QUARTERLY REPORT ON CONSOLIDATED RESULTS FOR THE 1ST QUARTER ENDED 30 SEPTEMBER 2011

The figures have not been audited

20. **Review of performance of the Group for the quarter and financial year-to-date**

FFB production for 1Q FYE 2012 was 89,721 MT. The Group achieved revenue of RM71.7 million and profit before tax RM31.6 million. During 1Q FYE 2012, the Group achieved Earnings Before Interest, Tax, Depreciation and Amortization (EBITDA) of RM40.0 million.

In terms of segmental results, Sabah and Sarawak operations achieved an operating profit of RM22.9 million and RM10.0 million, respectively.

During the current quarter, the Group planted an additional 377 hectares of oil palm plantation in Sarawak, bringing the total planted area in East Malaysia to 29,723 hectares, of which 21,166 hectares were matured as at 30 September 2011.

21. **Commentary on the outlook of the Group**

Palm oil price broke lower to below RM3,000 per metric tonne during the quarter due to a combination of factors. The contagion effect from the worsening debt crisis in Europe and the stalling US economy pulled prices lower across most assets classes including commodities like palm oil. A recovery in palm oil production and a change in duties in Indonesia with lower taxes on refined palm oil exports as compared to crude palm oil exports dampened market sentiment further. With the change in the tax structure in Indonesia, downstream companies in Malaysia will find it tougher to compete against Indonesian downstream companies as the Indonesian downstream companies will have an advantage in lower local crude palm oil price. We have a cautious outlook for palm oil price due to uncertainties in the global economy and the long term effect of the change in the tax structure in Indonesia on the Malaysian palm oil industry. However with improving yields from the Group's maturing plantations, we expect the full year's results to be satisfactory.

22. **Variation of actual profit from forecast profit and shortfall in profit guarantee**

The Group did not issue any profit forecast for this quarter and therefore comments on variances with forecast profit are not applicable.
