NOTES:

1. GENERAL INFORMATION

Shougang Fushan Resources Group Limited (the “Company”) is a limited liability company incorporated and domiciled in Hong Kong. Its registered office address is 6th Floor, Bank of East Asia Harbour View Centre, No. 56 Gloucester Road, Wanchai, Hong Kong. The Company’s shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The principal places of the business of the Company and its subsidiaries (collectively referred to as the “Group”) are in Hong Kong and the People’s Republic of China (the “PRC”).

The principal activities of the Group’s subsidiaries comprise coking coal mining, production and sales of coking coal products and side products. There were no significant changes in the Group’s operations during the six months ended 30 June 2012.

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The unaudited interim consolidated financial statements of the Group for the six months ended 30 June 2012 (the “Interim Financial Information”) has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and with the applicable disclosure provisions in Appendix 16 of the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”). The Interim Financial Information should be read in conjunction with the annual financial statements for the year ended 31 December 2011, which have been prepared in accordance with the Hong Kong Financial Reporting Standards (“HKFRSs”).

The Interim Financial Information has been reviewed by our auditor in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the HKICPA.

The Interim Financial Information was approved for issue by the board of directors on 28 August 2012.

The Interim Financial Information has been prepared in accordance with the accounting policies adopted in the last financial statements for the year ended 31 December 2011, except for the adoption of the following standards as of 1 January 2012:

Amendments to HKFRS 7	Disclosures – Transfers of Financial Assets
Amendments to HKAS 12	Deferred tax: Recovery of underlying assets
HKFRS 9	Financial Instruments

Other than as noted below, the adoption of these new or amended HKFRSs has had no material impact on the Interim Financial Information.

2.1 Adoption of amendments to HKFRS 7 Disclosure – Transfer of Financial Assets (“HKFRS 7”)

The amendments to HKFRS 7 improve the derecognition disclosure requirements for transfer transactions of financial assets and allow users of financial statements to better understand the possible effects of any risks that may remain with the entity on transferred assets. The amendments require additional disclosures if a disproportionate amount of transfer transactions is undertaken around the end of a reporting period. The adoption of the amended standard did not have any impact on the presentation of the financial assets.

2.2 Adoption of amendments to HKAS 12 Deferred tax: Recovery of underlying assets (“HKAS 12”)

The amendments to HKAS 12 introduce an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on investment property measured at fair value. The adoption of the amended standard did not have any impact on the financial position and performance of the Group.

2.3 Early adoption of HKFRS 9 Financial Instruments (“HKFRS 9”)

HKFRS 9 issued in November 2009 is the first part of phase 1 of a comprehensive project to entirely replace HKAS 39 Financial Instruments: Recognition and Measurement. This phase focuses on the classification and measurement of financial assets. Instead of classifying financial assets into four categories, an entity shall classify financial assets as subsequently measured at either amortised cost or fair value, on the basis of both the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Fair value gains and losses will be recognised in profit or loss except for those non-trade equity investments, which the entity will have a choice to recognise the gains and losses in other comprehensive income. This aims to improve and simplify the approach for the classification and measurement of financial assets compared with the requirements of HKAS 39.

In November 2010, the HKICPA issued additions to HKFRS 9 to address financial liabilities (the “Additions”) and incorporated in HKFRS 9 the current derecognition principles of financial instruments of HKAS 39. Most of the Additions were carried forward unchanged from HKAS 39, while changes were made to the measurement of financial liabilities designated at fair value through profit or loss using the fair value option. For these fair value option liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in other comprehensive income. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. However, loan commitments and financial guarantee contracts which have been designated under the fair value option are scoped out of the Additions.

Previously, financial assets of the Group were classified as financial assets at fair value through profit or loss, available-for-sale financial assets or loans and receivables. The early adoption of HKFRS 9 has resulted in a change in accounting policy, and financial assets are classified into financial assets measured at fair value through profit or loss, financial assets measured at fair value through other comprehensive income or financial assets measured at amortised cost. The HKFRS 9 was issued in November 2009, and the Group has retrospectively applied the requirements of HKFRS 9 on 1 January 2011, which was at the beginning of the previous reporting period. Details of the changes in measurement category of financial assets as at the date of initial application are disclosed under the caption below of “Adoption of HKFRS 9 – Re-designation of financial assets on 1 January 2012”. Under the transitional provisions, HKFRS 9 was applied to financial assets existing at the earliest date reported on in the financial statements (i.e. 1 January 2011), comparative figures have been restated.

The estimated effect of this change in accounting policy is summarised below:

Consolidated statement of financial position

	At 30 June 2012 (Unaudited) HK\$'000	At 31 December 2011 (Audited) HK\$'000	At 1 January 2011 (Audited) HK\$'000

Decrease in available-for-sale financial assets	<u>(1,398,581)</u>	<u>(1,771,034)</u>	<u>(3,161,097)</u>

Consolidated statement of comprehensive income

Increase in fair value loss on financial assets measured at fair value through other comprehensive income	372,392	233,518
Decrease in fair value loss on available-for-sale financial assets	(372,392)	(233,518)
Decrease in impairment loss of available-for-sale financial assets recognised in profit or loss	(931,519)	–
Decrease in reclassification adjustment upon impairment of available-for-sale financial assets through other comprehensive income	<u>931,519</u>	<u>–</u>

Following the adoption of HKFRS 9, all existing available-for-sale financial assets were reclassified as financial assets measured at fair value through other comprehensive income and the Group's basic and diluted earnings per share increased by HK17.41 cents and HK17.40 cents respectively.

Under HKAS 39, fair value changes on the Group's available-for-sale financial assets were recognised in other comprehensive income and accumulated in security investment reserve. The amount accumulated in the security investment reserve was removed from equity and recognised in profit or loss on impairment or disposal. Under HKFRS 9, such financial assets are designated as fair value through other comprehensive income and the cumulative fair value changes previously accumulated in security investment reserve are not reclassified to profit or loss, but is reclassified directly to retained profits when such financial assets are disposed of.

Under HKAS 39, the Group's investments in unquoted equity instruments classified as available-for-sale financial assets were measured at cost. Under HKFRS 9, such investments have been designated as fair value through other comprehensive income and are measured at fair value. Any difference between cost and fair value at the date of initial application has been adjusted to security investment reserve at 1 January 2011.

Adoption of HKFRS 9 — Re-designation of financial assets on 1 January 2012

3. REVENUE AND SEGMENT INFORMATION

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors for their decisions about resources allocation to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the executive directors are determined following the Group's major product lines. The Group has identified the following reportable segments:

Coking coal mining:	Mining and exploration of coal resources and production of raw and clean coking coal in the PRC
Coke production:	Production of coke in the PRC (Discontinued operations)

Each of these operating segments is managed separately as each of the product lines requires different resources as well as operating approaches.

For the six months ended 30 June 2012, there has been no change from prior periods in the measurement methods used to determine operating segments and reported segment profit or loss.

These operating segments are monitored and strategic decisions are made on the basis of adjusted segment operating results. The Group's segment operating profit reconciles to the Group's profit before income tax as follows:

No provision for Hong Kong Profits Tax has been made in the Interim Financial Information as the Group had no assessable profit arising in Hong Kong for the six months ended 30 June 2012 and 2011.

In accordance with the Income Tax Law of the PRC for Enterprises with Foreign Investment, the Group's certain major subsidiaries, namely Shanxi Liulin Xingwu Coal Co., Limited ("Xingwu"), Shanxi Liulin Jinjiazhuang Coal Co., Limited ("Jinjiazhuang") and Shanxi Liulin Zhaiyadi Coal Co., Limited ("Zhaiyadi"), all established in the PRC, were subject to 25% enterprise income tax in the PRC since the calendar year of 2011.

The Group is also subject to a withholding tax at the rate of 5% (Six months ended 30 June 2011: 5%) on the distributions of profits generated from the Group's major PRC subsidiaries which are directly owned by the Group's subsidiaries incorporated in Hong Kong.

8. DISCONTINUED OPERATIONS

In December 2010, one of the Group's wholly-owned subsidiaries, New Honest Limited ("New Honest") entered into a conditional sale and purchase agreement with an independent third party to dispose of its entire 66% equity interest in a subsidiary of the Group, namely Shanxi Yao Zin Coal and Coking Company Limited ("Shanxi Yao Zin"), for a cash consideration of Renminbi ("RMB") 211,200,000 (Hong Kong Dollars ("HK\$") 249,216,000 equivalent) (the "Disposal"). In addition, the Group waived the shareholders' loans to Shanxi Yao Zin amounting to RMB124,900,000 (HK\$147,400,000 equivalent) and the corresponding interest upon the completion of the Disposal. Shanxi Yao Zin was incorporated in the PRC and is principally engaged in production and sales of coke products in Shanxi, the PRC. The Disposal was completed on 31 December 2011. Since then, Shanxi Yao Zin ceased to be a subsidiary of the Company.

As at 30 June 2011, loss for the period from discontinued operations is as follows:

Interim dividend for the six months ended 30 June 2012 is expected to be paid on or about 25 September 2012 to all owners of the Company whose names appear on the register of members of the Company at the close of business on 12 September 2012. As at 30 June 2012, the number of the issued share capital of the Company is 5,301,837,842 (As at 30 June 2011: 5,380,563,842).

10. EARNINGS PER SHARE

From continuing and discontinued operations

The calculations of basic and diluted earnings per share from continuing and discontinued operations to owners of the Company are based on the following data:

	Six months ended 30 June	
	2012	2011
	(Unaudited)	(Unaudited)
	HK\$'000	HK\$'000
Profit used to determine basic and diluted earnings per share from continuing and discontinued operations	1,005,539	1,131,062

Weighted average number of ordinary shares for the purpose of diluted earnings per share	5,354,220	5,384,888

From continuing operations

The calculations of basic and diluted earnings per share from continuing operations attributable to owners of the Company are based on the following data:

	Six months ended 30 June	
	2012	2011
	(Unaudited)	(Unaudited)
	HK\$'000	HK\$'000
Profit for the period attributable to owners of the Company	1,005,539	1,131,062

181-365 days	9,253	8,895
	<u>2,805,701</u>	<u>3,350,955</u>

Trade receivables generally have credit terms ranging from 60 to 90 days (Six months ended 30 June 2011: 60 to 90 days) and no interest is charged.

As at 30 June 2012, included in bill receivables is an amount of RMB326,700,000 (HK\$399,015,000 equivalent) (31 December 2011: RMB398,200,000 (HK\$489,786,000 equivalent)) which was pledged for bill payables of RMB318,997,000 (HK\$389,607,000 equivalent) (31 December 2011: RMB355,673,000 (HK\$437,478,000 equivalent)) (Note 13).

12. LOAN TO A PARTY

Pursuant to the loan agreement dated 13 April 2010 entered into between Jade Green Investments Holding Limited (“Jade Green”), a wholly-owned subsidiary of the Group, and Mr. Xing Libin (“Mr. Xing”), Jade Green agreed to make the loan of HK\$937,367,000 (RMB824,883,000 equivalent) (the “Loan Amount”) to Mr. Xing to settle the outstanding liabilities owned by Mr. Xing. The Loan Amount and the transactions contemplated thereunder were approved at the extraordinary general meeting of the Company held on 8 June 2010. The Loan Amount was secured by 35% equity interest in Liulin Luenshan Coking Company Limited and dividend rights in respect of 35% equity interest in Jinjiazhuang and 5% equity interests in Zhaiyadi. The Loan Amount and interest accrued were repayable in three installments where (i) HK\$468,683,000 repaid on 9 June 2011; (ii) HK\$234,342,000 repaid on 9 December 2011; and (iii) the remaining HK\$234,342,000 repaid on 8 June 2012. The Loan Amount was subject to floating interest of LIBOR plus 2.5% per annum. Details of the loan arrangement were disclosed in the circular of the Company dated 4 May 2010. During the period, all remaining balance of the Loan Amount amounting to HK\$234,342,000 and the relevant interest of HK\$3,262,000 were repaid by Mr. Xing on schedule.

13. TRADE AND BILL PAYABLES

The Group was granted by its suppliers credit periods ranging between 30 and 180 days (Six months ended 30 June 2011: 30 and 180 days) during the period. Based on the invoice dates, ageing analysis of trade and bill payables as at 30 June 2012 is as follows:

	30 June 2012 (Unaudited) HK\$'000	31 December 2011 (Audited) HK\$'000
0-90 days	553,995	519,028
91-180 days	349,942	471,479

At 30 June/31 December	5,301,837	5,377,507	530,184	537,751

For the six months ended 30 June 2012, the Company repurchased 75,670,000 ordinary shares of the Company on the Stock Exchange for a total consideration of approximately HK\$197,535,000. These 75,670,000 repurchased ordinary shares were cancelled during the period. For the year ended 31 December 2011, the Company repurchased 3,056,000 ordinary shares of the Company on the Stock Exchange for a total consideration of approximately HK\$7,904,000. Of which, 2,216,000 repurchased ordinary shares were cancelled during the year while the balance of 840,000 repurchased ordinary shares were cancelled after 31 December 2011. The issued share capital of the Company has been reduced by the par value of the total repurchased ordinary shares.

15. COMMITMENTS

(a) Operating lease commitments

At 30 June 2012, the total future minimum lease payments under non-cancellable operating leases in respect of land and buildings payable by the Group are as follows:

	30 June 2012 (Unaudited) HK\$'000	31 December 2011 (Audited) HK\$'000
Within one year	4,579	5,444
In the second to fifth years	14,461	14,564
After fifth years	59,243	61,483
	<u>78,283</u>	<u>81,491</u>

The Group leases a number of land and buildings and other assets under operating lease arrangements. The leases run for an initial period of 1 to 50 years, without an option to renew the leases and renegotiate the terms at the expiry date or at dates as mutually agreed between the Group and respective landlords. None of the leases include contingent rental.

(b) Capital commitments

Capital commitments of the Group at 30 June 2012 are as follows:

	30 June 2012 (Unaudited) HK\$'000	31 December 2011 (Audited) HK\$'000
Contracted but not provided for:		
– Acquisition of property, plant and equipment	259,385	376,364
– Exploration and design fees for a potential mining project	9,136	9,200
	<u>268,521</u>	<u>385,564</u>

(c) Other commitments

In accordance with notices issued by the Liulin County Government of Shanxi Province, certain mining companies in Liulin County, including Xingwu, Jinjiazhuang and Zhaiyadi, are obliged to pay subsidies for the improvement of educational infrastructure and facilities in the Liulin County including construction of modern schools and provision of educational facilities from 2012 to 2014. Such subsidies will be charged in consolidated statement of comprehensive income in the corresponding years accordingly. As at 30 June 2012, management expects that two (31 December 2011: three) further subsidies of RMB198,000,000 (HK\$241,827,000 equivalent) (31 December 2011: RMB198,000,000 (HK\$243,540,000 equivalent)) each are payable in 2013 to 2014 (31 December 2011: 2012 to 2014).

INTERIM DIVIDEND

The Board has declared an interim dividend of HK5 cents per ordinary share for the six months ended 30 June 2012 (2011: HK6 cents per ordinary share) payable to shareholders whose names appear on the register of members of the Company at the close of business on Wednesday, 12 September 2012. In order to qualify for the interim dividend, all transfer forms accompanied by the relevant share certificates must be lodged with the share registrars of the Company, Tricor Tengis Limited at 26th Floor, Tesbury Centre, 28 Queen's Road East, Wanchai, Hong Kong, not later than 4:30 p.m. on Wednesday, 12 September 2012 for registration. The interim dividend is expected to be paid on or about Tuesday, 25 September 2012.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The key operational data of our three premium operating coking coal mines in Liulin County, Shanxi (Xingwu Coal Mine, Jinjiazhuang Coal Mine and Zhaiyadi Coal Mine) for the six months ended 30 June 2012 ("the period under review") together with that of the same period of 2011 is summarised as follows:

		Six months ended		Change			
		30 June		Quantity/		2011	Change
	Unit	2012	2011	Amount	%	FY	%
<i>Production volume:</i>							
Raw coking coal	Mt	3.04	3.56	-0.52	-15%	6.36	
Clean coking coal	Mt	1.23	1.18	+0.05	+4%	2.31	
<i>Sales volume:</i>							
Raw coking coal	Mt	1.12	1.69	-0.57	-34%	2.77	
Clean coking coal	Mt	1.18	1.14	+0.04	+4%	2.26	
<i>Average realised selling price (inclusive of VAT):</i>							
Raw coking coal	RMB/tonne	1,064	1,012	+52	+5%	1,021	+4%
Clean coking coal	RMB/tonne	1,687	1,815	-128	-7%	1,812	-7%

For the six months ended 30 June 2012, the Group produced approximately 3.04 million tonnes (“Mt”) (Six months ended 30 June 2011: approximately 3.56 million tonnes) of raw coking coal, representing a year-on-year decrease of 15% and also produced approximately 1.23 million tonnes (Six months ended 30 June 2011: approximately 1.18 million tonnes) of clean coking coal, representing a year-on-year increase of 4%. The decrease in raw coking coal production volume by 15% was due to the temporary reduction in demand of coking coal during the period under review. Operation of our three premium operating coking coal mines continued running smoothly throughout the period under review.

For the six months ended 30 June 2012, we continued to make effort to expand our clean coking coal business. This falls in line with the Group’s long term strategy to shift our sales mix from raw coking coal to clean coking coal and hence both production and sales volume of clean coking coal increased by 4% while sales volume of raw coking coal dropped by 34% for the six months ended 30 June 2012.

For the six months ended 30 June 2012, the Group’s average realised selling price (inclusive of value added tax “VAT”) of raw coking coal increased by 5% to Renminbi (“RMB”) 1,064/tonne when compared with that of the same period of 2011 (Six months ended 30 June 2011: RMB1,012/tonne) and the Group’s average realised selling price (inclusive of VAT) of clean coking coal decreased by 7% to RMB1,687/tonne when compared with that of the same period of 2011 (Six months ended 30 June 2011: RMB1,815/tonne). The decrease in average realised selling price of clean coking coal was due to the increase in proportion of sales volume to sell clean coking coal at ex-factory prices for the six months ended 30 June 2012. In terms of sales volume, ex-factory prices and C&F prices of clean coking coal accounted for 60% and 40% respectively for the six months ended 30 June 2012 compared against 37% and 63% respectively for the six months ended 30 June 2011.

FINANCIAL REVIEW

For the six months ended 30 June 2012, the Group recorded a turnover of approximately Hong Kong Dollars (“HK\$”) 3,339 million, representing a decrease of approximately HK\$560 million or 14% as compared with that of approximately HK\$3,899 million for the same period of 2011. The reduction in turnover was mainly attributable to the decrease in production volume of raw coking coal by 15% resulting in the drop of overall sales volume during the period under review. In terms of turnover, sales of raw and clean coking coal accounted for 37% and 63%, respectively for the six months ended 30 June 2012 compared against 45% and 55%, respectively for the six months ended 30 June 2011.

For the six months ended 30 June 2012, total turnover to the top five customers accounted for 74% of the Group’s turnover. Of which, the turnover to the largest customer accounted for 22% of the Group’s turnover.

For the six months ended 30 June 2012, gross profit margin achieved 69% while 75% for the same period in 2011. Nevertheless, gross profit margin of 69% for the first half of 2012 maintained a similar level to that of the year of 2011 (70%).

For the six months ended 30 June 2012, the Group recorded net profit of approximately HK\$1,251 million, representing a decrease of approximately HK\$121 million or 9% as compared with that of approximately HK\$1,372 million for the same period of 2011. For the six months ended 30 June 2012, the Group also recorded profit attributable to the owners of the Company (the “Owners”) of approximately HK\$1,006 million, representing a decrease of approximately HK\$125 million or 11% as compared with that of approximately HK\$1,131 million for the same period of 2011. The decrease in net profit and profit attributable to the Owners for the six months ended 30 June 2012 were mainly attributable to the decrease in turnover as explained above, although the effect on the decrease in turnover was partially offset by below two events.

For the six months ended 30 June 2012, no non-cash share-based compensation expense was incurred as this expense has been fully recognised since August 2011. For the six months ended 30 June 2011, the Group incurred a non-cash share-based compensation expense of approximately HK\$139 million. In addition, the completion of the disposal of discontinued operations (coke plant) in December 2011, no loss for the period from the discontinued operations was recorded for the six months ended 30 June 2012. For the six months ended 30 June 2011, the Group recorded loss of approximately HK\$136 million from the discontinued operations.

During the period under review, earnings per share was HK18.79 cents (Six months ended 30 June 2011: HK21.02 cents), representing a year-on-year decrease of 11%.

Cost of Sales

During the period under review, cost of sales was approximately HK\$1,028 million, representing an increase of approximately HK\$34 million or 3%, as compared with that of approximately HK\$994 million for the same period of 2011. The increase was due to the following reasons:

- (i) The increase in production costs as a result of (a) the increase in unit production cost of raw coking coal by 27% as explained in below (ii); (b) the increase in sales volume of clean coking coal by 4% from 1.14 million tonnes for the six months ended 30 June 2011 to 1.18 million tonnes for the six months ended 30 June 2012; and (c) the appreciation of RMB for the six months ended 30 June 2012 by approximately 2%; after offset by the effect on the decrease in production volume of raw coking coal by 15% from 3.56 million tonnes for the six months ended 30 June 2011 to 3.04 million tonnes for the six months ended 30 June 2012;

(ii) The unit production costs are summarised as follows:

		Six months ended		Change		2011	Change
		30 June					
	Unit	2012	2011	Amount	%	FY	%
Production cost of raw coking coal	RMB/tonne	270	213	+57	+27%	258	+5%
Less:							
One-off relocation compensation expenses	RMB/tonne	–	–			(13)	
One-off reversal of capitalised environmental restoration fund	RMB/tonne	–	–			(9)	
		270	213	+57	+27%	236	+14%
of which, depreciation and amortisation	RMB/tonne	(56)	(54)	(+2)	(+4%)	(57)	(-2%)
Processing cost for clean coking coal	RMB/tonne	53	49	+4	+8%	54	-2%
of which, depreciation	RMB/tonne	(11)	(10)	(+1)	(+10%)	(11)	–

The increase in unit production cost of raw coking coal by 27% as a result of the decrease in production volume of raw coking coal by 15% during the period under review, the increase in uncontrollable costs such as (a) the increase in water resource related levies by approximately HK\$13 million for the six months ended 30 June 2012; (b) the increase in power charge by approximately HK\$10 million for the six months ended 30 June 2012 as a result of the hikes in national power tariffs and the increase in usage of basic charge volume by substation; and the increase in other costs such as (c) the increase in the usage of ancillary materials by HK\$25 million for the six months ended 30 June 2012 as a result of the increase in material prices and material consumption when the mining proceeded further; and (d) the increase in staff costs by HK\$30 million or 15% to HK\$225 million for the six months ended 30 June 2012 due to the rising of wages in order to maintain the competitive advantages in the labour market and to retain quality management and staff and also due to the increase in the various staff insurance costs in accordance with the relevant rules and regulations.

Included in cost of sales, amortisation of mining rights was approximately HK\$140 million for the six months ended 30 June 2012, representing a decrease of approximately HK\$20 million or 13%, as compared with that of approximately HK\$160 million for the same period of 2011. The decrease in amortisation of mining rights was mainly due to the decrease in production volume of raw coking coal by 15% during the period under review.

Gross Profit and Gross Profit Margin

As a result of the reasons above, gross profit for the six months ended 30 June 2012 was approximately HK\$2,311 million, representing a decrease of approximately HK\$594 million or 20% as compared with that of approximately HK\$2,905 million for the same period of 2011. During the period under review, gross profit margin achieved 69%. The gross profit margin dropped to 69% due to the increase in unit production costs of raw coal as explained above under “**Cost of Sales**”. Nevertheless, gross profit margin of 69% for the first half of 2012 maintained a similar level to that of the year of 2011 (70%).

Other Operating Income

During the period under review, other operating income was approximately HK\$144 million, representing an increase of approximately HK\$8 million or 6% as compared with approximately HK\$136 million of the same period in 2011. Other operating income included:

- (i) the substantial increase in bank interest income by approximately HK\$50 million from approximately HK\$18 million for the same period of 2011 to approximately HK\$68 million for the six months ended 30 June 2012 as a result of the effective cash management;
- (ii) the receipt of dividend income of HK\$27 million arising from the equity securities listed in Australia for the six months ended 30 June 2012; and
- (iii) the increase of income from sales of scrapped products generated from the process of clean coking coal by approximately HK\$3 million to HK\$45 million which was increased with the production volume of clean coking coal for the six months ended 30 June 2012.

Selling and Distribution Expenses

During the period under review, selling and distribution expenses were approximately HK\$196 million, representing a substantial decrease of approximately HK\$137 million or 41% as compared with that of approximately HK\$333 million for the same period of 2011. The decrease was mainly as a result of the substantial decrease in transportation costs arising from the decrease in sales volume of clean coking coal at C&F prices by 35% from 0.72 million tonnes for the six months ended 30 June 2011 to 0.47 million tonnes for the six months ended 30 June 2012.

General and Administrative Expenses

During the period under review, administrative expenses were approximately HK\$199 million, representing a substantial decrease of approximately HK\$159 million or 44% as compared with approximately HK\$358 million for the same period of 2011. The substantial decrease was resulted from (i) the reduction of the non-cash share-based compensation expense by approximately HK\$139 million during the period under review as this expense had been fully recognised since August 2011; and (ii) the reduction of road maintenance fees by approximately HK\$22 million during the period under review.

Other Operating Expenses

During the period under review, other operating expenses were approximately HK\$258 million, which mainly represented the committed annual payment of charitable donation for the year of 2012 of approximately HK\$243 million paid by the Group to the Liulin Provincial Government during the period under review, for the construction of modern schools and provision of education facilities as disclosed in the financial statements of the Company for the year ended 31 December 2011. The Company also has a share option scheme. During the period under review, no share option was granted, exercised, cancelled or lapsed.

FUTURE PROSPECTS

In the first half of 2012, global economy was still under great uncertainties. Under these circumstances, a slowdown of economy in China is inevitable, the GDP decreased from 8.9% in the fourth quarter of 2011 to 7.6% in the second quarter of 2012. China Steel Industry Association announced the domestic crude steel production volume grew by only 1.8% to 357 million tonnes in the first half of 2012, a year-on-year decrease by 7.8% due to a slower demand growth.

The CPC Central Committee Political Bureau held a party meeting on 31 July 2012 and reiterated that “Steady growth” is a top priority. The guidelines for economy in the second half of this year are: to strengthen and improve macroeconomic regulations, continue to implement prudent monetary policy, increase the structural tax reduction policy, moderately provide more liquidity in money credit to the market and promote domestic consumption to drive up the economy. Although the policies targeted towards the real estate market will still be strictly enforced, the plan to build more affordable housing will still be implemented to meet the housing needs of the citizens. In addition, policies towards supporting the railway investments will still be launched. According to the “2012 railway construction bonds prospectus” announced on 30 July 2012, the total size of railway fixed assets investment plan in 2012 will be RMB580 billion, of which RMB146.5 billion was expensed in the first half of 2012. All of these may boost demand for steel and thus benefit the coking coal sector as well. However, for the second half of 2012 ahead, the situation is expected to remain conservatively optimistic.

We believe that it is a good timing to actively look for merger and acquisition projects both domestically and overseas now, we will be able to fully utilise our financial strength to expand our resources and production capacity; at the same time we continue to expand new customer base and formulate strategic co-operations with the major steel producers to maximise the returns for our shareholders.
