Management Discussion and Analysis

The Westminster Terrace

Jadewater

RESULTS

The Group's profit attributable to shareholders amounted to HK\$1,009 million, compared to HK\$40 million during the same period last year.

Both the Group and its associated company Asia Standard International Group Limited ("Asia Standard") benefited from the fair value gain from their investment portfolios. During the period, the Group increased its shareholding in Asia Standard by 3.8%, recognising a gain of HK\$228 million.

ASIA STANDARD

The 49.2% owned Asia Standard reported a profit attributable to shareholders of HK\$1,115 million (2008: HK\$100 million) at a revenue of HK\$892 million (2008: HK\$461 million). The Group's share of profit from this associated company amounted to HK\$506 million (2008: HK\$45 million).

Property sales and leasing, financial investments

Property sales amounted to HK\$533 million compared to HK\$82 million during the same period last year. Development profit was HK\$183 million compared to HK\$32 million during the last corresponding period. Jadewater, our residential development at Aberdeen, is the main contributor for this segment.

The Westminster Terrace, our joint venture residential development with Grosvenor at Castle Peak Road, was completed during this period. Sales for this 200,000 sq. ft. development commenced after the interim period, and will likely contribute to Asia Standard's result in the second half of the financial year.

Asia Standard has approximately 670,000 sq. ft. gross floor area of properties under development in Hong Kong. It also participated in a 2 million sq. ft. gross floor area joint venture waterfront residential/commercial development project in Beijing, which is currently under planning application.

Rental income attributable to its investment properties portfolio decreased slightly by 5%, to HK\$42 million from last corresponding period's HK\$44 million.

Management Discussion and Analysis

Empire Hotel Hong Kong

Empire Hotel Causeway Bay

Asia Standard's financial investment portfolio recorded a net unrealised fair value gain of HK\$837 million (2008: HK\$97 million loss) and a net realised gain of HK\$140 million (2008: HK\$1 million) in the reported period.

Hotel

The hotel group reported a HK\$313 million (2008: HK\$1.5 million) profit for this period. The profit increment is mostly attributed to fair value gain on unrealised financial assets.

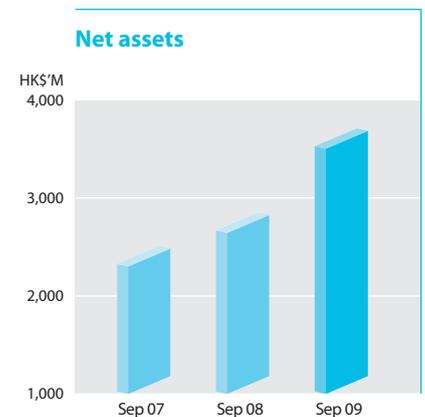

The new hotel in Causeway Bay commenced operation during the period, adding 280 rooms to our portfolio. The Empire Kowloon Hotel added 28 new rooms and began operation in February 2009. Brand new conference facilities were added to Empire Hong Kong Hotel operation to complement its repositioning in the market.

The Empire Landmark Hotel is planned to undergo an extensive renovation programme in the coming two years to further improve its competitiveness.

Asia Standard holds 67.7% stake in its hotel subsidiary.

FINANCIAL REVIEW

At 30th September 2009, the Group's net asset value increased to HK\$3.5 billion (31st March 2009: HK\$2.3 billion). During the period, HK\$51 million equity was raised upon the conversion of warrants. Net borrowing at period end was HK\$109 million while last year end was HK\$69 million. Gearing was 3% at both dates.

Management Discussion and Analysis

At 30th September 2009, the Group had financial investments in listed equity and debt securities amounting to HK\$463 million (31st March 2009: HK\$210 million). A net unrealised fair value gain of HK\$137 million (2008: HK\$28 million loss) and a net realised gain of HK\$116 million (2008: Nil) were recognised in the profit and loss account. The investments generated dividend and interest income of HK\$21 million during the period (2008: HK\$2 million).

Certain listed securities were pledged to secure general banking facilities of the Group. The Group did not provide any guarantees to banks and financial institutions on credit facilities to jointly controlled entities, associated companies and third parties.

EMPLOYEES AND REMUNERATION POLICIES

At 30th September 2009, the Group employed 181 full time employees with most of them working for building management and related services. Their remuneration packages, commensurate with job nature and experience level, include basic salary, annual bonus, retirement and other benefits.

FUTURE PROSPECTS

Aggressive monetary easing policies adopted by Central Banks worldwide succeeded in preventing the financial meltdown to slide into a deeper turmoil. Strong demand for properties sales locally and in the mainland market shows the benefit of these policies along with substantial rebound in the equities market worldwide. Management is alert to the slow recovery of the economy worldwide and remains cautious about future endeavour.

Report on Review of Interim Financial Information

**To the board of directors of
Asia Orient Holdings Limited**

(incorporated in Bermuda with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 6 to 24, which comprises the condensed consolidated balance sheet of Asia Orient Holdings Limited (the "Company") and its subsidiaries (together, the "Group") as at 30th September 2009 and the related condensed consolidated profit and loss account, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated cash flow statement for the six months period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of interim financial information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

Notes to the Interim financial information

1 Basis of preparation

The unaudited condensed consolidated interim financial information has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”), and should be read in conjunction with the annual financial statements for the year ended 31st March 2009.

The accounting policies and methods of computation used in the preparation of this condensed consolidated interim financial information are consistent with those used in the annual financial statements for the year ended 31st March 2009.

The following new and revised standards and amendments to existing standards (“new HKFRS”) are relevant to the Group’s operations and are mandatory for accounting periods beginning on or after 1st January 2009:

HKAS 1 (Revised)	Presentation of Financial Statements
HKAS 23 (Revised)	Borrowing Costs
HKAS 40 (Amendment)	Investment Property
HKFRS 2 (Amendment)	Share-based Payment – Vesting Conditions and Cancellations
HKFRS 7 (Amendment)	Improving Disclosures about Financial Instruments
HKFRS 8	Operating Segments

Except for certain changes in presentation and disclosures as described below, the adoption of the above new HKFRS in the current period did not have any significant effect on the interim financial information or result in any substantial changes in the Group’s significant accounting policies.

- HKAS 1 (Revised), “Presentation of Financial Statements”. The Group has elected to present two statements: a profit and loss account and a statement of comprehensive income. The interim financial information has been prepared under the revised disclosure requirements.
- HKFRS 8, “Operating Segments”. HKFRS 8 replaces HKAS 14, “Segment reporting”. It requires a “management approach” under which segment information is presented on the same basis as that used for internal reporting purposes. This has resulted in certain changes in the presentation and disclosure information of the reportable segments.

The HKICPA has issued certain new and revised standards, interpretations and amendments to existing standards that are not yet effective for the year ending 31st March 2010. The Group has not early adopted these above standards, interpretations and amendments. The Group has already commenced an assessment of the related impact to the Group. The Group is not yet in a position to state whether they will have substantial change to the Group’s accounting policies and presentation of the financial statements.

Notes to the Interim financial information

2 Financial risk management

The activities of the Group, its jointly controlled entities and its associated companies expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk, liquidity risk and cash flow interest rate risk. The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group, its jointly controlled entities and its associated companies make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year include those related to investment properties, impairment of available-for-sale investments and trade and other receivables, income taxes and fair values of warrant assets and derivative financial instruments.

4 Turnover and segment information

The Company is a limited liability company incorporated in Bermuda and listed on The Stock Exchange of Hong Kong Limited. The address of its registered office is 30th Floor, Asia Orient Tower, Tower Place, 33 Lockhart Road, Wanchai, Hong Kong.

The Group, its jointly controlled entities and its associated companies are principally engaged in property management, development and investment, hotel, catering services and travel agency, and investments. Turnover comprises revenue from property management, dividend and interest income, together with gross proceeds from disposal of financial assets at fair value through profit or loss and derivative financial instruments. Revenue include revenue from property management, dividend and interest income.

Business segments

The Group, its jointly controlled entities and associated companies are organised into four main business segments, comprising property sales, property leasing and management, hotel and travel, and investments. There is no other significant identifiable separate business segment. Segment revenue from external customers is after elimination of inter-segment revenues. In accordance with the Group's internal financial reporting and operating activities, the primary reporting is by business segments and the secondary reporting is by geographical segments. Additional segment information of associated companies was set out in supplementary notes.

Net gain/(loss) on financial assets, dividend and interest from financial assets are included in segment results.

Interim dividend of HK1.5 cent per share in scrip (2008: Nil)	10,513	–

At a meeting held on 8th December 2009, the Board of Directors recommended to pay an interim dividend of HK1.5 cent per share in scrip (2008: Nil). The interim dividend is not reflected in the interim financial information, but will be reflected as an appropriation of revenue reserve in the year ending 31st March 2010.

The amount of HK\$10,512,663 is based on 700,844,226 issued shares as at 8th December 2009.

Notes to the Interim financial information

11 Earnings per share

The calculation of basic earnings per share is based on profit attributable to shareholders of the Company of HK\$1,008,964,000 (2008: HK\$39,885,000) and on the weighted average number of 658,128,632 (2008: 625,740,613) shares in issue during the period.

The calculation of diluted earnings per share for the six months ended 30th September 2009 was based on HK\$1,010,064,000 equalling to profit attributable to shareholders of the Company of HK\$1,008,964,000 with a decrease in share of profit of associated companies of HK\$62,000 and finance cost saved by HK\$1,162,000 assuming the outstanding warrants of Asia Standard Hotel Group Limited ("AS Hotel") and the Company's convertible bonds had been converted respectively, and divided by the weighted average number of 723,366,127 shares equalling to the weighted average number of 658,128,632 shares in issue during the period with an increase of 65,237,495 potential shares deemed to be in issue assuming the Company's convertible bonds had been converted. The outstanding share options of the Company, Asia Standard International Group Limited ("Asia Standard") and AS Hotel did not have a dilutive effect on the earnings per share.

The basic and diluted earnings per share were the same for the six months ended 30th September 2008 as the Company's outstanding convertible bonds, share options and warrants and the outstanding share options and warrants of Asia Standard and AS Hotel did not have a dilutive effect on the earnings per share.
