For unsubscribed Hong Kong Public Offer Shares reallocated to the International Offering, we will pay an underwriting commission at the rate applicable to the International Offering and such commission will be paid to the Joint Bookrunners and the relevant International Underwriters (but not the Hong Kong Underwriters).

enforceable or not) to subscribe for or to nominate persons to subscribe for securities in our Company or any member of our Group.

The International Offering

In connection with the International Offering, it is expected that we will enter into the International Underwriting Agreement with the Joint Bookrunners and the International Underwriters on or about October 2, 2010, shortly after the determination of the Offer Price. Under the International Underwriting Agreement, the International Underwriters would, subject to certain conditions, severally and not jointly, agree to procure subscribers to subscribe for, or failing which to subscribe for themselves, their respective applicable proportions of the International Offer Shares being offered pursuant to the International Offering which are not taken up under the International Offering.

Restrictions on the Offer Shares

The Hong Kong Public Offer Shares are offered solely on the basis of the information contained and representations made in this prospectus and the Application Forms, and on the terms and subject to the conditions set out herein and therein. No action has been taken to permit a public offering of the Offer Shares other than in Hong Kong, or the distribution of this prospectus in any jurisdiction other than Hong Kong. Accordingly, this prospectus may not be used for the purpose of, and does not constitute, an offer or invitation in any jurisdiction or in any circumstances in which such an offer or invitation is not authorized or to any person to whom it is unlawful to make such an offer or invitation.

Over-allotment and Stabilization

Stabilization is a practice used by underwriters in some markets to facilitate the distribution of securities. To stabilize, the underwriters may bid for, or purchase, the securities in the secondary market, during a specified period of time, to retard and, if possible, prevent, any decline in the market price of the securities below the offer price. In Hong Kong and certain other jurisdictions, the price at which stabilization is effected is not permitted to exceed the offer price.

In connection with the Global Offering, the Stabilizing Manager or any person or affiliates acting for them, on behalf of the Underwriters, may over-allocate or effect short sales or any other stabilizing transactions with a view to stabilizing or maintaining the market price of the H Shares at a level higher than that which might otherwise prevail in the open market. Short sales involve the sale by the Stabilizing Manager of a greater number of H Shares than the Underwriters are required to purchase in the Global Offering. "Covered" short sales are sales made in an amount not greater than the Over-allotment Option. The Stabilizing Manager may close out the covered short position by either exercising the Over-allotment Option to purchase additional H Shares or purchasing H Shares in the open market. In determining the source of the H Shares to close out the covered short position, the Stabilizing Manager will consider, among other things, the price of H Shares in the open market as compared to the price at which they may purchase additional H Shares pursuant to the Over-allotment Option. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the H Shares while the Global Offering is in progress. Any market purchases of the H Shares may be effected on any stock exchange, including the Hong Kong Stock Exchange, any over-the-counter market or otherwise, provided that they are made in compliance with all applicable laws and regulatory requirements. However, there is no obligation on the Stabilizing Manager or any person acting for it to conduct any such stabilizing activity, which if commenced, will be done at the absolute discretion of the Stabilizing Manager and may be discontinued at any time. Any such stabilizing activity is required to be brought to an end within 30 days of the last day for the lodging of applications under the Hong Kong

UNDERWRITING

Public Offering. The number of the H Shares that may be over-allocated will not exceed the number of the H Shares that may be sold under the Over-allotment Option, namely, 59,294,000 H Shares, which is 15% of the number of Offer Shares initially available under the Global Offering, in the event that the whole or part of the Over-allotment Option is exercised.

In Hong Kong, stabilizing activities must be carried out in accordance with the Securities and Futures (Price Stabilizing) Rules. Stabilizing actions permitted pursuant to the Securities and Futures (Price Stabilizing) Rules include:

- (a) over-allocation for the purpose of preventing or minimizing any reduction in the market price;
- (b) selling or agreeing to sell the H Shares so as to establish a short position in them for the purpose of preventing or minimizing any deduction in the market price;
- (c) subscribing, or agreeing to subscribe, for the H Shares pursuant to the Over-allotment Option in order to close out any position established under (a) or (b) above;
- (d) purchasing, or agreeing to purchase, the H Shares for the sole purpose of preventing or minimizing any reduction in the market price;
- (e) selling the H Shares to liquidate a long position held as a result of those purchases; and
- (f) offering or attempting to do anything described in (b), (c), (d) and (e) above.

Stabilizing actions by the Stabilizing Manager, or any person acting for it, will be entered into in accordance with the laws, rules and regulations in place in Hong Kong on stabilization.

As a result of effecting transactions to stabilize or maintain the market price of the H Shares, the Stabilizing Manager, or any person acting for it, may maintain a long position in the H Shares. The size of the long position, and the period for which the Stabilizing Manager, or any person acting for it, will maintain the long position is at the discretion of the Stabilizing Manager and is uncertain. In the event that the Stabilizing Manager liquidates this long position by making sales in the open market, this may lead to a decline in the market price of the H Shares.

Stabilizing action by the Stabilizing Manager, or any person acting for it, is not permitted to support the price of the H Shares for longer than the stabilizing period, which begins on the day on which trading of the H Shares commences on the Hong Kong Stock Exchange and ends on the thirtieth day after the last day for the lodging of applications under the Hong Kong Public Offering. The stabilizing period is expected to end on October 30, 2010. As a result, demand for the H Shares, and their market price, may fall after the end of the stabilizing period. These activities by the Stabilizing Manager may stabilize, maintain or otherwise affect the market price of the H Shares. As a result, the price of the H Shares may be higher than the price that otherwise may exist in the open market. Any stabilizing action taken by the Stabilizing Manager, or any person acting for it, may not necessarily result in the market share of the H Shares staying at or above the Offer Price either during or after the stabilizing period. Bids for or market purchases of the H Shares by the Stabilizing Manager, or any person acting for it, may be made at a price at or below the Offer Price and therefore at or below the price paid for the H Shares by purchasers. A public announcement in compliance with the Securities and Futures (Price Stabilizing) Rules will be made within seven days of the expiration of the stabilizing period.
