LATEST BUSINESS UPDATE ON THE PROPOSED BUSINESS COOPERATION

On 10 September 2026, the Company entered into the MOU with the Cooperating Partner in relation to the Proposed Cooperation.

Pursuant to the MOU, the Company and the Cooperating Partner intend to carry out in-depth business cooperation in the field of aviation technology. This shall include: to jointly introduce top-tier European aircraft manufacturing technologies into the PRC; to develop a full industry chain encompassing research and development (R&D), manufacturing, exhibition and sales, and after-sales maintenance of light sports aircraft; and to establish a professional pilot training system. In addition, leveraging over 10 years of experience of the Cooperating Partner in the unmanned aerial vehicle ("**UAV**") industry, the parties also plan to jointly commence a business segment covering diversified UAV application scenarios, including but not limited to firefighting operations, aerial lifting, aerial photography, agricultural plant protection, and logistics and distribution. The Company and the Cooperating Partner will further negotiate the details of the Proposed Cooperation and will enter into a formal agreement in due course.

Save for the Cooperating Partner's obligations to comply with (i) the relevant applicable laws and regulations and (ii) confidentiality obligations in relation to matters concerning the MOU, the MOU does not create legally binding obligations on either party in respect of the Proposed Cooperation.

To the best of the Directors' knowledge, information and belief having made all reasonable enquiries, the Cooperating Partner is a third party independent of the Company and its connected persons.

As the MOU is not legally binding in respect of the Proposed Cooperation, the Proposed Cooperation may or may not proceed. Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
