Note:

1. General information

Dah Sing Financial Holdings Limited (the "Company") and its subsidiaries (together the "Group") provide banking, insurance, financial and other related services in Hong Kong, Macau, and the People's Republic of China.

2. Unaudited financial statements and accounting policies

The information set out in this interim results announcement does not constitute statutory financial statements.

Certain financial information in this interim results announcement is extracted from the statutory financial statements for the year ended 31 December 2014 (the "2014 financial statements") which have been delivered to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the New Hong Kong Companies Ordinance (Cap. 622) ("NCO") and the Hong Kong Monetary Authority ("HKMA").

The auditor's report on the 2014 financial statements was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under section 406(2), 407(2) or (3) of the predecessor Hong Kong Companies Ordinance (Cap. 32).

Basis of preparation and accounting policies

Except as described below, the accounting policies and methods of computation used in the preparation of the 2015 interim condensed consolidated financial statements are consistent with those used and described in the Group's annual audited financial statements for the year ended 31 December 2014.

The New Hong Kong Companies Ordinance (Cap. 622)

Section 436 of the NCO requires that when the statutory financial statements of a company for a financial year are made available to others, they must be accompanied by the auditor's report on those financial statements. When a company makes "non-statutory financial statements" available to others, they must not be accompanied by the auditor's report on any related statutory financial statements. Instead, they must be accompanied by a special statement under section 436(3). On this basis, the required statement has been specified in the first sentence of this note.

In addition, a new "business review report" has to be included in the "Report of the Directors" in annual reports which is an analytical and forward looking review of the Company or Group. The change will be effective for annual periods beginning on or after 3 March 2014. The Group will include a "Management Discussion and Analysis" in its annual report for the Group's performance during the financial year of 2015 and the material factors driving its results and financial position, which will form part of or supplement the "Review of Operations" to meet the new requirement for its 2015 annual report.

2. Unaudited financial statements and accounting policies (Continued)

The New Hong Kong Companies Ordinance (Cap. 622) (Continued)

Further, the requirements of Part 9 "Accounts and Audit" of the NCO have come into effect for financial year commencing on or after 3 March 2014 in accordance with section 358 of the NCO. Disclosures previously required under Schedule 10 of the predecessor Hong Kong Companies Ordinance (Cap. 32) that overlap with the accounting standard have been removed. The Company's balance sheet is no longer required to be presented as a primary statement. On the other hand, more extensive disclosures are required on the benefits and interests of directors. The Group will provide the relevant additional disclosures when it prepares the 2015 annual report.

The interim condensed consolidated financial statements are presented in thousands of Hong Kong dollars (HK$'000), unless otherwise stated, and were approved by the Board of Directors for issue on 26 August 2015.

These interim condensed consolidated financial statements have not been audited.

10. Provision for loss on dilution of interest in an associate

On 24 June 2015, the Group's associate, Bank of Chongqing ("BOCQ"), announced that it had entered into a subscription agreement (the "Share Placement") pursuant to which it has conditionally agreed to allot and issue a total of 810 million new H shares of BOCQ to certain parties unrelated to the Group at a subscription price of HK$7.65 per share.

The completion of the Share Placement is subject to, amongst other things, approval by BOCQ's shareholders and the relevant regulatory authorities. Based on the terms of the Share Placement announced by BOCQ, the Group's interest in BOCQ will be diluted from the existing 16.95% shareholding to 13.05% after the completion of the Share Placement, and a loss will need to be recognised on the deemed disposal of a portion of the Group's interest in BOCQ.

At the extraordinary general meeting of BOCQ's shareholders held on 11 August 2015, BOCQ received approval from its shareholders for the Share Placement and fulfilled one of the conditions precedent for the completion of the Share Placement. Based on this and other information publicly available about BOCQ, the Group assesses that it is probable that the Share Placement will be completed before the end of the year and considers it appropriate for a provision for the estimated loss on deemed disposal of HK$32 million to be recognised in the Group's financial statements for the six months ended 30 June 2015.

11. Taxation

Hong Kong profits tax has been provided at the rate of 16.5% (2014: 16.5%) on the estimated assessable profit for the period. Taxation on overseas profits has been calculated on the estimated assessable profit for the period at the rates of taxation prevailing in the countries in which the Group operates.

Deferred taxation is calculated in full on temporary differences under the liability method at the tax rates that are expected to apply in the year when the liability is settled or the asset is realised.

For the six months ended 30 June

(c) Analysis of gross advances to customers and overdue loans by geographical area

Advances to customers by geographical area are classified according to the location of the counterparties after taking into account the transfer of risk. In general, risk transfer applies when an advance is guaranteed by a party located in an area which is different from that of the counterparty.

The following table analyses gross advances to customers, individually impaired advances to customers, overdue advances to customers, and individually and collectively assessed impairment allowances by geographical area.

As at 30 June 2015

	Gross advances to customers	**Individually impaired advances to customers**	**Overdue advances to customers**	**Individually assessed impairment allowances**	**Collectively assessed impairment allowances**

Fair value of collaterals held*	**309,002**	169,394
Impaired loans and advances as a % of total loans and advances to customers	**0.51%**	0.35%

* Fair value of collateral is determined at the lower of the market value of collateral and outstanding loan balance.

Note:

(1) Individually impaired loans are defined as those loans having objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that loss event has an impact on the estimated cash flows of the loans that can be reliably estimated.

(2) Collectively impaired loans and advances refer to those unsecured loans and advances assessed for impairment on a collective basis and which have become overdue for more than 90 days as at the reporting date. The collective impairment allowance for these impaired loans, which is a part of the overall collective impairment allowances, is shown above.

(3) The above individual impairment allowances were made after taking into account the value of collaterals in respect of such advances as at 30 June/ 31 December.

17. Reclassification of financial assets

The Group did not reclassify any financial assets in the six months ended 30 June 2015.

In the six months ended 30 June 2014, the Group made the following reclassification of financial assets.

(a) Reclassification of investments in securities included in the loans and receivables category to the available-for-sale category

On 5 June 2014, the Group reclassified all investments in securities included in the loans and receivable category that qualified for recognition as available-for-sale out of the loans and receivables category.

The fair value and carrying value of these financial assets at the date of reclassification were HK$828,504,000 and HK$873,550,000 respectively. The fair value loss of HK$45,046,000 generated upon the reclassification had been taken to other comprehensive income.

(b) Reclassification of certain available-for-sale securities as held-to-maturity securities

On 26 June 2014, the Group reclassified certain available-for-sale debt securities with a total market value at the time of reclassification of HK$4,378,815,000 as held-to-maturity securities, reflecting a change in the Group's intention on holding these securities to maturity.

18. Shareholders' funds

DSB as a locally incorporated bank in Hong Kong is required to maintain minimum impairment provisions in excess of those required under HKFRS in the form of regulatory reserve. The regulatory reserve is maintained to satisfy the provisions of the Hong Kong Banking Ordinance and local regulatory requirements for prudential supervision purposes. The regulatory reserve restricts the amount of reserves which can be distributed to shareholders. Movements in the regulatory reserve are made directly through equity reserve and in consultation with the HKMA.

As at 30 June 2015, DSB has earmarked a regulatory reserve of HK$1,522,112,000 (31 December 2014: HK$1,481,245,000) first against its consolidated general reserve; and for any excess amount, the balance is earmarked against its consolidated retained earnings.

19. Operating segment reporting

Segment reporting by the Group is prepared in accordance with HKFRS 8 "Operating Segments". Information reported to the chief operating decision maker, including the Chief Executive and other Executive Committee members, for the purposes of resource allocation and performance assessment, is determined on the basis of banking business and insurance business. For banking business, operating performances are analysed by business activities for local banking business, and on business entity basis for overseas banking business. For insurance business, resources allocation and performance evaluation are based on insurance business entity basis.

Considering the customer groups, products and services of local businesses, the economic environment and regulations, the Group splits the operating segments of the Group into the following reportable segments:

- Personal banking business includes the acceptance of deposits from individual customers and the extension of residential mortgage lending, personal loans, overdraft and credit card services, the provision of insurance sales and investment services.

- Commercial banking business includes the acceptance of deposits from and the advance of loans and working capital finance to commercial, industrial and institutional customers, and the provision of trade financing.

- Treasury activities are mainly the provision of foreign exchange services and centralised cash management for deposit taking and lending, interest rate risk management, management of investment in securities and the overall funding of the Group.

- Overseas banking businesses include personal banking, commercial banking business activities provided by overseas subsidiaries in Macau and China, and the Group's interest in a commercial bank in China.

- Insurance business includes the Group's life assurance and general insurance businesses. Through the Group's wholly-owned subsidiaries in Hong Kong and 96% owned subsidiaries in Macau, the Group offers a variety of life and general insurance products and services.

- Others include results of operations not directly identified under other reportable segments, corporate investments and debt funding (including subordinated notes).

For the purpose of segment reporting, revenue derived from customers, products and services directly identifiable with individual segments are reported directly under respective segments, while revenue and funding cost arising from inter-segment funding operation and funding resources are allocated to segments by way of transfer pricing mechanism with reference to market interest rates. Transactions within segments are priced based on similar terms offered to or transacted with external parties. Inter-segment income or expenses are eliminated on consolidation. Certain comparative amounts have been revised to conform to the change in funds transfer pricing mechanism and certain income reallocation adopted in 2015.

All direct costs incurred by different segments are grouped under respective segments. Indirect costs and support functions' costs are allocated to various segments and products based on effort and time spent as well as segments' operating income depending on the nature of costs incurred. Costs related to corporate activities that cannot be reasonably allocated to segments, products and support functions are grouped under Others as unallocated corporate expenses.

CORPORATE AND BUSINESS OVERVIEW

HIGHLIGHTS

Global economic growth remained relatively lackluster in the first half of the year. Local market conditions in Hong Kong were also relatively subdued, with weakness in trade and the local retail sector experienced. Mainland China also experienced relatively slower economic growth, whilst the downturn in Macau was more severe, particularly in the gaming sector. Equity market volatility in the Hong Kong and China markets was pronounced, and the market awaits potential changes in US interest rates in the second half of the year. Local market liquidity conditions remained benign, against a market backdrop of modest loan growth.

Against this relatively challenging background, we are pleased to announce that our profit attributable to shareholders for the first half of 2015 increased by 6% to HK$1,074 million. The increase in profit was driven mainly by our Banking Group's wholly owned operations in Hong Kong, Mainland China and Macau, which in aggregate reported an increase in Banking Group's operating profit after impairment losses of 33% to HK$1,044 million. Our associated company, Bank of Chongqing ("BOCQ"), performed well over the period, bringing to us a 9% growth in its contribution to our profit. Our insurance businesses delivered weaker results, mainly due to a much lower gains from the investment portfolio.

BUSINESS AND FINANCIAL REVIEW

The key business trends in our Banking Group during the first half of the year were strong fee and commission income growth, modest loan growth and a steady net interest margin. Our net fee and commission income, mainly from our banking operations, was up by 31%, with strong performances from our wealth management business, including our local Hong Kong broking business, as well as from FX and other treasury products for both our retail and commercial customers. The much lower trading income during the period was driven principally by mark-to-market losses in our insurance bond portfolio due to a rise in longer term interest rates during the period. Net insurance premium and other income dropped, mainly due to a modest decrease in the value of inforce policies of our long-term life business with the rising interest rates, which also led to the decrease in actuarial reserves for the liabilities to policyholders, and in turn a significant reduction in the insurance claims and expenses.

Loan growth was modest at 2.9%, but with a stable net interest margin, and a relatively higher loan balance at the start of 2015 compared with 2014, due to stronger loan growth in the prior year, net interest income recorded a respectable rate of growth of 7.8%.

Operating expenses were well controlled with growth over the first half of 2014 of 9.1%, well below the growth in income over the same period. Despite the relatively challenging economic conditions described above, overall credit quality remained benign, with a slight drop in total impairment charges compared with the same period in the prior year.

Bank of Chongqing announced in late June 2015 its conditional agreement with a number of prospective investors on a share placement transaction seeking to raise new equity via issuing new H shares by way of a placing (the "Placing"). The proposed new share issue and the share placement transaction were approved by BOCQ shareholders in a recent shareholders' meeting. BOCQ is proceeding to procure the other required regulatory approvals to allow the Placing to complete. The Group is not party to the Placing and the Group's interest in BOCQ will be diluted from the existing 16.95% to 13.05% when the Placing is completed, which will cause a recognition of a deemed disposal of part of the Group's shareholding in BOCQ. With the issue price of the Placing being lower than the net asset value per share of BOCQ, the dilution in the Group's interest in BOCQ will result in a loss in the carrying value of the Group's investment in BOCQ. As it is currently anticipated that the Placing will be completed, a provision of HK$32 million for the estimated loss on the reduction in the shareholding interest held by the Group in BOCQ has been recognised in our results in the period.

There were no other material exceptional items during the first half of the year.

BUSINESS AND FINANCIAL REVIEW (Continued)

Return on assets stood at prior period level of 1.1% whilst ROE declined from 11.5% to 11.1%. Cost to income ratio was down slightly from 47.5% to 47.0%

As at 30 June 2015, Dah Sing Bank's Common Equity Tier 1 ratio was 11.7%, up by 0.3% compared with the end of last year, driven by slower asset growth coupled with higher retained earnings, as no additional capital raising was undertaken during the period. Its total capital adequacy ratio was 16.2%, broadly similar to 16.3% as at the end of last year despite positive impact as mentioned above, mainly due to the phase out of a portion of the non-Basel III compliant subordinated debts as eligible Tier 2 capital base under the regulatory capital transitional arrangement.

PROSPECTS

Although performance in the first half of the year was robust, despite volatile market conditions, we remain cautious about the outlook for the remaining part of the year. Equity market conditions have been highly volatile, with substantial decreases in both the Mainland China and Hong Kong stock markets in recent weeks. The depreciation of RMB announced by the People's Bank of China on 11 August has caused increased market volatility on RMB currency trading which may have wider implications on the broader economy. Global economic growth remains sluggish, and growth in our key markets of Hong Kong, Macau and Mainland China is also relatively slow, with no signs of material improvement in the near term.

That being said, the outlook for credit quality is relatively stable, and despite earlier concerns over a potentially more rapid credit deterioration in the broader economy, particularly relating to Mainland credit exposure, current credit performance is acceptable. In Hong Kong and Macau, credit quality remains benign.

Loan and deposit growth in the first half of the year was relatively modest, and we do not expect this to change substantially in the second half of the year. From a risk perspective, the slower market loan growth has resulted in improvements in liquidity conditions, and somewhat lower funding costs, although we remain vigilant about the potential risks of interest rate rises by the US Federal Reserve before the end of the year.

Overall, therefore we are of the view that the outlook remains broadly stable, but with some risks to the downside. We continue to maintain capital and liquidity at appropriate levels given both current regulations and current market conditions, and expect to maintain a relatively conservative position on both measures in the second half of the year.

Over a more medium term timeframe we continue to see opportunities to expand our range of products and services to our customers, and expand our business operations. Whilst we have identified certain risks, as set out above, we do not currently expect these risks to be so severe that we need to change our medium term outlook significantly.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

During the six months ended 30 June 2015, the Company has complied with all the code provisions set out in the Corporate Governance Code ("CG Code") contained in Appendix 14 of the Listing Rules, with the exception of code provision A.4.1.
