Chairman's Statement 主席報告

BUSINESS REVIEW

Sales in power cord and power cord sets, cables and wires, wire harnesses and plastic resins accounted for 56%, 12%, 30% and 2% of the Group's total turnover, respectively, in this financial year.

Despite continued economic uncertainty and rising costs, both turnover and profit increased. The growth was a result of effective cost control and high work efficiency, which helped mitigate surges in material prices.

Manufacturers faced challenging operating environments throughout the year under review. Increased running costs and poor American consumer perceptions of China-made products have exerted pressure on the Group's profit margin.

Nevertheless, the Group has continued to adopt prudent strategy in financial management, cost control and risk management. In addition to a "Lean Production" strategy, the Group has conducted regular review on cost control, focused on production efficiency and taken measures to prevent accidents and minimise risks.

FUTURE PROSPECTS

Although economic uncertainties in the United States will continue for a longer period before recovery we will face these challenges in a economical manner, with stringent control on costs, solid financial management, a stable and professional workforce.

Inflationary pressures on costs will remain with the continuing appreciation of the Renminbi. In order to counteract the surging wages, the Group will continue to streamline its workforce and improve efficiency by implementing a "Lean Manufacturing" and automation strategy.

Our core strategy remains creating value for our customers. We endeavour to continue providing high quality products at competitive prices.

The Group is also dedicated to producing environmentally-sound products. We will continue to invest in the research and development of eco-friendly products in order to meet the European Union's new environmental protection regulations.

業務回顧

於本會計年度內,電源線及電源線組合、導線、組合線束及塑膠皮料的銷售額,分別佔本 集團營業額之56%、12%、30%及2%。

儘管全球經濟持續不穩定,成本上漲,本集團 的營業額及溢利仍然錄得增長;有關增長是我 們有效控制成本,提高效率,以減低原材料價 格上升所帶來的成果。

於回顧年內,很多製造商要面對充滿挑戰的營 商環境。經營成本上升以及美國對中國製造產 品的疲弱消費預期對本集團的利潤率持續造成 壓力。

雖然如此,本集團憑藉採用持之以恆的審慎財務、成本及風險管理策略。除推行「精益生產」策略外,本集團經常審閱成本,注重生產效益,並做好各種措施以防意外和把風險減至最低。

未來展望

儘管美國經濟仍需一段長時間才能走向復甦的 步伐,本集團會抱著經濟的態度,嚴謹控制成 本,運用穩健財務管理,專業及穩定的團隊去 面對挑戰。

在人民幣不斷升值的形勢之下,成本方面仍然存在通脹壓力。為應付持續上漲的工資成本,本集團將繼續精簡人手,推行「精益生產」及自動化策略,提高生產效益。

我們的核心策略仍然是為客户創造價值,並會 繼續提供高品質及有競爭力的產品。

本集團致力生產符合環保要求的產品。我們會 繼續投資於研究及開發環保產品,推廣綠色產 品,配合歐盟對環保要求的新規例。

Chairman's Statement 主席報告

FUTURE PROSPECTS (CONTINUED)

The United States remains the Group's primary overseas market. It is our goal to develop new revenue driver for the Group by expanding into other overseas markets in the near future.

On the human resources front, we will continue to attract and retain talent through the provision of competitive remuneration packages, employee recognition, seniority-based benefits, training programmes as well as leisure and recreation facilities for staff.

We are facing an uncertain business environment. It appears likely that costs will rise further and the Renminbi will continue to appreciate in 2011, making improvement in margins a challenging task. Nevertheless, the Group remains optimistic about its long-term prospects. Our prudent strategy in cost control, "Lean Manufacturing" and efficient operations continue to position us strongly to create value for customers and shareholders.

The Company remains vigilant against all business risks. The 311 Japan Earthquake may have but not a significant impact on our operation.

CORPORATE GOVERNANCE

The Group is committed to safeguarding shareholders' rights and enhancing corporate governance standard. As a result, we establish the Compliance Committee, Audit Committee, Remuneration Committee and Nomination Committee to adhere to the best practice.

SOCIAL RESPONSIBILITY

Being a responsible corporate citizen is the Group's strong belief. So we continue to participate in and support community activities in both Hong Kong and the People's Republic of China.

VOTE OF THANKS

On behalf of the Board of Directors, my sincere thanks to our loyal shareholders, partners and customers for their continuous support and to our staff for their dedication.

By Order of the Board Koo Di An, Louise Chairman

Hong Kong, 23rd March 2011

未來展望(續)

美國仍然是本集團的最主要海外市場,我們的 目標是在不久的將來開拓其他海外市場來為本 集團帶來新的收益來源。

在人才資源方面,本集團將透過提供具競爭力 的薪酬福利,對優秀人才予以表揚,訂立年資 福利制度、提供培訓計劃、改善員工休憩及娛 樂地方等措施致力吸納及挽留出色員工。

我們正面對不穩定的營商環境,因在二零一年,改善利潤率充滿挑戰,成本進一步上漲及人民幣不斷升值。本集團對其長遠前景仍然十分樂觀。憑藉審慎的成本管理、「精益生產」及有效營運策略,本集團已準備就緒,繼續為客户及股東創造價值。

本公司常持謹慎警惕態度對付各類營謀風險, 因此,日本311大地震估計不會對本公司營運 構成重大影響。

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

These consolidated financial statements are presented in thousands of Hong Kong dollars ("HK\$'000") unless otherwise stated.

1.1 Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS"). They have been prepared under the historical cost convention, as modified by the revaluation of land and buildings, investment property and derivative financial instruments which are carried at fair value.

The preparation of the consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 3.

1. 主要會計政策摘要

編製此等綜合財務報表所採用之主要會 計政策載於下文。除有説明外,此等政 策在所呈報的所有年度內貫徹應用。

除另外註明外,此等綜合財務報表以千 港元呈列。

1.1 編製基準

本綜合財務報表乃按照香港財務報告準則編製。賬目並依據歷史成本常規法編製,惟若干土地及樓宇、投資物業及衍生金融工具之會計政策乃按公允值列賬。

編製符合財務準則的綜合財務報表需要使用若干關鍵會計估算。 這亦需要管理層在應用本集團會計政策過程中行使其判斷。 及高度的判斷或高度複雜性的範疇,或涉及對綜合財務報表屬重大假設和估算的範疇,在附註3中披露。

For the year ended 31st December 2010 截止二零一零年十二月三十一日止年度

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1.2 Changes in accounting policy and disclosures

(a) The Group has adopted new standards and amendments to standards of Hong Kong Financial Reporting Standards that are mandatory for the first time for the financial year beginning on or after 1st January 2010.

HKAS 17 (amendment), 'Leases', deletes specific guidance regarding classification of leases of land, so as to eliminate inconsistency with the general guidance on lease classification. As a result, leases of land should be classified as either finance or operating lease using the general principles of HKAS 17, i.e. whether the lease transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee. Prior to the amendment, land interest which title is not expected to pass to the Group by the end of the lease term was classified as operating lease under "Leasehold land and land use rights", and amortised over the lease term.

HKAS 17 (amendment) has been applied retrospectively for annual periods beginning 1st January 2010 in accordance with the effective date and transitional provisions of the amendment. The Group has reassessed the classification of unexpired leasehold land and land use rights as at 1st January 2010 on the basis of information existing at the inception of those leases, and recognised certain leasehold land held in Hong Kong as finance leases retrospectively.

As a result of the reassessment, the land interest of the Group that is held under finance leases is accounted for as property, plant and equipment and is carried at fair value less subsequent depreciation and impairment (Note 1.7).

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1.2 Changes in accounting policy and disclosures (Continued)

(a) (Continued)

In November 2010, HKICPA published HK Interpretation 5 "Presentation of Financial Statements - Classification by the Borrower of a Term Loan that contains a Repayment on Demand Clause" and classified that a liability, which contains a clause gives the lender the unconditional right to demand repayment at any time, should be classified as a current liability in accordance with HKAS 1 "Presentation of financial statements". The market practice in Hong Kong previously has been to classify term loans as a non-current liability based on the agreed schedule repayment dates. The unconditional right was considered to be protective and the likelihood of it being exercised was remote or would only be exercised in adverse conditions. Accordingly, the Group changed its accounting policy on the classification for term loan and reclassified the noncurrent bank borrowings of HK\$2,030,000 to current liabilities as at 1st January 2009.

Except for the reclassification of the Group's leasehold land of non-investment property in Hong Kong and bank borrowings, the adoption of other new and amended standards and interpretations does not have material impact on these consolidated financial statements and does not result in substantial changes to the Group's accounting policies.

(a) (續)

於二零一零年十一月,香港 會計師公會公佈香港詮釋第 5號「財務報表之列報-借款 人對包含可隨時要求償還條 款之定期貸款之分類」澄清 借款人應將擁有賦予放款人 無條件權利隨時要求還款條 款(「可隨時要求償還條款」) 之定期貸款分類為根據香港 會計準則第一號「財務報表 的列報」的流動負債。定期 貸款根據以前香港市場慣例 基於議定預定還款日期分類 為非流動負債。無條件還款 權利被認定只為保護性及行 使的可能性極低或只有在極 不利的情况下行使。因此, 本集團於二零零九年一月一 日將其會計政策分類借貸項 目作出變更,將非流動借貸 2,030,000港元重新分類為 流動負債。

除於本集團香港非投資物業的租賃土地及銀行借貸的重新分類外,此等新及經修改的準則及詮釋的採用對綜合財務報表並無任何重大影響及不會對本集團會計政策有重大改變。

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31st December.

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. 1.6 Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group's companies, is classified as investment property. Investment property comprises land held under operating leases. Land held under operating leases is classified and accounted for as investment property when the rest of the definition of investment property is met.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment property is carried at fair value. The valuation is reviewed annually by an external independent valuer on an open market basis. Separate value is not attributed to land and buildings. The valuation is incorporated in the financial statements. Changes in fair values are recognised in the income statement.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the income statement during the financial period in which they are incurred.

Land and buildings comprise factories and offices. Land and buildings are shown at fair value, based on annual valuations by an external independent valuers, less subsequent depreciation and impairment. The valuations are on an open market basis. Any accumulated depreciation and impairment at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Increases in the carrying amount arising on revaluation of land and buildings are credited to building revaluation reserve in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in the income statement, in which case the increase is credited to the income statement to the extent of the decrease previously charged. Decreases that offset previous increases of the same asset are charged against land and building revaluation reserve directly in equity; all other decreases are expensed in the income statement.

(iii) Depreciation

Depreciation on land and buildings is calculated to write off their valuation less accumulated impairment losses on a straight-line basis over the unexpired period of the leases or their estimated useful lives, whichever is shorter. The principal annual rates used range from 2.5% to 5%.

Other property, plant and equipment except construction in progress are depreciated at rates sufficient to write off their costs less accumulated impairment losses over their estimated useful lives on a reducing balance basis. The principal annual rates are as follows:

| Leasehold improvements | 20% or lease period, |
|------------------------|-----------------------|
| | which ever is shorter |

Plant and machinery 2.5%-20%
Furniture and fixtures 15%-20%
Office equipment 20%

Pleasure boat 10%

No depreciation is provided for construction in progress until they are completed and put into production ready for their intended use, upon which they will be transferred to property, plant and equipment.

(iv) Others

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. (iv) Others (Continued)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(v) Gains and losses on disposals

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. Where revalued assets are sold, the amounts included in land and buildings revaluation reserve are transferred to retained earnings.

1.8 Assets under finance lease/operating lease

(i) Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating lease. Payments made under operating lease (net of any incentives received from the lessor) are charged in the income statement on a straight-line basis over the period of the leases.

(ii) Finance lease

Leases of assets where the Group has substantially all the risks and rewards of ownership are classified as finance lease assets. Finance lease assets are capitalised at the commencement of the lease and at the lower of the fair value of the assets and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the outstanding finance balance. The corresponding rental obligations, net of finance charges, are included in current and non-current borrowings. The interest element of the finance cost is recognised in the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Land use rights are stated at cost less accumulated amortisation and accumulated impairment losses (if any). Cost mainly represents consideration paid for the rights to use the land on which various plants and buildings are situated for a period of 46-50 years from the date the respective right was granted. Amortisation of land use rights is calculated on a straight-line basis over the period of the land use rights.

1.10 Impairment of investment in subsidiaries and non-financial assets

Assets that have an indefinite useful life are tested for impairment annually. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Such impairment loss is recognised in the income statement.

1.11 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs are assigned to individual items on the first-in, first-out basis and are arrived at as follows:

- (ii) Work in progress and finished manufactured goodscosts of direct materials, direct labour and an appropriate proportion of production overheads.
- (iii) Finished goods purchased for resale-invoiced price and shipping cost.

1.17 Current and deferred income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the accounts. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

2. FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Management regularly manages the financial risks of the Group.

(i) Foreign exchange risk

The Group is exposed to foreign currency risk arising from various currency exposures, primarily with respect to Renminbi ("RMB"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. In addition, the conversion of RMB is subject to the rules and regulations of foreign exchange control promulgated by the Mainland China monetary authority.

Should HK\$ strengthened/weakened by 5% (2009: 5%) during the year ended 31st December 2010 against the RMB, with all other variables held constant, the impact of the profit after taxation and the equity for the year would have been approximately HK\$445,000 (2009: HK\$654,000) higher or lower.

2. 財務風險管理

(a) 財務風險因素

集團因經營業務而承受不同財務 風險,市場風險(包括外匯風險, 價格風險及利率風險)、信貸風險 和流動資金風險。本集團的整體 風險管理計劃針對金融市場的不 可預知性,務求盡量減低對集團 財務表現所帶來的影響。

截至二零一零年十二月 三十一日止年度,倘港元兑 人民幣匯率轉強/轉弱5% (二零零九年:5%),而其 他各項變數不變,除稅後溢 利及權益將分別增加/減少 約445,000港元(二零零九 年:654,000港元)。

For the year ended 31st December 2010 截止二零一零年十二月三十一日止年度

2. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial risk factors (Continued)

(i) Foreign exchange risk (Continued)

Certain of the assets of the Group are denominated in United States Dollar ("USD") but the foreign exchange risk is considered not significant as HK\$ exchange rate is pegged to USD.

The foreign exchange risk on financial assets and liabilities denominated in currencies other than RMB and USD are insignificant to the Group.

(ii) Price risk

The Group exposes to fluctuations in the market price of major raw materials such as copper rods and chemicals to make plastic resins.

The Group is able to pass certain realised price gains and losses on raw materials to certain customers through price adjustments, which can mitigate the price risk. The Group has not used any derivative instruments to hedge such economic exposures.

(iii) Interest rate risk

The Group's interest rate risk arises from bank borrowings. Borrowings at variable rates expose the Group to cash flow interest rate risk. Borrowings at fixed rates expose the Group to fair value interest rate risk. Details of the Group's borrowings have been disclosed in Note 23 to the consolidated financial statements.

The Group has not used any hedging arrangement to hedge its exposure to interest rate risk.

(iii) 利率風險

本集團的利率風險來自借貸。浮息借貸為本集團帶來現金流利率風險,而定息借貸則為本集團帶來公允價值利率風險。本集團借貸詳情已於綜合財務報表附註23披露。

集團並無使用任何利率掉期 對沖其利率風險。

2. FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Financial risk factors (Continued)

(iii) Interest rate risk (Continued)

The sensitivity analysis presents the effects on the Group's profit after taxation for the year as a result of changes in interest expense on floating rate borrowings. The sensitivity to interest rate used is based on market forecasts available at the balance sheet date and under the economic environments in which the Group operates, with other variables held constant.

Based on the analysis performed, the impact on the profit after taxation of a 100 basis-point change in interest rate would be an increase/decrease of HK\$554,000 and HK\$327,000 for the years ended 31st December 2010 and 2009, respectively.

(iv) Credit risk

The Group's bank balances are deposited with financial institutions with reliable and acceptable rating quality. Management regularly assesses the credit risk of these financial institutions by reviewing their published financial information and credit rating.

The Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of each financial asset, including cash at bank, trade and other receivables as disclosed on the consolidated statement of financial position.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Taxation

The Group is subject to taxation in several jurisdictions. Significant judgement is required in determining the provision for taxation. Sufficient provisions are set aside to meet all tax liabilities. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(b) Estimated fair value of properties

The fair values of investment property and office and factory buildings are determined at the end of each reporting period by an independent professional valuer. The fair value of investment property is determined on an open market value basis by reference to comparable market transactions and where appropriate on the basis of capitalisation of the net rental income/net income after allowing for outgoings and in appropriate cases provisions for reversionary income potential. The fair values of office, land and factory buildings are determined on an open market value or depreciated replacement cost basis. These methodologies are based upon estimates of future results and a set of assumptions as to income and expenses of the property and future economic conditions.
