The Group's Results

Spending by mainland visitors remained robust from the 2009 Christmas season well past the Lunar New Year holidays in February 2010. In late May and June the pace slightly slackened perhaps as a result of the World Expo in Shanghai, the national examinations and the World Cup having had their effects on travel to Hong Kong.

The stock market had a healthy first guarter, but by the second guarter retail investors had become very cautious. The Hang Seng Index declined and market turnover decreased in second quarter.

The Group's expansion plan in Mainland China continued on track.

For the first half of 2010, the Group managed HK\$5,244 million in total turnover, beating 2009 by 14%, and HK\$298 million in profit attributable to equity holders, increasing 23% year-on-year.

Jewellery Retail

Jewellery retail generated a turnover of HK\$3,705 million, increasing 44% from that of 1H 2009. That turnover amount constituted 71% of the Group total. Operating profit increased 47% to HK\$377 million.

Hong Kong & Macau

Contribution from Hong Kong & Macau accounted for 64% of the total turnover of jewellery retail. Visiting mainlanders contributed 42% of turnover.

Although the price of gold had been on an upward trend since the beginning of the year, turnover in gold showed no signs of weakening. On the other hand, selling back of gold by consumers was not guite as brisk as such high prices might suggest, probably reflecting the sentiment that the price of gold would keep on rising.

Notably, despite the strong sales of gold jewellery, the contribution to gross profits from diamond jewellery sales increased to 49%.

During the first half two new shops were added: one in Kwai Chung and the other in Cameron Road, Tsimshatsui. As at 30 June 2010 the number of Chow Sang Sang shops stands at 38, and that of Emphasis Jewellery shops at 11.

Capital expenditure for 1H stood at HK\$9 million.

管理層討論及分析

本集團業績

內地旅客自二零零九年聖誕至二零一零年 二月農曆新年期間的消費強勁。或因上海 世博會、全國性考試及世界盃影響來港旅 遊人數,五月底及六月的步伐稍為放緩。

證券市場第一季發展健康,但在第二季散 戶投資者變得非常謹慎。第二季恒生指數 及市場成交額均下跌。

本集團於中國內地的分店網絡擴展計劃推 度滿意。

二零一零年 上半年,本集團總營業額共 五十二億四仟四佰萬港元,較二零零九年 上升14%,權益持有人應佔溢利二億九仟 八佰萬港元,較去年同期上升23%。

珠寶零售

珠寶零售營業額較二零零九年上半年增加 44%至三十七億零五佰萬港元,佔本集團 總營業額71%。經營溢利上升47%至三億 七仟七佰萬港元。

香港及澳門

香港及澳門對珠寶零售總營業額的貢獻為 64%,內地旅客對營業額的貢獻為42%。

金價雖然自年初不斷攀升,黃金飾品的營 業額並無轉弱徵狀。金價雖處高位,消費 者回售黃金的情況不算熱烈,可能反映大 眾認為金價將持續上升。

雖然黃金飾品的銷售強勁,鑽石飾品對毛 利的貢獻更為顯著,上升至49%。

上半年新增兩家分店,一家位於葵涌,另 一家位於尖沙咀金馬倫道。於二零一零年 六月三十日,周生生共有三十八家分店, 點睛品共有十一家分店。

上半年資本性開支為九佰萬港元。

Jewellery Retail (continued)

Mainland China

Contribution to the turnover of jewellery retail from the Mainland shops amounted to 35% of the total

Sales of items priced RMB50,000 and above rose by over 50% compared with last year.

During the first half there were 24 new shop openings and 3 closings. The total at 30 June 2010 was 164.

Among the new shops one is a Rolex/Tudor boutique in Chengdu, and another one in Shanghai has a Tudor corner. Second or third tier cities like Anshan in Liaoning, Luoyang in Henan, Xiangtan in Hunan, Xiangfan in Hubei, Yixing and Zhenjiang in Jiangsu, Daqing in Heilongjiang, Yinchuan in Ningxia and Huhhot in Inner Mongolia got their first shop, while additional shops were opened in cities better known internationally, such as Kunming and Beijing.

Capital expenditure amounted to HK\$29 million. Besides the fitting out of new shops there was a number of renovations of existing shops, some involving relocation within the host store.

Of the numerous marketing activities conducted all over the Mainland during the first half, the most notable was the event held in the Belgium/EU Pavilion at the Shanghai World Expo. It comprised the announcement of the collaboration between the Antwerp Diamond Museum and Chow Sang Sang, the conferment of the status of Official Diamond Partner to Chow Sang Sang of the Belgium/EU Pavilion and the launch of The Love Diamond Antwerp Diamond Heritage Collection. Pieces of the collection will continue to be exhibited at the Pavilion for the duration of the Expo. The invited guests, consisting of media, heads of department stores, industry leaders and top customers, gave high praise for the event on both content and execution.

Taiwan

The Economic Cooperation Framework Agreement was signed late in June, but such preparatory work as the opening of direct flights had already had a stimulating effect on the economy. Tourism and property markets are two of the beneficiaries.

The retail sector is starting to recover, but consumers, so used to frequent sales and promotions for the past few years, will take time to change their habit of buying only when such activities take place.

A new shop was opened in Kaoshiung, in a new department store next to the Zuoying Station of the High Speed Rail. Overall improvement in turnover and gross profits were achieved by means of targeting the bridal segment with diamond jewellery.

Other recipients of support from the Group included the Hong Kong Academy for Performing Arts, Arts with the Disabled Association Hong Kong, Hong Kong Repertory Theatre and Hong Kong Philharmonic Orchestra.

Outlook

Much uncertainty remains as the central government continues to rein in heated property prices. Whether domestic consumption of luxury goods would be affected by the corrective measures remains to be seen. The plan to set up 50 new shops in China is progressing well.

In Hong Kong, in order to better capture the mainland tourist segment, three new shops are slated to open in the second half of the year. One of them is an Emphasis Jewellery shop in Elements, Tsimshatsui. The other two, one in Yan Ping Road, Causeway Bay and one in the International Finance Centre, Central, are both Chow Sang Sang shops.

In the second half, other than the regular seasonal promotions, efforts will be made to feature bridal jewellery as the "magical" date 2010.10.10 has been widely hyped to be auspicious for weddings.

1. Basis of preparation

This unaudited condensed consolidated interim financial report has been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and Appendix 16 of the Listing Rules

This interim financial report should be read in conjunction with the Annual Report 2009.

The accounting policies and basis of computation used in the preparation of this interim financial report are the same as those used in the Group's audited financial statements for the year ended 31 December 2009.

2. Impact of new and revised Hong Kong Financial Reporting Standards

The adoption of the new standards, amendments and interpretations which become effective for accounting periods beginning on or after 1 January 2010 have had no material impact on the Group's results of operations and financial position.

Except for the amendments to HKFRS 3 and HKAS 27 which are effective for the annual periods beginning on or after 1 July 2010, other amendments are effective for annual periods beginning on or after 1 January 2011 although there are separate transitional provision for each standard or interpretation.

Operating segment information 3.

For management purposes, the Group is organized into business units based on their products and services and has four reportable operating segments as follows:

- the manufacture and retail of jewellery segment produces jewellery products for the Group's retail business and operates retail stores mainly in Hong Kong, Macau and Mainland China;
- (b) the wholesale of precious metals segment trades precious metals to wholesale customers;
- (c) the securities and futures broking segment provides brokering and dealing services for securities and futures; and
- the other businesses segment comprises, principally, the investment (d) in properties for their rental income and capital appreciation potential and other jewellery related businesses.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that certain dividend income and share of losses of associates are excluded from such measurement.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

Financial risk management objectives and policies 19.

Financial risk factors

The Group's principal financial instruments comprise bank borrowings, and cash and bank deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as accounts receivable and accounts payable, which arise directly from its operations.

The Group's overall risk management policies focus on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by management under the policies approved by the Board and it identifies, evaluates and monitors financial risks in close co-operation with the Group's operating units.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk and equity securities price risk. The Board reviews and agrees policies for managing each of these risks and they are summarized below.

Interest rate risk

The Group is exposed to interest rate risk due to potential changes in interest rates of interest-bearing financial assets and liabilities. Interestbearing financial assets are mainly loans to margin clients, whereas interest-bearing financial liabilities are primarily bank borrowings with primarily floating interest rates which expose the Group to cash flow interest rate risk. The Group manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Such interest rate swaps have the economic effect of converting borrowings from floating rates to fixed rates. Generally, the Group raises long term borrowings at floating rates and enters into interest rate swaps, when market conditions prevail, to reduce the interest rate risk.

Foreign currency risk

The Group has transactional currency exposures mainly arising from sales and purchases by operating units in currencies other than the units' functional currency. The management conducted periodical review of exposure and requirements of various currencies, and will consider hedging significant foreign currency exposures should the need arise. The management considers that the Group's exposure to foreign currency risk is not significant.

The Group's assets and liabilities are mainly denominated in Hong Kong dollar, Renminbi and US dollar. Currency risks are managed by partly financing non-Hong Kong dollar assets with loans denominated in the relevant currency.

19. 財務風險管理目標及政策

財務風險因素

本集團之主要金融工具包括銀行貸款、 現金及銀行存款。此等金融工具之主要 用途乃為本集團之業務籌集資金。本集 團有若干其他財務資產及負債,如直接 來自其業務產生之應收賬款及應付賬款。

本集團之整體風險管理政策針對金融市 場之難以預測性,並尋求將對本集團財 務表現構成之潛在不利影響減至最低。 風險管理乃由管理層根據董事會批核之 政策進行,而管理層與本集團之營運單 位緊密合作,以識別、評估及監察財務 風險。

本集團金融工具所產生之主要風險為利 率風險、外匯風險、信貸風險、流動資 金風險及股份證券價格風險。董事會檢 核並同意下文所概述管理各項此等風險 之政策。

利率風險

本集團由於計息財務資產及負債之利率 潛在變動而承受利率風險。計息財務資 產主要為召展客戶貸款,而計息財務負 債主要為按浮動利率計息,導致本集團 承受現金流量利率風險之銀行貸款。本 集團使用浮動利率轉為固定利率的利率 掉期管理其現金流量利率風險。該等利 率掉期具有將借貸浮動利率轉為固定利 率的經濟效果。一般而言,本集團以浮 動利率籌措長期借貸,並於市況合適時 訂立利率掉期,以減低利率風險。

外雁風險

本集團之交易外幣風險主要來自業務單 位以其功能貨幣以外之貨幣進行之買 賣。管理層就不同貨幣的風險及需要進 行定期檢討, 並於需要時考慮對沖重大 外匯風險。管理層認為本集團的外匯風 險並不重大。

本集團之資產及負債主要以港元、人民 幣及美元為單位。管理外匯風險方法是 以外幣債務為手上同幣資產融資。

Financial risk management objectives and policies (continued) Financial risk factors (continued)

Credit risk

The accounts receivable and receivables arising from securities and futures broking represent the Group's major exposure to the credit risk arising from default of the counterparty, with a maximum exposure equal to the carrying amounts of these financial assets in the consolidated statement of financial position. The Group's retail sales on jewellery are usually transacted on a cash basis, via popular credit cards or through reputable and dispersed department stores. The Group's credit sales to wholesale customers are generally on credit term within 45 days. The Group has no significant concentrations of credit risk with respect to its jewellery retail business as it has a large number of diversified customers. For accounts receivable arising from the wholesale of diamonds and precious metals, the Group trades only with recognized and creditworthy third parties and bullion banks. The Group's margin clients accounts receivable arising from the ordinary course of business of dealing in securities are secured by the underlying pledged securities. The Group seeks to maintain strict control over its outstanding receivables and has its credit control policy to minimize the credit risk. In addition, all receivable balances are monitored on an ongoing basis and overdue balances are followed up by senior management. Accordingly, the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which mainly comprise cash and cash equivalents as well as deposits and other receivables, arises from the default of the counterparties, with a maximum exposure equal to the carrying amount of these instruments.

Liquidity risk

In the management of liquidity risk, the Group monitors and maintains level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group's treasury department's responsibility is to maintain a balance between continuity of funding and flexibility through the use of banking facilities in order to meet its liquidity requirements both in the short term and long term. The Group maintains significant flexibility to respond to opportunities and events by ensuring that committed credit lines are available. All debts of the Group as at 30 June 2010 would mature within three years.

Equity securities price risk

Equity securities price risk is the risk that the fair values of equity securities decrease as a result of changes in the levels of equity indices and the value of individual securities. The fair values of these listed equity investments are affected by market forces and other factors. The Group is exposed to equity price risk arising from individual equity investments classified as available-for-sale investments (note 9) and trading equity investments (note 11) as at 30 June 2010. The Group's listed investments are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and are valued at quoted market prices at the end of the reporting period. The majority of the listed equity investments are held for non-trading purpose.

財務風險因素(續)

信貸風險

應收賬款及證券及期貨經紀產生之應收 賬款乃本集團由於交易對手不履約而 產生之主要信貸風險,最高風險相等於 綜合財務狀況表中此等財務資產之賬 面值。本集團之珠寶零售銷售通常以現 金、通過普及信用卡或透過信譽良好及 分散之百貨公司進行。本集團向批發客 戶進行之信貸銷售一般按四十五日內之 賒賬期進行。由於珠寶零售業務擁有大 量分散客戶,故並無重大集中之信貸風 險。就鑽石及貴金屬批發產生之應收賬 款,本集團僅與獲確認及有信譽之第三 者及金商進行交易。本集團自日常業務 中證券買賣產生之應收孖展客戶賬款以 有關已抵押證券作抵押。本集團對逾期 應收賬款維持嚴格控制,並設有信貸控 制政策使信貸風險減至最低。此外,所 有應收賬款結餘均受持續監察,逾期結 餘由高級管理人員跟進。因此,本集團 之壞賬風險並不重大。
