OVER-ALLOTMENT AND STABILIZATION

Stabilization is a practice used by underwriters in some markets to facilitate the distribution of securities. To stabilize, the underwriters may bid for, or purchase, the newly issued securities in the secondary market, during a specified period of time, to slow and, if possible, prevent a decline in the market price of the securities below the offer price. In Hong Kong, the price at which stabilization is effected is not permitted to exceed the offer price.

In connection with the Global Offering, the Stabilizing Manager or any person acting for it may over-allocate or effect transactions with a view to stabilizing or maintaining the market price of our Shares at a level higher than that which might otherwise prevail for a limited period after the commencement of trading in the Shares on the Stock Exchange. Such transactions may be effected in compliance with all applicable laws and regulatory requirements. However, there is no obligation on the Stabilizing Manager or any person acting for it to do this. Such stabilization, if commenced, will be conducted at the absolute discretion of the Stabilizing Manager or any person acting for it and may be discontinued at any time, and must be brought to an end after a limited period.

The Stabilizing Manager or any person acting for it may take all or any of the following stabilizing actions in Hong Kong during the stabilization period:

- (i) purchase, or agree to purchase, any of the Offer Shares or offer or attempt to do so for the sole purpose of preventing or minimizing any reduction in the market price of the Offer Shares;
- (ii) in connection with any action described in paragraph (i) above;
 - (A) (1) over-allocate the Offer Shares; or
 - (2) sell or agree to sell the Offer Shares so as to establish a short position in them, for the sole purpose of preventing or minimizing any reduction in the market price of the Offer Shares;
 - (B) exercise the Over-allotment Option (upon consultation with the other Joint Global Coordinators) and purchase or subscribe for or agree to purchase or subscribe for the Offer Shares in order to close out any position established under paragraph (A) above;

- (C) sell or agree to sell any of the Offer Shares acquired by it in the course of the stabilizing action referred to in paragraphs (i) above in order to liquidate any position that has been established by such action; or
- (D) offer or attempt to do anything as described in paragraphs (ii)(A)(2), (ii)(B) or (ii)(C) above.

The Stabilizing Manager or any person acting for it may, in connection with the stabilizing action, maintain a long position in the Offer Shares, and there is no certainty as to the extent to which and the time period for which it will maintain such a position. Investors should be warned of the possible impact of any liquidation of the long position by the Stabilizing Manager or any person acting for it and selling in the open market, which may include a decline in the market price of the Offer Shares.

Stabilization cannot be used to support the price of the Offer Shares for longer than the stabilization period, which begins on the day on which trading of the Offer Shares commences on the Stock Exchange and ends on the earlier of the thirtieth day after the last day for lodging of applications under the Hong Kong Public Offering or the commencement of trading of the Offer Shares. The stabilization period is expected to expire on May 27, 2011. After this date, when no further stabilizing action may be taken, demand for the Shares, and therefore their market price, could fall.

Any stabilizing action taken by the Stabilizing Manager or any person acting for it, may not necessarily result in the market price of the Shares staying at or above the Offer Price either during or after the stabilization period. Stabilizing bids or market purchases affected in the course of the stabilization action may be made at any price at or below the Offer Price and can therefore be done at a price below the price the investor has paid in acquiring the Offer Shares.

In connection with the Global Offering, the Stabilizing Manager may over-allocate up to and not more than an aggregate of 225,000,000 additional Shares and cover such over-allocations by exercising the Over-allotment Option or by making purchases in the secondary market at prices that do not exceed the Offer Price or through stock borrowing arrangements or a combination of these means. In particular, for the purpose of covering such over-allocations, the Stabilizing Manager may borrow up to 225,000,000 Shares from the Controlling Shareholder, equivalent to the maximum number of Shares to be issued on a full exercise of the Over-allotment Option, under a stock borrowing agreement.
