HKAS 1 has affected the presentation of minority interests on the face of the consolidated balance sheet, consolidated income statement, consolidated statement of changes in equity and other disclosures.

HKAS 24 has expanded the definition of related parties and affected the Group's related party disclosures.

2.2 新訂及經修訂之香港財務報告準 則之影響(續)

採納其他香港財務報告準則之影響概 述如下:

(a) 香港會計準則第17號-租賃

於過往年度,自用租賃土地及樓 宇是按成本減累計折舊及任何減 值虧損後列賬。

此項會計政策之變動對綜合損益 表及累計虧損並無影響。截至二 零零五年三月三十一日止年度之 比較數字已在綜合資產負債表中 重列,以反映租賃土地之重新分 類。

2.2 IMPACT OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Cont'd)

The impact of adopting the other HKFRSs is summarised as follows:

(a) HKAS 17 - Leases

In prior years, leasehold land and buildings held for own use were stated at cost less accumulated depreciation and any impairment losses.

Upon the adoption of HKAS 17, the Group's leasehold interest in land and buildings is separated into leasehold land and buildings. The Group's leasehold land is classified as an operating lease, because the title of the land is not expected to pass to the Group by the end of the lease term, and is classified as to prepaid land lease payments, while buildings are classified as part of property, plant and equipment. Prepaid land lease payments under operating leases are initially stated at cost and subsequently amortised on the straight-line basis over the lease term. When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

This change in accounting policy has had no effect on the consolidated income statement and accumulated losses. The comparative amounts for the year ended 31 March 2005 in the consolidated balance sheet have been restated to reflect the reclassification of the leasehold land.

(b) 香港會計準則第32號及香港會 計準則第39號-金融工具

(i) 股本證券

採納香港會計準則第39號並 無導致此等股本證券之計算 出現任何變動。

(ii) 銀行借貸

上並變動之影響概述於財務 報表附註2.4。

2.2 IMPACT OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Cont'd)

(b) HKAS 32 and HKAS 39 – Financial Instruments

(i) Equity securities

In prior years, the Group classified its investments in equity securities for trading purposes as short term investments, and were stated at their fair values on an individual basis with gains and losses recognised in the income statement. Upon the adoption of HKAS 39, these securities held by the Group at 1 April 2005 in the amount of HK\$432,000 are designated as financial assets at fair value through profit or loss under the transitional provisions of HKAS 39 and accordingly are stated at fair value with gains or losses being recognised in the income statement.

The adoption of HKAS 39 has not resulted in any change in the measurement of these equity securities.

(ii) Bank borrowings

Upon the adoption of HKAS 39, the bank borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to the initial recognition, the bank borrowings are stated at amortised cost. This change in accounting policy has been accounted for by restating the bank borrowings by way of an opening adjustment to the accumulated losses and bank borrowings as at 1 April 2005.

The effects of the above changes are summarised in note 2.4 to the financial statements.

2.2 新訂及經修訂之香港財務報告準 則之影響(續)

(c) 香港會計準則第40號 - 投資物業

於過往年度,投資物業之公平值變動以資產重估儲備之變動處理。倘此儲備之總額不足以彌補投資組合中之虧絀,則虧絀之差額會自損益表扣除。其後任何重估盈餘乃計入損益表,惟以先前已扣除之虧絀為限。

採納香港會計準則第40號後,因投資物業公平值變動而產生之損益表內。 將計入其產生年度之損益表內。本集組合基準之投資物業之淨虧絀為 7,800,000港元。由於採納香港二時期第40號,本集團截至二時期第40號,本集團截至二時 計準則第40號,本集團截至二時 前溢利增加52,400,000港元。 前溢利增加52,400,000港元。 會)一詮釋第21號(如下文所述), 截至二零零六年三月三十一日止年 度之遞延税項開支增加20,900,000 港元。

(d) 香港財務報告準則第3號-業 務合併

於過往年度,因收購而產生之商譽及負商譽已撥充資本,基準準估計可使用年期按直線直跡。自衛子,惟須在出現任何減值跡綜合資債表列賬,並於已收購下至負債表列賬,並於產餘下至,對對之資產餘下至均,可使用年期內有系統地在綜合損益表內確認。

採納香港財務報告準則第3號後,本集團於被收購方之可識別資產、負債及或然負債之公平淨值權益超出附屬公司之收購成本(先前列為負商譽)之任何差額,經重估後會即時在綜合損益表內確認。

2.2 IMPACT OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Cont'd)

(c) HKAS 40 – Investment Property

In prior years, changes in the fair values of investment properties were dealt with as movements in the asset revaluation reserve. If the total of this reserve was insufficient to cover a deficit, on a portfolio basis, the excess of the deficit was charged to the income statement. Any subsequent revaluation surplus was credited to the income statement to the extent of the deficit previously charged.

Upon the adoption of HKAS 40, gains or losses arising from changes in the fair values of investment properties are included in the income statement in the year in which they arise. As at 31 March 2005, the Group's investment properties had a net deficit of HK\$7.8 million on a portfolio basis. As a result of the adoption of HKAS 40, the Group's profit before tax increased by HK\$52.4 million for the year ended 31 March 2006. In addition, due to the adoption of HK(SIC)-Int 21 (as mentioned below), deferred tax charge increased by HK\$20.9 million for the year ended 31 March 2006.

(d) HKFRS 3 – Business Combinations

In prior years, goodwill and negative goodwill arising on acquisitions was capitalised and amortised on the straight-line basis over its estimated useful life and was subject to impairment testing when there was any indication of impairment. Negative goodwill was carried in the consolidated balance sheet and was recognised in the consolidated income statement on a systematic basis over the remaining average useful life of the acquired depreciable/amortisable assets.

Upon the adoption of HKFRS 3, any excess of the Group's interest in the net fair value of the acquirees' identifiable assets, liabilities and contingent liabilities over the cost of acquisition of subsidiaries (previously referred to as negative goodwill), after reassessment, is recognised immediately in the consolidated income statement.

2.2 新訂及經修訂之香港財務報告準則之影響(續)

(d) 香港財務報告準則第3號-業 務合併(續)

香港財務報告準則第3號之過渡性條文規定本集團於二零零五年四月一日以對商譽之成本作出相應調整,將累計攤銷之賬面值撇銷,且於二零零五年四月一日不再於保留溢利中確認負商譽之賬面值。

由於本集團之商譽已於二零零五年三月三十一日全數攤銷/減值,採納香港財務報告準則第3號對商譽並無任何影響。改變負商譽之影響概述於財務報表附註2.4。根據香港財務報告準則第3號之過渡性條文,並無重列比較數字。

(e) 香港(常務詮釋委員會)-詮釋 第21號-所得税-收回經重估 之不可折舊資產

於上年度,因重估投資物業而產 生之遞延税項按出售投資物業適 用之税率確認。

採納香港(常務詮釋委員會)一詮 釋第21號後,消除了透過出售收 回投資物業之賬面值之假設,因 重估本集團投資物業而產生之 延稅項按反映透過使用而收回物 業隨後之稅務影響而釐定。因 此,計算遞延稅項時已採用利得 稅率。

上述變動之影響概述於財務報表 附註2.4。上述變動已由所呈報之 最早期間追溯採用,並已重列比 較數字。

2.2 IMPACT OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Cont'd)

(d) HKFRS 3 – Business Combinations (Cont'd)

The transitional provisions of HKFRS 3 have required the Group to eliminate at 1 April 2005 the carrying amounts of accumulated amortisation with a corresponding adjustment to the cost of goodwill and to derecognise at 1 April 2005 the carrying amounts of negative goodwill against retained profits.

As the Group's goodwill has been fully amortised/impaired as at 31 March 2005, the adoption of HKFRS 3 does not have any impact on goodwill. The effects of the change to negative goodwill are summarised in note 2.4 to the financial statements. In accordance with the transitional provisions of HKFRS 3, comparative amounts have not been restated.

(e) HK(SIC)-Int 21 – Income Taxes – Recovery of Revalued Non-depreciable Assets

In prior years, deferred tax arising on the revaluation of investment properties was recognised based on the tax rate that would be applicable upon the sale of the investment properties.

Upon the adoption of HK(SIC)-Int 21, which removes the presumption that the carrying amount of investment properties is to be recovered through sale, deferred tax arising on the revaluation of the Group's investment properties is determined on the basis that reflect the tax consequences that would follow from the recovery of the properties through use. Accordingly, the profits tax rate has been applied to the calculation of deferred tax.

The effects of the above changes are summarised in note 2.4 to the financial statements. The change has been adopted retrospectively from the earliest period presented and comparative amounts have been restated

2.3 已頒佈但未生效之香港財務報告 準則之影響*(續)*

根據香港會計準則第39號及香港財務報告準則第4號有關金融擔保合約之修訂本,金融擔保合約初步按公平值確認,然後按(i)根據香港會計準則第37號釐定之金額:及(ii)初步確認之金額減(如適用)根據香港會計準則第18號確認之累計攤銷(以較高者為準)計算。

除上文所述者外,本集團預期採納上 述公佈將不會對本集團於首次採納期 間之財務報表有任何重大影響。

2.3 IMPACT OF ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Cont'd)

In accordance with the amendments to HKAS 39 and HKFRS 4 regarding financial guarantee contracts, financial guarantee contracts are initially recognised at fair value and are subsequently measured at the higher of (i) the amount determined in accordance with HKAS 37 and (ii) the amount initially recognised, less, when appropriate, cumulative amortisation recognised in accordance with HKAS 18.

HK(IFRIC)-Int 4, HK(IFRIC)-Int 8 and HK(IFRIC)-Int 9 shall be applied for accounting periods beginning on or after 1 January 2006, 1 May 2006 and 1 June 2006, respectively.

Except as stated above, the Group expects that the adoption of the pronouncements listed above will not have any significant impact on the Group's financial statements in the period of initial application.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsidiaries

A subsidiary is an entity whose financial and operating policies the Company controls, directly or indirectly, so as to obtain benefits from its activities.

The results of the subsidiaries are included in the Company's income statement to the extent of dividends received and receivable. The Company's interests in subsidiaries are stated at cost less any impairment losses.

Associates

An associate is an entity, not being a subsidiary, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

The Group's share of the post-acquisition results and reserves of associates is included in the income statement and consolidated reserves, respectively. The Group's interests in associates are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses.

Related parties

A party is considered to be related to the Group if:

- (a) the party, directly or indirectly through one or more intermediaries,
 (i) controls, is controlled by, or is under common control with, the
 Group; (ii) has an interest in the Group that gives it significant influence over the Group; or (iii) has joint control over the Group;
- (b) the party is an associate;
- (c) the party is a jointly-controlled entity;
- (d) the party is a member of the key management personnel of the Group;

關連人士(續)

- (f) 該方為一家實體,直接或間接受(d)或(e)所述之任何個別人士控制或共同控制或重大影響,或(d)或(e)所述之任何個別人士直接或間接擁有該實體之重大投票權;或
- (g) 該方為本集團僱員利益而設立之 僱用後福利計劃之一方,或為本 集團關連人士之任何實體。

物業、機器及設備以及折舊

折舊乃按每項物業、機器及設備之估計可使用年期以直線基準撤銷成本計算。計算折舊之主要年率如下:

租賃土地	按租賃年期
樓宇	2.5%
設備及機器	10% - 331/3%
傢俬及裝置	20%
汽車	20%
遊艇	10%
租賃物業裝修	10% - 331/3%

當物業、機器及設備項目部分之可使 用年期不同時,該項目之成本按合理 基準在各部分間分配,而各部分將單 獨計提折舊。

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Related parties (Cont'd)

- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of employees of the Group, or of any entity that is a related party of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the assets to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the income statement in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment and the cost of the item can be measured reliably, the expenditure is capitalised as an additional cost of that asset or as a replacement.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold land	Over the terms of the leases
Buildings	2.5%
Equipment and machinery	10% - 331/3%
Furniture and fixtures	20%
Motor vehicles	20%
Motor yacht	10%
Leasehold improvements	10% - 33 ¹ / ₃ %

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Property, plant and equipment and depreciation (Cont'd)

Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at each balance sheet date.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the income statement in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Investment properties

Investment properties are interests in land and buildings held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date.

Gains or losses arising from changes in the fair values of investment properties are included in the income statement in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the income statement in the year of the retirement or disposal.

Properties under development

Properties under development are stated at cost less any impairment losses, which includes all development expenditure, borrowing costs and other costs directly attributable to such properties.

Properties under development which have either been pre-sold or which are intended for sale and are expected to be completed within one year from the balance sheet date are classified as current assets.

2.5 主要會計政策概要 (續)

持有供銷售之物業

持有供銷售之物業乃以成本及可變現 淨值兩者中之較低者列入資產負債 表。成本包括土地成本、於發展期間 撥充資本之利息及有關物業發展之其 他直接成本。可變現淨值乃參考個別 物業當時之市價減直至完成為止之所 有成本(如適用)及推銷及銷售之成本 計算。

資產減值

當有跡象顯示出現減值,或須就資產(存貨、建築合約資產、金融資產及資物業除外)進行年度減值測試時,與資產之可收回金額按資產使用價值成內,並就個別資產釐定,除非有關資產並無產生大致獨立於其他資產下,可收回金額乃就資產所屬現金產生即位釐定。

減值虧損僅於資產賬面值超逾可收回 金額時確認。評估使用價值時,估計 未來現金流量按可反映現時市場評估 之貨幣時間價值及資產特定風險之稅 前貼現率貼現至現值。減值虧損於產 生期間自損益表扣除。

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Properties held for sale

Properties held for sale are stated in the balance sheet at the lower of cost and net realisable value. Cost includes the cost of land, interest capitalised during the period of development and other direct costs attributable to the development of the properties. Net realisable value is determined by reference to the prevailing market prices on an individual property basis, less all costs to completion, if applicable, and costs of marketing and selling.

Impairment of assets

When an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, construction contract assets, financial assets, investment properties), the asset's recoverable amount is calculated as the higher of the asset's value in use and its fair value less costs to sell, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the income statement in the period in which it arises.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation), had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is credited to the income statement in the period in which it arises.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Investments and other financial assets
Applicable to the year ended 31 March 2005:

The Group classified its investments, other than subsidiaries and associates, as other assets and short term investments.

Other assets

Other assets represent unlisted club debentures and memberships, which are intended to be held for long term purposes, and are stated at cost less any impairment losses.

Short term investments

Short term investments are investments in equity securities held for trading purposes and are stated at their fair values on the basis of their quoted market prices at the balance sheet date, on an individual investment basis. The gains or losses arising from changes in the fair value of a security are credited or charged to the income statement in the period in which they arise.

Applicable to the year ended 31 March 2006:

Financial assets in the scope of HKAS 39 are classified as either financial assets at fair value through profit or loss or loans and receivables, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Group determines the classification of its financial assets after initial recognition and, where allowed and appropriate, re-evaluates this designation at the balance sheet date.

All regular way purchases and sales of financial assets are recognised on the trade date, i.e., the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Investments and other financial assets (Cont'd)
Applicable to the year ended 31 March 2006: (Cont'd)

Financial assets at fair value through profit or loss

Financial assets classified as held for trading are included in the category "financial assets at fair value through profit or loss". Financial assets are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on investments held for trading are recognised in the income statement.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in the income statement when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

Fair value

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business at the balance sheet date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument which is substantially the same; a discounted cash flow analysis; and option pricing models.

金融資產減值 適用於截至二零零六年 三月三十一日止年度:

本集團於每個結算日評估有否任何客 觀跡象顯示一項金融資產或一組金融 資產出現減值。

按攤銷成本列賬之資產

倘有客觀跡象顯示按攤銷成本列賬之 貸款及應收款項已產生減值虧損, 損之金額按資產之賬面值與估計未來 現金流量(不包括尚未產生之未來信貸 損失)以金融資產之原來實際利率)折現之現 值間之差額計算。有關資產之賬面值 可直接或透過備抵賬目作出扣減。減 值虧損之金額乃於損益表內確認。

於以後期間,倘若減值虧損之金額減少,而減少之原因可客觀上與減值虧損確認後所發生之事件相關聯,則先前確認之減值虧損可予撥回。於撥回當日,倘若資產賬面值並無超出其攤到銷成本,則任何減值虧損之其後撥回將於損益表內確認。

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Impairment of financial assets Applicable to the year ended 31 March 2006:

The Group assesses at each balance sheet date whether there is any objective evidence that a financial asset or a group of financial assets is impaired.

Assets carried at amortised cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced either directly or through the use of an allowance account. The amount of the impairment loss is recognised in the income statement.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. Any subsequent reversal of an impairment loss is recognised in the income statement, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date.

附息貸款及借貸

所有借貸均按所收取代價之公平值減 除直接應佔交易成本後初步確認。

在初步確認後,附息貸款及借貸其後 採用實際利率法按攤銷成本計算。

有關收益及虧損乃於不再確認負債以 及透過攤銷過程,在淨利潤或淨虧損 中確認。

租賃資產

凡將資產擁有權(法定業權除外)之絕大部份回報與風險轉由本集團承受之租約均列為融資租約。於訂立融資租約時,租賃資產之成本按最低租約付款之現值撥充資本,並連同承擔(利息部份除外)入賬,以反映購入及融資情況。根據撥充資本之融資租約持有之資產均列入物業、機器及設備內,並於資產之估計可使用年期內折舊。該等租約之融資成本乃於損益表中扣除,以便於租期內按固定比率扣除。

由出租者承受資產擁有權之絕大部份 回報與風險之租約均列為經營租約。 倘本集團為出租人,本集團根據經營 租約所租賃之資產乃計入非流動資 產,根據經營租約而應收之租金,乃 於租期內以直線法計入損益表。倘本 集團乃承租人,經營租約之租金均按 照租期以直線法自損益表扣除。

經營租約項下之預付土地租賃款初步 按成本列賬,並其後於租期內按直線 基準確認。當租賃付款不可於土地及 樓宇部分之間可靠地分配,則整項租 賃付款將計入土地及樓宇之成本內, 作為物業、機器及設備之融資租約。

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Interest-bearing loans and borrowings

All borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in net profit or loss when the liabilities are derecognised as well as through the amortisation process.

Leased assets

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases are included in property, plant and equipment and depreciated over the estimated useful lives of the assets. The finance costs of such leases are charged to the income statement so as to provide a constant periodic rate of charge over the lease terms.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets and rentals receivable under the operating leases are credited to the income statement on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under the operating leases are charged to the income statement on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease term. When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

Contract revenue comprises the agreed contract amount and appropriate amounts from variation orders, claims and incentive payments. Contract costs incurred comprise direct materials, the costs of subcontracting, direct labour and an appropriate proportion of variable and fixed construction overheads.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions are initially recorded using the functional currency rates ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the balance sheet date. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currencies of certain overseas subsidiaries are currencies other than the Hong Kong dollar. As at the balance sheet date, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates ruling at the balance sheet date and, their income statements are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are included in a separate component of equity as exchange fluctuation reserve. On disposal of a foreign entity, the deferred cumulative amount recognised in equity relating to that particular foreign operation is recognised in the income statement.

For the purpose of the consolidated cash flow statement, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

所得税包括即期及遞延税項。所得税 於損益表中確認,或若有關項目於相 同或不同期間在權益中確認,則直接 在權益中確認。

本期及過往期間之即期税項資產及負債乃按預期可獲稅務機關退回或付予 稅務機關之金額計算。

遞延税項使用負債法就結算日資產及 負債之税基與其作財務申報用途之賬 面值之間產生之一切暫時性差異作出 撥備。

遞延税項負債乃就所有應課税暫時性 差異予以確認,惟以下情況除外:

- 於進行某項交易時因初步確認資產或負債且無對會計溢利或應課稅溢利或虧損構成影響而產生之遞延稅項負債;及
- 就與於附屬公司之投資及於聯營公司之權益相關之應課稅暫時性差異而言,惟倘撥回暫時性差異的時間可予控制,且暫時性差異可能不會於可見將來撥回則作別論。

Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the income statement, or in equity if it relates to items that are recognised in the same or a different period directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities.

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of an asset or liability and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and interests in associates, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Income tax (Cont'd)

Deferred tax assets are recognised for all deductible temporary differences, carryforward of unused tax credit and unused tax losses, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax assets and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and interests in associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Conversely, previously unrecognised deferred tax assets are reassessed at each balance sheet date and are recognised to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

Share-based payment transactions

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of the Company ("market conditions"), if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the "vesting date"). The cumulative expense recognised for equity-settled transactions at each balance sheet date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the income statement for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

倘若以股權支付之購股權被註銷,應 被視為已於註銷日期歸屬,而任何尚 未確認之授予購股權開支應即時確 認,然而,倘授予新購股權代替已註 銷之購股權,並於授出日期指定為替 代購股權,則已註銷之購股權及新購 股權,均應被視為原購股權之變更, 一如前段所述。

Share-based payment transactions (Cont'd)

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification, which increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

The Group has adopted the transitional provisions of HKFRS 2 in respect of equity-settled awards and has applied HKFRS 2 only to equity-settled awards granted after 7 November 2002 that had not vested on 1 April 2005 and to those granted on or after 1 April 2005.

Paid leave carried forward

The Group provides paid annual leave to its employees under their employment contracts on a calendar year basis. Under certain circumstances, such leave which remains untaken as at the balance sheet date is permitted to be carried forward and utilised by the respective employees in the following year. An accrual is made at the balance sheet date for the expected future cost of such paid leave earned during the year by the employees and carried forward.

Employment Ordinance long service payments

Certain of the Group's employees have completed the required number of years of service to the Group in order to be eligible for long service payments under the Hong Kong Employment Ordinance in the event of the termination of their employment. The Group is liable to make such payments in the event that such a termination of employment meets the circumstances specified in the Hong Kong Employment Ordinance.

A contingent liability is disclosed in respect of possible future long service payments to employees, as a number of current employees have achieved the required number of years of service to the Group, to the balance sheet date, in order to be eligible for long service payments under the Hong Kong Employment Ordinance if their employment is terminated in the circumstances specified. A provision has not been recognised in respect of such possible payments, as it is not considered probable that the situation will result in a material future outflow of resources from the Group.

Pension schemes

The Group operated a defined contribution provident fund (the "Fund") for certain of its employees in Hong Kong, the assets of which are held separately from those of the Group and are managed by an independent professional fund manager. Contributions under the Fund were made based on a percentage of the eligible employees' basic salaries and were charged to the income statement as they became payable in accordance with the rules of the scheme. The ongoing contributions to the Fund were terminated on 1 April 1999.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the balance sheet date of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

In the process of applying the Group's accounting policies, management makes various judgements and estimates based on past experience, expectations of the future and other information. The key sources of estimation uncertainty that can significantly affect the amounts recognised in the consolidated financial statements are disclosed below:

Provision for impairment of trade receivables

The policy for provision for impairment of trade receivables of the Group is based on the evaluation of collectibility and aging analysis of accounts and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group are to deteriorate, resulting in an impairment of their ability to make payments, additional provision may be required.

SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Cont'd)

Percentage of completion of construction works

The Group recognises the revenue according to the percentage of completion of the individual contract of construction works. The Group's management estimates the percentage of completion of construction works if the value of works has not been certified by the customers at the balance sheet date. These estimates are based on actual cost incurred over the total budgeted cost. Corresponding contract revenue is also estimated by management. Because of the nature of the activity undertaken in construction contracts, the date at which the contract activity is entered into and the date when the activity is completed usually fall into different accounting periods. The Group reviews and revises the estimates of both contract revenue and contract costs in the budget prepared for each construction contract as the contract progresses.

Current tax and deferred tax

The Group is subject to income taxes in a number of jurisdictions. Significant judgement is required in determining the amount of the provision for tax and the timing of payment of the related taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will have an impact on the income tax and deferred tax provisions in the period in which such determination is made.

4. 分類資料

4. SEGMENT INFORMATION

Segment information is presented by way of two segment formats: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other business segments. Summary details of the business segments are as follows:

- (a) the foundation piling segment;
- (b) the E&M engineering and building construction segment;
- (c) the machinery leasing and trading segment;
- (d) the property investment and management segment; and

In determining the Group's geographical segments, revenues are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets.

11. 本公司股東應佔純利/(淨虧損)

本公司於財務報表處理之截至二零零六年三月三十一日止年度本公司股東應佔淨虧損為2,356,000港元(二零零五年:1,994,000港元)(附註32(b))。

12. 本公司普通股股東應佔每股盈利 /(虧損)

11. NET PROFIT/(LOSS) ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY

The net loss attributable to equity holders of the Company for the year ended 31 March 2006 dealt with in the financial statements of the Company was HK\$2,356,000 (2005: HK\$1,994,000) (note 32(b)).

12. EARNINGS/(LOSS) PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of the basic earnings per share amounts is based on the net profit for the year attributable to ordinary equity holders of the Company of HK\$20,977,000 (2005: net loss of HK\$22,467,000 (restated)), and the weighted average number of 768,739,875 (2005: 761,910,013) ordinary shares in issue during the year.

The calculation of the diluted earnings per share amount for the year is based on the net profit for the year attributable to ordinary equity holders of the Company of HK\$20,977,000. The weighted average number of ordinary shares used in the calculation is the ordinary shares in issue during the year, as used in the basic earnings per share calculation of 768,739,875 and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all share options into ordinary shares during the year of 12,398,490.

A diluted loss per share amount for the year ended 31 March 2005 has not been disclosed, as the share options outstanding during that year had an anti-dilutive effect on the basic loss per share for that year.

37. 財務風險管理目標及政策

本集團之主要金融工具包括現金及銀 行結存、應收貿易賬款及其他應付款原 項、應付貿易賬款及其他應付款時 及銀行借貸。該等金融工具之詳情等 財務報表有關附註內披露。與該等金融 財務報表有關附註內披露。與該等 融工具有關之風險及如何減低管理 險之政策載列如下。管理層管理效地 聚該等風險,以確保適時及有效地採 取適當措施。

信貸風險

本集團之主要金融資產為現金及銀行 結存、以及應收貿易賬款及其他應收 款項。

由於與本集團交易之銀行均具備國際 信貸評級機構授予之高信貸評級,故 銀行結存之信貸風險不大。

本集團之信貸風險主要來自其應收貿易賬款及其他應收款項。管理層於各結算日審閱每項個別貿易債項之可收回金額,確保已就不可收回金額作出足夠之減值虧損。就此而言,本公司董事認為本集團之信貸風險已大幅減少。

本集團並無信貸風險過度集中之情 況,所面對之風險分散至多個交易對 手及客戶。

現金流量利率風險

本集團所面對之利率變動風險主要來 自其附息銀行借貸。可變利率借款使 本集團面對現金流量利率風險。本集 團現時並無任何利率對沖政策。然 而,管理層監察本集團面對之利率風 險,並將於有需要時考慮對沖所面對 之重大利率風險。

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include cash and bank balances, trade and other receivables, trade and other payables and bank borrowings. Details of these financial instruments are disclosed in respective notes to these financial statements. The risk associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

The Group's principal financial assets are cash and bank balances, trade and other receivables.

The credit risk on bank balances is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The Group's credit risk is primarily attributable to its trade and other receivables. Management reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group has no significant concentration of credit risk, with the exposure spreading over a large number of counterparties and customers.

Cash flow interest rate risk

The Group's exposure to changes in interest rates is mainly attributable to its interest-bearing bank borrowings. Borrowings at variable rates expose the Group to cash flow interest rate risk. The Group currently does not have an interest rate hedging policy. However, management monitors the Group's interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

37. 財務風險管理目標及政策 (續)

外滙風險

本集團主要於香港及中國內地經營業務,其大部分交易均以港元及人民幣結算,故於年內毋須面對重大外滙風險。此外,人民幣兑換成外幣須受到中國政府所頒佈之外滙管制規則及法規所限。

管理層持續監察本集團所面對之貨幣 風險,並將於有需要時訂立對沖。

流動資金風險

本集團之目標為透過利用銀行借貸在 持續獲取資金與靈活性之間保持平 衡。本集團定期檢討其主要資金狀 況,確保有足夠財務資源應付其財務 承擔。

金融資產及金融負債之公平值

董事認為,於綜合資產負債表所報告 之金融資產及金融負債之賬面值與其 各自之公平值相若。

38. 比較數字

誠如財務報表附註2.2及2.4所進一步闡述,由於在本年度內採納新訂及經修訂香港財務報告準則,財務報表內若干項目及結存之會計處理及呈列已作出修訂以遵守新規定。因此,已作出若干上年度及年初結存調整,並重新分類及重列若干比較數字以符合本年度之呈列及會計處理。

39. 財務報表之核准

董事局已於二零零六年七月二十八日 批准及授權刊發財務報表。

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Foreign exchange risk

The Group operates mainly in Hong Kong and Mainland China with most of its transactions settled in Hong Kong dollars and Renminbi and therefore did not have significant exposure to foreign exchange risk during the year. In addition, the conversion of Renminbi into foreign currencies is subject to the rules and regulations of foreign exchange control promulgated by the PRC government.

Management monitors the Group's currency exposure on an ongoing basis and will enter into hedges when the need arises.

Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings. The Group regularly reviews its major funding positions to ensure that it has adequate financial resources in meeting its financial obligations.

Fair values of financial assets and financial liabilities

The directors consider that the carrying amounts of the financial assets and financial liabilities reported in the consolidated balance sheet approximate to their respective fair values.

38. COMPARATIVE AMOUNTS

As further explained in notes 2.2 and 2.4 to the financial statements, due to the adoption of new and revised HKFRSs during the current year, the accounting treatment and presentation of certain items and balances in the financial statements have been revised to comply with the new requirements. Accordingly, certain prior year and opening balance adjustments have been made and certain comparative amounts have been reclassified and restated to conform with the current year's presentation and accounting treatment.

39. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 28 July 2006.
