

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated accounts are set out below:

(a) Basis of preparation

The accounts have been prepared in accordance with accounting principles generally accepted in Hong Kong and comply with accounting standards issued by the Hong Kong Society of Accountants (“HKSA”). They have been prepared under the historical cost convention except that, as disclosed in the accounting policies below, certain leasehold land and buildings and investment properties are stated at fair value.

In the current year, the Group adopted the following Statements of Standard Accounting Practice (“SSAPs”) issued by the HKSA which are effective for accounting periods commencing on or after 1st January 2001:

| | | |
|-------------------|---|--|
| SSAP 9 (revised) | : | Events after the balance sheet date |
| SSAP 14 (revised) | : | Leases (effective for periods commencing on or after 1st July 2000) |
| SSAP 26 | : | Segment reporting |
| SSAP 28 | : | Provisions, contingent liabilities and contingent assets |
| SSAP 29 | : | Intangible assets |
| SSAP 30 | : | Business combinations |
| SSAP 31 | : | Impairment of assets |
| SSAP 32 | : | Consolidated financial statements and accounting for investments in subsidiaries |

The effect of adopting these new standards is set out in the accounting policies below.

(b) Consolidation

The consolidated accounts include the accounts of the Company and its subsidiaries made up to 31st December. Subsidiaries are those entities in which the Group controls the composition of the board of directors, controls more than half the voting power or holds more than half of the issued share capital.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All significant intercompany transactions and balances within the Group are eliminated on consolidation.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(b) Consolidation (continued)

The gain or loss on the disposal of a subsidiary represents the difference between the proceeds of the sale and the Group's share of its net assets together with any unamortised goodwill or negative goodwill arising on consolidation which was not previously charged or recognised in the consolidated profit and loss account.

In the Company's balance sheet the investments in subsidiaries are stated at cost less provision for impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

(c) Fixed assets

(i) Investment property

Investment property is interests in land and buildings in respect of which construction work and development have been completed and which is held for its investment potential, any rental income being negotiated at arm's length.

Investment property held on leases with unexpired periods of greater than 20 years are valued at intervals of not more than three years by independent valuers; in each of the intervening years valuations are undertaken by professionally qualified executives of the Group. The valuations are on an open market value basis related to individual properties and separate values are not attributed to land and buildings. The valuations are incorporated in the annual accounts. Increases in valuation are credited to the investment property revaluation reserve. Decreases in valuation are first set off against increases on earlier valuations on a portfolio basis and thereafter are debited to operating profit. Any subsequent increases are credited to operating profit up to the amount previously debited.

Upon the disposal of an investment property, the relevant portion of the revaluation reserve realised in respect of previous valuations is released from the investment properties revaluation reserve to the profit and loss account.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(c) Fixed assets (continued)

(ii) Leasehold land and buildings

Leasehold land and buildings are interests in land and buildings other than investment property and are stated at fair value which is determined by the directors based on independent valuations which are performed on a regular interval basis. The valuations are on an open market basis related to individual properties and separate values are not attributed to land and buildings. In the intervening years, the directors review the carrying value of the properties and adjustment is made where they consider that there has been a material change. Increases in valuation are credited to the land and buildings revaluation reserve. Decreases in valuation are first offset against increases on earlier valuations in respect of the same property and are thereafter debited to operating profit. Any subsequent increases are credited to operating profit up to the amount previously debited. Upon the disposal of a property, the relevant portion of the realised revaluation reserve in respect of previous valuations is transferred from the revaluation reserve to retained earnings.

Amortisation of leasehold land is calculated to write off its valuation over the unexpired period of the lease. Depreciation on leasehold buildings is calculated to write off their costs or valuation on a straight line basis over the unexpired periods of the leases or their expected useful lives to the Group whichever is shorter. The principal annual rates used for this purpose are 2.5% – 5%.

(iii) Other fixed assets

Other fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Fixed assets are depreciated at rates sufficient to write off their cost less accumulated impairment losses over their estimated useful lives on a reducing balance basis. The principal annual rates are as follows:

| | |
|------------------------|-----------|
| Leasehold improvements | 20% |
| Plant and machinery | 20% |
| Furniture and fixtures | 15% – 20% |
| Office equipment | 20% |
| Motor vehicles | 15% – 20% |
| Company boat | 20% |

Major costs incurred in restoring fixed assets to their normal working condition are charged to the profit and loss account. Improvements are capitalised and depreciated over their expected useful lives to the Group.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(c) Fixed assets (continued)

(iv) Impairment and gain or loss on sales

At each balance sheet date, both internal and external sources of information are considered to assess whether there is any indication that assets included in other fixed assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated and where relevant, an impairment loss is recognised to reduce the asset to its recoverable amount. Such impairment losses are recognised in the profit and loss except where the asset is carried at valuation and the impairment loss does not exceed the revaluation surplus for that same asset, in which case it is treated as a revaluation decrease.

The gain or loss on disposal of a fixed asset is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in the profit and loss account. Any revaluation reserve balance remaining attributable to the relevant asset is transferred to retained earnings and is shown as a movement in reserves.

(d) Assets under hire purchase/leases

(i) Hire purchase

Contracts that substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as hire purchase. Assets are capitalised at the inception of the hire purchase at the lower of the fair value of the assets or the present value of the minimum lease payments. Each lease payment is allocated between the capital and hire purchase charges so as to achieve a constant rate on the capital balances outstanding. The corresponding rental obligations, net of hire purchase charges, are included in long-term liabilities. The hire purchase charges are charged to the profit and loss account over the lease periods.

Assets held under hire purchase are depreciated over the shorter of their estimated useful lives or the lease periods.

(ii) Operating leases

Leases where substantially all the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases net of any incentives received from the leasing company are charged to the profit and loss account on a straight-line basis over the lease periods.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(e) Translation of foreign currencies

Transactions in foreign currencies are translated at exchange rates ruling at the transaction dates. Monetary assets and liabilities expressed in foreign currencies at the balance sheet date are translated at rates of exchange ruling at the balance sheet date. Exchange differences arising in these cases are dealt with in the profit and loss account.

The accounts of a subsidiary expressed in foreign currency are translated at the rates of exchange ruling at the balance sheet date. Exchange differences are dealt with in the profit and loss account.

(f) Negative goodwill

Negative goodwill represents the excess of the fair value of the Group's share of the net assets acquired over the cost of acquisition.

For acquisitions prior to 1st January 2001, negative goodwill was taken directly to reserves on acquisition. The Group has taken advantage of the transitional provisions in SSAP 30 and such negative goodwill has not be restated. When an indication of impairment exists, the carrying amount of negative goodwill previously written off against reserves, is assessed and written down immediately to its recoverable amount.

The gain or loss on disposal of an entity includes the unamortised balance of goodwill relating to the entity disposed of or, for pre 1st January 2001 acquisitions, the related goodwill written off against reserves to the extent it has not previously been realised in the profit and loss account.

(g) Investment securities

Investment securities are stated at cost less any provision for impairment losses.

The carrying amounts of individual investments are reviewed at each balance sheet date to assess whether the fair values have declined below the carrying amounts. When a decline other than temporary has occurred, the carrying amount of such investment securities will be reduced to its fair value. The impairment loss is recognised as an expense in the profit and loss account. This impairment loss is written back to profit and loss when the circumstances and events that led to the write-downs or write-offs cease to exist and there is persuasive evidence that the new circumstances and events will persist for the foreseeable future.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs are assigned to individual items on the first-in first-out basis and are arrived at as follows:

- (i) Raw material purchased for use in the manufacturing process – invoiced price and shipping costs.
- (ii) Work in progress and finished manufactured goods – costs of direct materials, direct labour and an appropriate proportion of production overheads.
- (iii) Finished goods purchased for resale – invoiced price and shipping costs.

Net realisable value is determined on the basis of anticipated sales proceeds less estimated selling expenses.

(i) Accounts receivables

Provision is made against accounts receivables to the extent that they are considered to be doubtful. Accounts receivables in the balance sheets are stated net of such provision.

(j) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks, bank overdrafts and trust receipt loans.

(k) Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that outflow is probable, they will then be recognised as a provision.

(l) Deferred taxation

Deferred taxation is accounted for at the current taxation rate in respect of timing differences between profit as computed for taxation purposes and profit as stated in the accounts to the extent that a liability or an asset is expected to be payable or recoverable in the foreseeable future.

Notes to the Accounts

1. PRINCIPAL ACCOUNTING POLICIES (continued)

(m) Revenue recognition

Revenue from the sale of goods is recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and title has passed.

Interest income is recognised on a time proportion basis, taking into account the principal amounts outstanding and the interest rates applicable.

Operating lease rental income is recognised on a straight-line basis.

(n) Retirement benefit costs

The Group contributes to defined retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated at rates specified in the rules of the scheme. The retirement benefit scheme cost charged to the profit and loss account represents contributions payable by the Company to the fund. The assets of the scheme are held separately from those of the Group in an independently administered fund.

(o) Borrowing costs

All borrowing costs are charged to the profit and loss account in the year in which they are incurred.

(p) Segment reporting

In accordance with the Group's internal financial reporting the Group has determined that business segments be presented as the primary reporting format and geographical as the secondary reporting format.

Unallocated costs represent mainly corporate expenses. Segment assets consist primarily of fixed assets, inventories, receivables and operating cash. Segment liabilities comprise operating liabilities and exclude items such as taxation and certain corporate borrowings. Capital expenditure comprises additions to fixed assets (note 11).

In respect of geographical segment reporting, sales are based on the country in which the customer is located. Total assets and capital expenditure are where the assets are located.

(q) Dividends

In accordance with the revised SSAP 9, the Group no longer recognises dividends proposed or declared after the balance sheet date as a liability at the balance sheet date. This change in accounting policy has been applied retrospectively so that the comparatives presented have been restated to conform to the changed policy.

Notes to the Accounts

The opening retained earnings of the Company at 1 January 2001 increased by HK\$1,990,000 representing the reversal of the 2000 proposed final dividend of HK\$1,990,000 not declared until after the balance sheet date.

No diluted (loss)/earnings per share is presented as there is no potential dilutive ordinary share during the year.

9. RETIREMENT BENEFIT COSTS

The Group did not operate any retirement scheme up to 30th November 2000. With effect from 1st December 2000, a mandatory provident fund ("MPF") scheme has been set up by the Group which is available to all employees in Hong Kong, including executive directors. Contributions to the MPF scheme by the Group and employees are calculated at rates specified in the rules of the MPF scheme. The assets of the MPF scheme are held separately from those of the Group in an independently administered fund.

The MPF scheme cost charged to the consolidated profit and loss account represents contributions payable by the Company to the fund. Contributions totalling HK\$31,579 (2000: HK\$28,872) which are payable to the fund are included in accounts payable as at 31st December 2001.
