the following sequential steps:

Materiality Matrix

As identified by the materiality assessment, the ESG Report covers the overall performance, risks, strategies, measures and commitments of the Group in five areas, namely, our environment, operational practices, our supply chain management, workplace and employment and community investment for the Group's principal business operations. Once we identify the most material issues, we continue to manage the impact of these issues on the Group and our stakeholders. We also dedicate our reporting efforts on our top material issues through the disclosure of relevant KPIs, targets and initiatives which will be described in subsequent sections of this ESG Report. The topics were placed on a materiality matrix and their relative position is dependent on their impact to the Group's business and their importance to stakeholders. We have identified the key ESG topics of varying degrees of impact to the Group and importance to stakeholders as follows:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The following matrix shows the materiality assessment result of the Group:

Area of Focus	Material Issues
Environmental	Emissions Non-hazardous waste production The Environment and Natural Resources Climate Change
Operational Practices	Product Responsibility Quality Assurance Consumer Data Privacy Anti-Corruption Whistle blowing policy
Our Supply Chain Management	Supply Chain Management Selection of Suppliers
Workplace and Employment	Employment Labour Standards
Community	Community investment

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group has established appropriate and effective management policies and internal control systems on ESG issues. The Group confirmed that the disclosures in the ESG Report are in compliance with the requirements of the ESG Reporting Guide. There was no change to the material issues for financial year ended 31 March 2026.

STAKEHOLDERS' ENGAGEMENT

We understand that stakeholders' engagement plays a pivotal role to our continuous effort in improving our ESG standard. Therefore, we have built and maintained our various communication channels for our stakeholders. We endeavor to provide our stakeholders with clear information about our business operations and ESG issues.

During the Reporting Period, the Group engaged with our stakeholders through multiple communication channels, summarised as follows:

Shareholders	Regulators	Community
Annual general meetings, announcements and circulars, annual reports, interim reports, quarterly reports, other disclosure documents and press releases	Communications achieved via both written and electronic means. Swift response to any new measures implemented by the government	Participation in donation to charitable organizations and community services
Employees	Customers	Business partners & Suppliers

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. OUR ENVIRONMENT

Environmental Policies

We endeavor to minimise our carbon footprint of our business operations on the environment, and we are committed to integrate environmental considerations into our business processes. With our business as a provider of smart solution, although we impose a relatively minimal impact to the environment, the Group still strives to minimise our indirect impact of business operations on the environment. The Group has made reference to relevant environmental rules and low-carbon measures suggested by relevant government departments and organizations, and from time to time seeks our employees on their awareness to preserve the environment and require our employees to follow practices to minimise environmental impact.

During the Reporting Period, we confirmed that there was no incident of non-compliance with local relevant environmental laws and regulations relating to exhaust gas and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that have a significant impact on the Group. Therefore, no penalty was imposed on the Group during the Reporting Period.

Emissions

Exhaust Gas and Greenhouse Gas ("GHG") Emissions

With the Group's primary business as a system solution provider, the majority of our operations are conducted in an office environment and limited environmental impact is caused directly by our business operations. Our principal business operations do not involve activities that directly emit GHG or other air pollutants.

Carbon footprint arising from our day-to-day operations is mainly from electricity consumption for our offices. GHG emissions are not identified as material to the Group. The Group strives to minimise resource consumption and encourage our employees to adopt best practices as detailed in our Green Office Policy. During the year, the increase in GHG emissions was mainly driven by high electricity consumption associated with operations of 湖南省百升生物科技有限公司 (Hunan Baisheng Biotechnology Co., Ltd.).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL KPIS	2025/26	2024/25	% Change
Air Emissions¹			
Nitrogen oxides (NO _x) (Kg)	N/A	N/A	N/A
Sulphur oxides (SO _x) (Kg)	N/A	N/A	N/A
Respirable suspended particulates (RSP) (Kg)	N/A	N/A	N/A
GHG emissions²			
Scope 1 – Direct emissions (tonnes CO ₂ e)	N/A	N/A	N/A
Scope 2 – Energy indirect emissions (tonnes CO ₂ e)	187.38	3.29	+5,595%
Scope 3 – Other indirect emissions (tonnes CO ₂ e)	0.022	0.25	-91%
Total GHG Emissions (Scope 1 and Scope 2) (tonnes CO ₂ e)	187.40	3.29	+5,596%
GHG emissions intensity (By floor area ³) (tonnes CO ₂ e/m ²)	0.178	0.031	+474%

Notes:

- Air Emissions of Nitrogen oxides (NO_x), Sulphur oxides (SO_x), and Respirable suspended particulates (RSP) are not disclosed as the amount is insignificant due to the fact that no gaseous fuel consumption was recorded during the Reporting Period.
- Greenhouse gas emissions data are presented in terms of carbon dioxide equivalence with reference to the requirements of, including but not limited to, the Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard published by the World Resources Institute and the World Business Council for Sustainable Development, the Reporting Guidance on Environmental KPIS published by the Stock Exchange and Baseline Emission Factors for Regional Power Grids in China for 2022 Emission Reduction Projects.

Scope 1: Emissions come from direct GHG emissions from combustion of fuels in stationary or mobile sources (excluding electrical equipment) to generate electricity, heat or steam, which is not applicable to our business due to the fact that we do not involve in direct production.

Scope 2: Emissions come from indirect GHG emissions from the generation of purchased electricity.

Scope 3: Other indirect GHG emissions that occur in the upstream and downstream activities of the Group. The significant contribution is mainly from Category 5: Waste generated in operations. Emission factors adopted are from the "Environmental Reporting Guidelines: Including mandatory greenhouse gas emissions reporting guidance" issued by the Department for Energy Security and Net Zero of the UK.
- The gross floor area during the Reporting Period was 1,054.66 m².

Waste management

Hazardous waste

Due to the business nature, the amount of hazardous waste is not material to the Group's daily operation.

Non-hazardous waste

Non-hazardous wastes produced during the Reporting Period were mainly general office wastes and domestic refuse, which included used paper, used stationery and etc. All these wastes were collected and disposed of properly. There is no applicable data of non-hazardous wastes produced from our operations, as waste is collected and handled by designated service provider hired by the property management company of the commercial building where our office is located.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

We encourage our employees to apply the 3R principle – “Reduce, Reuse, Recycle” and think thoroughly before they trash any office waste/computer waste. The Group endeavored to minimise waste through the following initiatives and we target to go paperless in our operation by stages.

SUMMARY OF KPI DISCLOSURE OF ASPECT A1: EMISSION

Aspects, General Disclosures and KPIs

KPI A1.1	The types of emissions and respective emissions data.	Our principal business operations do not involve activities that directly emit GHG or other air pollutants. The types of emissions and respective emissions data are set out above.
KPI A1.2	Direct (Scope 1) and energy indirect (Scope 2) greenhouse gas emissions (in tonnes) and, where appropriate, intensity (e.g. per unit of production volume, per facility).	Due to our business nature, no direct (Scope 1) emissions data is applicable, whereas emissions of indirect (Scope 2 & 3) GHG are as set out above.
KPI A1.3	Total hazardous waste produced (in tonnes) and, where appropriate, intensity (e.g. per unit of production volume, per facility).	Our principal business operations do not involve activities that produce hazardous wastes.
KPI A1.4	Total non-hazardous waste produced (in tonnes) and, where appropriate, intensity (e.g. per unit of production volume, per facility).	There is no applicable data of non-hazardous wastes produced from our operations, as waste is collected and handled by designated service provider hired by the property management company of the commercial building where our office is located.
KPI A1.5	Description of emission targets set and steps taken to achieve them.	Emission target and steps taken to minimise emissions can be referred to in the Use of Resources section.
KPI A1.6	Description of how hazardous and non-hazardous wastes are handled, reduction targets and steps taken to achieve them.	Description of how hazardous and non-hazardous wastes are handled, reduction targets can be referred to in the Use of Resources section below.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Use of Resources

The Group has formulated relevant policies and procedures to manage the effective use of resources in order to achieve higher energy efficiency and reduce unnecessary material use at corporate offices and daily operations. By adopting the following energy-saving and emission-reduction measures, the Group is actively working to minimise the impact on the environment and continue to respond to environmental issues related to global warming, pollution and environmental diversification.

Target

The Group and the ESG Committee has established an emission reduction pathway with a long-term perspective as a directional target to review the GHG Emissions from time to time in the coming year by closely implementing the measures as disclosed in the section of Initiatives as per below.

We are dedicated to contributing to environmental protection. We will continue to review the effectiveness of the existing initiatives and continue to identify opportunities for increasing energy efficiency in future years.

Initiatives

Major practices adopted in our office are as follows:

Aspects	Major practices
Energy Consumption	– Encourage the use of electronic communication and electronic filing system – Maintain optimal room temperature to reduce air conditioning load – Affix “Save Energy” stickers to remind employees to switch off all electrical appliances, lights and office equipment when they are not in use – Keep all windows and door shut when air conditioning is turned on – Use and purchase only energy-saving electrical appliances – Utilise day-time natural lighting in offices and install LED lighting system with better energy efficiency
Water Conservation	– Place water-saving notices in the pantry – Repair pipes and drainage immediately when dripping problem is found
Use of Paper	– Reuse and recycle paper, and promote double-sided printing if needed – Minimise packaging materials for corporate gifts and souvenirs
Waste Reduction	– Reuse stationery and reduce the use of disposable tableware – Recycle ink cartridges and copier toner containers – Focus on software improvisation and purchase computer hardware only when necessary – Affix “Recycle” stickers to remind co-workers on importance of correct procedures of recycling

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Appropriate Water Source

The Group faces no issues in sourcing water that is fit for purpose, and water is mainly supplied by local water companies where the offices operate. The offices have stable water supply to meet daily operational needs.

Wastewater Discharge

The Group's operations do not consume a significant amount of water. Our main use of water is for sanitary purposes. The Group ensures all domestic sewage is properly discharged into the urban sewage pipe network for subsequent sewage treatment.

Water consumption

Water consumption	2025/26	2024/25	% Change
Water (m ³) (Cubic metre)	62.78	94.32	-33%
Total Water intensity (m ³ /Gross Floor Area (m ²))	0.060	0.901	-93%

Electricity consumption

Consumption data	2025/26	2024/25	% Change
Electricity consumption (kWh)	309,743.25	4,117.59	+7422%
Total Electricity intensity (kWh/Gross Floor Area (m ²))	239.69	39.34	+647%

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SUMMARY OF KPI DISCLOSURE OF ASPECT A2: USE OF RESOURCES

Aspects, General Disclosures and KPIs

KPI A2.1	Direct and/or indirect energy consumption by type (e.g. electricity, gas or oil) in total (kWh in '000s) and intensity (e.g. per unit of production volume, per facility).	Details of energy consumption is as illustrated in the above diagrams. Our business relies only on electricity as the only source of energy for its business operations.
KPI A2.2	Water consumption in total and intensity (e.g. per unit of production volume, per facility).	Details of water consumption is as illustrated in the above diagrams.
KPI A2.3	Description of energy use efficiency target(s) set and steps taken to achieve them.	Description of energy use, efficiency targets and steps taken to achieve them can be referred to in the above paragraphs.
KPI A2.4	Description of whether there is any issue in sourcing water that is fit for purpose, water efficiency target(s) set and steps taken to achieve them.	There is no issue in sourcing water that is fit for purpose whereas the Group considers its water consumption level is reasonable. The Group targets to remain its water and electricity consumption each year at minimal level by implementing the measures as shown in the above paragraph.
KPI A2.5	Total packaging material used for finished products (in tonnes) and, if applicable, with reference to per unit produced.	There is no applicable data of packaging material as we do not involve the use of any packaging material.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Environment and Natural Resources

Our Group do not have direct damage to or a particularly material impact on the environment and natural resources in their daily operation. The Group constantly follows the principle of protecting the environment and natural resources in the operation and actively adopt various measures and take actions to reduce emissions from daily operations and save energy resources so as to minimise the impact on the environment. Relevant measures are described in “Initiatives” and “Use of Resources”, and it is ensured that it will not cause any significant impact on the environment and overuse natural resources.

SUMMARY OF KPI DISCLOSURE OF ASPECT A2: USE OF RESOURCES

Aspects, General Disclosures and KPIs

KPI A3.1	Description of the significant impacts of activities on the environment and natural resources and the actions taken to manage them.	Description of the significant impacts of activities on the environment and natural resources and the actions taken to manage them can be referred to the above paragraphs.

CLIMATE CHANGE

As climate change is becoming increasingly prevalent and its effects are becoming more visible, we understand the risks and opportunities associated with climate change. We are deeply aware of the potential impacts of climate change on our business and the communities we serve, and supporting the global effort to limit temperature rise to well below 1.5°C, as outlined in the Paris Agreement. In our ESG Report, the Group aims to provide an overview of our exposure to climate-related risks and opportunities.

1. Governance

To develop systematic management of ESG issues under the Board’s delegations, the Group has established the ESG Working Group for management and assistance in oversight. The ESG Working Group has the responsibility for collecting and analysing ESG data, monitoring and evaluating the Group’s ESG performance, keeping track of and reviewing the progress made against the Group’s ESG-related targets, ensuring compliance with ESG-related laws and regulations, assisting in conducting materiality assessment and preparing ESG reports.

The ESG Working Group also arranges meetings regularly to evaluate the effectiveness of current policies and procedures, and formulates appropriate solutions to improve the overall performance of ESG policies. Furthermore, the ESG Working Group reports to the Board periodically, assist in assessing and identifying the Group’s ESG risks and opportunities, ensuring the implementation and effectiveness of the risk management and internal control systems.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2. Strategy

The Group's climate assessments cover short-term (1-3 years), medium-term (3-10 years), and long-term (over 10 years) horizons. The results of the climate assessment are as follows:

Climate Risks and Opportunities

Climate-related Risks and Opportunities	Time Horizon	Potential Impact	Mitigation/Response Measures
Physical Risk – Extreme weather events (such as typhoons, heavy rainstorms and flooding)	Short to Medium	Disruption to operations, damage to facilities and equipment, interruption to logistics and supply chain.	Strengthen business continuity planning, monitor weather conditions, implement emergency response procedures, and conduct regular inspection and maintenance of facilities and equipment.
Physical Risk – Rising temperatures	Medium to Long	Increased energy consumption, higher operating costs and reduced operational efficiency.	Improve energy efficiency, optimise operational practices, and review workplace conditions to enhance climate resilience.
Transition Risk – Regulatory and policy changes	Medium to Long	Increased compliance costs and additional ESG reporting obligations.	Monitor climate-related regulations, strengthen ESG governance, and ensure ongoing regulatory compliance.
Transition Risk – Supply chain and market changes	Short to Long	Supply chain disruptions, increased procurement costs, and changing customer and investor expectations.	Maintain close communication with suppliers, diversify procurement sources where appropriate, and monitor market developments.
Opportunity – Operational efficiency	Medium to Long	Improved resource efficiency, lower operating costs and enhanced environmental performance.	Promote energy conservation, digitalisation, and resource optimisation across business operations.
Opportunity – Sustainable business development	Long	Enhanced corporate reputation, stronger stakeholder confidence and long-term business competitiveness.	Explore sustainable business practices, identify climate-related opportunities, and continuously improve ESG performance.

Given the reliefs provided under the HKEX ESG Reporting Code, including reasonable information relief, capacity relief and financial impact relief, the Group has not disclosed the detailed financial impacts or conducted climate-related scenario analysis at this stage.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3. Risk Management

The Group recognises the importance of effective risk management in supporting its sustainable business development. The Board is responsible for overseeing the Group's risk management and internal control systems while management is responsible for identifying, assessing, monitoring and managing key business and ESG-related risks.

The Group conducts regular risk assessments to identify potential operational, financial, compliance and ESG risks. Appropriate control measures are implemented to mitigate identified risks, and the effectiveness of the risk management and internal control systems is reviewed periodically to support the Group's business objectives and long-term sustainability.

4. Metrics and Targets

The Group's GHG emissions are presented in the section headed "1. OUR ENVIRONMENT- Emissions", including disclosures of Scope 1 and Scope 2 GHG emissions. The data collection methodology and calculation basis are prepared in accordance with the standards set out in the notes to that section.

As the Group is not engaged in carbon intensive activities, its GHG target was not derived using a sectoral decarbonisation approach. The Group will continue to explore the feasibility of establishing a long-term climate-related as part of the Group's transition plan. At present, the Group does not have adequate information for disclosing the accurate amount and percentage of assets or business activities vulnerable to climate-related physical, transition risks and opportunities.

The Group does not apply an internal carbon price and does not offset emissions using carbon credits during the Reporting Year. Going forward, the Group will continuous to enhance the relevant capabilities and strengthen its climate-related metrics, targets and disclosures in future reports.

Whistle-blowing policy

The Group establishes a confidential and safe whistleblowing mechanism that ensures the personal information of the whistleblowers shall be kept strictly confidential. When investigating the authenticity of a case, the Group will seal all relevant documents and suspend relevant personnel to cooperate with relevant departments for review. Employees who discover any corruption, bribery, or money laundering incident can report to the Board directly. Our Group requires employees to report any suspected cases on corruption and misconduct anonymously to protect the legitimate interest of the whistle blower. Investigation will be carried out independently and will be escalated to relevant regulatory and law enforcement bodies when necessary. Upon verification of the case, the Group will take appropriate disciplinary or legal action. The whistleblowing system is subject to regular reviews to evaluate its effectiveness.

During the Reporting Period, there was no incident of non-compliance with the relevant laws and regulations that have a significant impact on the Group relating to corruption, bribery, extortion, fraud and money laundering.

3. OUR SUPPLY CHAIN MANAGEMENT

Suppliers' selection and management

We endeavour to ensure that suppliers engaged, and products used throughout the supply chain satisfy the environmental standards held by the Group. Especially, the provision of high standard precision system solutions requires a robust and rigorous selection mechanism for its suppliers to assure its product quality. In such, our product cycle initiates with the Procurement team and R&D Team working in collaboration in the vendor selection processes, and the testification of sample products.

Not only we take into account normal screening criteria such as price, reputation, product quality etc., the Group adheres to fair operating practices and take into account of potential environmental and social risks which may exist along our supply chain. The Company tends to avoid suppliers who impose severe environmental or social impact, and ESG concerns has become one of our selection criteria upon vendor selection. To mitigate the risk of over-reliance on any single supplier, the Procurement Team has in place a list of qualified suppliers to enhance flexibility and control and the list of suppliers is updated from time to time. Sustainable, fair-trade and environmentally friendly products are preferred and procurement decisions are not solely based on price concern.

In addition, we constantly review on the service quality of our suppliers. Corporate due diligence and credit checks are performed leveraging on public data gathered when a supplier is included in our qualified suppliers list.

Once we have sourced the right suppliers, the Group enters into legally binding service agreements and non-disclosure agreement with them to define detailed terms of service and deliverables.

The Group believes that effective communication is the key to maintain a long-term relationship with suppliers, and only a trusting relationship with our suppliers could manage our environmental and social risk while enhancing our operating efficiency.

During the Reporting Period, the Group has encountered no incidents of non-compliance with all related laws and regulations at all operating regions.

4. WORKPLACE AND EMPLOYMENT

Our People

We strive to retain high caliber talents by providing a gratifying and rewarding workplace to our employees, offering them opportunities to learn, grow and succeed. As an equal opportunity employer, and we help our employees to reach their full potential.

Employment

We believe people are our most valuable asset of the Group and our employees represents our core competitive advantage. As their employer, we are committed to establish a close and caring relationship with our people. This includes not only offering employees fair wages and benefits, but also enriching their lives through training and leisure activities and keeping them safe at work.

Recruitment and Remuneration Policies

To ensure compliance with all applicable legal and regulatory requirements, our Human Resources (“HR”) Team closely monitors the updates in employment-related laws and regulations, develops corresponding policies, and establishes proper internal controls in employment processes to ensure compliance. During the Reporting Period, the Group was not aware of any material non-compliance against employment-related laws and regulations in PRC. Employment contracts and orientation briefings are formally documented by our human resources department. Our staff handbook sets out provisions on business conduct, work ethics, trainings and regulations, dismissal policies and required responsibilities of employees. The staff handbook is distributed to each employee upon onboarding.

To attract and retain the best candidates, we have developed a comprehensive remuneration, reward, and performance evaluation framework. The Group provides its talents with a competitive remuneration and benefits packages, which includes basic salary, annual bonus, OT allowance, comprehensive medical insurance coverage and Provident fund. Employee’s paid leave entitlement includes but not limited to annual leave, maternity leave, paternity leave, birthday leave, compensation leave, marriage leave and sick leave. Corresponding remuneration and benefits adjustments will be reviewed and determined based on market information, individual performance, the Group’s overall performance and other market conditions.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Equal Opportunities, Diversity and Inclusion

We embrace diversity and inclusion. Our recruitment policy stipulates that we recruit candidates based on their experience and expertise, and do not discriminate on grounds of gender, disability, pregnancy, marital and family status, racial background, religious belief, age or sexual orientation. The Group is an equal opportunity employer and we do not see disability as any disadvantage. These policies are documented in the Employee Handbook and are strictly complied with relevant local laws and regulations. Any employees violating the Equal Employment Opportunity Policy and the Non-discrimination and Anti-harassment Policy will be subjected to disciplinary actions up to termination of employment contract.

Dismissal Policies

Our staff handbook includes guidelines and policies for compensation and dismissals. In situations where an employee violates the Group's regulations or consistently performs their duties below an acceptable level, our human resources department has in place a range of procedures for employee dismissal at management's disposal. Terms and conditions relating to dismissal are properly documented in employment contracts and are in full compliance with relevant laws and regulations. A set of grievance procedures is also in place, to provide staff with a channel of escalating their complaints and concern to the human resources department.

Employee Communication

We value the voices of employees and believe a strong communication is a prerequisite for effective management. To enhance communication among employees, the Group give out festive gifts such as mooncakes and Chinese red pocket money on festive seasons to our employees to show our appreciation for their hard work and dedication. We think that it is important to put thought into building mutual trust and employee recognition and these appreciation gestures are meant to boost morale and create a thriving workplace for our employees. By maintaining a close relationship with our staffs, we hope this will allow us to have a better understanding of their needs and goals. Employees are also encouraged to give feedbacks and suggestions to the Group for improvements. We have also adopted the open-door policy for employees to express their concern and opinions with respect to their work condition.

Workplace Safety & Well-being

Health and Safety

The Group cares about the safety and well-being of employees. Although our nature of business is not typically associated with high health and safety risks when compared to other more labour-intensive industries, we strive to promote a culture of safety by establishing relevant policies and plans as preventive measures to minimise any health and safety related risks. We also have policies in place to manage occupational health and safety issues across our entire business operations.

Safety

We pledge to offer a healthy and safe workplace for our employees and it is of paramount importance to safeguard the well-being of our employees. As a responsible employer, assess and identify potential safety risks, take preventive measures and offer necessary training and information from time to time with regard to workplace safety. Regular inspection of the emergency exits has been carried out to ensure they were kept clear. Fire drills are organised from time to time familiarizing our employees with the evacuation routes and the proper usage of life-saving gears such as fire extinguishers.

Employees' Well-being

We value the well-being of employees. While medical insurances are in place to provide full coverage of personal health care, we also strive to guarantee reasonable working hours, wage and welfare. Employees are also entitled to paid statutory holidays and special leave allowances, such as maternal leave, paternal leaves, study leave, and exam leave etc. We encourage our employees to further their education and will provide subsidy upon request.

We assume every responsibility to assure that all necessary preventive and protective measures are taken to minimise occupational safety and risks, and we pledge to provide a blame-free environment and encourages employees to stay home if they are ill.
