These accounts also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the module on "Financial Disclosure by Locally Incorporated Authorised Institutions" under the Supervisory Policy Manual issued by the Hong Kong Monetary Authority. A summary of the significant accounting policies adopted by the Group is set out below.

(b) Basis of preparation of the accounts

The measurement basis used in the preparation of the accounts is historical cost modified by the revaluation of certain properties and the marking to market of certain investment in securities and off-balance sheet financial instruments as explained in the accounting policies set out below.

(c) Investments in subsidiaries and controlled enterprises

A subsidiary, in accordance with the Hong Kong Companies Ordinance, is a company in which the Group, directly or indirectly, holds more than half of the issued share capital, or controls more than half of the voting power, or controls the composition of the Board of Directors. Subsidiaries are considered to be controlled if the Bank has the power, directly or indirectly, to govern the financial and operating policies, so as to obtain benefits from their activities.

An investment in a controlled subsidiary is consolidated into the consolidated accounts, unless it is acquired and held exclusively with a view to subsequent disposal in the near future or operates under severe long-term restrictions which significantly impair its ability to transfer funds to the Group, in which case, it is stated in the consolidated balance sheet at fair value with changes in fair value recognised in the investment revaluation reserve as they arise.

2. 主要會計政策(續)

(c) 附屬公司及受控企業投資(續)

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(c) Investments in subsidiaries and controlled enterprises (continued)

Intra-group balances and transactions, and any unrealised profits arising from intra-group transactions, are eliminated in full in preparing the consolidated accounts. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

In the Bank's balance sheet, an investment in a subsidiary is stated at cost less any impairment losses (note 2(o)), unless it is acquired and held exclusively with a view to subsequent disposal in the near future or operates under severe longterm restrictions which significantly impair its ability to transfer funds to the Bank, in which case, it is stated at fair value with changes in fair value recognised in the investment revaluation reserve as they arise.

(d) Associated companies

An associated company is an entity in which the Group or Bank has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

An investment in an associated company is accounted for in the consolidated accounts under the equity method and is initially recorded at cost and adjusted thereafter for the post acquisition change in the Group's share of the associated company's net assets, unless it is acquired and held exclusively with a view to subsequent disposal in the near future or operates under severe long-term restrictions that significantly impair its ability to transfer funds to the Bank, in which case it is stated at fair value with changes in fair value recognised in the investment revaluation reserve as they arise. The consolidated profit and loss account reflects the Group's share of the post-acquisition results of the associated companies for the year, including any amortisation of positive or negative goodwill charged or credited during the year in accordance with note 2(e).

Unrealised profits and losses resulting from transactions between the Group and its associated companies are eliminated to the extent of the Group's interest in the associated company, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in the profit and loss account.

主要會計政策(績) (d) 聯營公司(績)

(e) Goodwill

Positive goodwill arising on consolidation represents the excess of the cost of the acquisition over the Group's share of the fair value of the identifiable assets and liabilities acquired. Positive goodwill is amortised to the consolidated profit and loss account on a straight-line basis over 10 years. In respect of controlled subsidiaries, positive goodwill is stated in the consolidated balance sheet at cost less any accumulated amortisation and any impairment losses (note 2(o)). In respect of acquisition of associated companies, the cost of positive goodwill less any accumulated amortisation and any impairment losses (note 2(o)) is included in the carrying amount of the investments in associated companies.

On disposal of a controlled subsidiary or an associated company during the year, any attributable amount of purchased goodwill not previously amortised through the consolidated profit and loss account is included in the calculation of the profit or loss on disposal.

(f) Advances and doubtful debts

- Advances to customers are measured at the cash consideration at the time of drawdown and are stated in the balance sheet after deducting provisions for estimated losses subsequently.
- (ii) Amounts have been set aside as general provisions for doubtful debts, and in addition, specific provisions are made for non-performing loans following guidelines established by the Directors. When there is no longer any realistic prospect of recovery, the outstanding debt is written off.

- (iii) All loans which are over 90 days past due, and which are not fully collateralised, are automatically classified as non-performing. Interest accrued on non-performing loans is not taken as income but credited to a suspense account, which is netted in the balance sheet against the appropriate balance sheet headings.
- (iv) Repossessed assets are continued to be treated as securities for loans and advances. Provision has been made on the shortfall between the carrying amount of the loans and advances and the expected net sales proceeds from realisation of the repossessed assets.

(g) Interest and fees

Interest income and expense are accrued on a time-apportioned basis on the principal outstanding and at the rate applicable except in the case of interest on non-performing loans (note 2(f)(iii)). Interest income from dated debt securities intended to be held to maturity is recognised as it accrues, as adjusted by the amortisation of the premium or discount on acquisition, so as to achieve a constant rate of return over the period from the date of purchase to the date of maturity. Fee income and expense are recognised when earned or incurred, except where the fee is charged to cover the costs of a continuing service to, or risk borne for, the customer, or is interest in nature. In these cases, the fee is recognised on an appropriate basis over the relevant period.

(h) Deferred taxation

Deferred taxation is provided using the liability method in respect of the taxation effect arising from all material timing differences between the accounting and tax treatment of income and expenditure, which are expected with reasonable probability to crystallise in the foreseeable future.

 (i) Dated debt securities that the Group and/or the Bank have the ability and intention to hold to maturity are classified as held-to-maturity securities. Held-to-maturity securities are stated in the balance sheet at amortised cost less any provisions for diminution in value.

The carrying amounts of held-to-maturity securities are reviewed as at the balance sheet date in order to assess the credit risk and whether the carrying amounts are expected to be recovered. Provisions are made when carrying amounts are not expected to be recovered and are recognised as an expense in the profit and loss account.

- (ii) Trading securities are stated in the balance sheet at fair value. Changes in fair value are recognised in the profit and loss account as they arise.
- (iii) Non-trading securities are stated in the balance sheet at fair value. 要符合作對沖用途,該衍生工 具必須在合約成立時可有效地 減低對沖的有關資產或負債的 價格或利率風險。

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED) (1) Finance and operating leases

Leases under which substantially all the risks and benefits of ownership are transferred to the lessees are classified as finance leases. Where the Group is a lessor under finance leases, an amount representing the net investment in the lease is included in the balance sheet as "Advances to customers". Finance income implicit in the lease payment is recognised as "Interest income" over the period of the leases in proportion to the funds invested. Hire purchase contracts having the characteristics of finance leases are accounted for in the same manner as finance leases.

Other leases are classified as operating leases. Where the Group is a lessor under operating leases, the leased assets are included in "Tangible fixed assets". Rentals receivable under operating leases are recognised as "Other operating income" in equal installments over the accounting period covered by the lease term.

(m) Off-balance sheet financial instruments

Off-balance sheet financial instruments arise from forward, swap and option transactions undertaken in the foreign exchange, interest rate and equity markets. The method of accounting for these instruments is dependent upon whether the transactions are undertaken for dealing purposes, to hedge risk, or as part of the management of asset and liability portfolios.

Derivatives carried in dealing portfolios are marked-to-market, and gains and losses are included in dealing profits or losses.

Derivatives used in balance sheet management to hedge open positions for specific assets or liabilities, are accounted for on an accruals basis, consistent with the underlying cash assets and liabilities held in these portfolios.

To qualify as a hedge, a derivative must be effective in reducing the price or interest rate risk of the asset or liability to which it is linked and be designed as a hedge at inception of the derivative contract.

2. 主要會計政策 (續)

(m) 資產負債表以外之金融工具(續)

因進行資產負債組合的管理工 作而開立的利率掉期交易均是 獨立識別的,由此產生的利息 收入或支出必須跟與之對沖的 資產負債表上項目的相關利息 收入或支出抵銷。

出售或終止未到期之對沖用途 合約所產生之損益,按原來合 約剩餘期間攤銷。當有關之資 產、負債或持盤出售或終止時, 該等合約即改為以市值列賬, 差額即時誌入損益賬內。

(n) 準備及或然負債

當負債的限期或數額不確定, 但有可能因過去事項構成法定 或推定義務而須付出經濟利益 以償責任,並能對此作可靠估 計,此負債便確認為準備。若 時間值之金額較大,則按履行 責任所需開支的現值金額列為 準備。

倘不可能需要付出經濟利益, 或不能對數額作可靠估計,除 非付出的機會是極微,則此項 責任會被披露為或然負債。除 非付出的機會是極微,潛在責 任只在會否發生一項或多項未 來事件中獲肯定下以或然負債 披露。

(o) 資產減值損失

如內部及對外資料來源均顯示 於結算日有任何物業(除投資物 業)、設備、投資(除持作買賣 用途證券(附註2(k)(ii)))或商譽 經已減值,均須估計該等資產 之可收回數額,及當該資產的 賬面值超過可收回數額時確認 減值損失於損益賬內。

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED) (m) Off-balance sheet financial instruments (continued)

Interest rate swap transactions undertaken as part of the management of asset and liability portfolios are separately identified and interest income or expense arising therefrom is netted off against the related interest income or expense on the on-balance sheet items which these transactions are hedging.

Any gain or loss on termination of hedging derivatives is deferred and amortised to the profit and loss account over the original life of the terminated contract. Where the underlying asset, liability or position is sold or terminated, the hedging derivative is immediately marked to market through the profit and loss account.

(n) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Bank or Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(o) Impairment of assets

At each balance sheet date, if internal and external sources of information indicate that any property (other than investment properties), plant and equipment, investments (other than those accounted for as "trading securities" under Note 2(k)(ii) or goodwill is impaired, the asset's recoverable amount is estimated, and an impairment loss is recognised in the profit and loss account whenever the carrying amount of an asset exceeds its recoverable amount.

2. 主要會計政策 (績)

(o) 資產減值損失(續)

可收回數額是出售淨值及使用 值兩者中之較高者。在評估使 用值時,會採用一項當時市場 評估貨幣的時間值及相對於該 資產的風險的税前折扣率將估 計未來現金流量折實為現在價 值。當某資產未能大部分獨立 地於其他資產產生現金流量, 其也回數額取決於可獨立地 產生現金流量的最小資產組合 (即一個現金生產單位)。

除了商譽的有關資產,如在用 來測定可收回數額的估計有所 改變,則減值損失會被轉回。 商譽的減值損失只會因招致該 損失的一種特殊性質的特別事 件在被視作不會重演之情況下 才會轉回,及可收回數額的增 加清楚顯示與該特別事件之轉 回相關。

減值損失轉回只局限至該資產 的賬面值猶如該等減值損失從 未在往年被確認。減值損失轉 回在該被確認的年度記存入損 益賬內。

(p) 關連人士

若本集團有權直接或間接控制 另一方或影響另一方在財務或 經營決策,或另一方有權直接 或間接控制本集團或對本集團 的財務及經營決策作出重要的 影響,或本集團與另一方均受 制於同一的監控下,則被視為 關連人士可為個別 人士或公司。

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED) (o) Impairment of assets (continued)

The recoverable amount of an asset is the greater of its net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

In respect of assets other than goodwill, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is reversed only if the loss was caused by a specific external event of an exceptional nature that is not expected to recur, and the increase in recoverable amount relates clearly to the reversal of the effect of that specific event.

A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to the profit and loss account in the year in which the reversals are recognised.

(p) Related parties

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED) (q) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

The Group has chosen business segment information as the primary reporting format and geographical segment information as the secondary reporting format.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment. Segment revenue, expenses, assets and liabilities are determined before intra-group balances and intra-group transactions are eliminated as part of the consolidation process, except to the extent that such intra-group balances and transactions are between Group enterprises within a single segment. Inter-segment pricing is based on similar terms as those available to other external parties.

Segment capital expenditure is the total cost incurred during the year to acquire segment assets (both tangible and intangible) that are expected to be used for more than one year.

(r) Cash equivalents

Cash and cash equivalents comprise cash and balances with banks and other financial institutions, and short-term, highly liquid inter-bank placements and investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Balances of banks and other financial institutions that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the cash flow statement.

25.RESERVES (CONTINUED)

The general reserve was set up from the transfer of retained earnings and exchange differences arising from translation of the accounts of overseas branches and subsidiaries (note 2(i)). The capital reserve comprises retained earnings capitalised on the issue of bonus shares by subsidiaries in previous years and a legal reserve established by Banco Weng Hang, S.A. in accordance with regulations in Macau. Revaluation reserves have been set up and are dealt with in accordance with the accounting policies adopted for the revaluation of premises and non-trading securities (notes 2(j) and (k)).

Capital reserve, bank premises revaluation reserve, investment revaluation reserve and capital redemption reserve do not represent realised profits and are not available for distribution.

The Bank and its financial subsidiaries operate under regulatory jurisdictions which require the maintenance of minimum capital adequacy ratios and which could therefore potentially restrict the amount of retained profits which can be distributed to shareholders.

26.OFF-BALANCE SHEET EXPOSURES (CONTINUED) (b) Derivatives (continued)

Contingent liabilities and commitments are credit-related instruments which include acceptances, letters of credit, guarantees and commitments to extend credit. The contractual amounts represent the amounts at risk should the contract be fully drawn upon and the client default. Since a significant portion of guarantees and commitments is expected to expire without being drawn upon, the total of the contractual amounts is not representative of future liquidity requirements.

Off-balance sheet financial instruments arise from forward, swap and option transactions undertaken by the Group and the Bank in the foreign exchange, interest rate and equity markets.

The notional amounts of these instruments indicate the volume of transactions outstanding at the balance sheet date; they do not represent amounts at risk.

(c) Capital commitments

Capital commitments for acquisition of property and equipment outstanding at 31st December not provided for in the accounts were as follows:
