

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

1. ORGANISATION AND PRINCIPAL ACTIVITIES

Sinopec Beijing Yanhua Petrochemical Company Limited (the "Company") was incorporated as a joint stock company with limited liability in the People's Republic of China (the "PRC") on 23 April 1997 as part of the reorganisation ("Reorganisation") of Beijing Yanshan Petrochemical Corporation ("Yanshan Company") in preparation for the listing of the Company's shares. The Company's shares and American Depository Shares ("ADSs") were listed on the Hong Kong Stock Exchange and the New York Stock Exchange respectively in June 1997.

Upon the Reorganisation, the Company became a subsidiary of Yanshan Company. On 25 February 2000, China Petrochemical Corporation ("Sinopec Group" or "Ultimate Parent Company"), underwent a reorganisation, and formed a subsidiary, China Petroleum and Chemical Corporation ("Sinopec" or "Immediate Parent Company"). In accordance with the reorganisation agreement, Yanshan Company, previously the Company's parent company, transferred its 70% equity interest in the Company to Sinopec.

The principal activities of the Company are the manufacturing and sale of petrochemical products in the PRC.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board. IFRS includes International Accounting Standards ("IAS") and related interpretations. These financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of the Securities on The Stock Exchange of Hong Kong Limited.

(b) Basis of preparation

These financial statements are prepared on the historical cost convention as modified by the revaluation of property, plant and equipment as stated in accounting policy (d).

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

(c) Translation of foreign currencies

The functional and reporting currency of the Company is Renminbi. Transactions in foreign currencies are translated into Renminbi at the applicable exchange rates quoted by the People's Bank of China ("PBOC rates") prevailing on the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Renminbi at the applicable PBOC rates at the balance sheet date.

Foreign currency translation differences relating to funds borrowed to finance the construction of property, plant and equipment are capitalised during the construction period to the extent that they are regarded as an adjustment to interest costs. All other exchange differences are dealt with in the income statement.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Property, plant and equipment

- (i) Property, plant and equipment are initially stated at cost less accumulated depreciation and impairment losses (refer to accounting policy (j)). The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to working condition and location for its intended use. Subsequent to the revaluation (Note 9(a)), property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. Expenditure incurred after the asset has been put into operation is capitalised only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure is charged to the income statement in the period in which it is incurred.

Construction in progress represents buildings, various plant and equipment under construction and pending installation, and is stated at cost less impairment losses (refer to accounting policy (j)). Cost comprises direct costs of construction as well as interest charges, and foreign exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charges during the periods of construction.

Capitalisation of these borrowing costs ceases and the construction in progress is transferred to property, plant and equipment when the asset is substantially ready for its intended use.

- (ii) Gains or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the income statement on the date of retirement or disposal. On disposal of a revalued asset, the related revaluation surplus is transferred from the revaluation reserve to retained earnings.
- (iii) Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of items of property, plant and equipment after taking into account the asset's estimated residual value. The estimated useful lives are as follows:

Buildings	20-40 years
Plant, machinery and equipment	4-20 years
Motor vehicles	8 years
Office equipment and others	5-30 years

No depreciation is provided in respect of construction in progress.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Inventories

Inventories, other than spare parts and consumables, are stated at the lower of cost and net realisable value. Cost includes the cost of purchase computed using the weighted average method and, in the case of work in progress and finished goods, direct labour and an appropriate proportion of production overheads. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts and consumables are stated at cost less any provision for obsolescence.

(f) Trade and other receivables

Trade and other receivables are stated at cost less allowance for doubtful accounts. An allowance for doubtful accounts is provided based upon the evaluation of the recoverability of these accounts at the balance sheet date.

(g) Cash and cash equivalents

Cash equivalents consist of time deposits with financial institutions with an initial term of less than three months at time of purchase. Cash equivalents are stated at cost, which approximates fair value.

(h) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(i) Revenue recognition

Revenue from the sale of goods is recognised in the income statement when the customer accepts the goods and the significant risks and rewards of the ownership and title have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, the possible return of goods, or when the amount of revenue and the costs incurred or to be incurred in respect of the transaction cannot be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Impairment loss

The carrying amounts of long-lived assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the income statement unless the asset is carried at revalued amount for which an impairment loss is recognised directly against any related revaluation reserve to the extent that the impairment loss does not exceed the amount held in the revaluation reserve for that same asset.

The Company assesses at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income unless the asset is carried at revalued amount. Reversal of an impairment loss on a revalued asset is credited to the revaluation reserve except for impairment loss which was previously recognised as an expense in the income statement; a reversal of such impairment loss is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

(k) Research and development costs

Research and development costs are recognised as expenses in the period in which they are incurred.

(l) Operating leases

Operating lease payments are charged to the income statement on a straight-line basis over the period of the respective leases.

(m) Net financing costs

Net financing costs comprise interest expense on borrowings, interest income from bank deposits, foreign exchange gains and losses, and other related costs incurred in connection with borrowings.

Interest income from bank deposits is accrued on a time-apportioned basis on the principal outstanding and at the applicable rate.

Interest and other related costs incurred in connection with borrowings are expensed as incurred, except to the extent that they are capitalised as being directly attributable to the construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Repairs and maintenance expenses

Repairs and maintenance expenses, including cost of major overhaul, are expensed as incurred.

(o) Retirement benefits

The contributions payable under the Company's retirement scheme are charged to the income statement according to the contribution determined by the scheme. Further information is set out in Note 21.

(p) Income tax

Income tax comprises current and deferred tax. Current tax is calculated on taxable income by applying the applicable tax rate. Deferred tax is provided using the balance sheet liability method on all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is calculated on the basis of the enacted tax rates that are expected to apply in the period when the asset is realised or the liability is settled. The effect on deferred tax of any changes in tax rates is charged or credited to the income statement.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(q) Dividends

Dividends are recognised as liability in the period in which they are declared.

(r) Related parties

For the purposes of these financial statements, parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(s) Segment reporting

A business segment is a distinguishable component of the Company that is engaged in providing products or services and is subject to risks and rewards that are different from those of other segments.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

3. TURNOVER

Turnover represents revenue from sales of goods to customers, net of value added tax.

4. PROFIT FROM ORDINARY ACTIVITIES BEFORE TAXATION

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

5. INCOME TAX EXPENSE

Income tax expense in the income statement represents:

	<u>2003</u>	<u>2002</u>
	<u>RMB'000</u>	<u>RMB'000</u>
Provision for PRC income tax for the year	286,903	-
Deferred taxation (Note 10)	<u>(43,681)</u>	<u>121,629</u>
	<u>243,222</u>	<u>121,629</u>

The provision for PRC income tax is calculated at the rate of 33% (2002: 33%) on the estimated assessable income of the Company determined in accordance with relevant income tax rules and regulations of the PRC. The Company did not carry on business overseas or in Hong Kong and therefore did not incur overseas and Hong Kong income taxes.

A reconciliation of the expected income tax with the actual income tax expense is as follows:

	<u>2003</u>	<u>2002</u>
	<u>RMB'000</u>	<u>RMB'000</u>
Profit from ordinary activities before taxation	877,107	330,728

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

9. PROPERTY, PLANT AND EQUIPMENT (Continued)

(a) The property, plant and equipment of the Company were valued by a firm of qualified independent valuers on 23 April 1997, using the depreciated replacement cost and open market value approach. The valuation was performed in compliance with the PRC laws and regulations as part of the Reorganisation. As a result of the appraisal, an increase in value of the property, plant and equipment of approximately RMB 989 million was recorded as of 23 April 1997. The land use rights in respect of land located in the PRC granted in 1997 for a period of 50 years from the date of grant are stated at their historical costs less accumulated amortisation and impairment losses.

In accordance with IAS 16 *Property, Plant and Equipment*, subsequent to this revaluation, property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation less accumulated depreciation and impairment losses. Revaluation is performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. Based on a revaluation performed at 30 September 1999, which was based on depreciated replacement costs, the carrying amounts of property, plant and equipment did not differ materially from their fair values.

10. DEFERRED TAX ASSETS AND LIABILITIES

Deferred tax assets and liabilities are attributable to the items detailed in the table below:

	<u>2003</u> RMB'000	<u>2002</u> RMB'000
Deferred tax assets:		
Current		
Provision for receivables	77,793	57,327

Net deferred tax assets	<u>87,974</u>	<u>44,293</u>

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

10. DEFERRED TAX ASSETS AND LIABILITIES (Continued)

Movements in the deferred tax assets and liabilities are as follows:

	<u>Balance at 1 January 2003</u> RMB'000	<u>Recognised in income statement</u> RMB'000	<u>Balance at 31 December 2003</u> RMB'000
Current			
Provision for receivables	57,327	20,466	77,793
Provision for inventories	32,733	(11,329)	21,404
Non-current			
Land use rights	240,390	(5,420)	234,970
Property, plant and equipment	(193,002)	26,928	(166,074)
Accelerated depreciation	(69,768)	14,187	(55,581)
Interest capitalisation	<u>(23,387)</u>	<u>(1,151)</u>	<u>(24,538)</u>
Net deferred tax assets	<u>44,293</u>	<u>43,681</u>	<u>87,974</u>

A valuation allowance on deferred tax assets is recorded if it is more likely than not that some portion or all of the deferred tax assets will not be realised through recovery of taxes previously paid and/or future taxable income. The allowance is subject to ongoing adjustments based on changes in circumstances that affect the Company's assessment of the realisability of the deferred tax assets. The Company has reviewed its deferred tax assets at the balance sheet date. Based on the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes that it is more likely than not the Company will realise the benefits of these temporary differences. Therefore, no valuation allowances were provided for the years ended 31 December 2003 and 2002 in respect of deferred tax assets arising from temporary differences.

(a) According to the Company's Articles of Association, the net profit for the year can only be appropriated after offsetting the previous years' losses, if any, as determined in accordance with the PRC Accounting Rules and Regulations.

(b) According to the Company's Articles of Association, the Company is required to transfer 10% of its net profit (subject to Note (a) described above), as determined in accordance with the PRC Accounting Rules and Regulations, to statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders.

The statutory surplus reserve can be used to make good previous years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholdings or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

For the year ended 31 December 2003, the Company transferred RMB 52,226,000, being 10% of the current year's net profit after offsetting the previous years' losses determined in accordance with the PRC Accounting Rules and Regulations, to this reserve. At 31 December 2002, because the Company had accumulated losses of RMB 91,024,000, being the amount determined in accordance with the PRC Accounting Rules and Regulations, no appropriation was made to the statutory surplus reserve for the year ended 31 December 2002.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

20. RESERVES (Continued)

- (c) According to the Company's Articles of Association, the Company is required to transfer 5% to 10% of its net profit (subject to Note (a) described above), as determined in accordance with the PRC Accounting Rules and Regulations, to the statutory public welfare fund. This fund can only be utilised on capital items for the collective benefits of the Company's employees such as the construction of dormitories, canteen and other staff welfare facilities. This fund is non-distributable other than in liquidation. The transfer to this fund must be made before distribution of a dividend to shareholders.

For the year ended 31 December 2003, the directors authorised a transfer of RMB 52,226,000, subject to shareholders' approval, being 10% of the current year's net profit after offsetting the previous years' losses determined in accordance with the PRC Accounting Rules and Regulations, to this fund. At 31 December 2002, because the Company had accumulated losses of RMB 91,024,000, being the amount determined in accordance with the PRC Accounting Rules and Regulations, no appropriation was made to the statutory welfare fund for the year ended 31 December 2002.

- (d) The capital reserve represents the difference between the total amount of the par value of shares issued to Yanshan Company and the amount of the net assets received from Yanshan Company in connection with the Reorganisation.
- (e) According to the Company's Articles of Association, the retained earnings available for distribution to shareholders of the Company is the lower of the amount determined in accordance with the PRC Accounting Rules and Regulations and the amount determined in accordance with IFRS. At 31 December 2003, the amount of retained profits available for distribution was RMB 417,808,000 (2002: Accumulated losses of RMB 91,024,000), being the amount determined in accordance with the PRC Accounting Rules and Regulations. Final dividend of RMB 168,700,000 (2002: Nil) proposed after the balance sheet date has not been recognised as a liability at the balance sheet date.

21. RETIREMENT SCHEME

The Company's full-time employees are covered by a state-sponsored pension scheme, and are entitled to an annual pension equal to a fixed proportion of their basic salaries at their retirement dates. The PRC government is responsible for the pension liability to these retired employees. The Company is required to make contributions to the retirement scheme at a rate of 20% (2002: 19%) of the employees' salaries. The Company provides no retirement benefits other than the contributions described above.

These capital commitments relate to the purchase or construction of production facilities.

25. FINANCIAL INSTRUMENTS

Financial assets of the Company include cash and cash equivalents, trade receivables, bills receivable and other receivables. Financial liabilities of the Company include bank loans, trade payables, bills payable, other payables and loans from parent companies and fellow subsidiaries. The Company had no positions in derivative contracts that qualified or were designated as hedging instruments as at 31 December 2003 and 2002.

(a) Interest rate risk

The interest rates and terms of repayment of loans of the Company are disclosed in Notes 17 and 18.

(b) Credit risk

The carrying amounts of cash and cash equivalents, trade and bills receivables, and other receivables represent the Company's maximum exposure to credit risk in relation to financial assets.

The majority of the Company's trade receivables relate to sales of chemical products to related parties and third parties operating in the chemical industries. The Company performs ongoing credit evaluations of its customers' financial condition and generally does not require collateral on trade receivables. The Company maintains an allowance for doubtful accounts and actual losses have been within management's expectations. No single customer accounted for greater than 10% of total revenues.

No other financial assets carry a significant exposure to credit risk.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

25. FINANCIAL INSTRUMENTS (Continued)

(c) Foreign currency risk

Substantially all of the revenue generating operations of the Company are transacted in Renminbi, which is not fully convertible into foreign currencies. On 1 January 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted by the PBOC. However, the unification of the exchange rate does not imply convertibility of Renminbi into United States dollars or other foreign currencies. All foreign exchange transactions continue to take place either through the PBOC or other banks authorised to buy or sell foreign currencies at the exchange rates quoted by the PBOC. Approval of foreign currency payments by the PBOC or other institutions requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

(d) Fair value

The following disclosure of the estimated fair value of financial instruments is made in accordance with requirements of IAS 32 and IAS 39. Fair value estimates, methods and assumptions, set forth below for the Company's financial instrument, are made to comply with the requirements of IAS 32 and IAS 39 and should be read in conjunction with the Company's financial statements and related notes. The estimated fair value amounts have been determined by the Company using market information and valuation methodologies considered appropriate. However, considerable judgement is required to interpret market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realise in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2003

25. FINANCIAL INSTRUMENTS (Continued)

The following table represents the carrying amounts and fair values of the Company's long-term bank loans at 31 December 2003 and 2002.

	<u>2003</u>		<u>2002</u>	
	Carrying amount RMB'000	Fair value RMB'000	Carrying amount RMB'000	Fair value RMB'000
Long-term bank loans	<u>1,596,359</u>	<u>1,596,359</u>	<u>1,927,543</u>	<u>1,927,543</u>

The fair values of long-term bank loans are estimated by discounting future cash flows thereon using current market interest rates offered to the Company for debts with substantially the same characteristics and maturities.

The fair values of other financial instruments approximate their carrying amounts due to the short-term maturity of these instruments.

26. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the current year's presentation.

27. PARENT COMPANIES

The directors consider the immediate parent company and the ultimate parent company at 31 December 2003 to be Sinopec and Sinopec Group, respectively, which are incorporated in the PRC.
