Notes:

1. Basis of preparation

The consolidated financial statements of Mirabell International Holdings Limited have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS"). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss and investments properties, which are carried at fair value.

(a) Amendment to published standards effective in 2006

HKAS 39 and HKFRS 4 (Amendment), "Financial guarantee contracts", effective for annual periods beginning on or after 1 January 2006. This amendment requires issued financial guarantees, other than those previously asserted by the entity to be insurance contracts, to be initially recognised at their fair value, and subsequently measured at the higher of (i) the unamortised balance of the related fees received and deferred, and (ii) the expenditure required to settle the commitment at the balance sheet date. The adoption of this amendment does not have a significant impact on the Group's financial statements. (b) Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

The following standards, amendments and interpretations to existing standards have been published and are mandatory for the Group's accounting periods beginning on or after 1 May 2006 or later periods. The Group has started considering their potential impact. Based on the preliminary assessment, the Group believes that the adoption of these standards, amendments and interpretations to existing standards, if applicable, will not result in substantial changes to the Group's accounting policies. The Group has not early adopted these standards, amendments and interpretations to existing standards, if applicable, in the financial statements for the year ended 28 February 2007.

|---|-------------|-------------|
| Profit attributable to equity holders of the Company (HK\$'000) | 105,462 | 65,497 |

For the share options, a calculation is made in order to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

During the year, the Group recorded a turnover of HK\$934,225,000, representing an increase of 7.85%, compared with last year. The profit attributable to equity holders of the Company increased by 61.02% to HK\$105,462,000.

The Hong Kong and Macau market

The Group was faced with a year full of challenges as well as opportunities. On the one hand, the local economy had been improving progressively evidenced by the soaring stock market, decrease in unemployment rate and increase in consumer sentiment. On the other hand, the number of visitors from the Mainland China was less than expected and the operating costs remained high. The keen market competition posed high pressure and great challenges to us.

To cope with the challenges, the Group reviewed the operational strategies from time to time. The management is of the view that our multi-brand strategy enables the Group not only to target a broader clientele but also to stand out from competitors. During the year, the Group focused on store performance improvement and brand building particularly by means of strengthening product development. In the meantime, the management strived for providing customers with excellent services beyond their expectations. As a result, the retail business in the Hong Kong and Macau market continued to progress steadily during the year. The gross profit margin of the retail business recorded an increase owing to the improved sales of exclusive international brand products. However, the increased gross profit margin was nearly offset by high rental and operational costs.

Because of the keen competition in the marketplace, the wholesale business recorded a decrease in the turnover during the year. At present, we are the exclusive footwear distributor of the US brands of Caterpillar, Merrell, Royal Elastics and Sebago in Hong Kong, Macau and the Mainland China, and the Italian brand of Geox in Hong Kong and Macau as well as the exclusive footwear, bags and apparel distributor of the UK brand of Gola in Hong Kong, Macau and the Mainland China.

Compared with last year, the turnover increased by 0.84% to HK\$603,380,000 whereas the operating profit decreased by 17.35% to HK\$30,099,000 in the Hong Kong and Macau market. At the end of May 2007, the Group operated 107 retail outlets in Hong Kong and Macau under the brands of Mirabell, Joy & Peace, Fiorucci, Inshoesnet and Geox.

The Mainland China market

During the year, the business of the Group benefited from the Mainland China's continued growing economy. The management widened the product range by introducing new international brands in order to progressively increase the coverage of the footwear market. For the purposes of enhancing overall performance, the Group ceased the operations of some non-performing retail outlets and opened more counters at prime department stores and shopping malls where turnover rent shall be paid. At the same time, the management maintained a very tight cost control in order to increase the operating profit. In addition, the Group has begun a significant upgrading the management information systems and IT infrastructure so as to increase our business process capability, and inventory and sales management since March 2007.

During the year, the Group achieved growth in the turnover and operating profit in the Mainland China market. Compared with last year, the turnover increased by 19.56% to HK\$306,144,000 whereas the operating profit increased by 61.82% to HK\$37,593,000. At the end of May 2007, the Group operated 192 retail outlets in Shenzhen, Guangzhou, Shanghai, Beijing, Tianjin, Dalian, Chengdu, Chongqing, Zhuhai, Xi'an, Wuhan, Wuxi, Dongguan, Harbin, Shijiazhuang, Panyu, Shenyang, Huizhou, Foshan, Hangzhou and Nanjing under the brands of Mirabell, Joy & Peace, Innet, Caterpillar, Merrell, Fiorucci and Kokopelli. In addition, there were 108 franchised retail outlets under the brand of Joy & Peace.

The Taiwan market

During the year, market conditions were extremely tough and worsened by the weak consumer sentiment. The economy had been continuing to be sluggish. The turnover increased by 108.50% to HK\$24,701,000 whereas the operating loss increased by 30.37% to HK\$6,718,000, compared with last year. As the outlook for the market remained uncertain during the year, the management focused on brand awareness, product development, store performance improvement as well as cost control. At the end of May 2007, the Group operated 16 retail outlets under the brand of Fiorucci in Taiwan.
