Notes:

Basis of preparation and accounting policies
These unaudited consolidated condensed accounts are prepared in accordance with Hong Kong Statement of Standard Accounting Practice ("SSAP") 25, Interim Financial Reporting, issued by the Hong Kong Society of Accountants (the "HKSA").

These condensed accounts should be read in conjunction with the 2002 annual accounts.

The accounting policies and methods of computation used in the preparation of these condensed accounts are consistent with those used in the annual accounts for the year ended 30 April 2002. The Group has presented its condensed consolidated cash flow statement with effective from 1 May 2002 based on SSAP 15 (revised): "Cash flow statements" issued by the HKSA which is effective for accounting periods commencing on or after 1 January 2002. The comparative figures have been reclassified accordingly. In addition, the following SSAPs issued by the HKSA became effective for accounting periods commencing on or after 1 January 2002 and are applicable to the Group:

SSAP 1 (revised):
SSAP 11 (revised):
SSAP 25 (revised):
SSAP 33:
SSAP 34:
Presentation of financial statements
Foreign currency translation
Interim financial reporting
Discontinuing operations
Employee benefits

The adoption of the above SSAPs has no material impact on the Group's prior year accounts.

3) Discontinuing operation

The Chairman of the Company has stated in his statement in the annual report of the Group for the financial year ended 30 April 2002 that, in view of the poor performance of the office furniture and kitchen cabinet business and the fact that the market condition is not expected to improve much in the coming years, the Board was considering different solutions to maximize the interests of the shareholders of the Company. During the current period, certain subsidiaries engaged in this business were disposed of to Mr. Kok Kin Hok, the chairman of the Company, for a consideration of HK\$2,000,000, resulting a gain of approximately HK\$30.34 million to the Group.

The remaining carrying amount of total assets and liabilities of the Group related to this business amounted to approximately HK\$79.13 million and HK\$128.26 million respectively, as at 31 October 2002.

4) Operating profit/(loss)

Operating profit/(loss) is stated after charging the following:

BUSINESS REVIEW

The Group's consolidated turnover for the six months ended 31 October 2002 was HK\$1,576.8 million (2001: HK\$342.4 million). In line with the Group's repositioning of its in business focus to mobile telecommunications, distribution of mobile handsets accounted for a significant share of 89.28% of the Group turnover in the current period, while contribution from office furniture, kitchen cabinets supply and installation to the Group's turnover was only 10.72%.

The Group's profit before taxation for the six months ended 31 October 2002 was HK\$31.75 million (2001 loss: HK\$41.83 million). Profit per share amounted to HK0.52 cents, compared to a loss per share of HK1.03 cents in the same period last year.

During the period under review the Group completed the disposal of its entire interests in the loss-making Lamex China Limited ("Lamex China") to Chairman Mr Kok Kin Hok for a consideration of HK\$2 million in cash. Lamex China will repay a HK\$123.6 million loan to the Group in August 2003 in accordance with the agreement thereon. It improved the overall financial performance of the Group after bringing a HK\$30.34 million gain. It also leaves the Group a clean slate to pursue a more promising future in the mobile telecommunications industry.

The Group considers the transaction as one of its milestone developments after taking into consideration the fact that Lamex China, which engages in manufacturing and trading of office furniture and building materials, had experienced three consecutive years of operating losses with the outlook remaining bleak. And more important of all, the transaction allows the Group to better deploy its corporate resources to develop mobile telecommunication business.

Thanks to the effort ploughed by the management, the Group's distribution network of mobile handsets in China had reached 37 major cities with support from more than 30 distributors and 2,500 retailers by the end of the six months under review. This extensive network contributed to a sales volume of 1,430,000 GSM and CDMA handsets in the current period, representing a 68% increase from the average sales volume made by the Group in the year ended 30 April 2002.

Excellents relationship had been maintained with the Samsung, the world's third largest manufacturer of mobile phones and the largest manufacturer of CDMA mobile handsets. Gross margins were maintained at the healthy 10% level because the models the Group exclusively distributed in China belonged to the niche upper brackets.

While GSM mobile handsets continued to be the mainstay of the Group's mobile telecommunication business, parallel effort had also been spared to develop the CDMA market segment. Powered by technology and product innovations from Samsung and the manufacturing capacity and capabilities of China Kejian Corporation, the Group supplied about 300,000 CDMA handsets in China under the Kejian-Samsung co-branded label during the period. The Group will seek to develop healthier and more balanced revenue streams from the distribution of handsets in these two mainstream formats.

In November 2002, the Group also completed acquisition of a 33.98% interest in Ezze Mobile from Chairman Mr Kok Kin Hok. Established in 2000, Ezze Mobile is a Korea-based mobile telecommunications solutions provider and equipment manufacturer. It posted revenues of 58 billion Korean Won (HK\$355 million) and net profits of 3.6 billion Korean Won (HK\$21.95 million) for the year ended 31 December 2001. A funding exercise from institutional investors in May last year valued Ezze Mobile at HK\$394.8 million.

Ezze Mobile complemented the Group's vision to become a full mobile telecommunications solutions provider with premium-value-added services possessing unsurpassed strengths in areas of mobile technology solutions, product designs, production support, quality control, procurement, logistics, distribution network, marketing promotion, market intelligence and provision of after-sale services.

The Group continued to be able to sustain its sound financial position. At 31 October 2002, the Group's total cash on hand and total bank borrowings aggregated to HK\$4.4 million and HK\$43.73 million (30 April 2002: HK\$113.1 million and HK\$104.59 million) respectively. The bank borrowings were secured by bank deposits of HK\$59.5 million (30 April 2002: HK\$50.86 million) and legal charges on the properties of the Group with an aggregate net book value of HK\$13.83 million (30 April 2002: HK\$60.47 million).

The Group's business transactions, assets and liabilities are mainly denominated in Hong Kong Dollars, Renminbi and United States Dollars. It is the Group's treasury policy to manage its foreign currency exposure whenever its financial impact is material to the Group. The Group's major source of funds was cash flow generated from its operating activities and financing from banks and share issuance. The Group does not engage in foreign currency speculative activities.

Shareholders' funds were maintained at a level of HK\$448.69 million as at 31 October 2002. The gearing ratio as measured by total bank borrowings to capitalization was 9.75% during the period under review.

Prospects

The disposal of the entire interests in Lamex China and acquisition of a 33.98% interest in Ezze Mobile benchmarked completion of the Group's crucial transition into a full-service mobile telecommunications solutions provider from the previous role as an office furniture manufacturer and distributor.

Stable high growth in revenue and profits from distribution of mobile handsets in China and supply of mobile phone parts and technology to China Kejian Corporation will enable the Group to achieve healthier organic growth.

The Group has been identifying opportunities to acquire distribution rights for more high-end models from Samsung, for handsets from other branded manufacturers, and to engage in more mobile telecommunications technology consultancy business. A new model of ladies' phone, Samsung T508, featuring chic outlook design, and a number of new GSM and CDMA models with colour LCDs are in the pipeline for launch in China.

Given the highly competitive market environment, the acquisition of interests in Ezze Mobile brings the Group closer to cutting edge developments in the mobile telecommunications industry, including multi-media messaging, mobile high-speed data transmission via GPRS, 3G or other platforms; telecommunications making use of mobile Internet Protocol, and mobile Java technologies.

The transaction equips the Group with the muscle to evolve into a one-stop mobile telecommunications solutions provider. This one-stop approach enables very cost-effective origination, planning, implementation, customization and post-installation maintenance of systems, transmission networks and even down to the level of handset design, manufacturing and distribution. This approach generates solutions that are particularly valuable for major and remote cities in Mainland China and other Asian countries that require very sophisticated customization to accommodate territory-specific usage habits and applications. It helps service carriers in these markets keep in pace with latest technological development without the hassle of owning and managing expensive in-house technical research and service teams.

The blending of Ezze Mobile's systems, network and handset design capabilities with Samsung's technology support and China Kejian's manufacturing strength will provide the Group with a unique edge over its competitive peers in implementing solutions from conceptualization to completion.

Ezze Mobile is planning a listing on the stock exchange in South Korea. The Group believes this move will provide further impetus to pursue deeper understanding and profitable development in mobile telecommunications research and solutions provision.
