MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

For the period from 1 April 2012 to 30 September 2012, the Group recorded a turnover of HK$47.8 million and a loss attributable to equity holders of the Company of HK$11.9 million, compared to turnover of HK$101.5 million and loss of HK$23.7 million for the corresponding period of last year. The loss for the six months ended 30 September 2012 comprised of a loss of HK$5.1 million for the loss of control of Total Ally, an indirect wholly-owned subsidiary of the Company, which operated a factory in the PRC. Excluding such non-recurring loss, the loss would amount to HK$6.8 million, representing a decrease of loss of HK$16.9 million as compared with the corresponding period of last year. Although the results of the Group remained unsatisfactory for the six months ended 30 September 2012, the loss has been narrowed with the joint effort of the management and all the staff.

Business Transition

Under the financial crisis, revenue from "The Manufacturing Industry of Electronic and Information Products" in the Mainland China for the period from January to July 2012 recorded an increase of 8.9% as compared with the corresponding period of last year. However, total profit dropped 12.3% as compared with the corresponding period of last year. Number of loss making enterprises increased by 19.4% as compared with the corresponding period of last year. As the industry environment in which the Group operates is increasingly harsh, the trading business of electronic products encounters enormous difficulties and pressure.

On 7 May 2012, China Merchants Property Development Co. Ltd. ("CMPD"), the leading property developer in Mainland China, has become the controlling shareholder of the Group, providing a strong backup for the Group to explore new ventures. After prudent analysis, the Board of Directors considered that the Group has difficulty to resume its profitability if it continues to limit its major operations on electronic products trading business. In order to improve the financial results, the Group strives to operate the existing trading of electronic products, as well as fully leverage its own experience on product sourcing, adjusting strategies to extend the business scope to sectors beyond electronics and electrical products. The Group will first seek internal opportunities to tap into other business, to materialize the consolidation and optimization of internal resources so as to enhance the overall operating efficiency and effectiveness of the Group.

On 16 November 2012, the independent shareholders of the Group have approved the procurement agreement in relation to the sourcing of the electronic and electrical products and building related materials and equipment by 冠華港貿易(深圳)有限公司 (Guan Hua Gang Trading (Shenzhen) Co., Ltd.), a wholly-owned subsidiary of the Company, for CMPD. This provides an important opportunity for the Group to explore into the property related procurement business and also begins a new phase for the Group's development.

Enhancing Management

On 19 April 2012, Total Ally Holdings Limited was put under voluntary liquidation which can help the Group to solve the problems of idle capacity and high operating costs. After CMPD became the controlling shareholder of the Group, the Group continues to enhance the management based on such concept. The Group commits to strengthen the original businesses through improving the management of operation segments, business plans, cost control and risk management, while at the same time establish an effective preliminary control system for carrying on the property related procurement business.

Outlook and Prospects

As the property related procurement business moves ahead, the Group's revenue source will be diversified. It will also enrich our experience on the sourcing field and broaden our customer base. In particular, nurturing the ability of the property related procurement business will enable the Group to continue the research and development, as permitted by law, and to secure a solid foundation for developing other business with higher return and more growing potential.

CORPORATE GOVERNANCE CODE

The Group is committed to ensure a high standard of corporate governance. For the six months ended 30 September 2012, the Group has applied the principles and complied with the code provisions ("Code Provisions") set out in the Corporate Governance Code ("CG Code") contained in Appendix 14 of the Listing Rules with the following deviations:

Code Provision A.2.1 stipulates that the roles of chairman and chief executive should be separated and should not be performed by the same individual. Up to the date of this announcement, the Board has not appointed an individual to the post of chief executive officer. The roles of the chief executive officer have been performed collectively by all the executive Directors, including the chairman of the Company. The Board considers that this arrangement allows contributions from all executive Directors with different expertise and is beneficial to the continuity of the Company's policies and strategies.

Code Provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. The non-executive director of the Company and all the independent non-executive directors do not have specifics terms of appointment. However, the non-executive directors are subject to the requirement to retire by rotation at least once every 3 years at annual general meetings under the Company's articles of association. The Board considers that the requirement has the same effect of accomplishing the same objective as a specific term of appointment.

MODEL CODE FOR DIRECTORS' SECURITIES TRANSACTIONS

The Group has adopted its code of conduct for securities transactions by Directors of the Company on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 of the Listing Rules.
