ANNOUNCEMENT OF INTERIM RESULTS FOR THE SIX MONTHS ENDED 30 JUNE 2010

GROUP FINANCIAL HIGHLIGHTS

- Net profit steadily rose 4.1% to HKD4.0 million.
- Group revenue decreased by 8.4% to HKD812.4 million.

CHAIRMAN'S STATEMENT AND OUTLOOK

The first half of 2010 was a period of challenges for the Group. The stagnation of US and Eurozone economies, and the frequent outbreak of natural disasters have generally slowed down the economic recovery. During the period under review, Symphony Holdings Limited ("**Symphony**" or "**Company**", together with its subsidiaries, "**Group**") was inevitably challenged by the reorganisation of production facilities, impact on seasonal demand of factories orders, fluctuations in currency movements and uncertainties in global economy. Despite the challenges facing the Group, Symphony maintained a solid revenue of HKD812,425,000 for the six months ended 30 June 2010. The improvement in business efficiency has further strengthened the profit attributable to owners of the Company to HKD3,975,000, representing a steady growth of 4.1% as compared to the corresponding period in 2009. Gross margin was slightly affected by the rise in operating cost, reflecting a decrease of 190 basis points to 19.2%.

During the six months ended 30 June 2010, the Group's branding portfolio was gaining momentum.

Pony and Haggar, our own heritage American brands, indicated a successful turnaround owing to the implementation of efficacious restructuring and cost control measures. The reorganisation strategy of Pony has been proven effective. During the period under review, Pony recorded a positive EBITDA for the first time since our acquisition in 2006. The operation of Pony in China continued to expand during the first half of 2010. Revenue of Pony China grew strongly and the number of points-of-sale increased to 113, in addition to two online shops. We expect to see further improvements in Pony business in the years to come. Besides, Haggar experienced a marked improvement and recorded a surge of EBITDA by 287.6% for the six months ended 30 June 2010.

Speedo stepped up its growth momentum with a notable 45.6% year-on-year increase in turnover. The current 135 points-of-sale covering most of the key PRC cities will be expanded to approximately 170 by the end of this year. Having entered into the PRC market last summer, Berghaus has already secured twelve strategic store locations and is expected to increase to 25 points-of-sale within this year. Helly Hansen, having its first flagship store opened in Beijing this May, is projected to expand to nine points-of-sale this year. Through the current two points-of-sale, Mango was making progress with a corresponding increase of 15.7% in turnover during the period. To facilitate further expansion, opening of another seven new Mango stores is underway in selective Chinese cities at the end of 2010.

Since its launch last summer, JFT has quickly established widespread market recognition, especially amongst the local trend-setting crowds. Starting from its two flagship stores in Causeway Bay and Tsimshatsui, JFT has rapidly expanded to 15 points-of-sale at strategic locations in Hong Kong and Macau. The monthly average turnover in first half of 2010 has surged 88.2% compared to 2009. JFT is now actively identifying suitable location in key China cities for its expansion into the PRC market in 2011.

Park Outlet (尚柏奧萊) of Shenyang, the Group's flagship development of premium factory outlet mall, entertainment complexes and eco-industrial attractions with an attributable gross floor area of 60,705 square meters, is targeting to complete the first phase by fourth quarter of 2011. The construction and preliminary leasing work is satisfactory.

The footwear manufacturing division continued to yield positive returns to the Group despite the challenging operating environment. The impact on seasonal demand of factory orders and the course of reorganisation had lingered the production capacity during the period under review. As a result, the revenue of footwear manufacturing division recorded a slight corresponding decrease by 8.5%. The first phase of reorganisation has been completed in mid-2010. Through the favourable commercial and operational environment in Vietnam and the upturn of orders during the latter part of 2010, the Group believes that revenue shall be picking up the momentum as soon as the production facilities are operated in full gear.

It is anticipated that the global economy will improve gradually in the second half of 2010. Subsequent to the revival of economy, business of the Group is expected to be strengthened and perk up steadily. Given that the gearing up of the BRICs' market, accompanied by moderate revitalisation of the US and Eurozone economies, the Group remains cautiously optimistic. With the aim of building an invigorated platform in this favourable leverage era, the Group allocates our resources strategically in order to maximise profitability. Through our entrepreneurial spirit and expertise, strong partnership network, accompanied by our committed team, we believe Symphony will build thriving businesses following the full recovery of global economy.

OPERATION REVIEW

During the first half of 2010, the Group's manufacturing division continued to undergo restructuring. To a certain extent, productivity of the production facilities has been affected and accordingly, revenue of the Group was HKD812,425,000, representing a 8.4% corresponding decline.

Being part of the restructuring, the Group has disposed of a production plant in PRC during the period. As a result, an exceptional gain due to disposal of asset, together with the appreciation of investment properties in Hong Kong showed 102.7% year-on-year increase in other revenue to HKD42,279,000.

As production technology matures, the Group took further measures to reduce operating costs. By implementation of effective cost control policy and cutting down of research and development expenses, the administrative and other operating expenses recorded a reduction of 13.0%.

The performance of the Group's jointly controlled entities improved and showed a gradual pick-up, interests in jointly controlled entities increased 28.7% to HKD73,082,000.

In light of the current favourable financial market, the Group has disposed of most of its security and bond investments during the period under review. Available-for-sale investments and held-for-trading investments during the period greatly reduced.

The Group has spent significantly on raw materials to cope with the production of high-end footwear products and the seasonal increase in manufacturing demand. Accordingly, cash and bank balance dropped 54.9%, accounts receivable and inventory, which included work in process raw materials, were HKD323,744,000 and HKD311,368,000 respectively during the first half of 2010. It is expected that the liquidity of the Group shall be improved upon delivery of orders. The average collection period has been reduced to 56 days.

As at 30 June 2010, the Group obtained a bank loan of HKD60,000,000, which will be used by the Company as working capital and fund for preliminary development of Shenyang outlet mall project.

Manufacturing and Retailing Business Market Information

During the period, sales to North America comprised 47.9% (2009: 54.1%) and orders to Europe comprised 29.7% (2009: 29.4%) of the total sales and the remaining 22.4% (2009: 16.5%) was shared between Asia, Africa, Australia, Latin America and the Middle East.

Customer Relationship Maintenance and Research and Development

Notes:

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("**Exchange**") ("**Listing Rules**") and with Hong Kong Accounting Standard ("**HKAS**") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**").

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on historical cost basis except for certain properties and financial instruments, which are measured at fair values.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2009, except for the following new accounting policy adopted during the period.

HKAS 27 (Revised 2008) Consolidated and Separate Financial Statements

The application of HKAS 27 (Revised 2008) has resulted in changes in the Group's accounting policies regarding increases or decreases in ownership interests in subsidiaries of the Group. In prior years, in the absence of specific requirements in Hong Kong Financial Reporting Standards ("**HKFRSs**"), increases in interests in existing subsidiaries were treated in the same manner as the acquisition of subsidiaries, with goodwill or a bargain purchase gain being recognised where appropriate. The impact of increase in interests in subsidiaries that did not involve change in control (being the difference between the consideration paid and the carrying amount of the share of net assets acquired of) was recognised in profit or loss. Under HKAS 27 (Revised 2008), all increases or decreases in such interests are dealt with in equity, with no impact on goodwill or profit or loss.

When control of a subsidiary is lost as a result of a transaction, event or other circumstance, the revised standard requires that the Group derecognises all assets, liabilities and non-controlling interests at their carrying amount. Any retained interest in the former subsidiary is recognised at its fair value at the date the control is lost. A gain or loss on loss of control is recognised in profit or loss as the difference between the proceeds, if any, and these adjustments.

In the current interim period, the Group has applied, for the first time, a number of new and revised standards, amendments and interpretations ("**new and revised HKFRSs**") issued by the HKICPA, which are effective for the Group's financial year beginning on 1 January 2010. The application of these new and revised HKFRSs had no material effect on the condensed consolidated financial statements of the Group for the current or prior accounting periods.

The Group has not early applied the following new and revised standards, amendments or interpretations that have been issued but are not yet effective.

HKFRSs (Amendments)	Improvements to HKFRSs 2010 ¹
HKAS 24 (Revised)	Related Party Disclosures ⁴
HKAS 32 (Amendment)	Classification of Rights Issues ²
HKFRS 1 (Amendment)	Limited Exemption from Comparative HKFRS 7 Disclosures for First-time Adopters ³
HKFRS 9	Financial Instruments ⁵
HK(IFRIC) – Int 14 (Amendment)	Prepayments of a Minimum Funding Requirement ⁴
HK(IFRIC) – Int 19	Extinguishing Financial Liabilities with Equity Instruments ³

- ¹ Effective for annual periods beginning on or after 1 July 2010 and 1 January 2011, as appropriate
- ² Effective for annual periods beginning on or after 1 February 2010
- ³ Effective for annual periods beginning on or after 1 July 2010
- ⁴ Effective for annual periods beginning on or after 1 January 2011
- ⁵ Effective for annual periods beginning on or after 1 January 2013

HKFRS 9 "Financial Instruments" introduces new requirements for the classification and measurement of financial assets and will be effective from 1 January 2013, with earlier application permitted. HKFRS 9 requires all recognised financial assets that are within the scope of HKAS 39 "Financial Instruments: Recognition and Measurement" to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows; and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost. All other debt investments and equity investments are measured at fair value. The application of HKFRS 9 might affect the classification and measurement of the Group's financial assets.

The directors of the Company ("**Directors**") anticipate that the application of the other new and revised standards, amendments or interpretations will have no material impact on the results and financial position of the Group.

3. SEGMENT INFORMATION

The Group's reportable segments, based on information reported to the chief operating decision maker, being the managing director of the Company, for the purpose of resource allocation and performance assessment are as follows:

1. Footwear manufacturing;

	1,501	1,782

Hong Kong Tax

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both periods.

In March 2008, Inland Revenue Department ("IRD") issued protective profits tax assessments notice, for an aggregate additional tax of HKD15,400,000, relating to the year of assessment of 2001/2002, that is, for the financial year ended 31 December 2001, against certain wholly-owned subsidiaries of the Company. The Group had lodged objections with IRD against the protective assessments. IRD agreed to hold over the tax claimed subject to the subsidiaries' purchase of tax reserve certificates ("TRCs") of HKD9,714,000 which was included in tax recoverable as at 30 June 2010 and 31 December 2009.

In March 2009, IRD further issued protective profits tax assessments notice, for an aggregate additional tax of HKD27,700,000, relating to the year of assessment of 2002/2003, that is, for the financial year ended 31 December 2002, against certain wholly-owned subsidiaries of the Company. The Group had lodged objections with IRD against the protective assessments. IRD agreed to hold over the tax claimed subject to the subsidiaries' purchase of TRCs of HKD7,500,000 which was included in tax recoverable as at 30 June 2010 and 31 December 2009.

In January 2010, IRD issued another protective profits tax assessments notice, for an aggregate additional tax of HKD35,500,000, relating to the year of assessment of 2003/2004, that is, for the financial year ended 31 December 2003, against certain wholly-owned subsidiaries of the Company. The Group had lodged objections with IRD against the protective assessments. IRD agreed to hold over the tax claimed subject to the subsidiaries' purchase of TRCs of HKD6,000,000 which was included in tax recoverable as at 30 June 2010.

Directors believe that no provision for Hong Kong Profits Tax in respect of the above mentioned protective assessments is necessary. In addition, the inquiries from IRD are still at fact-finding stage and IRD has not yet expressed any formal opinion on the potential tax liability, if any. The potential tax liability, if any, cannot be readily ascertained at this stage.

PRC Tax

The tax status for certain subsidiaries of the Group operating in the People's Republic of China ("PRC"), including Zhongshan Jingmei Footwear Industry & Commerce Co. Ltd. 中山精美鞋業有限公司 ("Zhongshan Jingmei"), Fuqing Grand Galatica Footwear Co. Ltd. 福清宏太鞋業有限公司 ("Fuqing Grand Galatica") and Zhongshan Huali Footwear Industry & Commerce Co. Ltd. 中山華利企業有限公司 ("Zhongshan Huali"), are as follows:

- Zhongshan Jingmei and Zhongshan Huali enjoyed the preferential tax rate of 12.5% (being 50.0% of the applicable tax rate of 25.0%) for the six months ended 30 June 2009 and 2010;
- Fuqing Grand Galatica enjoyed the preferential tax rate of 10.0% (being 50.0% of the applicable tax rate of 20.0%) for the six months ended 30 June 2009 and 11.0% (being 50.0% of the applicable tax rate of 22.0%) for the six months ended 30 June 2010;

For other PRC subsidiaries, the applicable tax rate was 25.0% for the periods under review.

Vietnam Tax

Stateway Vietnam Footwear Co. Ltd. ("**Stateway Vietnam**") was entitled to exemption from enterprise income tax for four years starting with the first profit-making year. For the following nine years, Stateway Vietnam would be entitled to further tax preferential treatment in the form of 50.0% reduction in the applicable tax rate in Vietnam.

Continuance Vietnam Footwear Co. Ltd. ("**Continuance Vietnam**") was entitled to exemption from enterprise income tax for two years starting with the first profit-making year. For the following three years, Continuance Vietnam would be entitled to further tax preferential treatment in the form of 50.0% reduction in the applicable tax rate in Vietnam.

Others

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

5. PROFIT FOR THE PERIOD

2009 final dividend of HKD0.013 per share declared	22,673	-

Directors do not recommend the payment of an interim dividend (2009: Nil).

7. EARNINGS PER SHARE

The calculation of the basic earnings per share attributable to the owners of the Company is based on the following data:

	For the six months ended 30 June 2010	2009
Profit for the period attributable to owners of the Company for the purpose of basic earnings per share (HKD)	<u>3,975,000</u>	<u>3,818,000</u>
Number of ordinary shares for the purpose of basic earnings per share	<u>1,744,044,773</u>	<u>1,744,044,773</u>

No diluted earnings per share is presented for the six months ended 30 June 2010 because the Company did not have any outstanding potential ordinary shares at the end of the reporting period or during the period.

No diluted earnings per share is presented for the six months ended 30 June 2009 because the exercise price of the Company's options was higher than the average market price of the shares during that period.

8. TRADE AND OTHER RECEIVABLES
