For the Interim Period, the Group's gross rental revenue, including attributable share from associates and joint ventures, increased 6.8% to HK\$1,814.9 million (2013: HK\$1,699.7 million) and net rental income increased 7.6% to HK\$1,595.5 million (2013: HK\$1,482.7 million). The increase in rental revenue was mainly due to higher rental rates on renewals and improvement in occupancy rates in both retail and office properties. Overall occupancy of the Group's investment property portfolio was at approximately 98% (2013: 97%) for the Interim Period.

The Group's retail portfolio in Hong Kong recorded rental growth with overall occupancy rate increasing to approximately 99% for the Interim Period from 98% for the corresponding period last year as the Group's flagship shopping malls, namely Tuen Mun Town Plaza Phase I, Olympian City 1, 2 and 3 showed steady leasing performance.

The leasing performance of the Group's office portfolio saw stable rental growth while overall occupancy rate was at approximately 98% (2013: 95%) for the Interim Period. The leasing performance of the Group's industrial portfolio continued to perform well with overall occupancy rate remaining the same at approximately 98% (2013: 98%).

The Group's investment property portfolio primarily serves the need of its customers which include tenants, shoppers and the communities around the properties. The design and conditions of the properties together with the quality of service provided to customers are of paramount importance. To ensure that the properties are in good condition with the proper layout and design, the Group would perform regular review of the properties and collect customers' feedback to decide if asset enhancement work is required. To assess the effectiveness of capital expenditure, benefits to customers, payback and return on investment will be analysed. On service quality, the Group places a strong emphasis on regular training particularly for all front-line staff to ensure that the service provided to customers meet their expectations. Comments from customers, reports by silent shoppers and recognitions from professional institutions all play a role in assessing the quality of service delivered by the staff. These indicators are vital for management to review what additional work needs to be done as part of the Group's efforts for continuous improvement.

As at 31st December, 2014, the Group has approximately 11.4 million square feet of attributable floor area of investment properties and hotels in Hong Kong, China and Singapore. Of this portfolio, commercial developments (retail and office) account for 63.4%, industrial 15.4%, car parks 12.9%, hotels 6.6%, and residential 1.7%.

(5) Hotels

Overall business performance of the Group's hotels, namely The Fullerton Hotel, The Fullerton Bay Hotel and Conrad Hong Kong was steady during the Interim Period. The Group will continue to improve the quality of its hotel services to ensure our discerning guests have enjoyable experiences during their stays in the hotels.

(6) China Business

The 4th Plenary Session of 18th CPC Central Committee held in October 2014 focused on the rule of law and the role of the constitution which play an important part in directing party governance and in the ongoing reforms of the country. The changes announced in the Plenum have significant implications and cover a wide spectrum of areas including improvement in the legislative system and law enforcement and a monitoring system to deal with injustices as well as the protection of citizens and property rights. These reforms and policy direction will further improve not only the efficiency and effectiveness of policy implementation, but also social aspects of the country.

The People's Bank of China lowered its lending rates in November 2014 and gave banks more flexibility on the requirement of loan-to-deposit ratio representing a new round of expansionary monetary policy to increase the liquidity in the banking system. These easing measures have the effect of stimulating the economy and together with the relaxation of the home purchase restrictions in many cities across China, the residential property market is expected to be more active with a pick-up in sales volume.

Throughout the years, the Group has completed a number of projects in Xiamen, Fuzhou and the first phase of its residential project in Zhangzhou. The experience gained from developing and leasing projects in China has also built the Group's execution capability in the country. The Group's projects are situated in cities with good economic and demographic fundamentals. The major property developments, namely The Palazzo in Chengdu, The Coronation in Chongqing and Dynasty Park in Zhangzhou will be sold and completed in phases over the next few years.

Other than the matters mentioned above, there has been no material change from the information published in the report and accounts for the financial year ended 30th June, 2014.

FINANCE

As at 31st December 2014, the Group had cash and bank deposits of HK\$15,266.1 million. After netting off total borrowings of HK\$5,950.1 million, the Group had net cash of HK\$9,316.0 million as at 31st December, 2014. Of the total borrowings, 16.7% was repayable between one and two years and 83.3% repayable between two and five years. The Group's borrowings are subject to floating and fixed interest rates. Total assets and shareholders' funds of the Group were HK\$141,160.4 million and HK\$113,467.8 million respectively.

The majority of the Group's debts are denominated in Hong Kong dollars and US dollars, with the balance in Singapore dollars, mainly used to fund The Fullerton Heritage project in Singapore. Other than the above-mentioned, there was no material change in foreign currency borrowings and the capital structure of the Group for the Interim Period. The majority of the Group's cash are denominated in Hong Kong dollars with a portion of Renminbi deposits. The Group has maintained a sound financial management policy and foreign exchange exposure has been prudently kept at a minimal level.

CORPORATE GOVERNANCE

The Group places great importance on corporate integrity, business ethics and good governance. With the objective of practising good corporate governance, the Group has formed Audit, Compliance, Remuneration and Nomination Committees. The Group is committed to maintaining corporate transparency and disseminates information about new developments through various channels, including press releases, its corporate website, results briefings, site visits, participation in non-deal roadshows and investor conferences.

CUSTOMER SERVICE

The Group is committed to building quality projects. In keeping with its mission to enhance customer satisfaction, the Group will, wherever possible, ensure that attractive design concepts and features are also environmentally friendly for its developments. Management conducts regular reviews of its properties and service so that improvements can be made on a continuous basis.

CORPORATE SOCIAL RESPONSIBILITY

As a committed corporate citizen, the Group has been actively participating in a wide range of community programmes, voluntary services, charitable activities and green initiatives to promote environmental protection, art and cultural events, heritage conservation, and staff team-building activities. In recognition of the Group's continuous efforts in promoting sustainability and upholding high standards in environmental, social and corporate governance aspects, the Company has been selected as a constituent member of the Hang Seng Corporate Sustainability Index since September 2012.

During the Interim Period, the Group published its 2014 Sustainability Review which has been prepared with reference to Hong Kong Exchanges and Clearing Limited's 'Environmental, Social and Governance Reporting Guide' under Appendix 27 to the Main Board Listing Rules. The Group also published its fourth annual Sustainability Report that highlighted its corporate sustainability footprints and initiatives to demonstrate its commitment to engaging its stakeholders in building a greener future.

The Group encourages staff of all levels to serve the community and care for those in need; this commitment is extended to supporting staff in joining voluntary service for at least one day a year during office hours. The Group is dedicated to playing a part in building a better community through participating in voluntary services and charity events, with a strong emphasis on children and youth development. The Group appreciates the importance of providing guidance to the young generation in their learning stage, and joined hands with various community partners to provide learning opportunities for children and teenagers from underprivileged families through different programmes.

Continuous efforts have been made by the Group to make its properties more environmental-friendly through architectural planning, landscaping, energy saving and green management initiatives. Sino Property Services, the Group's property management arm provides fully

integrated property management service, stretches and demonstrates the Group's dedication to environmental protection.

Dedicated to promoting local art and culture, the Group initiated 'Sino Art' project in 2006, under which Sino Art provides local and international artists with opportunities to showcase their works through exhibitions and public art installations at the Group's properties. The Group has initiated 'Sino Art in Community' to extend our reach and charitable efforts to local communities with art. During the Interim Period, the Group launched its third project of 'Sino Art in Community' in partnership with Precious Blood Children's Village ("Village") in Fanling. The project involved organising art workshops and creation of mural paintings at the houses in the Village.

Sino Heritage was established in 2011 with the belief that conservation of cultural heritage helps the community build a sense of identity and strengthen relationships in the city. Sino Heritage identifies and showcases the heritage significance of historical projects in both Hong Kong and Singapore. In March 2008, the Ng Teng Fong Family, the major shareholder of the Group, set up a non-profit-making organisation, Hong Kong Heritage Conservation Foundation Limited ("HCF"). HCF revitalised and converted the Old Tai O Police Station, a Grade II historic building, into a boutique hotel. Named Tai O Heritage Hotel ("Hotel"), it is home to nine colonial-style rooms and suites and commenced operation in March 2012. The Hotel, operated by HCF as a non-profit-making social enterprise, is part of the HKSAR Government's 'Revitalising Historic Buildings Through Partnership Scheme'. HCF is an award winner at UNESCO Asia-Pacific 2013 Awards for Cultural Heritage Conservation. In November 2014, HCF has been honoured by the American Institute of Architects Hong Kong Chapter with a Citation Award, in recognition of its contributions to heritage conservation in Hong Kong.

PROSPECTS

The world's economic situation has been sensitive to policy changes. Whilst the US economy continued its recovery trend, economic growth in both Euro zone and Japan has fallen below the desired levels. In Euro zone, bank lending activity to businesses remains low and structural reforms in the areas of labour markets, banking and public finance are still in progress. The European Central Bank's decision to announce its quantitative easing programme in January 2015 would provide more monetary stimulus to support the economic recovery of the Euro zone. In Japan, its government continued with its quantitative easing programme to revive the economy. With the strengthening of the US dollar, other currencies have seen volatility in the market. The discontinuation of the minimum exchange rate system between Swiss Franc and Euro by the Swiss National Bank announced in January 2015 has led to more uncertainty in the financial markets. The divergence in world economic conditions would add more obstacles for policymakers in managing their economies.

The economic integration between China and Hong Kong continued to strengthen with the establishment of Shanghai-Hong Kong Stock Connect scheme in November 2014 and further liberalisation of the service industry between Guangdong and Hong Kong under the Closer Economic Partnership Arrangement in December 2014. Together with the regulatory change by the Hong Kong Monetary Authority to remove the Renminbi daily conversion limit of RMB20,000 with effect from 17th November, 2014 for Hong Kong residents should help cement Hong Kong's lead as an offshore yuan centre, which should be supportive to the city's business environment.

The Hong Kong property market has been going through a period of change as a result of economic and property-related policies. In the second half of 2014, buying sentiment improved and primary transaction volume saw favourable growth. The growth was predominantly driven by good demand and availability of new project launches. The Long-term Housing Strategy Committee released on 15th December, 2014 a comprehensive plan for housing supply in the next ten years to balance housing demand and supply and is conducive to maintaining stability of the Hong Kong property market. The Group, with a good mix of residential projects to be launched for sale in the next 12 months, will benefit from the prevailing market conditions. Further, the Group's resilient recurrent businesses, which comprise property leasing, hospitality and property management services, continue to contribute stable stream of income. With a good financial position, the Group is well-positioned to respond to challenges ahead.

Management will continue to optimise earnings, enhance efficiency and productivity and improve the quality of products and services. In respect of property development and property management, the Group will incorporate more environmentally friendly elements in our projects. The Group will maintain a policy of selectively and continuously replenishing its land bank, which will enable it to strengthen earnings and shareholders' value.

STAFF AND MANAGEMENT

I would like to extend a warm welcome to Mr. Wong Cho Bau, JP, who was appointed on the Board as Independent Non-executive Director with effect from 20th January, 2015. Mr. Wong's extensive knowledge and experience will be of great benefit to the Group.

On behalf of the Board, I would like to take this opportunity to express my sincere appreciation to all staff for their commitment, dedication and continuing support. I would also like to express my gratitude to my fellow Directors for their guidance and wise counsel.
