## MANAGEMENT'S DISCUSSION AND ANALYSIS

The Group is based on integrated securities trading platform services and provides diversified services relating to the Hong Kong financial industry to various customers. The principal activities of the Group include the provision of market and trading integrated terminal products and system services and financial services with operations licensed under the Securities and Futures Ordinance (the "**SFO**") to its customers. ## BUSINESS REVIEW

During the Reporting Period, the capital market in Hong Kong showed a sign of overall recovery, with the scale of funds raised from IPOs remaining at a high level in the first half of the year. The market activity and IPO performance, however, experienced intermittent fluctuations during the period. The total revenue of the Group decreased by HK$16,693,511 or 20.6% to HK$64,366,226 (for the Corresponding Period: HK$81,059,737). Net profit for the Reporting Period decreased by HK$12,537,718 or 35.2% to HK$23,121,681 (for the Corresponding Period: HK$35,659,399). The decrease in net profit was primarily due to the decline in revenue from underwriting and sub-underwriting services, as fewer underwriting and sub-underwriting projects were completed during the Reporting Period, as compared to relatively higher segment revenue in the same period last year.

The Group has provided cloud-based integrated market data and trading terminal products and system services to approximately 176 brokerage clients, helping them improve operational efficiency. As at 30 September 2026, a total of 67 Hong Kong brokerage firms used our front office trading system. Revenue from trading system services decreased by HK$623,275 or 6.8% to HK$8,499,510 (for the Corresponding Period: HK$9,122,785). Trading system service revenue accounted for 13.2% of the Group's total revenue during the Reporting Period (for the Corresponding Period: 11.3%). The decrease in revenue was mainly due to a slight decline in the number of Hong Kong brokerage clients. The Group will continue to consolidate existing customer relationships and expand its customer base through system function upgrades and better customer services.

*Note 1:* Corporations licensed under the SFO to conduct brokerage activities with Type 1 licence (dealing in securities).

*Note 2:* The 15th to 65th Exchange Participants by market turnover.

*Note 3:* Stockbrokers, being Exchange Participants in the market, except for the 14 largest Exchange Participants by market turnover and Category B Exchange Participants.

*Note 4:* A person or an institution which, in accordance with the requirements of the Stock Exchange, or whose name is entered in a register kept by the Stock Exchange as a person or an institution which, may trade through the Stock Exchange.

*Note 5:* Since 23 June 2025, the grey market trading platform of TGM has been undergoing a comprehensive inspection and is temporarily suspended.

During the Reporting Period, the overall revenue of SaaS services increased by approximately 52.7% to HK$31,178,156 (for the Corresponding Period: HK$20,413,702), and accounted for 48.4% of the Group's total revenue (for the Corresponding Period: 25.2%). The increase in revenue was primarily attributable to a significant increase in revenue from the Group's Internet value-added services and share tracing services. The Group's SaaS services primarily include online account opening appointment and related services through TradeGo Financial Cloud, a cloud-based financial platform, Internet value-added services through TradeMart, an open securities information and investment platform, and share tracing services through LiveReport big data platform. During the Reporting Period, revenue from both Internet value-added services and share tracing services recorded substantial growth, underpinned by the continuous expansion of the user base and intensified marketing efforts, which, together, drove an overall increase in revenue from SaaS business. The SaaS platform Financial Cloud has helped nearly 200 brokerage firms improve their business operational efficiency with its diversified products and functional services. Looking ahead, the Group will focus more closely on client needs and actively expand SaaS products and services into broader business scenarios.

Fintech services continued to develop steadily, with the number of registered users maintaining growth momentum. As of 30 September 2026, the Group's registered users amounted to approximately 926,491 (approximately 869,920 as of 30 September 2025), an increase of 56,571 or 6.5%. Most users are active investors. Through its product matrix, the Group provides diversified value-added services such as IPO information, market quotes, listed company information, online account opening, IPO subscription, and share trading, comprehensively meeting the needs of active investors.

During the Reporting Period, the Group's revenue from financial services licensed under the SFO decreased by 71.9% to HK$12,466,578 (for the Corresponding Period: HK$44,343,047). The financial services mainly comprise securities brokerage, underwriting and sub-underwriting services, the business performance of which largely depends on Hong Kong IPO market activities and the capital market sentiment. Among which, revenue from underwriting and sub-underwriting services decreased by 81.1% to HK$7,345,091 (for the Corresponding Period: HK$38,831,633). The decrease in revenue was mainly due to a decrease in the number of underwriting and sub-underwriting projects, as well as intensified competition in the Hong Kong IPO underwriting and placing market during the Reporting Period. TradeGo Markets Limited ("**TradeGo Markets**" or "**TGM**"), an indirect wholly-owned subsidiary of the Group, is licensed by the Securities and Futures Commission ("**SFC**") of Hong Kong to carry out Type 1 (Dealing in securities) and Type 7 (Providing automated trading services) regulated activities. During the Reporting Period, TGM completed the underwriting of 2 IPO projects and 1 refinancing project. Subsequent to the Reporting Period, TGM continued to advance a number of existing and potential projects at various stages. The Group will continue to capture project opportunities in the Hong Kong capital market and promote the development of its related businesses.

During the Reporting Period, the Group, through its wholly-owned subsidiary Power Mind Global Limited, completed the acquisition of 33.4% equity interest in Tiger Faith AM International Limited (the "**Target Company**"). The Target Company, through its wholly-owned subsidiary Tiger Faith Asset Management Limited, holds Type 4 (Advising on securities) and Type 9 (Asset management) licences from the SFC. Upon completion of the acquisition, Tiger Faith Asset Management Limited was renamed as LiveReport Asset Management Limited. The acquisition provides the Group with an entry point to expand its securities advisory and asset management businesses, further enriching the Group's portfolio of financial services licensed under the SFO and is in line with the Group's development strategy of building a diversified financial platform.

Research and development ("**R&D**") investment continued to increase. During the Reporting Period, R&D expenses amounted to HK$7,047,312 (for the Corresponding Period: HK$6,684,004), an increase of HK$363,308 or 5.4%. Continuously enhancing R&D capabilities remains the core foundation for the Group's establishment and leading position in Hong Kong's fintech industry. The Group will closely follow industry technology trends and business strategic needs, accelerate the R&D process and product upgrades/iterations, and significantly increase R&D resource allocation in key areas such as the grey market trading platform, LiveReport big data, AI interaction systems, and real-time interactive trading engines, to further consolidate its core competitive advantages.

During the Reporting Period, the Group completed a strategic investment in approximately 2.63% of the equity interest in Eqrrwa Technology Holding Pte. Ltd. ("**EQR**"), a company principally engaged in information technology consultancy and system integration services. The parties intend to pursue business collaboration in areas such as Web3 technology, regulated stablecoins, Real World Assets ("**RWA**") tokenisation and exchange systems. The investment enables the Group to optimise the strategic plan in the RWA and global trading systems sectors, leveraging synergies between the parties' resources and broadening the scope of the Group's fintech services.

During the Reporting Period, the Group has submitted an application to the Stock Exchange for the transfer of listing of the shares from GEM to the Main Board pursuant to Chapter 9B of the Main Board Listing Rules, and is currently forge ahead all matters relating to the transfer of listing in full swing. Completion of the transfer of listing will help raise the corporate standing of the Group, broaden its investor base, increase the liquidity of its shares, and optimise financing conditions, which is in the overall interests of the Company and the shareholders (the "**Shareholders**"). However, the transfer of listing is subject to the fulfilment of all relevant conditions precedent and the final approval from the Stock Exchange, and there is no guarantee that the transfer of listing will proceed. If there is any material development, the Group will issue announcements as and when appropriate to provide updates to the Shareholders and the market.

Such decrease was primarily attributable to a decrease in revenue from underwriting and sub-underwriting services of approximately 81.1% to HK$7,345,091, arising from fewer underwriting and sub-underwriting projects undertaken during the period. The reduction was partly offset by increases in SaaS service revenue and other value-added services revenue.

The increase was mainly due to the increase in advertising and an increase in professional fees including those incurred in connection with the Group's application for transfer of listing from GEM to the Main Board.

**Finance cost**

The Group's finance cost for the Reporting Period amounted to HK$101,433 mainly arising from the Group's lease liabilities (for the Corresponding Period: HK$59,319).
