### About Sino Gold

Sino Gold is the leading international gold exploration and mining company in China and is listed on the Australian Securities Exchange (ASX Code:SGX) and The Stock Exchange of Hong Kong (SEHK Code:1862).

The 82%-owned **Jinfeng** Gold Mine in southern China's Guizhou Province and is now the second largest gold mine in China with 2008 gold production of 151,000 ounces. Jinfeng's gold production is planned to increase as the processing plant is de-bottlenecked and as higher-grade ore from the underground mine supplements ore from the open pit.

The 95%-owned **White Mountain** Gold Mine in northeast China's Jilin Province and commenced commercial gold production in January 2009. Upon reaching design production rates, White Mountain will produce an average of 65,000 ounces of gold annually.

The high-grade **Eastern Dragon** Project in northern China's Heilongjiang Province has excellent potential to produce very low-cost gold and is being rapidly progressed towards becoming Sino Gold's third mine.

Sino Gold continues to assess the potential of the **Beyinhar** Project in Inner Mongolia to be developed into an open-pit, heap-leach gold operation.

Total gold production from the Jinfeng and White Mountain Mines for calendar 2009 is planned to be in the range of 210,000 to 230,000 ounces at a cash operating cost of less than US\$400/ounce.

With the planned development of Eastern Dragon and Beyinhar, Sino Gold is targeting annual gold production of more than 400,000 ounces at a cash cost of ~US\$300/ounce by 2012.
