#### **NOTES**

#### 1. **BASIS OF PRESENTATION**

The condensed consolidated financial statements have been prepared in accordance with the Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities ("Listing Rules") on The Stock Exchange of Hong Kong Limited.

#### 2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair values.

The accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2012 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2011.

In the current interim period, the Group has applied, for the first time, the following amendments to Hong Kong Financial Reporting Standards ("HKFRSs") issued by the HKICPA.

Financial Instruments: Disclosures – Amendments to HKAS 7 Transfers of Financial Assets

Amendments to HKAS 12 Deferred Tax - Recovery of Underlying Assets

The application of the above amendments to HKFRSs in the current interim period has had no material effect on the amounts reported in these condensed consolidated financial statements and/or disclosures set out in these condensed consolidated financial statements.

The Directors of the Company consider that the application of amendments to HKFRS 7 may increase the disclosure requirements for transactions involving transfers of financial assets in its 2012 annual financial statements. These amendments are intended to provide greater transparency around risk exposures when a financial asset is transferred but the transferor retains some level of continuing exposure in the asset. The amendments also require disclosures where transfers of financial assets are not evenly distributed throughout the period.

The Group has not early applied new or revised standards, amendments or interpretations that have been issued but are not yet effective.

#### MANAGEMENT DISCUSSION AND ANALYSIS

# Business Review and Financial Performance

The Group's turnover for the six months ended 30 June 2012 increased by 85.7% to HK\$173.5 million as compared with the corresponding period in 2011. The increase in turnover was mainly due to increase in revenue from terminal and logistics services. Segmental revenue of terminal and logistics services increased by 206.4% to HK\$109.8 million for the six months ended 30 June 2012 as compared with the same period last year. As the acquisition of the terminal and logistics services operations completed in April 2011, the division only contributed two-month segmental revenue to the Group's results for the six months ended 30 June 2011. Segmental revenue of polishing materials and equipment division decreased by 26.0% to approximately HK\$42.6 million for the six months ended 30 June 2012, as compared with the same period last year. The decrease in the revenue of polishing materials and equipment division was due to poor performance of the PRC export industries, which led to a decrease in demand for the Group's products.

Rizhao Lanshan Wansheng Harbour Company Limited ("Rizhao Lanshan") is engaged in provision of terminal and logistic services including loading and discharging, storage and transfer of iron ore, steel products, timber and other goods and leasing of terminal facilities and equipment in Lanshan Harbour, Rizhao Port, Shandong Province of the PRC. Rizhao Lanshan has contributed revenue of HK\$109.8 million to the Group during the period, representing approximately 72.0% of the Group's total revenue for the period. Segment profit of the terminals and logistics services for the period amounted to approximately HK\$41.3 million.

Loss for the six months ended 30 June 2012 attributable to the owners of the Company was approximately HK\$7.0 million (six months ended 30 June 2011: HK\$59.0 million), decrease in loss was mainly due to increase in contributions from terminal and logistics services operations during the period and decrease in fair value loss of convertible bonds designated as financial assets at fair value through profit or loss.

#### Liquidity and Financial Resources

As at 30 June 2012, the Group had interest-bearing bank borrowings and other loans of approximately HK\$184.3 million (31 December 2011: HK\$102.5 million), which were to mature within five years. The Directors expect that all the bank borrowings will be repaid by internally generated funds or rolled over upon maturity and will continue to provide funding to the Group's operations.

As at 30 June 2012, the Group's property, plant and equipment with carrying value of approximately HK\$226,116,000, sea use rights with carrying value of approximately HK\$15,917,000 and the listed securities held under the margin accounts, with a total market value of approximately HK\$3,379,000 have been pledged to banks and financial institutions to secure the credit facilities granted to the Group.

As at 31 December 2011, the Group's pledged bank deposits with carrying value of approximately HK\$63,000,000, property, plant and equipment with carrying value of HK\$26,800,000 and the listed securities held under the margin accounts, with a total market value of approximately HK\$9,300,000 have been pledged to banks and financial institutions to secure the credit facilities granted to the Group.

As at 30 June 2012, current assets of the Group amounted to approximately HK\$569.1 million (31 December 2011: HK\$427.2 million). The Group's current ratio (measured as total current assets to total current liabilities) was approximately 1.29 times as at 30 June 2012 as compared with 1.42 times as at 31 December 2011. At 30 June 2012, the Group had total assets of approximately HK\$1,375.9 million (31 December 2011: HK\$1,261.0 million) and total liabilities of approximately HK\$840.2 million (31 December 2011: HK\$741.7 million), representing a gearing ratio (measured as total liabilities to total assets) of 61.1% as at 30 June 2012 as compared with 58.8% as at 31 December 2011.

#### Litigations

Save as the Company's announcement dated 12 June 2012, the Group has no material litigation.

# Foreign Exchange Exposures

The Group's purchases and sales are mainly denominated in United States dollars, Hong Kong dollars and Renminbi. The operating expenses of the Group are either in Hong Kong dollars or Renminbi. The Group's treasury policy is in place to monitor and manage its exposure to fluctuation in exchange rates.

#### Outlook

Looking forward to the second half of 2012, uncertainties in the global macro-economic environment and the intensification of the European debt crisis will dampen consumers' demand for products in various sectors. These will weaken the overall import and export trade in China. China's domestic manufacturing sector will continue to slump. The management expected that demand for the Group's polishing products will continue to decrease. The management is cautious of the outlook of the polishing product business. The Group will continue to enforce cost-saving measures, concentrate on selling products with high profit margin, expand its distribution network and develop new products in order to improve the profitability of this business segment.

The Board expected that global financial market will continue to slump in the second half year due to existence of various adverse factors. The Group will keep on evaluating and restructuring its investment portfolio and strategies in order to improve its financial performance.

The Board expected that terminals and logistics services operations will continue to contribute to the Group with stable revenues and earnings in the second half year. Two new berths currently under construction will commence operation in the fourth quarter of 2012 and make contributions to the Group. However, affected by the slowdown of the import and export trade in China and competition from the newly developed Dongjiakou port and Gangyu port in Qingdao Harbour, growth of the terminals and logistics services operations will be sluggish.

The Board and the Group's management will continue to use their best endeavor to strengthen and strive for improvements in all the Group's business segments and to enhance the long-term growth potential of the Group.

# **Employees and Remuneration**

As at 30 June 2012, the Group had approximately 30 employees (excluding employees of the Company's the jointly controlled entities). The employees are remunerated with basic salary, bonus and other benefits in kind with reference to industry practice and their individual performance. The Company also operates a share option scheme of which the Board may, at its discretion, grant options to employees of the Group.

Neither the Company, nor any of its subsidiaries purchased, sold or redeemed any of the listed securities of the Company during the six months ended 30 June 2012.

#### CORPORATE GOVERNANCE

The Board is committed to maintaining and ensuring high standards of corporate governance. The Company has applied the principles and complied with all the applicable code provisions of the Code on Corporate Governance Practices as set out in Appendix 14 of the Listing Rules for the six months ended 30 June 2012, except for the following deviations:
